ORDER GRANTING REQUEST FOR SPECIFIED CONFIDENTIAL
CLASSIFICATION OF DOCUMENT NO. 2128-93

By Resolution No. 92-72, filed with this Commission by the Board of County Commissioners of St. Johns County (Board), the Board has requested that we consider requiring implementation of extended area service (EAS) between the Green Cove Springs, Julington, and St. Augustine exchanges. These exchanges are served by BellSouth Telecommunications, Inc. d/b/a Southern Bell Telephone and Telegraph Company (Southern Bell or the Company), which is subject to the regulation of this Commission by virtue of Chapter 364, Florida Statutes. In order for us to fully evaluate the Board's request, by Order No. PSC-92-0871-PCO-TL, issued August 25, 1992, we directed Southern Bell to perform certain traffic studies. On October 23, 1992, Southern Bell filed a portion of the traffic studies, along with a Request for Specified Confidential Classification of certain portions of the traffic study data. By Order No. PSC-92-1461-CFO-TL, issued December 16, 1992, and amended December 23, 1992, we granted the Company's Request for Specified Confidential Classification.

On February 24, 1993, Southern Bell filed the remainder of the traffic studies, along with another Request for Specified Confidential Classification (Request) of certain portions of the traffic study data as identified in Appendix "A" to this Order. The information for which Southern Bell has requested specified confidential classification is intraLATA traffic data regarding Southern Bell's routes in St. Johns County. According to Southern Bell, the data provide a "blueprint" of the toll usage over the various routes, which data Southern Bell maintains on a proprietary and confidential basis in order for it to plan its network deployment based upon actual and perceived demand over the toll routes. With the advent of intraLATA toll competition on January 1, 1992, Southern Bell argues that the information could subject it to competitive harm if such information were made public, in that its competitors could use such information to target the most lucrative toll routes.

Upon review, I find that the data identified in Appendix "A" to this Order is proprietary confidential business information
