ORDER APPROVING TARIFF FILING PROPOSING  
FIVE NEW CUSTOM CALLING PACKAGES

BY THE COMMISSION:

On February 27, 1992, Central Telephone Company of Florida (Centel) filed a tariff proposed to offer five new custom calling packages. The proposed custom calling packages would compliment the existing 18 custom calling packages currently offered.

Customers wishing to retain their current custom calling packages could do so. The five new packages would include three which provide Caller ID while none of the current packages do. The service order charges will be waived for the first 60 days of service to allow subscribers to obtain an upgraded custom calling package.

Centel believes many subscribers to the currently available packages will migrate to the proposed offerings. This migration will increase the revenue impact of the new offerings. Centel estimates the revenue increase from the filing would exceed \$200,000 for the first 12 months of service. The company has not filed any costs studies associated with this filing; however, it expects all five packages will cover incremental costs and provide contributions.

Based on the foregoing it is

ORDERED by the Florida Public Service Commission that proposed tariff filing by Central Telephone Company of Florida to offer five new custom calling packages is hereby approved. It is further

ORDERED that any protest of this Order shall be filed pursuant to the requirement set forth below. It is further

ORDERED that if a timely protest is filed, the tariff shall remain in effect with any increase in revenues held subject to refund. It is further

ORDERED that if no protest is timely filed, this docket shall be closed.
