(T)
- C. "Subscriber" means the customer of the Customer. (T)

7.1.3 DESCRIPTION OF SERVICE

- A. LIS provides for the transport and origination of a Customer's traffic to and from third-party telecommunications carriers on the public switched telephone network (PSTN), and related services described herein. In this arrangement, the Company serves as a carrier "partner" as described by the FCC in, among other places, FCC No. 07-188, Telephone Number Requirements for IP-Enabled Services Providers (Nov. 8, 2007). The Customer's facilities must consist of an IP-based, broadband network. (T)
- B. The Company will accept and deliver voice traffic in time division multiplex ("TDM") protocol. The Customer shall, at its sole cost, be responsible for providing and maintaining applicable equipment, software, and facilities necessary for the Customer to provide interconnected VoIP service to its Subscribers. (T)
- C. LIS is available to Customers where suitable facilities exist, are technologically available, and are operationally and economically feasible.
- D. If for two months in any twelve month period the Customer sends calls to the Company lacking required signaling information in excess of 5% of all calls during such months, the Company may terminate LIS to the Customer immediately with no liability from the Company to the Customer for such termination.
