ORDER CLOSING SUBSCRIPTION LIMIT

BY THE COMMISSION:

In Order No. 22341, we limited subscription to the statewide avoided unit to a maximum of 500 MW. To date, contracts have been signed for over 2,500 MWs of power, which is more than sufficient to defer the designated statewide avoided unit. Therefore, we have closed the current standard offer contract until we implement our new cogeneration rules and select a new statewide avoided unit or units. Closure of the 500 MW subscription limit and the current standard offer is effective October 2, 1990, the date of our vote at the Commission's agenda conference.

At the October 2, 1990 agenda conference, we determined that the issues of prioritization of the current subscription limit and establishment of criteria to be employed in prioritization should be heard on October 26, 1990. The parties have been provided notice of this proceeding which will be governed by the provisions of Section 120.57(2), Florida Statutes.

Accordingly, it is

ORDERED by the Florida Public Service Commission that the current 500 MW subscription limit established in Order No. 22341, and the current standard offer are hereby closed, effective October 2, 1990. It is further
