Re: Docket No. 920260-TP-Comprehensive Review of the Revenue Requirements and Rate Stabilization Plan of Southern Bell Telephone and Telegraph Company

Dear Ms. White:

The staff has reviewed the proposed Notice of Public Hearing to be published in local area newspapers, seven to twenty days prior to each service hearing. We find the Notice to be satisfactory. We understand that each Notice will be at least 4" x 6".

In addition, the Notice of Hearing required to be sent to all customers, the format and information contained in the proposed bill stuffers, as well as in the proposed separate mailings to customers in and around the Jacksonville and Panama City areas, are also satisfactory. Please notify staff of the mail date and service areas covered for all bill stuffers and separate mailings, immediately following each occurrence.

Sincerely yours,

Angela B. Green
