Tallahassee, Florida 32301-8153

Re: Docket No. 911185-TL, Request by Volusia County
Council for Extended Area Service Between All
Exchanges Within Volusia County

Dear Mr. Tribble:

Enclosed for filing in the above-referenced docket are the original and fifteen (15) copies of United Telephone Company of Florida's response to Order No. 25675 and a Request for Specified Confidential Classification. Also enclosed are copies of the traffic studies labeled Exhibit B with confidential information deleted.

The parties of record have received this same filing, with the exception of Exhibit A information. Exhibit A contains the traffic studies with the confidential information.

A copy of this filing has been provided to all Parties of Record.

Sincerely,

Alan N. Berg

KH/ab

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

IN RE: Request for Extended Area) Docket No. 911185-TL
Service Between All Exchanges) Filed: May 4, 1992
Within Volusia County by Volusia)
County Council)

**UNITED TELEPHONE COMPANY OF FLORIDA'S
REQUEST FOR SPECIFIED CONFIDENTIAL CLASSIFICATION**

United Telephone Company of Florida (United), pursuant to the provisions of Florida Public Service Commission (FPSC) rule 25-22.006, Florida Administrative Code, requests the Prehearing Officer to enter his or her order declaring that the information described below is confidential information as that term is defined in Rule 25-22.006(1)(a), and as such is exempt from Section 119.07, Florida Statutes (1989). In support of this Request, United states that:

1. On February 3, 1992, the Florida Public Service Commission issued Order No. 25675 in this Docket, which requested that United prepare traffic studies on the routes under consideration in this Docket.

All of the routes considered in the traffic studies submitted are interLATA routes and the traffic on the routes represents confidential business information of interexchange carriers.

United is requesting such treatment to protect the confidential traffic information of the interexchange carriers.

2. Rule 25-22.006(4), Florida Administrative Code, requires that confidential information be highlighted, and identified with the page and line at which the confidential material is found, and that the utility correlate the page and line identified with the specific justification proffered in support of the classification of such material.

The pages containing the confidential material with the confidential material highlighted are attached to the original only of this Request as Exhibit "A". Two copies of the pages containing confidential information with the confidential information blocked out are attached to the original only of this Request as Exhibit "B". Copies of this Request served on parties do not have Exhibit "A" attached and have only one copy of Exhibit "B" attached.

A listing of the pages and lines at which the confidential materials are found is attached to this Request as Exhibit "C". A listing correlating the pages and lines with the specific justification proffered in support of the classification of the confidential matter is attached to this Request as Exhibit "D".

3. The material for which confidential classification is sought is intended to be and is treated by United as confidential.

4. Because the confidential data consists of traffic studies which delineate volumes of traffic, the information will remain confidential through the entire course of this proceeding and thereafter.

5. Upon conclusion of this Docket, United requests that the information described above be returned to United.

WHEREFORE, United Telephone Company of Florida requests that the Prehearing Officer enter his or her order declaring the information described above as falling within the specified confidential classification.

Respectfully submitted,

Alan N. Berg
Senior Attorney
United Telephone Company of
Florida
Post Office Box 5000
Altamonte Springs, FL 32716-5000
(407) 889-6018

Analysis Statement
United Telephone Company of Florida
Docket No. 911185-TL, Order No. 25675
Request for Extended Area Service Between
All Exchanges Within Volusia County by
the Volusia County Council

The calling volumes identified on Schedule I, Exhibit 1, show messages per access line per month of .02 to 3.52 for the routes studied. The percentage of customers making two or more calls per month range from a low of 0% to a high of 31% for the one-way interLATA routes. None of the routes meet the minimum calling volume levels identified in FPSC Rule 25-4.060(2)(1) of three (3) or more M/M/M with fifty percent (50%) of the subscribers making two or more calls.

The calling volumes identified on Schedule II, Exhibit 2, do not meet the community of interest qualification levels outlined in FPSC Rule 25-4.060(2). Per the rule, "a sufficient degree of community of interest between exchanges, sufficient to warrant further proceedings, will be considered to exist when the combined two-way calling rate over each interexchange route under consideration equals or exceeds two (2) messages per main and equivalent main station per month (M/M/M) and fifty percent (50%) or more of the subscribers in the exchanges involved make at least one call per month."

It is United Telephone Company of Florida's opinion that none of the volumes identified in Schedules I and II are sufficient to warrant further consideration under FPSC Rule 25-4.060.

Orange City Exchange Information**Residential Access Lines Per Square Miles**

<u>Exchange</u>	<u>Square Miles</u>	<u>Res. A.L.</u>	<u>Res. A.L. Per Square Mile</u>
Orange City	89.75	17,481	194.77

The Orange City Exchange is made up of three communities, which are Lake Helen, Deltona, and Orange City. The economy is primarily service related with several light industries employing a number of the residents.

The nature of this exchange is changing from what was once considered to be primarily a retirement mecca, to a younger, family oriented resident base. In the Deltona area many of these residents work in Seminole or Orange County. Orange City and Lake Helen still have a generous share of senior citizens, some of who live in the many mobile home communities scattered throughout the area.

Orange City fulfills a variety of service needs for the surrounding communities. There are several shopping centers in place and more are planned or under construction. There is even a shopping center on the drawing board for the Deltona area. Hospitals are being planned in both Orange City and Deltona. One celebrated its ground breaking in March. There are clusters of medical office buildings throughout Orange City and Deltona supporting the variety of medical needs of the communities.

Within the calling scope of the exchange there are 13 elementary schools, 2 middle schools and 2 high schools. There are an elementary and a middle school planned for construction starts during 1992. There is also a branch of the Daytona Beach Community College located in Lake Helen.

Deland, to the north, is the County seat and the communities within the exchange enjoy EAS to this location allowing them access to all county offices.

The major thoroughfares connecting these communities to others in Volusia County are U.S. Highway 17-92, Interstate 4, and S.R. 44 (north of Lake Helen in Bell territory). I-4 has interchanges at Deltona Lakes and at S.R. 427 which leads to both Orange City and Lake Helen. Another interchange is planned at Saxon Boulevard.

Interest in East Volusia, including Daytona Beach, New Smyrna, and other beach communities would be mostly recreational. United is not aware of any additional interest in this area.

United Telephone Company of Florida
Docket No. 911185-TL, Order No. 25675
Request for Extended Area Service
Between All Exchanges Within Volusia County
by Volusia County Council

- Exhibit 1 - Completed Schedule I as requested in Order No. 25675. It depicts the various routes studied for the Orange City Exchange in order of highest to lowest M/M/M and identifies the number/percent of customers making two or more calls.
- Exhibit 2 - Completed Schedule II as requested in Order No. 25675. It depicts the routes studied for Orange City in order of highest to lowest M/M/M and identifies the number/percent of customers making one or more calls.
- Exhibit 3 - One-way route analysis. Includes calls originating from equal access offices.
- Exhibit 4 - Orange City to Daytona Beach point-to-point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
- Exhibit 5 - Orange City to New Smyrna point-to-point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
- Exhibit 6 - Orange City to Pierson point-to-point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
- Exhibit 7 - Orange City to Oak Hill point-to-point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
- Exhibit 8 - Station classification data showing by class of service the number of main and equivalent main stations in service for the exchange studied.
- Exhibit 9 - Orange City map showing the existing EAS routes.
- Exhibit 10 - Orange City map showing the proposed EAS routes with the M/M/M and percent of subscribers making two or more calls identified.
- Exhibit 11 - Interexchange toll rates and the distance between rate centers.
- Exhibit 12 - Foreign Exchange analysis for Volusia County. Includes number in service, average calling volumes and M/M/M calculations as if the FX were considered point-to-point.

DOCKET NO. 911185-TL

REQUEST FOR CONFIDENTIAL TREATMENT OF TRAFFIC STUDIES

The information listed on all pages and line numbers in Exhibit C consists of market information including volumes of traffic on specific interLATA routes broken out in several different categories including volumes of messages by messages, minutes, revenues, time of day, and residence and business. In addition averages of messages per access and by minutes per message, revenue per message, revenue per access line and revenue per calling customers are also provided.

The information included in the studies is interexchange carrier traffic information. The public disclosure of this information would allow competitors an undue advantage in pinpointing those routes or segments of routes which are most susceptible to competition. The information is even more detailed, and is at least as sensitive and as useful to competitors as the capacity information which the Commission held was entitled to confidential status in Order No. 21362, issued June 9, 1989.

No public benefit would offset the harm which would be caused by the public disclosure of this information.
