FINAL ORDER

BY THE COMMISSION:

On September 21, 1989, this Commission issued Order No. 21928 in Docket No. 870098-EI by which Florida Power and Light Company (FPL) and Florida Power Corporation (FPC) were required to submit site specific economic cost studies for each nuclear generation plant "to determine if it is cost justified to retain the noncontaminated portion of the nuclear plant assets for use with a new generating station." Each company filed a study in response to that Order and each study identified noncontaminated assets which could be reused, following the final shut-down for nuclear decommissioning, to provide another source of electric generation.

Having reviewed the studies filed by FPC and FPL we are satisfied that they have complied with the requirements of Order No. 21928 and that this docket should be closed.

In consideration of the foregoing, it is

ORDERED by the Florida Public Service Commission that Florida Power and Light Company and Florida Power Corporation have submitted the site specific economic cost studies for each nuclear generating plant as required by Order No. 21928, Docket No. 870098-EI. It is further
