BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Comprehensive Review of )  
the Revenue Requirements and Rate ) Docket No. 920260-TL  
Stabilization Plan of Southern )  
Bell Telephone and Telegraph ) Filed: April 7, 1993  
Company )  
\_\_\_\_\_ )

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY'S  
NOTICE OF INTENT TO REQUEST SPECIFIED CONFIDENTIAL CLASSIFICATION

COMES NOW BellSouth Telecommunications, Inc. d/b/a Southern Bell Telephone and Telegraph Company ("Southern Bell" or "Company"), and files its Notice of Intent to Request Specified Confidential Classification.

1.

The Staff of the Florida Public Service Commission ("Staff") has issued several Audit Requests in the referenced docket in connection with the NARUC/FCC Regional Audit of BellSouth. The Staff has requested, among other things, that Southern Bell make available for viewing the following information:

(a) Audit Request No. 1-0008.3, dated March 24, 1993 - project statement between BellSouth Telecommunications and Reliance Comm/Tec Corporation.

(b) Audit Request No. 1-017.2, dated March 24, 1993 - 1992 actual and 1993-1996 projected costs for packet switching.

(c) Audit Request No. 1-046, dated March 24, 1993 - project prospectus prepared by Bellcore for presentation to the regional Bell companies entitled Multi-Megabit Data Service.

2.

Some of the information to be reviewed by the Staff is proprietary. Included is information relating to Southern Bell's

03001 APR-78  
REGISTRATION REPORTING

competitive interests and any competitor or potential competitor of Southern Bell's non-regulated services would desire this information to allow the targeting of lucrative markets. If this were to occur, Southern Bell's revenues could well be diminished which would work to the ultimate detriment of Southern Bell's ratepayers.

3.

Also included is vendor-specific information, the disclosure of which could impair Southern Bell's ability to contract for goods or services on favorable terms. This information is specifically deemed to be proprietary confidential business information under Section 364.183(3), Florida Statutes.

4.

In addition, included is information relating to facets of the business of Bellcore. This information is proprietary confidential business information under the terms of Section 364.183(3), Florida Statutes. Disclosure of this information would harm the Company's business operations and it would disclose information concerning regional telephone companies other than Southern Bell, all of which is outside the purview of this audit.

5.

Because this information contains proprietary information, Southern Bell is filing this Notice of Intent to Request Specified Confidential Classification, pursuant to Rule 25-22.006(3)(a)(b)(5), Florida Administrative Code, in order to

allow the Staff to review this information without delay. The original of this notice has been filed with the Division of Records and Reporting, and a copy has been served on the Division requesting the information. The written Staff Request is attached hereto.

Respectfully submitted this 7th day of April, 1993.

Data Request to be sent to BellSouth

- 1-40 Provide all agreements that BST has with other entities, including affiliates, regarding product testing.
- 1-41 Provide all materials distributed by Nate Jones in our March 11, 1993 meeting in Birmingham. In addition, provide the 1991 and 1992 information for all forms included in the materials distributed by Mr. Jones, including BellSouth's work program detail by category of work (see attached).
- 1-42 Provide the specific organization within BST that performs the June annual analysis for projects assigned to the R&D account as described by John Mann, Staff Manager, in our March 12, 1993 interview. Provide the number of employees and their job titles that are involved in this process.
- 1-42.1 Provide a detailed description of the June annual analysis performed for projects assigned to the R&D account. Include specifics on how regulated and nonregulated costs are split for each project. In addition, provide an example of an analysis performed on a project and the criteria utilized in achieving the outcome of that particular project.
- 1-43 For projects assigned to accounts other than R&D, provide the specific organization within BST that performs the annual analysis for these Bellcore projects as described by John Mann, staff Manager, in our March 12, 1993 interview. Provide the number of employees and their job titles that are involved in this process. In addition, provide an example of an analysis performed on a project and the criteria utilized in achieving the outcome of that particular project.
- 1-44 What organization within BST is responsible for determining the regulated/nonregulated portion of each Bellcore project that is assigned to each of the nine states in BST's region? Provide a detailed description of the process utilized in performing this split.
- 1-45 In our March 11-12, 1993 meeting in Birmingham, BellSouth staff members spoke of the "CSS" System. What does CSS represent? Provide a detailed description of the CSS system. Include the inputs that are used in the system and the outputs obtained from the system. (In the case of BellCore projects list all steps that must be taken prior to the use of this system)
- 1-46 On page 55 of the NARUC Accounting task force Phase II report on the Review of Bellcore Technical Work Efforts, November 1992, it is stated that when a concept is ready to be presented to the RBOCs, Bellcore's Network Services and Technology Process (NSTP) prepares a Prospectus. Provide an example of a project prospectus prepared

P04/\*\*

04-08-93 09:52AM

CO2 MV92:01 PS-EO

by Bellcore for presentation to the RBOCs.

- 1-003.2 For the R&D projects performed by the Science and Technology group, what organization within BST is responsible for determining the regulated/nonregulated portion that is assigned to each of the nine states in BST's region? Provide a detailed description of the process utilized in performing this split.
- 1-003.3 Is the CSS system utilized for projects performed by BST's Science and Technology Group? What steps are required prior to the use of this system?
- 1-007.1 Provide all BST procedures or guidelines utilized in performing R&D by BSTI's Science and Technology group, including procedures or guidelines for the concept development process and the product development process as listed in response to item 1-007.
- 1-007.2 Provide an example of a project prospectuses that is prepared by BSTI once a service is determined viable as stated in response to item 1.007.
- 1-008.1 In response to 1-008, BST responded that they do not track costs at a level specifically for product testing. Where does BST charge their costs for product testing? Provide all workpapers for each product tested by the Transport Product Evaluation District of the Science and Technology organization and the costs incurred by BST that are associated with each product tested for 1991 and 1992.
- 1-08.2 Provide a detailed description of all occasions that BSTI would employ outside contractors such as Bellcore or other firms to assist in a study as stated in response to item no. 8, section IV-C-1, page 20, Field Trial/First Office Application (FT/FOA).
- 1-08.3 Provide an example of a project statement as described in response to item no. 8, page 20, Section IV-C-1-b, FT/FOA.
- 1-014.1 Provide the following materials that were provided by BST in response to Items no. 14 and 18.
1. Video Dial Tone Network Services Prospectus - Issue 1 - September 1992, SR - TSV - 00 2373
  2. Videotelephony Opportunity Analysis - Registered Doc. # 26252-0031 - Special Report, SR - INS - 002103 - Issue 1, Jan. 1992
  3. Regulatory Analysis memo entitled: Classification of Premises Equipment for HDSL, dated May 8, 1991.
- 1-020.2 Provide all current contractual agreements that BellSouth has with Bellcore regarding the policies and procedures which address the development and implementation of all Bellcore projects. Include details with respect to the process of identifying, approving and funding of individual projects.
