ANALYSIS STATEMENT

**Docket No. 930236-TL Order No. PSC-93-0512-PCO-TL
Marion County EAS**

All traffic data collected for the calling rate computation for this study is based on the March 1993 billing period. Calling main stations for this study included 1B, Semi-Public Paystations, PBX Trunks, Key System Lines, Centrex, Customer-Owned Paystations, and 1R. Calling main totals differ from access line totals. Access line totals include Public Paystations and Special Services (Private Lines, Special Access, FX, and Wats). Totals on both counts exclude test lines and official company lines.

All community of interest factors reported in this study are based on only the usage which ALLTEL bills on behalf of specific interexchange carriers. To the extent other IXC's may be carrying traffic of which we are unaware, the community of interest may be affected. Usage of this type is not available for study by ALLTEL since we do not perform the recording and billing function for all other carriers.

FX Lines	(Closed End)	McIntosh-Micanopy	2
	(Open End)	McIntosh-Micanopy	1

The exchanges of Citra, McIntosh, and Orange Springs are presently served by DMS-10 (Northern Telecom) offices.

In our best judgment there is little community of interest between the exchanges on any of these routes.

On the enclosed map the existing EAS routes are shown with solid arrows and the proposed routes are shown with broken arrows.

ALLTEL FLORIDA, INC.
 EAS - MARION COUNTY
 ACCESS LINE CLASSIFICATION DATA BY CLASSES OF SERVICE

All toll revenue between the following routes are Intrastate Intralata. Originating toll revenue carried by ALLTEL is being billed and kept by ALLTEL under the MABC plan for bill and keep of Intralata toll. ALLTEL pays Southern Bell terminating access for termination of these minutes of use. With the entry of intralata competition calls may also be carried and billed by interexchange carriers. ALLTEL would collect access charges from the carriers for this traffic.
