the southern electric system

September 10, 1990

Mr. Steve Tribble, Director Division of Records and Reporting Florida Public Service Commission 101 East Gaines Street Tallahassee FL 32399-0870

Dear Mr. Tribble:

RE: Docket No. 891345-EI

Enclosed are fifteen copies of tariff sheets designated on the attached list, submitted pursuant to the decision of the Commission at the Agenda Conference on August 14, 1990. Upon approval, please return two approved sets of tariff sheets to my attention.

Sincerely,

OTH __

condition in connection therewith, and the Company shall have the right to remove any such things without notice and without liability for damages arising from such removal.

1.9 CHARACTER OF SERVICE - The phase, frequency, and voltage of electric service which may be available for delivery to the Customer shall be determined by the available local distribution system of the Company nearest the Customer's premises, and the Company shall not be required to deliver service at a phase, frequency, or voltage other than that provided for in the particular Rate Schedule applicable.

Section No. IV
Tenth Revised Sheet No. 4.13
Canceling Winth Revised Sheet No. 4.13

- 2.5 NON-ASSIGNMENT OF DEPOSIT The receipt for deposit cannot be assigned by the Customer without the written consent of the Company.
- 2.6 PAYMENT OF PREVIOUS ACCOUNTS REQUIRED Applications for service will not be accepted by the Company until the applicant has paid to the Company all sums at any time owing and then unpaid by him for service of the same class rendered by the Company whether at the premises applied for or at any other premises.

TII TRAG

LINE EXTENSION AND SERVICE CONNECTION REGULATIONS

- 3.1 APPLIES TO ALL APPLICANTS These regulations apply to all applicants requesting service from the regular distribution systems of the Company for residential, commercial and industrial usage. Customers requesting service from the transmission system of the Company may require individual consideration and will be handled accordingly as they request service.
- 3.2 SERVICE CONNECTION TO EXISTING DISTRIBUTION SYSTEM Where the Company's distribution circuits already are in place on the pole adjacent to the Customer's premises requiring only the installation of service wires and meter, the Company will place the service wires and meter completing the connection to provide service. The Customer shall pay a charge of \$20.00 for such connection, in addition to the deposit provided for elsewhere.
- 3.3 NORMAL SERVICE RECONNECTION Where service has previously been connected at a premise, a \$16.00 service charge shall be paid for all subsequent reconnections, except for restoration of service after violation of regulations as provided in Paragraph 4.11 of these Rules.
- 3.4 SERVICE IF LINE EXTENSION IS REQUIRED When an extension from the distribution system is required to place the service applied for on the pole adjacent to the Customer's premises, a test will be run on the projected revenue vs. the estimated construction cost, exclusive of transformers, meters and services. The formula to perform this test is:

CIAC_{OH} = Construction Cost - (4 X Expected Annual Non-fuel Energy
Charge Revenues) (4 X Expected Annual Demand Charge
Revenues)

CIACHG = CIACOH + URD Differential Cost

If the annual revenue supports construction, then no CIAC is applicable. If the revenue/construction comparison shows a CIAC to be owing, the customer will pay to the Company in advance of making the extension the amount from the formula, adjusted by the approved tax effect multiplier. Such payment may be waived or a special agreement may be made providing for the repayment of such money to the customer, when additional business is secured, upon terms to be fixed by the Company. Title to all lines will remain with the Company. When

Section No. IV Seventh Revised Sheet No. 4.14 Canceling Sixth Revised Sheet No. 4.14

- 3.4 (continued)
 service is connected to the Customer's premises, a service charge shall
 be paid in accordance with the provisions of Paragraph 3.2 above. The
 Company shall apply the above formulas uniformly to residential,
 commercial, and industrial customers requiring line extensions.
- 3.5 LIMITATIONS ON THREE PHASE SERVICE In general, the Company will furnish single phase service for any residential or commercial loads involving no single motor larger than five horsepower. It has never contemplated supplying service to any motor rated at three horsepower or smaller at three phase anywhere. Therefore, unless already available, three phase service will not be furnished for residential loads or for commercial loads where no commercial motor exceeds three horsepower until the Customer makes a contribution to the Company equal to the excess of the cost of providing three phase service over the cost of furnishing service to such load at single phase.
- UNDERGROUND SERVICE IN AN OVERHEAD AREA When requested by an Applicant, the Company will install, own, and maintain an underground service from its overhead facilities to the Applicant's point of delivery. The Applicant shall install a meter socket and suitable service entrance facilities at the point designated by the Company in accordance with the Company's specification. Prior to such installation, the Applicant and the Company will enter into an agreement outlining the terms and conditions of the installation, and the Applicant will be required to pay the Company in advance the estimated difference in cost between the underground service and the overhead facilities the Company would otherwise have installed. When the Company has previously provided an overhead service to the Applicant's point of delivery, the Applicant will be required to pay in advance the cost of removal, less salvage value, of the existing overhead service, plus the in-place value of the existing overhead service, plus the estimated difference in cost between the new underground service and the overhead facilities the Company would otherwise have installed.
- 3.7 SERVICE CONNECTION FOR TEMPORARY SERVICE Where the Company's distribution circuits are already in place on the pole adjacent to the Customer's premises requiring only the installation of a service drop and meter, the Company will place the service drop and meter completing the connection to provide temporary service. The service drop and meter installation shall not exceed 200 amperes and must utilize self-contained, non-demand metering. The customer shall pay a charge of \$60.00 for each such connection in addition to the deposit provided for elsewhere.
- 3.7.1 TEMPORARY SERVICE INVOLVING EXTENSIONS In case the establishing of temporary service involves cost of labor and materials, other than as described in 3.7 above, the applicant must pay in advance the total estimated cost of installing and dismantling the necessary facilities, less the salvage value of the material returnable to stores for re-use. This payment shall be in addition to the appropriate

EFFECTIVE:

Section IV
Fourth Revised Sheet No. 4.18
Canceling Third Revised Sheet No. 4.18

4.11 (Continued)

- 4.11.3 For fraudulent representation in relation to consumption of electric energy.
- 4.11.4 For violation of any of the published rules of the Company or violation of any conditions of applications.
- 4.11.5 For use or application by the Customer of the service in a manner or for the purpose which is:
 - 4.11.5.1 Detrimental to the electric service of others.
 - 4.11.5.2 Made unlawful by orders, ordinances, or laws of the State of Florida or any political subdivision thereof.
- 4.11.6 If for any other reason the Customer is receiving or about to receive the benefit of service without full compensation to the Company.
- 4.12 TAMPERING WITH METERS Unauthorized connections to, or tampering with the Company's meters, meter seals, or metering equipment, or evidence thereof, which would cause the meter to fail to register or to register inaccurately, shall subject the Customer to prosecution under the laws of the State of Florida; to an adjustment for correction of prior bills for services rendered; to liability for reimbursement to the Company of all extra expenses incurred as a result thereof; and to immediate discontinuance of service, subject to the appeal rights of Commission Rule 25-6.105. The reimbursement for extra expenses incurred as a result of the investigation or as a result thereof shall be the actual amount of such extra expenses, but in any event shall not be less than the sum of \$55.00, (which may be assessed in lieu of proof of actual extra expenses when the customer's obligation is acknowledged or is determined by a court of competent jurisdiction), and shall be in addition to any charges for service rendered or charges for restoration of service as provided elsewhere in these rules.
- 4.13 RESTORATION OF SERVICE AFTER VIOLATION OF RULES The Company shall not be required to restore service after being discontinued in accordance with Rules 4.11 or 4.12 above until the Customer has complied with all reasonable rules of the Company designed to prevent a recurrence, and the Company has been reimbursed for the full amount of service rendered and paid a \$16.00 service charge for restoration of service.
- 4.14 TESTING OF METERS AND RESULTING ADJUSTMENTS The Company shall, upon request, test any meter or meters, in accordance with Commission Rule 25-6.52, through which the Customer is receiving service. There will be no charge for such test provided that the meter has not been tested by the Company or the Florida Public Service Commission within twelve (12) months previous to such request. If the Customer requests a meter test more frequently, the Company may require a deposit, not to exceed fifteen dollars (\$15.00), to defray cost of testing.

RATE SCHEDULE RS RESIDENTIAL SERVICE

AVAILABILITY - Available throughout the entire territory served by the Company.

APPLICABILITY - Applicable for service to a single family dwelling unit occupied by one family or household and to commonly-owned facilities in condominium and cooperative apartment buildings. Service provided hereunder shall not be shared with or resold to others.

CHARACTER OF SERVICE - Available for single phase service from local distribution lines of the Company's system at nominal secondary voltage of 120/240 volts.

MONTHLY RATES-

Customer Charge:

\$8.00

FUEL CHARGE:

Energy-Demand Charge:

3.487¢ per KWH

Fuel charges are normally adjusted by the Florida Public Service Commission each six months, April and October. As of April 1, 1990, the amount for fuel was 2.466¢/kwh. For current fuel costs included in this tariff, see page 6.15.

MINIMUM BILL - In consideration of the readiness of the Company to furnish such service, a monthly minimum charge will be made of not less than \$8.00.

<u>DEPOSIT</u> - A cash deposit amounting to twice the estimated average monthly bill but not less than \$20.00 per dwelling unit may be required before service is connected at premises designated, which deposit may be applied to any final bills against the Customer for service.

TAX ADJUSTMENT - See Sheet No. 6.16

FRANCHISE FEE BILLING

FUEL CHARGE - See Sheet No. 6.15

ENERGY CONSERVATION - See Sheet No. 6.16.1

PAYMENT OF BILLS - See Sheet No. 6.16

SERVICE UNDER THIS RATE SCHEDULE IS SUBJECT TO RULES AND REGULATIONS OF THE COMPANY AND THE FLORIDA PUBLIC SERVICE COMMISSION.

Section No. VI Nineteenth Revised Sheet No. 6.3 Canceling Fighteenth Revised Sheet No. 6.3

RATE SCHEDULE GS GENERAL SERVICE - NON-DEMAND

AVAILABILITY - Available throughout the entire territory served by the Company.

APPLICABILITY - Applicable for general lighting and power service covering the entire electrical requirements of any Customer with a demand of less than 20 kw except for service to which another Rate Schedule is applicable. Service to two or more premises shall not be combined nor shall service furnished hereunder be shared with or resold to others. All service shall be taken at the same voltage and from a single delivery point.

CHARACTER OF SERVICE - The delivery voltage to the Customer shall be the voltage of the available distribution lines of the Company for the locality in which service is to be rendered. Three phase service may be furnished at the request of the Customer subject to the Rules and Regulations of the Company which govern the extension of three phase service.

MONTHLY RATES-

Customer Charge:

\$10.00

FUEL CHARGE:

Energy-Demand Charge:

5.086€ per KWH

Fuel charges are normally adjusted by the Florida Public Service Commission each six months, April and October. As of April 1, 1990, the amount for fuel was 2.466¢/kwh. For current fuel costs included in this tariff, see page 6.15.

MINIMUM MONTHLY BILLS - In consideration of the readiness of the Company to furnish such service, no monthly bill will be rendered for less than \$10.00.

 $\underline{\text{DEPOSIT}}$ - A cash deposit amounting to twice the estimated average monthly bill may be required before service is connected at premises designated, which deposit may be applied to any final bills against the Customer for service.

TAX ADJUSTMENT - See Sheet No. 6.16 FRANCHISE FEE BILLING - See Sheet No. 6.16

Section No. VI Fifteenth Revised Sheet No. 6.4 GULF POWER COMPANY Canceling Fourteenth Revised Sheet No. 6.4

RATE SCHEDULE GSD GENERAL SERVICE - DEMAND

AVAILABILITY - Available throughout the entire territory served by the Company.

APPLICABILITY - Applicable for commercial, industrial, or institutional general service on an annual basis covering the entire electrical requirements of any Customer whose highest actual measured demand is not less than twenty (20) kilowatts nor more than four hundred ninety-nine (499) kilowatts, except for service to which another Rate Schedule is applicable. No monthly measured demand shall be more than four hundred ninety-nine (499) kilowatts. Service to two or more premises shall not be combined nor shall service furnished hereunder be shared with or resold to others. All service shall be taken at the same voltage, from a single delivery point, and shall be measured by a single meter.

CHARACTER OF SERVICE - The delivery voltage to the Customer shall be the voltage of the available secondary distribution lines of the Company for the locality in which service is to be rendered. Three phase service may be furnished at the request of the Customer subject to the Rules and Regulations of the Company which govern the extension of the three phase service.

MONTHLY RATES-

Customer Charge:

\$40.00

FUEL CHARGE:

Demand Charge:

Energy Charge:

1.289∉ per KWH

Fuel charges are normally \$4.52 per kw of billing demand Public Service Commission each six months, April and October. As of April 1, 1990, the amount for fuel was 2.466¢/kwh. For current fuel costs included in this tariff, see page 6.15.

MINIMUM MONTHLY BILLS - In consideration of the readiness of the Company to furnish such service, no monthly bill will be rendered for less than the Customer Charge plus the Demand Charge.

Section No. VI Fifteenth Revised Sheet No. 6.5 Canceling Fourteenth Revised Sheet No. 6.5

(Continued from Rate Schedule GSD Sheet No. 6.4)

<u>DETERMINATION OF BILLING DEMAND</u> - The kilowatt (kw) billing demand for billing purposes shall be the Customer's maximum integrated fifteen (15) minute demand to the nearest kilowatt (kw) during each service month.

REACTIVE DEMAND CHARGE - When the capacity required to be maintained is one-hundred (100) kilowatts or more, at the option of the Company, the monthly bill calculated at the above rates may be increased in the amount of \$1.00 per kvar for all over 0.48432 kilovars per kilowatt (90% power factor). The kilovars to which this adjustment shall apply shall be the monthly maximum measured kilovar demand or may be calculated as the square root of the difference between the square of the maximum monthly measured kva demand and the square of the maximum monthly measured kw demand.

TRANSFORMER OWNERSHIP DISCOUNT AND PRIMARY METERING VOLTAGE DISCOUNTS - When the Company renders service under this Rate Schedule at the local primary distribution voltage and any transformers required are furnished by the customer, the Monthly Rate will be subject to a discount of thirty-five (35) cents per kw of the customer's billing demand as determined above, and an additional discount of one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge; however, such deduction shall not reduce the minimum monthly bill specified above.

TERM OF CONTRACT - Service under this Schedule shall be for a period of not less than one year and thereafter from year to year until terminated by three (3) months' written notice by either party to the other.

<u>DEPOSIT</u> - A cash deposit amounting to twice the estimated average monthly bill may be required before service is connected at premises designated, which deposit may be applied to any final bills against the Customer for service.

TAX ADJUSTMENT - See Sheet No. 6.16 FRANCHISE FEE BILLING - See Sheet No. 6.16

FUEL CHARGE - See Sheet No. 6.15

ENERGY CONSERVATION - See Sheet No. 6.16.1

PAYMENT OF BILLS - See Sheet No. 6.16

RATE SCHEDULE LP LARGE POWER SERVICE

AVAILABILITY - Available throughout the entire territory served by the transmission system of the Company.

APPLICABILITY - Applicable for three phase general service on an annual basis covering the entire electrical requirements of any Customer whose highest actual measured demand is not less than five hundred (500) kilowatts (kw). Service to two or more premises shall not be combined nor shall service furnished hereunder be shared with or resold to others. All service shall be taken at the same voltage, from a single delivery point, and shall be measured by a single meter.

CHARACTER OF SERVICE - The delivery voltage to the Customer shall be the voltage of the available secondary distribution lines of the Company for the locality in which service is to be rendered.

MONTHLY RATES-

Customer Charge:

\$225.00

FUEL CHARGE:

Demand Charge:

\$8.50 per kw of billing demand

Energy Charge:

0.528∉ per KWH

Fuel charges are normally adjusted by the Florida Public Service Commission each six months, April and October. As of April 1, 1990, the amount for fuel was 2.390¢/kwh. For current fuel costs included in this tariff, see page 6.15.

MINIMUM MONTHLY BILLS - In consideration of the readiness of the Company to furnish such service, no monthly bill shall be rendered for less than the Customer Charge plus the Demand Charge.

<u>DETERMINATION OF BILLING DEMAND</u> - The kilowatt (kw) billing demand for billing purposes shall be the Customer's maximum integrated fifteen (15) minute demand to the nearest kilowatt (kw) during each service month.

Section No. VI Fourteenth Revised Sheet No. 6.7 Canceling Thirteenth Revised Sheet No. 6.7

(Continued from Rate Schedule LP Sheet No. 6.6)

REACTIVE DEMAND CHARGE - The monthly bill calculated at the above rates shall also be increased in the amount of \$1.00 per kvar for all over 0.48432 kilovars per kilowatt (90% power factor). The kilovars to which adjustment shall apply shall be the monthly maximum measured kilovar demand or may be calculated as the square root of the difference between the square of the maximum monthly measured kva demand and the square of the maximum monthly measured kw demand.

TRANSFORMER OWNERSHIP DISCOUNT AND PRIMARY METERING VOLTAGE DISCOUNTS - When the Company renders service under this Rate Schedule at the local primary distribution voltage and any transformers required are furnished by the customer, the Monthly Rate will be subject to a discount of forty-two (42) cents per month per kilowatt (kw) of the Customer's billing demand as determined above, and an additional discount of one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge; however, such deduction shall not reduce the minimum monthly bill specified above.

TRANSFORMER OWNERSHIP DISCOUNT AND TRANSMISSION METERING VOLTAGE DISCOUNTS—When the Company renders service under this Rate Schedule from an available transmission line of 46,000 volts or higher and the Customer furnishes, operates and maintains the complete step-down transformer substation necessary to receive and use such service the Monthly Rate will be subject to a discount of fifty-two (52) cents per month per kilowatt (kw) of the Customer's billing demand as determined above, and an additional discount of two percent (2%) of the Energy Charge and two percent (2%) of the Demand Charge; however, such deduction shall not reduce the minimum monthly bill specified above.

<u>DEPOSIT</u> - A cash deposit amounting to twice the estimated average monthly bill may be required before service is connected at premises designated, which deposit may be applied to any final bills against the Customer for service.

TERM OF CONTRACT - Service under this Rate Schedule shall be for a period of one or more years and thereafter from year to year until terminated by three (3) or more months' written notice by either party to the other.

RATE SCHEDULE PX LARGE HIGH LOAD FACTOR POWER SERVICE

AVAILABILITY - Available throughout the entire territory served by the transmission system of the Company.

APPLICABILITY - Applicable for three phase lighting and power service to any customer whose actual measured demand is not less than 7,500 kilowatts (kw), with an annual load factor of not less than seventy-five percent (75%). Service to two or more premises shall not be combined nor shall service furnished hereunder be shared with or resold to others. All service shall be taken at the same voltage and from a single delivery point, and shall be measured by a single meter.

CHARACTER OF SERVICE -The delivery voltage to the Customer shall be the standard secondary voltage of the Company's transformers supplied from the transmission lines of the Company.

MONTHLY RATES -

Customer Charge:

\$570.00

FUEL CHARGE:

Demand Charge:

Energy Charge:

0.409¢ per KWH

Fuel charges are normally adjusted by the Florida Public \$8.25 per kw of billing demand Service Commission each six months, April and October. As of April 1, 1990, the amount for fuel was 2.344¢/kwh. For current fuel costs included in this tariff, see page 6.15.

MINIMUM MONTHLY BILL - In the event the customer's annual load factor for the current and preceding eleven months is less than 75% and in consideration of the readiness of the Company to furnish such service, the minimum monthly bill shall not be less than the customer charge plus \$10.489 per kw of billing demand.

DETERMINATION OF BILLING DEMAND - The Customer's Billing Demand shall be the maximum measured KW demand integrated over any fifteen minute interval during the current billing month, provided such demand shall not be less than 7500 KW.

Section No. VI Fourteenth Revised Sheet No. 6.9 Canceling Thirteenth Revised Sheet No. 6.9

(Continued)

REACTIVE DEMAND CHARGE - The monthly bill calculated at the above rates shall also be increased in the amount of \$1.00 per kvar for all over 0.48432 kilovars per kilowatt (90% power factor). The kilovars to which this adjustment shall apply shall be the monthly maximum measured kilovar demand or may be calculated as the square root of the difference between the square of the maximum monthly measured kw demand.

TRANSFORMER OWNERSHIP DISCOUNT AND TRANSMISSION METERING VOLTAGE DISCOUNTS—When the Company renders service under this Rate Schedule from an available transmission line of 46,000 volts or higher and the Customer furnishes, operates and maintains the complete step-down transformer substation necessary to receive and use such service the Monthly Rate will be subject to a discount of eleven (11) cents per month per kilowatt (kw) of the Customer's billing demand as determined above, and an additional discount of one percent (1%) of the Energy Charge, and one percent (1%) of the Demand Charge; however, such deduction shall not reduce the minimum monthly bill specified above.

TERM OF CONTRACT - (1) Service under this rate schedule shall be for a period of five (5) or more years and thereafter from year to year until terminated by twelve (12) months' written notice by either party to the other.

Includes Pole Charges

Section No. VI Eighteenth Revised Sheet No. 6.11 Canceling Seventeenth Revised Sheet No. 6.11

(Continued from Rate Schedule OS Sheet No. 6.10)

Customer owned street and roadway lighting fixtures which conform to the specifications of Company owned fixtures may receive energy at the appropriate charges for each size light above. Customer owned street and roadway lighting systems which do not conform to specifications of the Company owned fixtures shall be charged the monthly rate of 2.631¢/KWH of the estimated KWH usage of each unit.

<u>ADDITIONAL FACILITIES CHARGES</u> - The above rates apply to lighting installations made on the Company's existing overhead distribution system. Any special or additional facilities, which may be installed at the Company's option, will be billed in addition to the above rates.

Charge for 30 ft. wood pole used only for the street lighting system \$2.00

Charge for 30 ft. concrete pole used only for the street lighting system \$4.50

All other additional facilities shall be billed at 1.78% per month of the Company's cost. Such facilities may include, but are not limited to, underground wiring and special poles approved by the Company.

OS-II. GENERAL AREA LIGHTING - (OL)

APPLICABILITY - Applicable for general area lighting where street and roadway lighting is not applicable. Service hereunder includes regular maintenance, power supply and lamp renewals due to burnouts.

<u>LIMITATION OF SERVICE</u> - Company owned fixtures will be mounted on Company owned poles of the Company's distribution system. Customer owned fixtures will be mounted on Customer owned poles, of a standard type and design, permitting service at no abnormal cost to the Company.

All other additional facilities shall be billed at 1.78% per month of the Company's cost. Such facilities may include, but are not limited to, additional overhead or underground wiring and special poles approved by the Company.

OS-III. OTHER OUTDOOR SERVICE (OL1)

Other outdoor service for customer owned facilities with fixed wattage loads operating continuously throughout the billing period such as, but not limited to, traffic signals and cable television amplifier shall be billed according to the monthly rate below:

3.751 cents per KWH for all KWH

Section No. VI Fourth Revised Sheet No. 6.12.1 Canceling Third Revised Sheet No. 6.12.1

(Continued from Rate Schedule OS Sheet No. 6.12)

The estimated annual KWH usage shall be determined by multiplying the annual operation hours times the maximum demand. The monthly KWH usage will be one-twelfth (1/12) of the estimated annual KWH usage. Maximum demand shall be the total number of kilowatts connected at any one time. At the option of the Company service rendered under this section may be metered and billed under the applicable light and power rate schedule. Minimum Monthly bill shall be \$1.00 per service connection.

TERM OF CONTRACT (OS-I, OS-II, OS-III) - Service under this Rate Schedule shall be for an initial period of five (5) years for high pressure sodium lighting under the terms of Part I, three (3) years for high pressure sodium vapor (non-residential) lighting under terms of Part II, two (2) years for high pressure sodium vapor (residential) lighting under terms of Part II, and in each case thereafter from year to year until terminated by three (3) months written notice by either party to the other. When additional facilities are required, the Company may require a contract for a longer initial period.

<u>DEPOSIT</u> (OS-I, OS-II, OS-III) - The Company may require a deposit amounting to not over one-half the billing for the initial contract period before service is furnished, which deposit may be applied to any final bills against the customer for service.

OS-IV. OUTDOOR SERVICE RECREATIONAL LIGHTING (OL-2)

APPLICABILITY - Outdoor service for Customer owned recreational lighting facilities such as ball parks, football and soccer fields, and tennis courts shall be billed according to the monthly rate below. Under this section the lighting facilities shall be metered and billed on the actual monthly KWH. Service to non-lighting facilities such as concession stands shall be separately metered and billed under the appropriate General Service rate schedule. Service under this schedule shall not be resold to others. All service shall be taken at the same voltage and from a single delivery point.

CHARACTER OF SERVICE - The delivery voltage to the Customer shall be the voltage of the available distribution lines of the Company for the locality in which service is to be rendered. Three phase service may be furnished at the request of the Customer subject to the rules and regulations of the Company which govern the extension of three phase service.

Section No. VI Fourth Revised Sheet No. 6.12.2 Canceling Third Revised Sheet No. 6.12.2

Rate Schedule SE SUPPLEMENTAL ENERGY (OPTIONAL RIDER)

Availability

Available throughout the entire territory served by the Company from existing lines and facilities of adequate capacity.

Applicability

Applicable as a rider to any customer who is taking service under Rate Schedule LP. LPT. PX. or PXT.

Modification of Demand Charge Portion of Monthly Rates

The terms of the Demand Charge portion of the Monthly Rates in the associated Rate Schedule (LP, LPT, PX, PXT) shall be suspended while this rider is in effect and replaced by the following provisions:

1. Rate LP, Demand Charge:

\$8.50 per kw of billing demand plus

\$1.81 per kw of incremental SE demand

Rate LPT, Demand Charge:

\$1.81 per kw of maximum demand plus

\$7.21 per kw of on-peak demand plus

\$1.81 per kw of incremental SE maximum demand

Rate PX, Demand Charge:

\$8.25 per kw of billing demand plus

\$0.68 per kw of incremental SE demand

4. Rate PXT, Demand Charge:

\$0.68 per kw of maximum demand plus

\$7.66 per kw of on-peak demand plus

\$0.68 per kw of incremental SE maximum demand

Modification of Determination of Billing Demand

The terms of Determination of Billing Demand in the associated Rate Schedule (LP, LPT, PX, PXT) shall be suspended while this rider is in effect, and replaced by the following provision:

The kilowatt (KW) billing demand for billing purposes shall be the Customer's maximum integrated fifteen (15) minute demand to the nearest kilowatt (KW) during each service month, during periods not designated as Supplemental Energy Periods (SEP). During each service month, the incremental SE demand will be the difference between the maximum integrated fifteen (15) minute demand to the nearest kilowatt (kw) during periods designated as SEP and the maximum integrated fifteen (15) minute demand to the nearest kilowatt (kw) during periods not designated as SEP, if applicable. For PX/PXT customers, the total billing demand shall not be less than 7500 KW.

Section VI First Revised Sheet No. 6.13.1 Canceling Original Sheet No. 6.13.1

Modification of Minimum Monthly Bill

The terms of the Minimum Monthly Bill portion in the associated Rate Schedule (LP, LPT, PX, PXT) shall be suspended while this rider is in effect and replaced by the following provisions:

- Rate LP
 <u>MINIMUM MONTHLY BILLS</u> In consideration of the readiness of the Company
 to furnish such service, no monthly bill shall be rendered for less than
 the Customer Charge plus the Demand Charge for the billing demand and
 \$1.81 per kw of incremental SE demand, if applicable.
- Rate LPT
 <u>MINIMUM MONTHLY BILLS</u> In consideration of the readiness of the Company
 to furnish such service, no monthly bill shall be rendered for less than
 the Customer Charge plus the Demand Charge for the Maximum Billing
 Demand, the On-Peak Demand, and \$1.81 per kw of incremental SE maximum
 demand, if applicable.
- 3. Rate PX

 MINIMUM MONTHLY BILLS In the event the customer's annual load factor for the current and preceding eleven months is less than 75% and in consideration of the readiness of the Company to furnish such service, the minimum monthly bill shall not be less than the customer charge plus \$10.489 per kw of billing demand and \$0.68 per kw of incremental SE demand, if applicable.
- 4. Rate PXT

 MINIMUM MONTHLY BILLS In the event the customer's annual load factor for the current and preceding eleven months is less than 75% and in consideration of the readiness of the Company to furnish such service, the minimum monthly bill shall not be less than the customer charge plus \$10.453 per kw of maximum billing demand and \$0.68 per kw of incremental SE maximum demand, if applicable.

Modification of Transformer Ownership and Metering Voltage Discounts

If the transformer ownership and primary or transmission metering voltage discounts apply to a customer's LP, LPT, PX, or PXT service, then those same discounts (transformer ownership and metering voltage discounts) will apply to any incremental SE kw.

Designation of SEP

The Company may, from time to time, designate Supplemental Energy Periods and notify all customers served under this rider of such designation. Designation of SEP and duration of each period is made at the sole discretion of the Company. No SEP will be designated for less than 24 hours in length. Generally, it is not the intention of the Company to declare a SEP when any one of the following is likely to occur:

- Average system fuel lambda for the SEP may exceed the average fuel cost recovery factor; as shown in Schedule E-1 for the applicable period; or
- 2. Southern system territorial monthly peak hour demand; or
- 3. Gulf system territorial monthly peak hour demand.

Early Termination of SEP

In the event that a SEP is terminated by the Company earlier than designated, the Company will provide at least 6 hours notice of the termination of a SEP. This limitation does not apply in the event of a system emergency, and notification of early termination may be less than 6 hours.

Other Provisions

This optional schedule serves as a rider to Rate Schedules LP, LPT, PX, or PXT. All provisions of Rate Schedules LP, LPT, PX, or PXT not modified by this rider shall apply.

RATE SCHEDULE CR

COST RECOVERY CLAUSE FOSSIL FUEL AND PURCHASED POWER

APPLICABILITY - Applicable as a modification of each filed rate of the Company in which reference is made to Rate CR.

DETERMINATION OF FOSSIL FUEL AND PURCHASED POWER COST RECOVERY FACTOR -Bills shall be decreased or increased by a factor calculated in accordance with the formula and procedures specified by the Florida Public Service Commission designed to give effect to changing efficiency, cost of fossil fuel and cost of purchased power.

The energy charge per kilowatt-hour shall be increased or decreased \$0.00001 (1/100 of a mill) per kilowatt-hour for each \$0.00001 (1/100 of a mill) increase or decrease in the projected cost of fossil fuel and purchased power per kilowatt-hour. The total cost recovery factor per KWH applicable to energy delivered will include, when applicable, a true-up, with interest, to prior actual costs and a Generation Performance Incentive Factor, and will be determined in accordance with the formula and procedures specified by the Florida Public Service Commission. Such increase or decrease shall be adjusted for taxes which are based upon gross receipts.

April 1990 through September 1990, fuel factors are as shown below:

			TOI	J
Group	Schedules	Standard	On-Peak	Off-Peak
Α	RS, GS, GSD, OSIII, OSIV	2.466∉/KWH	2.644∉/KWH	2.384∉/KWH
В	LP	2.390∉/KWH	2.563∉/KWH	2.310∉/KWH
C	PX	2.344¢/KWH	2.514∉/KWH	2.266∉/KWH
D	OSI, OSII	2.407∉/KWH	N/A	N/A

Section No. VI Thirteenth Revised Sheet No. 6.16 Canceling Twelfth Revised Sheet No. 6.16

TAX ADJUSTMENT

Bills shall be increased to offset the applicable proportionate part of any taxes, assessments, license fees or rentals against the Company's property imposed by any Government Authority in excess of those in effect December 31, 1990, which are assessed on the basis of poles, meters or customers or the price of or revenues from electric energy or service sold or the volume of energy generated or purchased for sale or sold.

FRANCHISE FEE BILLING

Franchise fees shall be billed in accordance with Order No. 6650, issued by the Florida Public Service Commission on May 7, 1975.

PAYMENT OF BILLS

Bills for service will be rendered monthly by the Company to the Customer. Payment is due when the bill is rendered, and becomes delinquent twenty (20) days after mailing or delivery to the Customer. At least five (5) days written notice separate from any billing will be given before discontinuing service. Payment may be made at offices or authorized collecting agencies of the Company. Care will be used to have bills properly presented to the Customer, but non-receipt of the bill does not constitute release from liability for payment.

Section No. VI Sixteenth Revised Sheet No. (.17 Canceling Fifteenth Revised Sheet No. 6.17

RATE SCHEDULE RST RESIDENTIAL SERVICE-TIME-OF-USE CONSERVATION (Optional Schedule)

AVAILABILITY - Available on a first come - first serve basis subject to meter availability throughout the entire territory served by the Company.

<u>APPLICABILITY</u> - Applicable as an option to Rate Schedule RS for service to a single family dwelling unit occupied by one family or household, and to commonly-owned facilities in condominium and cooperative apartment buildings. Service provided hereunder shall not be shared with or resold to others.

CHARACTER OF SERVICE - Available for single phase service from local distribution lines of the Company's system at nominal secondary voltage of 120/240 volts.

MONTHLY RATES-

Customer Charge:

FUEL CHARGE:

\$11.00

Energy - Demand Charge:

On-Peak Period 10.218 ∉ per KWH Fuel charges are normally adjusted by the Florida Public Service Commission each six months, April and October. As of April 1, 1990, the amount for fuel was 2.644¢/kwh on-peak, and 2.384¢/kwh off-peak. For current fuel costs included in this tariff,

see page 6.15.

Off-Peak Period

<u>DETERMINATION OF THE ON-PEAK PERIOD</u> - The on-peak period for calendar months April through October is defined as being those hours between 12:00 p.m. and 9:00 p.m. Central Daylight Time/Central Standard Time, Monday through Friday.

The on-peak period for calendar months November through March is defined as being those hours between 6:00.a.m. and 10:00 a.m. and between 6:00 p.m. and 10:00 p.m. Central Standard Time/Central Daylight Time, Monday through Friday.

<u>DETERMINATION OF THE OFF-PEAK PERIOD</u> - All hours not included above and all hours of the observed holidays of New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas are in the off-peak period.

 ${
m MINIMUM~BILL}$ - In consideration of the readiness of the Company to furnish such service, a monthly minimum charge will be made equal to the applicable Customer Charge.

Section No. VI Fifteenth Revised Sheet No. 6.18 Canceling Fourteenth Revised Sheet No. 6.18

OPTIONAL METHOD OF METER PAYMENT - The Customer may choose to make an initial payment of \$223.00 as a contribution-in-aid-of-constructionn (CIAC) to offset a portion of the additional cost of time-of-use metering. In such case the Customer Charge in the monthly rate shall be reduced to \$8.00. When service is terminated, a portion of the CIAC payment shall be refunded in an amount reduced by \$3.00 per month for each full month of service under this rate schedule.

<u>DEPOSIT</u> - A cash deposit amounting to twice the estimated average monthly bill but not less than \$20.00 per dwelling unit may be required before service is connected at premises designated, which deposit may be applied to any final bills against the Customer for service.

TERM OF CONTRACT - The initial term of service under this rate may be terminated at any time by written or personal notice from the Customer. After such termination, any subsequent selection of service under this option by the same customer at the same premises shall be for a period of not less than one year and thereafter until terminated by written or personal notice by the Customer.

RATE SCHEDULE GSDT GENERAL SERVICE - DEMAND - TIME-OF-USE CONSERVATION (Optional Schedule)

AVAILABILITY - Available on a first come-first serve basis subject to meter availability throughout the entire territory served by the Company.

APPLICABILITY - Applicable as an option to Rate Schedule GSD for general service on an annual basis covering the entire electrical requirements of any Customer whose highest actual measured demand is not less than twenty (20) kilowatts nor more than four hundred ninety-nine (499) kilowatts, except for service to which another Rate Schedule is applicable. No monthly measured demand shall be more than four hundred ninety-nine (499) kilowatts. Service to two or more premises shall not be combined nor shall service furnished hereunder be shared with or resold to others. All service shall be taken at the same voltage, from a single delivery point, and shall be measured by a single meter.

CHARACTER OF SERVICE - The delivery voltage to the Customer shall be the voltage of the available secondary distribution lines of the Company for the locality in which service is to be rendered. Three phase service may be furnished at the request of the Customer subject to the Rules and Regulations of the Company which govern the extension of the three phase service.

MONTHLY RATES-

Customer Charge:

\$45.40

Demand Charge:

\$4.97 per kw of on-peak demand 2.384¢/kwh off-peak.

FUEL CHARGE:

Fuel charges are normally adjusted by the Florida Public Service Commission each six months, April and October. As of April 1, 1990, the amount for \$2.15 per kw of max. demand plus; fuel was 2.644¢/kwh on-peak, and For current fuel costs included in this fariff, see page 6.15.

Energy Charge:

On-Peak and Off-Peak Periods 0.445€ per KWH

DETERMINATION OF THE ON-PEAK PERIOD - The on-peak period for calendar months April through October is defined as being those hours between 12:00 p.m. and 9:00 p.m. Central Daylight Time/Central Standard Time, Monday through Friday.

The on-peak period for calendar months November through March is defined as being those hours between 6:00 a.m. and 10:00 a.m. and between 6:00 p.m. and 10:00 p.m. Central Standard Time/Central Daylight Time, Monday through Friday.

Section No. VI Ninth Revised Sheet No. 6.22 Canceling Eighth Revised Sheet No. 6.22

<u>DETERMINATION OF THE OFF-PEAK PERIOD</u> - All hours not included above and all hours of the observed holidays of New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas are in the off-peak period.

MINIMUM MONTHLY BILLS - In consideration of the readiness of the Company to furnish such service, no monthly bill will be rendered for less than the Customer Charge plus the Demand Charge for Maximum Billing Demand and the On-Peak Demand.

<u>DETERMINATION OF BILLING DEMAND</u> - (a) Maximum Demand--The kilowatt (kw) billing demand for billing purposes shall be the customer's maximum integrated 15 minute demand to the nearest kilowatt (kw) during each service month. (b) On-Peak Demand--The kilowatt (kw) billing demand for billing purposes shall be the customer's maximum integrated 15 minute demand to the nearest kilowatt (kw) during each service month as measured during the hours designated as on-peak.

REACTIVE DEMAND CHARGE - When the capacity required to be maintained is one-hundred (100) kilowatts or more, at the option of the Company, the monthly bill calculated at the above rates may be increased in the amount of \$1.00 per kvar for all over 0.48432 kilovars per kilowatt (90% power factor). The kilovars to which this adjustment shall apply shall be the monthly maximum measured kilovar demand or may be calculated as the square root of the difference between the square of the maximum monthly measured kva demand and the square of the maximum monthly measured kw demand.

TRANSFORMER OWNERSHIP DISCOUNT AND PRIMARY METERING VOLTAGE DISCOUNTS ... When the Company renders service under this Rate Schedule at the local primary distribution voltage and any transformers required are furnished by the customer, the Monthly Rate will be subject to a discount of thirty-five (35) cents per kw of the customer's maximum billing demand as determined above, and an additional discount of one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge; however, such deduction shall not reduce the minimum monthly bill specified above.

OPTIONAL METHOD OF METER PAYMENT - The Customer may choose to make an initial payment of \$251.00 as a contribution-in-aid-of-construction (CIAC) to offset a portion of the additional cost of time-of-use metering. In such case the Customer Charge in the monthly rate shall be reduced to \$40.00. When service is terminated, a portion of the CIAC payment shall be refunded in an amount reduced by \$5.40 per month for each full month of service under this rate schedule.

Section No. VI Ninth Revised Sheet No. 6.23 Canceling Eighth Revised Sheet No. 6.23

TERM OF CONTRACT - (1) Service under this Schedule shall be for a period of not less than one year and thereafter from year to year until terminated by three (3) months' written notice by either party to the other. (2) The initial selection of this optional rate schedule by a Rate Schedule GSD Customer may be terminated at any time by written or personal notice from the Customer. After such termination, any subsequent selection of this option by the same Customer for service at the same premises shall have a term of contract as specified in (1) above.

<u>DEPOSIT</u> - A cash deposit amounting to twice the estimated average monthly bill may be required before service is connected at premises designated, which deposit may be applied to any final bills against the Customer for service.

On-Peak and Off-Peak Periods 0.417¢ per KWH

DETERMINATION OF THE ON-PEAK PERIOD - The on-peak period for calendar months April through October is defined as being those hours between 12:00 p.m. and 9:00 p.m. Central Daylight Time/Central Standard Time, Monday through Friday.

The on-peak period for calendar months November through March is defined as being those hours between 6:00 a.m. and 10:00 a.m. and between 6:00 p.m. and 10:00 p.m. Central Standard Time/Central Daylight Time, Monday through Friday.

DETERMINATION OF THE OFF-PEAK PERIOD - All hours not included above and all hours of the observed holidays of New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas are in the off-peak period.

EFFECTIVE:

ISSUED BY:

Section VI Fourteenth Revised Sheet No. 6.25 Canceling Thirteenth Revised Sheet No. 6.25

MINIMUM MONTHLY BILLS - In consideration of the readiness of the Company to furnish such service, no monthly bill shall be rendered for less than the Customer Charge plus the Demand Charge for the Maximum Billing Demand and the On-Peak Demand.

<u>DETERMINATION OF BILLING DEMAND</u> - (a) Maximum Demand - The kilowatt (kw) billing demand for billing purposes shall be the customer's maximum integrated 15 minute demand to the nearest kilowatt (kw) during each service month. (b) On-Peak Demand - The kilowatt (kw) billing demand for billing purposes shall be the customer's maximum integrated 15 minute demand to the nearest kilowatt (kw) during each service month as measured during the hours designated as on-peak.

REACTIVE DEMAND CHARGE - The monthly bill calculated at the above rates shall also be increased in the amount of \$1.00 per kvar for all over 0.48432 kilovars per kilowatt (90% power factor). The kilovars to which this adjustment shall apply shall be the monthly maximum measured kilovar demand or may be calculated as the square root of the difference between the square of the maximum monthly measured kva demand and the square of the maximum monthly measured kw demand.

TRANSFORMER OWNERSHIP DISCOUNT AND PRIMARY METERING VOLTAGE DISCOUNTS—When the Company renders service under this Rate Schedule at the local primary distribution voltage and any transformers required are furnished by the Customer, the Monthly Rate will be subject to a discount of forty-two (42) cents per month per kilowatt (kw) of the Customer's maximum billing demand as determined above, and an additional discount of one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge; however, such deduction shall not reduce the minimum monthly bill specified above.

TRANSFORMER OWNERSHIP DISCOUNT AND TRANSMISSION METERING VOLTAGE DISCOUNTS - When the Company renders service under this Rate Schedule from an available transmission line of 46,000 volts or higher and the Customer furnishes, operates, and maintains the complete step-down transformer substation necessary to receive and use such service, the Monthly Rate will be subject to a discount of fifty-two (52) cents per month per kilowatt (kw) of the Customer's maximum billing demand as determined above, and an additional discount of two percent (2%) of the Energy Charge and two percent (2%) of the Demand Charge; however, such deduction shall not reduce the minimum monthly bill specified above.

Section VI Fourth Revised Sheet No. 6.26 Canceling Third Revised Sheet No. 6.26

DEPOSIT - A cash deposit amounting to twice the estimated average monthly bill may be required before service is connected at premises designated, which deposit may be applied to any final bills against the Customer for service.

TERM OF CONTRACT - (1) Service under this Schedule shall be for a period of not less than one year and thereafter from year to year until terminated by three (3) months' written notice by either party to the other. (2) The initial selection of this rate schedule as an option by a Rate Schedule LP Customer may be terminated at any time by written or personal notice from the Customer. After such termination, any subsequent selection of this option by the same Customer for service at the same premises shall have a term of contract as specified in (1) above.

TAX ADJUSTMENT - See Sheet No. 6.16 FRANCHISE FEE BILLING - See Sheet No. 6.16

FUEL CHARGE - See Sheet No. 6.15

ENERGY CONSERVATION - See Sheet No. 6.16.1

PAYMENT OF BILLS - See Sheet No. 6.16

Section No. VI Twelfth Revised Sheet No. 6.27 Canceling Eleventh Revised Sheet No. 6.27

URSC: GSLDT1

RATE SCHEDULE PXT LARGE HIGH LOAD FACTOR POWER SERVICE - TIME OF USE CONSERVATION (Optional Schedule)

AVAILABILITY - Available throughout the entire territory served by the transmission system of the Company.

APPLICABILITY - Applicable as an option to Rate Schedule PX for three phase lighting and power service to any customer whose actual measured demand is not less than 7,500 kilowatts (kw), with an annual load factor of not less than seventy-five percent (75%). Service to two or more premises shall not be combined nor shall service furnished hereunder be shared with or resold to others. All service shall be taken at the same voltage and from a single delivery point, and shall be measured by a single meter.

CHARACTER OF SERVICE - The delivery voltage to the Customer shall be the standard secondary voltage of the Company's transformers supplied from the transmission lines of the Company.

MONTHLY RATES-

FUEL CHARGE:

Customer Charge: \$570.00

Demand Charge:

\$0.68 per KW of max. demand plus; off-peak.

Fuel charges are normally adjusted by the Florida Public Service Commission each six months, April and October. As of April 1, 1990, the amount for fuel was 2.514¢/kwh on-peak, and 2.266¢/kwh

For current fuel costs \$7.66 per KW of on-peak demand included in this tariff, see page 6.15.

Energy Charge:

On-Peak and Off-Peak Periods 0.406¢ per KWH

DETERMINATION OF THE ON-PEAK PERIOD - The on-peak period for calendar months April through October is defined as being those hours between 12:00 p.m. and 9:00 p.m. Central Daylight Time/Central Standard Time, Monday through Friday.

The on-peak period for calendar months November through March is defined as being those hours between 6:00 a.m. and 10:00 a.m. and between 6:00 p.m. and 10:00 p.m. Central Standard Time/Central Daylight Time, Monday through Friday.

DETERMINATION OF THE OFF-PEAK PERIOD - All hours not included above and all hours of the observed holidays of New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas are in the off-peak period.

EFFECTIVE:

ISSUED BY:

Section No. VI Winth Revised Sheet No. 6.28 Canceling Eighth Revised Sheet No. 6.28

MINIMUM MONTHLY BILL - In the event the customer's annual load factor for the current and preceding eleven months is less than 75% and in consideration of the readiness of the Company to furnish such service, the minimum monthly bill shall not be less than the customer charge plus \$10.453 per kw of maximum billing demand.

<u>DETERMINATION OF BILLING DEMAND</u> - (a) Maximum Demand -- the Kilowatt (KW) billing demand for billing purposes shall be the maximum measured KW demand integrated over any fifteen minute interval during the current billing month but not less than 7500 kw.

(b) On-Peak Demand -- The kilowatt (KW) billing demand for billing purposes shall be the customer's maximum integrated fifteen minute demand to the nearest kilowatt (KW) during each service month as measured during the hours designated as on-peak.

REACTIVE DEMAND CHARGE - The monthly bill calculated at the above rates shall also be increased in the amount of \$1.00 per kvar for all over 0.48432 kilovars per kilowatt (90% power factor). The kilovars to which this adjustment shall apply shall be the monthly maximum measured kilovar demand or may be calculated as the square root of the difference between the square of the maximum monthly measured kw demand.

TRANSFORMER OWNERSHIP DISCOUNT AND TRANSMISSION METERING VOLTAGE DISCOUNTS—When the Company renders service under this Rate Schedule from an available transmission line of 46,000 volts or higher and the Customer furnishes, operates and maintains the complete step-down transformer substation necessary to receive and use such service the Monthly Rate will be subject to a discount of eleven (11) cents per month per kilowatt (kw) of the Customer's maximum billing demand as determined above, and an additional discount of one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge; however, such deduction shall not reduce the minimum monthly bill specified above.

STANDBY SERVICE (SS)

Availability

Available throughout the entire territory served by the Company.

Applicability

To any Customer having on-site generating equipment and requesting standby service. A Customer is required to take service under this rate schedule if his total generating capability: (1) exceeds 100 KW, (2) supplies at least 20% of his total electrical load, and (3) is operated for other than emergency and test purposes.

Character of Service

Continuous service, alternating current, 60 cycle, single-phase or three-phase, at the Company's standard voltage available.

Limitation of Service

Resale of service not permitted hereunder. Service under this rate is subject to the Company's currently effective and filed "General Rules and Regulations for Electric Service".

Procedures

Customers receiving service from this schedule must:

- Execute a Standard Contract for Electric Power which identifies the <u>Supplementary Service Capacity</u> (SC) which is required to be maintained by the Company and establishes a Rate Schedule for such Supplementary Service. In the event of a bona fide change in the customer's maximum supplementary requirements, the Supplementary Service Capacity (SC) for the future may be changed accordingly.
- 2. Execute a Contract for Standby Service which identifies the Standby Service Capacity (BC) which is required to be maintained by the Company. In the event of a bona fide change in the customer's standby requirements, the Standby Service Capacity (BC) for the future may be changed accordingly by mutual agreement.
- Execute an Interconnection Agreement and reimburse the Company for any necessary additional metering costs incurred by the Company as a result of supplying electric service to the Customer under the terms of this schedule.

Section No. VI
Third Revised Sheet No. 6.30
Canceling Second Revised Sheet No. 6.30

Determination of Standby Service (KW) Rendered:

The amount of standby service (KW) taken by the customer shall be determined in the following manner:

Within three (3) days of an outage of the customer's generating equipment, the Customer will notify the Company that such outage has occurred, will specify the amounts (KW) of Standby Service, if any, expected to be taken, and give an estimate of the expected duration of that outage. Within three (3) days after normal operations are restored, the Customer will notify the Company that operations are back to normal and Standby Service, if taken, is no longer required. On the day after the last day of each billing period, the customer will provide the Company a written report specifying (1) the beginning date and time of each outage. (2) the ending date and time of each outage, (3) the daily maximum amount (KW) of Standby Service, if any, taken during each outage of the billing period, and (4) the daily on-peak period load reduction (KW) that is a direct result of the customer's generation outage. If the Standby Service taken on a particular day occurs during an on-peak period as well as an off-peak period, then the daily maximum amount (KW) of Standby Service will be shown separately for each on-peak period and off-peak period. The information from this written report in combination with the Company's metered data will be applied to the formula shown below to determine the amount of daily Standby Service (KW) taken by the customer during designated peak hours for each day during the outage. Provided, however, that at no time will the amount (KW) of daily Standby Service being taken by the Customer exceed the difference between the amount of load in kw ordinarily supplied by the customer's generation and the minimum totalized Customer generation output (KW) occurring in any interval during the daily on-peak period of the current outage, and shall not exceed the total service (KW) being supplied by the Company.

Daily Standby Service (KW) =

The amount of load in kw ordinarily supplied by the customer's generation.

Minus the Customer's daily generation output (KW) occurring during the on-peak period of the current outage.(1)

Minus the daily on-peak period load reduction (KW) that is a direct result of the Customer's current generation outage. (1)

All amounts (KW) of service supplied by the Company during such outage in excess of the amounts (KW) of Standby Service are to be treated as actual measured demand in the Determination of Billing Demand of the Rate Schedule established for Supplementary Service. In no event, shall Customer's demand (KW) billed as Standby Service also be billed as Supplementary Service.

(1) The customer's daily generation output (KW) and daily on-peak period load reduction (KW) that are used in the formula must occur during the same 15 minute interval as the daily Standby Service (KW) that is used for billing purposes.

Section No. VI Second Revised Sheet No. 6.31 Canceling First Revised Sheet No. 6.31

MONTHLY CHARGES - STANDBY SERVICE

<u>Customer Charge</u> - All standby service customers will pay the LP/LPT customer charge plus \$25.00 except for those taking supplementary service on PX/PXT for whom the charge should be the PX/PXT customer charge plus \$25.00.

Demand Charges

Local Facilities Charge -

- a. For those customers who have contracted for standby service capacity not less than 100 KW nor more than 499 KW \$1.68/KW of BC.
- b. For those customers who have contracted for standby service capacity not less than than 500 KW - \$1.24/KW of BC.
- c. For those customers who have contracted for standby service capacity not less than than 7500 KW and are taking supplementary service under the PX/PXT rate - \$0.52/KW of BC.

Plus the Greater of:

The Reservation Charge: \$1.00 per KW times BC.

<u>or</u>

The sum of the Daily Demand Charges for the month:

During the months of June through September, the Daily Demand Charge for Standby Service shall be the product of \$.57/KW/day and the Daily Standby Demand established during the peak hours of each day.

During the months of October through May, the Daily Demand Charge for Standby Service shall be the product of \$.43/KW/day and the Daily Standby Demand established during designated peak hours of each day.

Daily Demand Charge is not applied during days which do not include designated peak hours.

The BC to be used in the above calculations will be the greater of the Standby Service Capacity (KW) in accordance with the Contract for Standby Service or the maximum Standby Service (KW) taken in the current and twenty-three (23) previous service months. This ratchet provision will be waived for the reservation charge only, if a change in the BC is a result of a scheduled outage that did not include a peak hour(s) that determines the Company's IIC payments or revenues.

MONTHLY CHARGES - SUPPLEMENTARY SERVICE

All charges and conditions as contained in the rate schedule which has been established in the Standard Contract for Electric Power will be applied to the Supplementary Service.

Determination Of The On-Peak Period

The on-peak period for calendar months April through October is defined as being those hours between 12:00 P.M. and 9:00 P.M. Central Daylight Time/Central Standard Time, Monday through Friday.

The on-peak period for calendar months November through March is defined as being those hours between 6:00 A.M. and 10:00 A.M. and between 6:00 P.M. and 10:00 P.M. Central Standard Time/Central Daylight Time, Monday through Friday.

EFFECTIVE:

Section No. VI
Third Revised Sheet No. 6.32
Canceling Second Revised Sheet No. 6.32

Determination of the Off-Peak Period

All hours not included above and all hours of the observed holidays of New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas are in the off-peak period.

Energy Charges - .458¢/KWH applied to all Standby Service KWH.

Transformer Ownership Discount and Primary Metering Voltage Discounts - When the Company renders service under this Rate Schedule at the local primary distribution voltage and any transformers required are furnished by the customer, the monthly rate will be subject to a discount of twenty-seven (27) cents per month per kilowatt (kw) of the Customer's demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 100 kw nor more than 499 kw or forty-one (41) cents per month per kilowatt (kw) of the Customer's demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 500 kw and an additional discount of one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge. These discounts are applicable only to those customers not taking supplementary service on PX/PXT.

Transformer Ownership Discount and Transmission Metering Voltage Discounts -When the Company renders service under this Rate Schedule from an available transmission line of 46.000 volts or higher and the Customer furnishes, operates, and maintains the complete step-down transformer substation, necessary to receive and use such service, the monthly rate will be subject to a discount of thirty-two (32) cents per month per kilowatt (kw) of the demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 100 kw nor more than 499 kw or forty-eight (48) cents per month per kilowatt (kw) of the Customer's demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 500 kw and an additional discount of two percent (2%) of the Energy Charge and two percent (2%) of the Demand Charge. The monthly rate will be subject to a discount of seven (7) cents per kilowatt (kw) of the demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 7500 kw and are taking supplementary service under the PX/PXT rate and an additional one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge.

Fuel Charges

Fuel Charges as shown in Rate Schedule CR for the rate schedule which has been established in the Standard Contract for Electric Power will be applied to all Standby Service KWH.

Term of Contract

Service under this rate schedule shall be for a period of five (5) or more years and thereafter from year to year until terminated by twenty-four (24) months written notice by either party to the other.

EFFECTIVE:

Tax Adjustment - See Sheet No. 6.16.

Franchise Fee Billing - See Sheet No. 6.16.

Energy Conservation - See Sheet No. 6.16.1

Payment of Bills - See Sheet No. 6.16.

Definitions

"Standby electric service" refers to backup or maintenance service or both.

"Backup service" means electric energy or capacity supplied by the Company to replace energy or capacity ordinarily generated by a Customer's own generation equipment during an unscheduled outage of the Customer's generation. An unscheduled outage is defined as the loss or reduction of generation output due to equipment failure(s) or other condition(s) beyond the control of the customer.

"Maintenance service" means electric energy or capacity supplied by the Company to replace energy or capacity ordinarily generated by a Customer's own generation equipment during a scheduled outage of the Customer's generation. A scheduled outage is defined as the loss or reduction due to maintenance activities of any portion of a customer's generating system.

"Supplementary service" means electric energy or capacity supplied by the Company in addition to that which is normally provided by the Customer's own generation equipment.

"Outage" means that period in which a forced or unforced reduction in the totalized output of the Customer's generator(s) occurs.

Section No. VI First Revised Sheet No. 6.34 Canceling Original Sheet No. 6.34

event of a bona fide change in the customer's standby requirements, the Interruptible Standby Service Capacity (IC) for the future may be changed accordingly by mutual agreement.

 Execute an Interconnection Agreement and reimburse the Company for any necessary additional metering and equipment costs incurred by the Company as a result of supplying electric service to the Customer under the terms of this schedule.

Interruptions

Service under this schedule may be interrupted at the sole discretion of the Company. The Company will endeavor to provide at least six (6) hours advance notice of an interruption, except when an interruption is deemed necessary in order to maintain service to the Company's firm service customers. Notification will be made by telephone and will be followed by written confirmation. In the event of an emergency, there may be no advance notification.

Determination of Standby Service (KW) Rendered

Where the customer takes supplementary service and standby service through a single meter, the amount of standby service (KW) taken by the customer shall be determined in the following manner:

Within three (3) days of an outage of the customer's generating equipment, the Customer will notify the Company that such outage has occurred, will specify the amounts (KW) of Standby Service, if any, expected to be taken, and give an estimate of the expected duration of that outage. Within three (3) days after normal operations are restored, the Customer will notify the Company that operations are back to normal and Standby Service, if taken, is no longer required. On the day after the last day of each billing period. the customer will provide the Company a written report specifying (1) the beginning date and time of each outage. (2) the ending date and time of each outage, (3) the daily maximum amount (KW) of Standby Service, if any, taken during each outage of the billing period, and (4) the daily on-peak period load reduction (KW) that is a direct result of the customer's generation outage. If the Standby Service taken on a particular day occurs during an on-peak period as well as an off-peak period, then the daily maximum amount (KW) of Standby Service will be shown separately for each on-peak period and off-peak period. The information from this written report in combination with the Company's metered data will be applied to the formula shown below to determine the amount of daily Standby Service (KW) taken by the customer during designated peak hours for each day during the outage. Provided, however, that at no time will the amount (KW) of daily Standby Service being taken by the Customer exceed the difference between the amount of load in kw ordinarily supplied by the customer's generation and the minimum totalized Customer generation output (KW) occurring in any interval during the daily on-peak period of the current outage, and shall not exceed the total service (KW) being supplied by the Company.

Section No. VI First Revised Sheet No. 6.35 Canceling Original Sheet No. 6.35

Daily Standby Service (KW) =

The amount of load in kw ordinarily supplied by the customer's generation.

Minus the Customer's daily generation output (KW) occurring during the on-peak period of the current outage. (1)

Minus the daily on-peak period load reduction (KW) that is a direct result of the Customer's current generation outage. (1)

All amounts (KW) of service supplied by the Company during such outage in excess of the amounts (KW) of Standby Service are to be treated as actual measured demand in the Determination of Billing Demand of the Rate Schedule established for Supplementary Service. In no event, shall Customer's demand (KW) billed as Standby Service also be billed as Supplementary Service.

(1) The customer's daily generation output (KW) and daily on-peak period load reduction (KW) that are used in the formula must occur during the same 15 minute interval as the daily Standby Service (KW) that is used for billing purposes.

Where the customer takes supplementary service and standby service through separate meters on electrically separate circuits, the amount of standby service (KW) taken by the customer shall be determined by the actual meter reading on the meter which measures the usage delivered through the standby service circuit.

MONTHLY CHARGES - STANDBY SERVICE

<u>Customer Charge</u> - All standby service customers will pay the LP/LPT customer charge plus \$25.00 except for those taking supplementary service on PX/PXT for whom the charge should be the PX/PXT customer charge plus \$25.00.

Demand Charges

Local Facilities Charge -

- a. For those customers who have contracted for standby service capacity not less than 100 KW nor more than 499 KW - \$1.68/KW of IC.
- For those customers who have contracted for standby service capacity not less than than 500 KW - \$1.24/KW of IC.
- c. For those customers who have contracted for standby service capacity not less than than 7500 KW and are taking supplementary service under the PX/PXT rate - \$.52/KW of IC.

Plus the Greater of:

The Reservation Charge: \$.80 per KW times IC.

OR

The sum of the Daily Demand Charges for the month:

During the months of June through September, the Daily Demand Charge for Interruptible Standby Service shall be the product of \$.46/KW/day and the Daily Interruptible Standby Demand established during the peak hours of each day.

During the months of October through May, the Daily Demand Charge for Interruptible Standby Service shall be the product of \$.34/KW/day and the Daily Interruptible Standby Demand established during designated peak hours of each day.

Daily Demand Charge is not applied during days which do not include designated peak hours.

Section No. VI First Revised Sheet No. 6.36 Canceling Original Sheet No. 6.36

The IC to be used in the above calculations will be the greater of the Interruptible Standby Service Capacity (KW) in accordance with the Contract for Interruptible Standby Service or the maximum Interruptible Standby Service (KW) taken in the current and twenty-three (23) previous service months. This ratchet provision will be waived for the reservation charge if a change in the IC is a result of a scheduled outage that did not include a peak hour(s) that determines the Company's IIC payments or revenues.

MONTHLY CHARGES - SUPPLEMENTARY SERVICE

All charges and conditions as contained in the rate schedule which has been established in the Standard Contract for Electric Power will be applied to the Supplementary Service.

Determination Of The On-Peak Period

The on-peak period for calendar months April through October is defined as being those hours between 12:00 P.M. and 9:00 P.M. Central Daylight Time/Central Standard Time, Monday through Friday.

The on-peak period for calendar months November through March is defined as being those hours between 6:00 A.M. and 10:00 A.M. and between 6:00 P.M. and 10:00 P.M. Central Standard Time/Central Daylight Time, Monday through Friday.

Determination of the Off-Peak Period

All hours not included above and all hours of the observed holidays of New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas are in the off-peak period.

Energy Charges - .458¢/KWH applied to all Interruptible Standby Service KWH.

Transformer Ownership Discount and Primary Metering Voltage Discounts - When the Company renders service under this Rate Schedule at the local primary distribution voltage and any transformers required are furnished by the customer, the monthly rate will be subject to a discount of twenty-seven (27) cents per month per kilowatt (kw) of the Customer's demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 100 kw nor more than 499 kw or forty-one (41) cents per month per kilowatt (kw) of the Customer's demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 500 kw and an additional discount of one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge. These discounts are applicable only to those customers not taking supplementary service on PX/PXT.

Transformer Ownership Discount and Transmission Metering Voltage Discounts -When the Company renders service under this Rate Schedule from an available transmission line of 46,000 volts or higher and the Customer furnishes, operates, and maintains the complete step-down transformer substation, necessary to receive and use such service, the monthly rate will be subject to a discount of thirty-two (32) cents per month per kilowatt (kw) of the demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 100 kw nor more than 499 kw or forty-eight (48) cents per month per kilowatt (kw) of the Customer's demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 500 kw and an additional discount of two percent (2%) of the Energy Charge and two percent (2%) of the Demand Charge. The monthly rate will be subject to a discount of seven (7) cents per kilowatt (kw) of the demand used in the calculation of the Local Facilities Charge for those customers who have contracted for standby service capacity not less than 7500 kw and are taking supplementary service under the PX/PXT rate and an additional one percent (1%) of the Energy Charge and one percent (1%) of the Demand Charge.

Fuel Charges

Fuel Charges as shown in Rate Schedule CR for the rate schedule which has been established in the Standard Contract for Electric Power will be applied to all Interruptible Standby Service KWH.

Section No. VI First Revised Sheet No. 6.37 Canceling Original Sheet No. 6.37

Term of Service

Service under this rate schedule shall be for an initial period of five (5) or more years from the commencement of service under this rate schedule and shall continue thereafter from year to year until terminated by written notice as follows:

- If the customer wishes to transfer from non-firm to firm service, then
 the Customer must give five (5) years advance written notice in order to
 comply with FPSC Rule No. 25-6.0438, F.A.C. A different minimum notice
 can be used only with the approval of the FPSC.
- If the Customer no longer wishes to receive electric service in any form from the Company, the Customer may terminate the Interruptible Standby Service Agreement by giving thirty (30) days advance written notice to the Company.
- 3. The Company may terminate service under this rate schedule at any time for the Customer's failure to comply with the terms and conditions of this rate schedule or the Interruptible Standby and Supplementary Service Agreement. Prior to any such termination, the Company shall notify the Customer at least ninety (90) days in advance and describe the Customer's failure to comply. The Company may then terminate this service under this rate schedule at the end of the 90-day notice period unless the Customer takes measures necessary to eliminate, to the Company's satisfaction, the compliance deficiencies described by the Company. Notwithstanding the foregoing, if, at any time during the 90-day period, the Customer either refuses or fails to initiate and pursue corrective action, the Company shall be entitled to suspend forthwith the monthly billing under this rate schedule and bill the Customer under the otherwise applicable firm service rate schedule.

Charges for Non-Compliance with Terms of Service

If service is terminated by the Company or if the Customer terminates service or transfers to a firm service rate schedule during the initial term of five (5) years or without providing at least five (5) years written notice, the Customer will be:

- rebilled under the otherwise applicable firm service rate schedule for (a) the prior sixty (60) months or (b) the number of months the Customer has been billed under this rate schedule, whichever is less, and
- billed a penalty charge of \$1.00 per kw times the number of months rebilled in No. 1 above times the current Maximum Demand.

If the Customer is required to transfer to another retail rate schedule as a result of Commission Rule 25-6.0438, F.A.C., the Customer will not be rebilled.

Tax Adjustment - See Sheet No. 6.16.

Franchise Fee Billing - See Sheet No. 6.16.

Energy Conservation - See Sheet No. 6.16.1.

Payment of Bills - See Sheet No. 6.16.

Definitions

"Standby service" refers to backup or maintenance service or both.

"Backup service" means electric energy or capacity supplied by the Company to replace energy or capacity ordinarily generated by a Customer's own generation equipment during an unscheduled outage of the Customer's generation. An unscheduled outage is defined as the loss or reduction of generation output due to equipment failure(s) or other condition(s) beyond the control of the customer.

"Maintenance service" means electric energy or capacity supplied by the Company to replace energy or capacity ordinarily generated by a Customer's own generation equipment during a scheduled outage of the Customer's generation. A scheduled outage is defined as the loss or reduction due to maintenance activities of any portion of a customer's generation system.

"Supplementary service" means electric energy or capacity supplied by the Company in addition to that which is normally provided by the Customer's own generation equipment.

"Outage" means that period in which a forced or unforced reduction in the totalized output of the Customer's generator(s) occurs.
