Tallahassee, Florida 32301

June 17, 1993

Dear Mr. D'Haeseleer:

Enclosed are four copies of the following pages for our Access
Services Tariff:

Section 6

Second Revised Page 28
First Revised Page 28.1

In compliance with the Federal Communications Commission's Order
in CC Docket No. 91-213, Transport Rate Structure and Pricing,
released October 16, 1992, this filing proposes to waive non-
recurring charges (NRC's) for service connection when a customer
converts trunks from tandem-switched to direct-trunked or from
direct-trunked to tandem switched. NRC's will also be waived
if a customer orders the discontinuance of overprovisioned
trunks.

It would be appreciated if you would handle this filing with the
Commissioners and members of the Staff, as appropriate, for
approval.

Acknowledgement, date of receipt, and authority number of this
filing are requested. A duplicate letter of transmittal is
enclosed for this purpose.

Sincerely,

for 

Beverly Y. Menard
Regional Director-External Affairs (FL)

6. SWITCHED ACCESS

6.4 Payment Arrangements and Credit Allowances (Continued)6.4.3 Credit Allowances

- (A) Allowances for service interruptions are as set forth in 2.4.4 preceding.
- (B) Usage Sensitive Service credit will be included in the FGA monthly bills rendered to customers to reflect usage charges collected from their end users for intrastate calls. The amount of credit per minute is set forth in 6.6.5 following. The credit applies to the End Office Switching rate element for originating calls.

No credit will apply for terminating only FGA.

6.5 Rate and Charge Regulations6.5.1 Rate Elements

- (A) For the purposes of determining the rates and charges for Switched Access, including SAC Access Service the following rate elements may apply:

Switched Transport Termination
End Office Switching
Information Surcharge

FGA, FGC, FGD and SAC Access Service are also subject to the Network Blocking charge per call as set forth in 6.5.2(1).

6.5.2 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Switched Access including SAC Access service.

(A) Types of Rates and Charges

There are two types of rates and charges that apply to Switched Access. These are usage rates and nonrecurring charges. They are described as:

(1) Usage Rates

Usage rates are rates that apply only when a specific rate element is used. These are applied on a per Access Minute basis.

(2) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for specific work activities in conjunction with the installation of service (including engineering) or change to an existing Switched Access Arrangement.

(a) Switched Access Ordering Charges

Switched Access Ordering Charges are associated with the work performed by the Telephone Company in connection with the receiving, recording and processing of customer service requests. There are two types of service ordering charges.

(1) Initial Ordering Charge - Switched Access (USOC - SESCL)

This charge applies on a per ASR basis, including those requests to add additional lines or trunks (whether ordered in trunks or based on BANCs ordered) or activate an existing trunk as a result of additional trunks or BANCs ordered for an existing service.

Changes in ownership or transfer of responsibility from one customer to another requires the discontinuance of service and the start of a new service. The Initial Ordering Charge-Switched Access and any appropriate Minimum Period Charges will apply per service change.

(2) Subsequent Ordering Charge - Switched Access (USOC - SESBX)

This charge applies on a per ASR basis for modifications to an existing service. This would include activities such as:

- Changes and/or additions to end office services optional arrangements (changes in hunt group or screening arrangements).
- The combination or splitting of FGA hunt groups.
- A move to a new point of termination within the same CDL.
- A change for rating purposes from one type of Transport to another (i.e., Special to Switched).
- Changes of a telephone number for FGA or Local Channels used with a Switching Interface.
- The activation or deactivation of SAC IDX codes on a per tandem level basis.
- The addition of Operator Services to an existing service.

(H) All nonrecurring charges (MRCs) for service connection are waived when a customer converts trunks from tandem-switched to direct-trunked or from direct-trunked to tandem-switched. MRCs are also waived if a customer orders the discontinuance of overprovisioned trunks. Waiver of these MRCs will continue through April 30, 1994.

Certain material on this page formerly appeared on Pages 62, 63 and 64.
Material omitted from this page now appears on Page 10.

6. SWITCHED ACCESS

6.4 Payment Arrangements and Credit Allowances (Continued)

6.4.3 Credit Allowances

- (A) Allowances for service interruptions are as set forth in 2.4.4 preceding.
- (B) Usage Sensitive Service credit will be included in the FGA monthly bills rendered to customers to reflect usage charges collected from their end users for intrastate calls. The amount of credit per minute is set forth in 6.6.5 following. The credit applies to the End Office Switching rate element for originating calls.
No credit will apply for terminating only FGA.

6.5 Rate and Charge Regulations

6.5.1 Rate Elements

- (A) For the purposes of determining the rates and charges for Switched Access, including SAC Access Service the following rate elements may apply:
Switched Transport Termination
End Office Switching
Information Surcharge
FGB, FGC, FGD and SAC Access Service are also subject to the Network Blocking charge per call as set forth in 6.5.2(1).

6.5.2 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Switched Access including SAC Access service.

(A) Types of Rates and Charges

There are two types of rates and charges that apply to Switched Access. These are usage rates and nonrecurring charges. They are described as:

(1) Usage Rates

Usage rates are rates that apply only when a specific rate element is used. These are applied on a per Access Minute basis.

(2) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for specific work activities in conjunction with the installation of service (including engineering) or change to an existing Switched Access Arrangement.

(a) Switched Access Ordering Charges

Switched Access Ordering Charges are associated with the work performed by the Telephone Company in connection with the receiving, recording and processing of customer service requests. There are two types of service ordering charges.

(1) Initial Ordering Charge - Switched Access (USOC - SESCL)

This charge applies on a per ASR basis, including those requests to add additional lines or trunks (whether ordered in trunks or based on BHMCs ordered) or activate an existing trunk as a result of additional trunks or BHMCs ordered for an existing service.

All nonrecurring charges (NRCs) for service connection are waived when a customer converts trunks from tandem-switched to direct-trunked or from direct-trunked to tandem-switched. NRCs are also waived if a customer orders the discontinuance of overprovisioned trunks. Waiver of these NRCs will continue through April 30, 1994. (M)

Changes in ownership or transfer of responsibility from one customer to another requires the discontinuance of service and the start of a new service. The Initial Ordering Charge-Switched Access and any appropriate Minimum Period Charges will apply per service change. (M)
