ORDER APPROVING TARIFF

BY THE COMMISSION:

On November 22, 1992, Quincy Telephone Company (Quincy) filed a tariff to increase the per minute usage charge for interconnection of mobile services. This tariff will allow Quincy to flow through the recently reduced Busy Hour Minute of Capacity (BHMOC) rate. This action is consistent with our action in Docket No. 870675-TL as memorialized in Order No. 20475. Order No. 20475 required that access charges be reflected in changed mobile interconnection rates.

Quincy experienced a drop in intrastate interLATA line termination minutes as a result of a new Extended Area Service Plan to Tallahassee. The company also encountered an increase in its BHMOC levels as reported by AT&T. These changes result in an increase of the per minute network usage charges for mobile interconnection.

Quincy has no current subscribers to this service and consequently will experience no increase in revenue. Quincy wishes to retain the tariff because of inquiries by potential customers.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the tariff to increase the per minute network usage charge for interconnection of mobile services filed by Quincy Telephone Company is hereby approved. It is further

ORDERED that any protest of this Order shall be filed pursuant to the requirements set forth below. It is further
