1 upturn required you to adjust your long term forecast, but it
2 doesn't?

3 A. No, I have -- that's correct.

4 Q. Now, on Page 4 of your rebuttal testimony -- let me
5 turn to that. You compare Florida's recent oil consumption
6 for power generation purposes with consumption in other
7 states, is that correct?

8 A. Yes.

9 Q. What is the source of that comparison and how did
10 you reach those estimates?

11 A. I reviewed the latest statistics available on a
12 yearly basis, produced by the U.S. Department of Energy,
13 Energy Information Administration, and I believe the specific
14 quote is in the "Electric Power Monthly."

15 Q. Could you provide us a copy of that?

16 A. Yes, ma'am.

17 Q. All right, we'll call that Late-filed Exhibit 1,
18 State Oil Consumption Comparison.

19 (Late-filed Exhibit No. 1 identified.)

20 BY MS. BROWN:

21 Q. On Page 5 of your testimony, you discuss this
22 concept of the technical feasibility of serving existing oil-
23 and gas-powered plants. Did SunShine conduct a particular
24 study to determine this technical feasibility?

25 A. Yes. My understanding is that SunShine conducted a

1 feasibility review.

2 Q. What's involved in doing that?

3 A. My understanding is that there is an estimate of the
4 ability to dig the trenches and to lay the pipeline and to
5 build the compressor stations and to size the equipment and to
6 -- to the demand levels.

7 Q. Was anything put in writing?

8 A. My communications have been verbal. My
9 understanding is that there has been stuff that's been done in
10 writing, but I think that's really a question for SunShine
11 Partners.

12 Q. Well, you relied on that information, though, didn't
13 you, in your testimony, and in your rebuttal testimony?

14 A. Yes.

15 Q. And it is in your testimony that it becomes relevant
16 in this case. So I think that if there is something in
17 writing, it seems to me that you can get it from SunShine and
18 perhaps get it to us.

19 A. Yes.

20 MR. HYDE: May I ask when this that will be
21 provided, because it seems to me this is a pretty
22 essential element and we are not going to have an
23 opportunity, it appears, to question anybody about this
24 document.

25 MR. DUNBAR: Everybody will be at the hearing.

1 MS. BROWN: Well, we have one final opportunity in
2 the hearing. I don't know. I guess it depends on when
3 it can be gotten.

4 Can we go off the record for a minute?

5 (Discussion off the record)

6 MS. BROWN: Technical Feasibility Study, Late-filed
7 Exhibit 2. Let's call that SunShine's Technical
8 Feasibility Study.

9 (Late-filed Exhibit No. 2 identified.)

10 BY MS. BROWN:

11 Q. Now, Mr. Rose, we may get into some of the same
12 difficulty with my next question. On Page 7, you state that
13 SunShine conducted a two-step analysis of economic
14 feasibility?

15 A. Yes.

16 Q. Are there work papers supporting this analysis?

17 MS. BOLLINGER: It's the same work paper that would
18 be -- that would show both of these.

19 MS. BROWN: Okay. All right. Well, we've already
20 asked for it then.

21 MR. HYDE: May I ask when this document was
22 prepared? Do we know?

23 MS. BROWN: Let's go off the record again.

24 (Discussion off the record)

25 BY MS. BROWN:
