## TOTAL EXCHANGE

The exchange of Branford is presently served by a NXID (North Electric Crossbar) Switch. The exchange of High Springs is served by a DMS-10 (Northern Telecom) office.

Presently all toll traffic for Branford to High Springs, Trenton and Newberry, and High Springs toll to Trenton is carried over Fiber through the Live Oak switch to High Springs or to Jacksonville 05T lata Tandem and reswitched via Gainesville to Trenton and Newberry. High Springs is also switched thru Live Oak to Branford. High Springs EAS to Newberry is direct to Gainesville tandem thru the Alachua office. Depending on the connecting company network we would probably have to reroute the new EAS traffic for Branford via Live Oak to Jacksonville and for High Springs via Alachua to Gainesville. Jacksonville and Gainesville would then have to tandem this traffic to Trenton and Newberry.

The communities of interest for the Gilchrist county citizens residing in Branford, Newberry and High Springs areas are : Governmental offices, including the School Board, Courthouse offices, public officials, banks and other businesses.

All toll revenue between Branford and High Springs is intralata and is being billed under MABC.
