RE: DOCKET NO. 900004-EU - Planning Hearings on Load Forecasts, Generation Expansion Plans, and Cogeneration Prices for Peninsular Florida's Electric Utilities.

Issue: 1. Recommendation that the motions filed by the AES Corporation and Nassau Power Corporation be granted in part and denied in part. Some clarification is necessary on the issue of whether a negotiated contract having an in-service date prior to the in-service date of the statewide avoided unit should be applied toward the subscription limit. Further clarification as requested by the movants is unnecessary.

Issue: 2. Recommendation that the Motion for Clarification submitted by Florida Power and Light Company (FPL) not be granted. The questions raised in FPL's motion go beyond the scope of the original recommendation that resulted in Order No. 23235.
