DOCKET NO. 921060-SU ORDER NO. PSC-93~0066-FOF-SU ISSUED: 01/13/93

ORDER INDICATING NONJURISDICTIONAL STATUS OF FRENZ ENTERPRISES, INC. AND CLOSING DOCKET

BY THE COMMISSION:

On October 13, 1992, Frenz Enterprises, Inc. (Frenz) filed an application with this Commission for recognition of its nonjurisdictional status, pursuant to Section 367.021(12), Florida Statutes. Frenz owns and operates a lime stabilization facility located at the St. Lucie County Landfill. Mr. A. A. Reeves, III, Utility Management Consultant, filed the application on behalf of Frenz.

Upon request and sufficient proof, the Commission will issue an order indicating the nonjurisdictional or exempt status of water or wastewater systems if they qualify under the appropriate provision of Chapter 367, Florida Statutes. The application was filed in accordance with Section 367.021(12), Florida Statutes, and Rules 25-30.060(1)(2) and (3)(j), Florida Administrative Code.

Section 367.021(12), Florida Statutes, states that a "utility means a water or wastewater utility and except as provided in Section 367.022, includes every person, lessee, trustee, or receiver owning, operating, managing or controlling a system, or proposing construction of a system, who is providing or proposes to provide water or wastewater service to the public for compensation."

According to information provided by Mr. Reeves, Frenz does not meet the definition of a utility as set forth in Section 367.021(12), Florida Statutes, since it only treats sludge from St. Lucie County wastewater treatment plants. Frenz does charge for the service, but St. Lucie County is its only customer.

For additional information, we contacted Mr. Steve Snyder, P.E., with the Department of Environmental Regulation (DER) in West Palm Beach. Mr. Snyder indicated that the process used by Frenz is used in areas where there are no "regional" wastewater treatment plants nearby. The regional plant treats septic tank concentrate from port-of-lets, restaurants, along with their other wastewater. After final processing, the sludge is stabilized on-site at the plant. In this case, the sludge is stabilized for use on the St. Lucie County landfill. It should also be noted that Frenz does not have a specific service area.

In addition, the application form states that pursuant to Section 837.06, Florida Statutes, anyone knowingly making a false statement in writing with the intent to mislead is guilty of a misdemeanor. By signing the application, Mr. Reeves acknowledged that he is aware of Section 837.06, Florida Statutes, and the penalties for making false statements in the application.

Based on the facts as represented, we find that Frenz is not a utility pursuant to the provisions of Section 367.021(12), Florida Statutes. However, should there be any change in circumstances or method of operation, the owner of Frenz or any successors in interest, must inform the Commission within 30 days of such change so that we may review the matter to determine whether nonjurisdictional status is still appropriate.

It is, therefore,

ORDERED by the Florida Public Service Commission that, based upon the facts as represented, Frenz Enterprises, Inc., 6730 Ashley Court, Sarasota, Florida 34251, is not a water and wastewater utility subject to this Commission's jurisdiction, pursuant to the provisions of Section 367.021(12), Florida Statutes. It is further

ORDERED that should there be any change in circumstances or method of operation, the owner of Frenz Enterprises, Inc. or any successors in interest, shall inform this Commission within 30 days of such a change so that we may re-evaluate Frenz's nonjurisdictional status. It is further

ORDERED that Docket No. 921060-SU is hereby closed.
