BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Conservation Cost) Docket No. 950002-EG
Recovery Clause) Filed: January 17, 1995

PETITION OF FLORIDA POWER & LIGHT COMPANY FOR
APPROVAL OF ITS CONSERVATION COST RECOVERY FACTORS

Florida Power & Light Company ("FPL"), pursuant to Section 366.82(2), Florida Statutes (1993), Florida Administrative Code Rule 25-17.015, and Order No. PSC-93-0709-FOF-EG, hereby petitions the Florida Public Service Commission ("Commission") for approval of the conservation cost recovery factors shown on Appendix I, attached hereto and incorporated by reference, to be applied during the April 1995 through March 1996 period. The new factors are requested to be effective starting with meter readings scheduled to be read on or after April 1, 1995 (cycle day 3) through March 31, 1996 (cycle day 2), and to continue in effect thereafter until modified by the Commission. The grounds for this Petition are:

1. FPL's address is 9250 West Flagler Street, Miami, Florida 33174. Correspondence, notices, orders, motions and other documents concerning this petition should be sent to:

Charles A. Guyton
Steel Hector & Davis
215 South Monroe Street
Suite 601
Tallahassee, Florida 32301

William G. Walker

FPSC-RECORDS/REPORTING

2. FPL is an investor-owned electric utility regulated by the Commission pursuant to Chapter 366, Florida Statutes. FPL is subject to the Florida Energy Efficiency Conservation Act ("FEECA"), and its Energy Conservation Cost Recovery ("ECCR") clause is subject to the Commission's jurisdiction. By rule, Florida Administrative Code 25-17.015, and orders, Order Nos. PSC-93-0709-FOF-EG and PSC-93-1845-FOF-EG (among others), the Commission has authorized conservation cost recovery factors and set forth their calculation. FPL's substantial interest in the recovery of its conservation-related expenditures will be affected by this proceeding.

3. The conservation cost recovery factors were calculated consistent with the order establishing annual conservation cost recovery factors, Order No. PSC-93-0709-FOF-EG, and the cost of service methodology set forth in Order No. PSC-93-1845-FOF-EG. The factors are designed to recover the projected conservation program expenses for the period April 1995 through March 1996 adjusted for (a) the estimated true-up for the period October 1994 through March 1995, and (b) the final conservation true-up for the period October 1993 through September 1994, as well as an interest provision for both true-ups. The calculation of these factors and the supporting documentation are contained in the prepared testimony of FPL

witness Maria I. Arias and in Exhibit MIA-2, which are being filed with and are incorporated by reference in this Petition. Exhibit MIA-2 consists of the conservation cost recovery forms that FPL and other utilities were directed to file by the Commission's Electric and Gas Department memorandum dated June 17, 1982.

4. FPL projects total conservation program costs, net of all program revenues, of \$173,573,866 for the period April 1995 through March 1996. The net true-up is an overrecovery of \$1,815,575, which includes the final conservation true-up overrecovery for October 1993 through September 1994 of \$2,079,887 that was reported in FPL's Schedule CT-1 filed November 14, 1994. Decreasing the projected costs of \$173,573,866 by the net true-up overrecovery of \$1,815,575 results in a total of \$171,758,291 of conservation costs (plus applicable taxes) to be recovered during the April 1995 through March 1996 period.

5. FPL is not aware of any disputed issues of fact.

WHEREFORE, FPL respectfully petitions the Commission to approve the conservation cost recovery factors shown on Appendix I, to be effective starting with meter readings scheduled to be read on or after April 1, 1995 (cycle day 3) through March 31, 1996

(cycle day 2), and to continue in effect thereafter until modified
by the Commission.

Respectfully submitted,

STEEL HECTOR & DAVIS
