Docket No. 910981-EI
Filed: May 4, 1992

**FLORIDA POWER & LIGHT COMPANY'S AND FLORIDA POWER
CORPORATION'S JOINT PETITION FOR APPROVAL OF STIPULATION**

Florida Power & Light Company ("FPL") and Florida Power Corporation ("FPC") petition the Commission to approve the attached Joint Stipulation between FPL and FPC concerning this docket. FPL and FPC respectfully submit that the Joint Stipulation, if approved, negates the need for a hearing and permits the Commission to close this docket.

FPSC-RECORDS/REPORTING

JOINT STIPULATION

DOCKET 910981-EI

Pursuant to this Stipulation made this 30th day of April, 1992, by and between Florida Power & Light Company ("FPL") and Florida Power Corporation ("FPC"), FPL and FPC agree as follows:

1. That the Florida Public Service Commission ("the Commission") issued Order No. 21928 ("the Order") on September 21, 1989 in Docket No. 870098-EI which required FPL and FPC to perform site-specific economic cost studies ("the Studies") for each of their nuclear generating plants "to determine if it is cost justified to retain the non-contaminated portion of the nuclear plant assets for use with a new generation station."

2. That both FPL and FPC have complied with the Order and have filed with the Commission their respective Studies which represent a reasonable approach to the directive contained in Order No. 21928.

3. That the Studies have identified nuclear plant assets and equipment that are currently non-contaminated and for which reuse, following final shut-down for nuclear decommissioning, appears at this time to be economically feasible.

4. That the cost of dismantlement of the nuclear plant assets and equipment which may be subject to reuse, and the appropriate regulatory treatment thereof, will be determined in subsequent decommissioning studies filed by FPL and FPC with the Commission.

5. That FPL and FPC will cooperate with the Commission Staff in the development of such modifications and refinements to the Studies that may be appropriate for identifying such nuclear plant assets and equipment in subsequent decommissioning studies filed by FPL and FPC with the Commission.

6. That it is not necessary to make any changes to either FPL's or FPC's current decommissioning accruals or funding in this docket.

7. That FPC intends that nothing in this Stipulation will be considered in Docket No. 910890-EI.

8. That this docket, established for purposes of reviewing the Studies, should be closed.
