## P R O C E E D I N G S

(Hearing convened at 6:00 p.m.)

CHAIRMAN CLARK: We'll call the hearing to order. We have some formalities we have to take care of first. Ms. O'Sullivan, will you please read the notice?

MS. O'SULLIVAN: Yes. Pursuant to notice, this time and place has been set for customer service hearing in Docket No. 950495-WS, application for rate increase and increase in service availability charges by Southern States Utilities, Inc.

CHAIRMAN CLARK: Thank you. We'll take appearances. We'll start with you, Mr. Feil.

MR. FEIL: Matthew Feil, Southern States Utilities, Inc., 1000 Color Place, Apopka, Florida.

CHAIRMAN CLARK: Mr. Twomey?

MR. TWOMEY: Mike Twomey, Route 28, Box 1264, Tallahassee, Florida 32310. I'm here on behalf of the Sugarmill Woods Civic Association, Inc., the Spring Hill Civic Association, Inc. and the Marco Island Civic Association, Inc.

CHAIRMAN CLARK: Mr. Shreve?

MR. BECK: Charlie Beck and Jack Shreve, Office of Public Counsel, Claude Pepper Building, Tallahassee, Florida, on behalf of the Citizens of the

1 state of Florida in opposition to the rate increase.

2 CHAIRMAN CLARK: Ms. O'Sullivan?

3 MS. O'SULLIVAN: Margaret O'Sullivan on  
4 behalf of the Commission Staff, 2540 Shumard Oak  
5 Boulevard, Tallahassee, Florida.

6 CHAIRMAN CLARK: Good evening, ladies and  
7 gentlemen. I'm Susan Clark. I'm Chairman of the  
8 Public Service Commission, and I'll be conducting this  
9 hearing. With me tonight are two other Commissioners;  
10 Commissioner Diane Kiesling and Commissioner Joe  
11 Garcia. And I think you can tell which is which.

12 We're here this evening to receive your  
13 comments as testimony for Southern States Utilities  
14 with regard to the proposed rate increase. We're  
15 particularly interested in your comments about the  
16 quality of the service rendered by the Company and  
17 about the proposed rates. Your comments are going to  
18 be recorded today by our court reporter, and they will  
19 become an essential part of the record. We can use  
20 your comments along with the other evidence gathered  
21 in this case to make our decision regarding the  
22 requested -- what rate increase.

23 To give you some background information  
24 about how the Commission processes the request for  
25 rate increase, the process takes about eight months

1 from start to finish. It begins when the utility  
2 files for a rate increase. It is a petition they  
3 file, which is a legal document that summarizes the  
4 reasons for requesting the rate increase. It is  
5 accompanied by voluminous information about the  
6 financial engineering and rate information applicable  
7 to the rate request.

8           This case began when Southern States filed  
9 an application with the Commission for increased water  
10 and wastewater rates. The utility has requested a  
11 two-tier uniform water rate, along with a uniform  
12 wastewater rate. The utility has requested a final  
13 rate increase of up to 45.9% for water and 30.21% for  
14 wastewater. The utility has also requested an interim  
15 rate increase which the Commission will decide on this  
16 Friday.

17           During the pendency of the proceeding,  
18 parties who have intervened -- and some of them are  
19 represented here today -- may solicit further  
20 information from the utility through the use of  
21 interrogatories and depositions of utility-sponsored  
22 witnesses. Intervenors may also sponsor their own  
23 witnesses to give testimony in opposition to the rate  
24 increase. This testimony will be given at the  
25 evidentiary hearing which is scheduled to take nine

1 days. It will take place in Tallahassee beginning on  
2 January 29th.

3 As part of this rate case process, we will  
4 be holding 14 customer service hearings throughout the  
5 state of Florida just like the one we are holding  
6 tonight. These hearings are specifically designed to  
7 gather information about the quality of service being  
8 rendered by the utility.

9 After all of the hearings have been  
10 conducted, the Commission will then meet once again in  
11 what is called a public meeting called an agenda  
12 conference. And it is at that agenda conference that  
13 we will decide whether or not Southern States has  
14 justified its request for increased rates.

15 During this proceeding, all parties are  
16 represented. Mr. Shreve and Mr. Beck are the  
17 citizens' representatives. As you've heard,  
18 Mr. Twomey is representing various homeowners and  
19 civic association intervenors. Mr. Feil is here  
20 representing the utility. And Ms. O'Sullivan is here  
21 representing the Staff of the Commission.

22 The purpose of the Staff -- it is the  
23 Staff's role to make sure that the record is fully  
24 developed and all the evidence the Commission may need  
25 to make a decision is, in fact, entered in the record.

1 I'd like to go ahead and introduce to you  
2 all the Staff that is here tonight. Sometimes people  
3 don't feel comfortable giving public testimony or they  
4 have a specific question they would like to ask our  
5 Staff about, so I would like to introduce them to you.

6 Starting at the top are Ms. O'Sullivan;  
7 right is Mr. John Williams, who is the director of our  
8 rate bureau. And then Mr. Troy Rendell is next to  
9 him. In the back of the room is my aide, Billy  
10 Stiles. Next to him is Mr. Alex Fernandez, who is  
11 from our division of consumer affairs. And Lee  
12 Monroe -- I'm sorry, that he's back here. He's an  
13 engineer with our water and wastewater Staff.  
14 Ms. Sandy Simmons is also here from our clerk's  
15 office. She's in the back. And I've introduced Maggi  
16 O'Sullivan to you. You can ask these people questions  
17 or solicit information from them, they are here to  
18 help you in any way that they can.

19 I would like to emphasize that our purpose  
20 is to hear from you. We want to hear whatever it is  
21 you have to say about this rate increase and the  
22 quality of service from Southern States.

23 We have been allowing parties to give  
24 five-minute presentations at the beginning of the  
25 service hearing, and I will allow them to do so at

1 this time. And then I'll give you further explanation  
2 on how we are going to proceed.

3 Mr. Feil, would you wish to give a  
4 statement?

5 MR. FEIL: Yes, briefly, if I may,  
6 Commissioner. First, I would like the SSU customers  
7 in Polk and Hillsborough Counties to recognize that  
8 SSU did not originally file a rate case which included  
9 communities SSU serves in Polk and Hillsborough  
10 Counties. The PSC recently decided that it had  
11 jurisdiction over SSU operations in Polk and  
12 Hillsborough County. Previously, SSU's water and  
13 wastewater service in those two counties were  
14 regulated by Polk County and Hillsborough County.  
15 After the PSC decided it had jurisdiction over SSU  
16 operations in Polk and Hillsborough County, the  
17 Commission told SSU to amend its then pending rate  
18 case to include Polk and Hillsborough County  
19 operations.

20 The Commission's decision that it had  
21 jurisdiction or authority over SSU in Polk and  
22 Hillsborough County has been appealed. When that  
23 appeal was filed, the rule of law was that there was  
24 an automatic stay applied to the decision appeal.  
25 What that means, basically, the Commission's decision

1 that it had the authority to set rates in Polk and  
2 Hillsborough Counties was suspended temporarily  
3 pending the outcome of the appeal. So although you've  
4 received notice of the pending rate case at this point  
5 in time, it's not at all clear whether or when the  
6 Commission can set rates for Polk and Hillsborough  
7 County SSU customers.

8           So the notices that you received have two  
9 "ifs" in them. The first "if" is the "if" regarding  
10 jurisdiction, if the Commission has the authority to  
11 set rates. The other "ifs" are; if the Commission  
12 approves the rate increase for SSU, and the last is  
13 what type of rates would the Commission approve.

14           Turning to the rate filing itself and why  
15 SSU has asked for rate relief, the principal reason is  
16 that since 1996, or as of 1996, SSU will have invested  
17 \$100 million in additional plant. Because it has made  
18 these investments, SSU will not be able to recover its  
19 operating expenses and earn a return on all the plant  
20 that it has invested. So since 1991 and through the  
21 end of 1996, SSU will have invested approximately \$21  
22 million a year in additional plant improvements.

23           Why have we made these plant improvements?  
24 The simple answer is that in most instances it's  
25 because we have been required to either by the EPA,

1 Environmental Protection Agency; the DEP, the  
2 Department of Environmental Protection; or water  
3 management districts; or local county governments.  
4 The experts that SSU will produce at the final hearing  
5 and the technical hearing that Commissioner Clark  
6 referred to will testify in support of the necessity  
7 for these improvements and improvements of the  
8 expenditures made.

9           The final question, which the Commission  
10 will answer as part of its proceeding, is with regard  
11 to rate structure. SSU has requested what's referred  
12 to as a uniform rate. Chairman Clark referred to that  
13 earlier. What the uniform rate represents is a  
14 pooling of all the expenses and all the plant for all  
15 of SSU's service areas throughout the state. SSU  
16 believes that ratepayers benefit from this uniform  
17 rate. If not immediately, then in the long term  
18 because of the cognitive scale and the ability to  
19 spread costs over a larger customer base. That's all.

20           CHAIRMAN CLARK: Thank you, Mr. Feil.  
21 Mr. Twomey?

22           MR. TWOMEY: Thank you, Madam Chairman.  
23 Ladies and gentlemen, let me comment on one thing  
24 Mr. Feil told you. He said that the PSC made SSU add  
25 these three counties: Hillsborough, Polk and

1 Hernando. That's true. And I think it was a mistake.  
2 SSU thinks it was a mistake. But what Mr. Feil didn't  
3 tell you was that earlier SSU asked the Public Service  
4 Commission to take the jurisdiction away from those  
5 counties, which the PSC did. They asked them to take  
6 it away. They did it. And now they're whining about  
7 that the PSC put them in the case.

8           Now, the PSC did it. They said they  
9 shouldn't have done it. I agree, They shouldn't have  
10 done it. There's going to be a representative, I  
11 think, from Hillsborough County this evening who is  
12 going to say they shouldn't have done it. It costs  
13 you all collectively \$500,000 more in increased rates.  
14 When they first came in, they asked for \$18.1 million.  
15 After the PSC and their Staff got through with them  
16 and it made them bring the three additional counties  
17 in, it jacked it up 18.6 million. And that's the  
18 number I'm going to ask you to keep your eyes on.  
19 It's what they're trying to take out of your pockets,  
20 not how much money out of my clients they're trying to  
21 give you.

22           Now, another comment on something Mr. Feil  
23 said. They spent \$100 million. Did you listen to the  
24 dates he gave you? Through the end of 1996. Ladies  
25 and gentlemen, it's October of 1995. These people,

1 this utility, is asking this group of folks and their  
2 Staff over there, not including Mr. Beck and  
3 Mr. Shreve who aren't with them, to give them a bunch  
4 of your money based upon their promise, this utility's  
5 promise, to spend lots of money on new pipes and sewer  
6 plants, et cetera, et cetera, in the name of  
7 environmental protection -- they always pin it on  
8 that, right -- and additional expenses, the things  
9 they promise they are going to spend a full year after  
10 the case is over. I don't trust that. I don't think  
11 Public Counsel trusts that, as far as we could throw  
12 one of their sewer plants. Don't you believe it  
13 either. Okay? Don't you believe it.

14           Now, it talks about uniform rates. I don't  
15 know where all of you all are from. If you're from  
16 Hillsborough, or Polk Counties, you don't belong here.  
17 You need to go to your county commissioners and say,  
18 "Keep us out of Tallahassee. We want you hands-on in  
19 the county taking care of us. We can see what these  
20 people are doing." Okay?

21           They are going to lose their case, their  
22 case that tried to take jurisdiction away from your  
23 counties is so bad it stinks -- with all due respect.  
24 And they are going to get beaten on it, not a chance  
25 they are going to win. But you need to get to the

1 backing. Press your county commissioners.

2 Now, they want to get this uniform rates  
3 thing. I helped kill the uniform rates that the PSC  
4 enacted two years ago, got it reversed in the First  
5 District Court of Appeals. Last week they were forced  
6 to order some rate adjustments. They did the right  
7 thing; they did what the court told them to do. It  
8 helped for -- it lowered some people's rates. It  
9 lowered my clients' rates. That's why I was trying to  
10 do it. It may have increased some of your rates.

11 What happened was you were getting a little  
12 bit of a free lunch for two years, and it took that  
13 away from you. They're going to ask for it again, and  
14 they're going to try and take your eyes off of the  
15 total revenue they're trying to get out of you, the  
16 18.6 million, by trying to make you guys fight with my  
17 clients over who should get a free lunch from whom.

18 My comments about that, what I'm going to  
19 say to you is look at the numbers. First of all, if  
20 you're from the two counties I've mentioned:  
21 Hillsborough, Polk and, third, Hernando, go to your  
22 county commissioners and say: "Get us out of here.  
23 Keep us in the county." And since that's up in the  
24 air, watch the total amount of money these people are  
25 doing. Watch for their new trucks. Watch what

1 they're spending in your area. Show the Commission  
2 what kind of dirty water you have. And ask them right  
3 now, ask the Public Service Commission and its Staff  
4 and the utility representative, "How is the \$18.6  
5 million that these people are asking for going to  
6 affect me if they get what they ask for?"

7           Half the time we've gone to these hearings,  
8 we didn't even know what the customers' current rates  
9 were, let alone how much they would be increased.  
10 Didn't know because the PSC didn't make the decision  
11 until last week.

12           Now, I see my time is up. Thank you very  
13 much.

14           CHAIRMAN CLARK: Thank you, Mr. Twomey.  
15 Mr. Shreve?

16           MR. SHREVE: Thank you, Madam Chair. I'll  
17 be very brief. Mr. Feil made a point that the Public  
18 Service Commission involved the two counties into  
19 this. Technically, that is correct. They were trying  
20 to be, I think, consistent with an earlier decision  
21 that was made at the request of Southern States  
22 Utilities, so I think the PSC was trying to be  
23 consistent with that.

24           Mr. Feil mentioned that that decision had  
25 been appealed. Southern States didn't appeal it. The

1 counties appealed it on your behalf. So what did  
2 Southern States do in that? He didn't tell you that.

3           The information that you have in your  
4 possession probably is not only confusing, but is  
5 probably incorrect. I know there are some people here  
6 from Pasco County. The rates that you are going to be  
7 paying now are not the ones that were sent in any of  
8 the notices that you received. And as a matter of  
9 fact, probably not in the report that's put out by the  
10 Public Service Commission here.

11           The citizens have a right to know what type  
12 of a rate increase they are facing. And I would defy  
13 anyone to take their filing requirements and go  
14 through there and determine what the individual  
15 exposure for each one of the systems or customers is.  
16 I don't even think it can be done.

17           We have filed several motions to dismiss  
18 this. We think it should be dismissed. They should  
19 come back in and do it right, when the rate question  
20 is settled down, and furnish the customers with  
21 accurate, proper information.

22           As far as their profit picture, they don't  
23 talk to you about the \$6 million they made when they  
24 sold St. Augustine Shores which they purchased from  
25 Deltona which was being supported by customers. They

1 don't talk to you about the \$19 million that they made  
2 when they sold a system in Sarasota County. Until the  
3 last Southern States case, whenever there had been a  
4 gain on a sale or a loss on sale, the benefit was  
5 either given to the customers or taken away from them.  
6 The last decision along those lines was Southern  
7 States in Lake County when there was a loss on sale  
8 and the customers had to pay for it.

9           You should have the benefit of the \$19  
10 million and the \$6 million profit and not let them run  
11 to whoever sold this. We are opposed to the rate  
12 increase. We think it's ill-founded. We don't think  
13 you received proper notice. We look forward to having  
14 our motions ruled on in the future.

15           Now, some of you from Hillsborough and Polk  
16 County will not be concerned with an interim rate  
17 increase. The interim rate increase will be acted on  
18 this next Friday. We filed motions on that. They  
19 have asked for an interim rate increase to be granted  
20 on the projected test year which we feel is illegal.  
21 That will affect Pasco County. It may even change the  
22 rates more, even after the rates that you have have  
23 been changed. Thank you very much. We are opposed to  
24 the rate increase.

25           (Applause)

1           CHAIRMAN CLARK: Thank you, Mr. Shreve.

2           We are about ready to begin to hear from  
3 you, the customers. I want you to know there are  
4 certain formalities we have to adhere to. One of  
5 which is that you'll be sworn in at the appropriate  
6 time.

7           Also, when you come to the podium to give  
8 your testimony, if you would, please give us your  
9 name, and spell your last name, please. Give us your  
10 address and indicate from which facility you take  
11 service. If you don't wish to give testimony or if at  
12 a later time there's something else you wanted to tell  
13 us, you can use the form at the back of this green  
14 sheet of paper, and you can send it into the  
15 Commission. Or you can give it to my aide or Alex  
16 Fernandez as you are leaving.

17           We are going to take customer testimony in  
18 the order that you've signed up. And when we get to  
19 that, Mr. Shreve will read your name. And if you  
20 would, please come forward.

21           I think we are at the stage now that we are  
22 ready to swear in all those people who have signed up  
23 to give testimony. We'll do it collectively. If you  
24 would all just stand and raise your right hand.

25           (Customers collectively sworn.)

1           CHAIRMAN CLARK: Mr. Shreve, would you call  
2 your first witness?

3           MR. SHREVE: Yes, thank you. Mr. McKnight.

4                                 - - - - -

5                                 **GARY L. MCKNIGHT**

6 was called as a witness on behalf of the Citizens of  
7 the State of Florida and, having been duly sworn,  
8 testified as follows:

9           WITNESS MCKNIGHT: Good evening. I have a  
10 handout that I would like to give out first.

11           COMMISSIONER KIESLING: Could you tell us  
12 your name, spell it, etcetera? Thank you.

13           WITNESS MCKNIGHT: My name is Gary, G-A-R-Y;  
14 middle initial L; last name McKnight, M-c-K-N-I-G-H-T.  
15 And I represent the North Lakeland Gibsonian Facility.

16           The reason I drove over here this evening,  
17 first of all, I was opposed to the rate increase; and  
18 I'm sure the Public Service Commission must be aware  
19 of the horror stories that exist with Southern States.  
20 And I have a horror story that will bend all horror  
21 stories.

22           Back on September 9th and 10th, we had some  
23 heavy rains in Lakeland. I'm the last house on  
24 Windermere Drive. The sewage line runs from canal to  
25 canal. There's existing canals. They're highlighted

1 in the area.

2 I'm the last house on the line. I was  
3 required when the house was put in to have a lift  
4 station. The line being lower than their sewer line,  
5 the water flows into a lift station; and then it's  
6 pumped out to their sewage line. And then their  
7 sewage line, it has gravity flow down to a pumping  
8 station at the end of the street, and then to their  
9 wastewater facility, treatment plant.

10 At about 4:00 o'clock on Saturday, September  
11 the 9th, I went to flush a toilet, and I noticed the  
12 toilet was overflowing. Two reasons cause a toilet to  
13 overflow when you're on a sewer system. Number one,  
14 something got into it, or number two, the sewage  
15 system has failed. The reason the sewage system --  
16 now, let me back up just a second. It was put in  
17 because at that time the homeowners on Lake Gibson  
18 were having a real pollution problem from the septic  
19 tanks, the water and wastewater running out into Lake  
20 Gibson. The EPA got involved and asked at that time  
21 if they couldn't develop a sewer system to be put into  
22 the homes that was on the lake so that the wastewater  
23 would not be discharged into the lake.

24 After I checked, I went outside to where my  
25 lift station is, and I felt my electric box where my

1 pump was. And it was so hot that it would burn your  
2 hand. So I went into the house and shut the water  
3 off. Mr. Freund, who accompanied me, happens to be my  
4 neighbor, had 44 people over to his house for the  
5 church function. And I had the duty to pick up the  
6 telephone and call him and tell them, say, "Look, you  
7 can't flush your toilet. If you do, all the water is  
8 running back into my house."

9 I had sewage water running out of three  
10 toilets, the showers, bathtubs, and everywhere else,  
11 kitchen sinks and everywhere else. This should run  
12 low. The number that's in the Lakeland book says,  
13 858-2504. For emergencies, Sundays and Holidays, call  
14 858-2504. I called and called and called. No answer.

15 So I had to get in my automobile, drive down  
16 to the plant to get the 1-800-number to call. At that  
17 time a serviceman come out within about 15 minutes,  
18 drove to my house, walked up, looked at it, and said,  
19 "It's not my problem. It's on your property."

20 I said, "Wait a minute. I have water coming  
21 into my house, sewage water. It's comes from your  
22 plant because your plant can't fill to the capacity."

23 He said, "Allow me to go down the street,  
24 check things out, and I'll be back in just a few  
25 moments."

1 I said, "Would you mind if I rode with you?"

2 He said, "Absolutely not." So I jumped into  
3 the truck and went down -- we went down four houses.  
4 We lift off a sanitary sewer cover and a plastic  
5 retainer. At that time the water was bubbling out of  
6 the sewer. The capacity was such, at a point, that  
7 the pipe couldn't even handle the water that was in.  
8 And yet they would take no blame for my lift station  
9 coupler coming off. So, therefore, I couldn't use my  
10 toilet, showers or anything else.

11 Tom was entertaining guests, and he had to  
12 tell his guests, if they wanted to go to the toilet  
13 that they had to go a mile-and-a-half up the road to  
14 the public supermarket because it's on the Polk County  
15 system, and it was working. Now, that's a real nice  
16 fear.

17 So I went two days without any sewage  
18 system. On Sunday morning I had to pull the van that  
19 had the proper equipment out of the church. We came,  
20 we dug, we lifted my lift lid and went into my lift  
21 station. And sure enough, it had come uncoupled, just  
22 as I knew that it had because of the inadequacy of the  
23 system. And once I repaired the system, plugged it  
24 back in, it blew off again because the lines were  
25 still so full of wastewater that they couldn't handle

1 the capacity even from my small lift station.

2           So when I contacted the serviceman again;  
3 again, no blame. "It's not our problem; it's your  
4 problem. Your system completely just blew off. It's  
5 not our fault. We've got a line out there."

6           So I walked the neighborhood. I talked to  
7 100 people who are serviced by Southern States into  
8 this area. 80 out of the 100 could not flush their  
9 toilets on Saturday, Sunday or Monday. Most of the  
10 ladies were so irate, it was the only weekend time  
11 they had off. They couldn't wash their clothes; they  
12 couldn't do shopping; they couldn't do anything. They  
13 couldn't take baths. They had children out there that  
14 was in -- in with water backing up into their homes.  
15 Everyone was in a tizzy. What can we do about it?

16           Well, I'll tell you what Southern States was  
17 kind enough to tell me. Put your system back together  
18 and don't use it 'til Tuesday. I told them that's not  
19 why I hooked up to a sewage system 19 years ago and  
20 spent the money to hook up. We hooked up to a sewage  
21 system so that the sewage system would work. So as  
22 the water flowed out and went to their pumping  
23 station, their wastewater treatment facility would  
24 handle it.

25           I'm a recent heart attack patient, and I

1 walk every morning at 6:30 in the morning. And I want  
2 to tell you that the stench coming from their  
3 wastewater treatment facility is absolutely atrocious.  
4 I have mentioned it to them, mentioned it to them and  
5 mentioned it them. And then the staff keeps saying  
6 the same thing. We're doing the best we can.

7           Earlier you were speaking of new trucks.  
8 This year Southern States bought three hundred  
9 vehicles for our area. I guess that's part of the \$18  
10 million that this gentleman is talking about. And  
11 they've given all the gentlemen raises over in our  
12 area.

13           I've talked to over 100 people in that area  
14 that could not use either their wastewater or their  
15 water conditions was so bad that for three days there  
16 was no functions in their daily household use. In the  
17 rate increase they're asking, it comes out to, in the  
18 Polk County area -- and by the way, I also have a  
19 picture that I would like to submit. I only have one  
20 Polaroid picture that I'm going to submit to the  
21 Public Service Commission to show you the water  
22 retention into their area. They can't even control  
23 their own rainwater runoff. It's stagnant. It's  
24 laying here into a dormant state.

25           If I may approach you all to produce this.

1           CHAIRMAN CLARK: Please do.

2           WITNESS MCKNIGHT: Now, to go one step  
3 further, what you are looking at is in the front of  
4 their operation. Behind they have two retention ponds  
5 that are supposed to take the wastewater treatment.  
6 They said the rate of the retention ponds were so full  
7 of water from the rain we had that they couldn't dump  
8 their wastewater. It had nowhere to go.

9           There's a canal that runs on the side and  
10 dumps into Lake Gibson. The man told me they could be  
11 severely fined by the EPA for dumping into the water  
12 into this system. I know for a fact to relieve the  
13 system that the water was dumped into the canal which  
14 then run into the Lake Gibson -- into our Lake Gibson  
15 area against government regulations. They'll swear  
16 that it didn't happen, but we know that it did.

17           First of all, what caused all this problem?  
18 Well SSU has talked about spending money. Well, last  
19 year or a year before, they put in a new wastewater  
20 treatment facility from the small retention ponds they  
21 had to a larger wastewater system. We have complained  
22 constantly about the atrocious smell coming from the  
23 system. They're right in the middle of a residential  
24 neighborhood on Daughtery Road.

25           The system was put in almost 30 -- 25 years

1 ago. And you can see from where I'm marked to where  
2 they're at, they're landlocked. They can't go to the  
3 east; there's houses. They can't go to the west;  
4 there's houses. They can't go to the north because  
5 that's swamp land and protected in the green water --  
6 in the green swamp area.

7           Two weeks, the August week of August 23rd  
8 and 24th, SSU came to Polk County in our area and did  
9 what they called smoke bombed our systems to see if  
10 they could find out where all the water was coming  
11 from. They found they had 36 infractions or busted  
12 pipes or rainwater, that was getting into their  
13 system. He said they were pumping two and-a-half  
14 times more water than what they were selling. And I  
15 said, "You know, my heart goes out to the you but  
16 that's not my problem. That's your problem. That's  
17 SSU's problem that should have been taken care of long  
18 ago."

19           And he came and knocked on my door, which I  
20 thought was very humorous. And he said, you know, we  
21 smoke bombed every area in the neighborhood, and even  
22 the television cameras -- and we can't get any smoke  
23 to come out your pipes. The man that was in charge,  
24 Mr. Sanderson (phonetic), didn't even know that I had  
25 a lift station and that was required, which I thought

1 was an amusing thing.

2 Part of the problem was a broken line on our  
3 easement between Mr. Freund and I. They did come out  
4 and repair that. It was a small break, and they told  
5 Mr. Freund that he would have to remove a tree in  
6 order for the line to be usable, completed.

7 Now, in every neighborhood and everywhere  
8 that you go, no one wants to have to take down a tree  
9 that's been there 100 years. I don't think that's the  
10 way that the Public Service Commission wants SSU to be  
11 the big brother.

12 I talked to the man that I bought my house  
13 from in 1980. I spoke with him last night. I had to  
14 chase him down; he lives up in Gainesville. He said  
15 the system was installed in 1977 with the guarantee  
16 that the two houses would be interconnected; and at  
17 that time, the sewage system, wastewater, would be  
18 maintained. And the reason the pump was put in  
19 originally is because they did not have enough gravity  
20 flow from my house to the end of the street, the  
21 pumping station, for the wastewater. So, therefore,  
22 the last house on the line -- because the county would  
23 not allow them to cross over a fresh water canal so,  
24 therefore, they had to put a lift station at my house.  
25 And the reason it was done was because when the pump

1 kicks on, it pushes the water gravity down the line  
2 into their pumping system.

3           On September 9th and 10th, their system was  
4 so full of water, it couldn't handle it. There was no  
5 more water that could be handled. I was in the  
6 furniture business for 26 years. I would certainly  
7 have liked to have a 10.5% ROI on my investment. And  
8 as these gentlemen have said, it's much higher than  
9 that. What they're asking for is absolutely  
10 ludicrous. Until the system is brought up to  
11 standards and brought up and then properly maintained,  
12 and then you come back to the residents of the Lake  
13 Gibson area, and we would cheerfully give them a rate  
14 increase. But not based upon the service that we are  
15 now receiving.

16           The quality of the water is poor. We've had  
17 to have a water softener installed at my house because  
18 the lime is so bad that the water valve in my  
19 dishwasher, ice maker, and washing machine has all had  
20 to be replaced because of the lime deposits in the  
21 water that we're drinking. This is justification for  
22 a rate increase?

23           If they spent all this money in Lakeland,  
24 I'm going to tell you, I've lived there 30 years, it  
25 must be the best hid secret going because you can't

1 see where they've spent any money. All I see is  
2 Southern States Utility trucks run up and down the  
3 road. And their typists send us a bill each and every  
4 month. But when we figure the rate increase, it would  
5 be 89%, and the gallonage charge would go up 106% into  
6 our area. Now, ladies and gentlemen of the Public  
7 Service Commission and Staff and the audience that's  
8 present, that's ridiculous. That's the most asinine  
9 thing I've heard of in my life is to ask for this type  
10 of a rate increase when we have the poor service  
11 that's going.

12           If the service is not any better than what  
13 it is, I have complained to the County Commission  
14 many, many times, the Polk County Commission, and  
15 they've told me that Southern States is regulated by  
16 the Public Service Commission so, therefore, the buck  
17 is always being passed. That's why I took my time to  
18 come over tonight because the buck stops here at the  
19 Public Service Commission at the present time because  
20 you do control what happens to SSU. I do not have any  
21 further comments, but I would answer any questions  
22 that the PSC Staff would like to address.

23           CHAIRMAN CLARK: Thank you, Mr. McKnight.  
24 Let me ask. Are there any questions? Staff, any  
25 questions? Commissioners, do you have any questions?

1 MR. SHREVE: If I could? You did receive a  
2 notice of this meeting, did you not? Did you say more  
3 than one?

4 WITNESS McKNIGHT: One.

5 MR. SHREVE: One notice. Were you aware of  
6 what the requested rates were before you came here  
7 tonight?

8 WITNESS McKNIGHT: No, we were not informed  
9 of what the rate increase would be until I met with  
10 you earlier.

11 MR. SHREVE: Thank you, sir.

12 COMMISSIONER GARCIA: Let me make several  
13 suggestions to you just so that you know. First off,  
14 I think that -- and this is for all the audience. If  
15 you notice on the green sheet that you've got, there's  
16 a number on the front cover. In the division of  
17 consumer affairs, there's a 1-800-number.

18 Anytime you have any problems, such as the  
19 ones that you're describing, you call that number.  
20 And we are jurisdictionally in charge of your area.  
21 That problem has to be taken care of, and there is a  
22 case filed already, a file number open on that issue.  
23 And the Company has certain requirements and rules  
24 that they have to comply with to meet or to address  
25 that problem and to fix it. So I suggest that

1 whenever you have any type of problem, you call that  
2 number. And we will intercede on your behalf to try  
3 and solve that problem if it's something that is our  
4 responsibility.

5 WITNESS MCKNIGHT: I will close with one  
6 note. Frank Sanderson, the Western Division Manager  
7 for SSU, I believe Polk, Pasco, Hernando, the service  
8 manager was in our Lakeland area last Thursday. He  
9 has agreed to install a check valve out on the street  
10 so that if the water ever backs up again, it can't  
11 come back into my house. I incurred about \$3,000  
12 worth of damage because of SSU. And, again, they just  
13 threw up their hands and said, "It's not my problem."

14 And any lady knows that when you can go two  
15 days and you can't flush your toilet and you can't  
16 wash anything with soap and you've got a sewage smell  
17 all over it, you've got an unhappy wife. And I had an  
18 unhappy wife, that I will say. And I would like to  
19 thank you for your courtesy.

20 CHAIRMAN CLARK: Mr. McKnight, you indicated  
21 that happened a month ago?

22 WITNESS MCKNIGHT: That happened on  
23 September 9th and 10th.

24 CHAIRMAN CLARK: Okay.

25 WITNESS MCKNIGHT: I could not use my

1 wastewater on September 9th, 10th, 11th or 12th,  
2 before we could use it. It was the 12th of September  
3 before it could be used.

4 CHAIRMAN CLARK: I would like to ask Lee  
5 Monroe, our engineer here, I'd like for you to  
6 investigate that and find out what Southern States'  
7 position is on it because it does sound like something  
8 that needs to be rectified.

9 WITNESS MCKNIGHT: They blamed it on the  
10 heavy rains. They said that the rains were so heavy  
11 that that's where it would -- caused all the problem.  
12 But I told them that when we signed up for the sewer  
13 service, we had the same problem with septic tanks.  
14 We did not expect the same problem with sewage. With  
15 a sanitary sewer, it's not supposed to act like a  
16 septic tank.

17 And it's a very embarrassing thing also,  
18 that I would like to add, when I have to go across the  
19 street and use the man's toilet that's on a septic  
20 tank and his works; and I'm on a sewer, and I can't  
21 even flush my own toilet. Thank you again.

22 MR. TWOMEY: Madam Chair?

23 CHAIRMAN CLARK: Thank you, Mr. McKnight.

24 MR. TWOMEY: A quick question. I'm over  
25 here.

1 CHAIRMAN CLARK: Yes, Mr. Twomey.

2 MR. TWOMEY: Something he said prompted a  
3 question. Have any SSU personnel, public relations  
4 people or operational folks been around to give you  
5 and your neighbors a presentation or a look forward on  
6 this rate case?

7 WITNESS MCKNIGHT: Absolutely not.

8 MR. TWOMEY: Thank you.

9 CHAIRMAN CLARK: Thank you, Mr. McKnight.  
10 Mr. Shreve?

11 MR. SHREVE: Flo Berninger.

12 - - - - -

13 **FLO BERNINGER**

14 was called as a witness on behalf of the Citizens of  
15 the State of Florida and, having been duly sworn,  
16 testified as follows:

17 WITNESS BERNINGER: My name is Flo  
18 Berninger. F-L-O, the last name is Berninger, B- as  
19 in boy -E-R-N-I-N-G-E-R. I live at 8508 Blue Ridge  
20 Drive, Tampa. Our company was formerly Seaboard, now  
21 SSU.

22 Okay, first off, we don't want a rate  
23 increase. We can't afford it. Our service is poor.  
24 Some days you turn on your water and the chlorine  
25 smell, you think you broke the jug of Clorox. I'm not

1 real good at this, so --

2 CHAIRMAN CLARK: Take your time.

3 WITNESS BERNINGER: My first complaint is  
4 the letter they sent out. Very intimidating, it's not  
5 clear. I was out over the weekend talking to some of  
6 the Spanish-speaking people in our neighborhood, they  
7 didn't understand the letter at all. And I tried to  
8 convince them to come out here tonight, but all they  
9 do is shake their head and say, "We don't understand."

10 And I don't understand it. I had my husband  
11 read it. He thinks the letter is misleading, vague  
12 and almost purposely deceitful, and he has a job that  
13 he can understand this, maybe better than I can.

14 In the afternoon if you want pressure after  
15 4:00 o'clock, forget it. There is no water pressure.  
16 I've lived in that house 17 years. For years, the  
17 water bill was reasonable. In the last three years,  
18 my water bill for the same amount has almost tripled.  
19 To me that's a little, you know, outrageous. I say  
20 that they don't deserve it. They're not giving us  
21 what we're paying for.

22 If we treated our customers the way we're  
23 treated, we wouldn't have jobs for very long. Thank  
24 you.

25 MR. TWOMEY: I have a question, ma'am. You

1 said that your rates were reasonable until the last  
2 three years. Does that coincide with the takeover by  
3 SSU?

4 WITNESS BERNINGER: I do believe it does,  
5 sir. I paid about \$30 to \$32. I also have had a  
6 water softener installed, which when one of their SSU  
7 lines broke, it destroyed my water softener, and now I  
8 have a \$350 bill to replace the water softener lines.

9 MR. TWOMEY: I understand. How about the  
10 presence of new SSU trucks in your neighborhood? The  
11 other gentleman mentioned new SSU trucks. Have you  
12 seen new SSU trucks?

13 WITNESS BERNINGER: They seem to have fairly  
14 new pickups. They're like S10s, the little Sonomas,  
15 little Ford Rangers. They seem fairly new.

16 MR. TWOMEY: You said that you thought the  
17 letter they sent you was misleading. Could you  
18 explain why you think it's -- aside from being  
19 unintelligible or not being able to understand it, why  
20 do you think it's misleading?

21 WITNESS BERNINGER: Because if you read  
22 this, first of all, it seems like Hillsborough County  
23 isn't included in this at all, which we know we are  
24 going to be hit; we've been hit in the past.

25 The rates in the back, if you read it, are

1 without counties. It seems like the rates are  
2 supposed to go down, which I don't believe will ever  
3 happen. I wish it would, but it won't. But it's just  
4 totally confusing for the average person to read. And  
5 I'm sure it's all the legal jargon that's necessary by  
6 the government, but they need to write it to where the  
7 average person can read it.

8 MR. TWOMEY: Thank you very much.

9 MR. SHREVE: Thank you very much.

10 CHAIRMAN CLARK: Any other questions?

11 COMMISSIONER GARCIA: Let me ask you  
12 something, ma'am. You said that there's a large  
13 percentage of the Hispanic people in that area that  
14 don't understand the --

15 WITNESS BERNINGER: Yes, sir.

16 COMMISSIONER GARCIA: It's just, what, a  
17 neighborhood or something?

18 WITNESS BERNINGER: It's called Greenridge  
19 Estates. It is a very mixed neighborhood. We're  
20 about low, middle income; and we have quite a few  
21 Spanish speaking. I talked to a gentleman, he said he  
22 had been in his house three years, and I asked him if  
23 he got the letter. He said, "I have it." And he was  
24 speaking broken English.

25 And I said, "Did you understand it?" He

1 said, "No." He said, "It scared me." And this was a  
2 gentleman who was maybe late 50s. There were three  
3 adults in the house. And he said -- and I think  
4 that's what it's done for, is to intimidate you from  
5 not coming here because then who's going to oppose it?

6 COMMISSIONER GARCIA: Thank you.

7 CHAIRMAN CLARK: Thank you. Mr. Shreve?

8 MR. SHREVE: Margaret Behanna.

9 CHAIRMAN CLARK: Mr. Shreve, you need to  
10 speak in the --

11 - - - - -

12 **MARGARET BEHANNA**

13 was called as a witness on behalf of the Citizens of  
14 the State of Florida and, having been duly sworn,  
15 testified as follows:

16 WITNESS BEHANNA: Well, I'm really not a  
17 very good speaker. My name is Margaret,  
18 M-A-R-G-A-R-E-T, Behanna, B-E-H-A-N-N-A. I live at  
19 7418 12th Avenue South in the Clair Mel area. I've  
20 lived there since February 1, 1977, and I've seen my  
21 water bill quadruple in those 20 years.

22 The biggest problem I seem to have there is  
23 the quality. I can be doing my laundry, my white  
24 uniform clothes, I go in to put the Downey into the  
25 washer, and the water is totally brown. My clothes

1 are totally brown. So what do I do? I take them up  
2 out of the washer. I go out to the swimming pool,  
3 grab chlorine water from the pool in the bucket of  
4 water and set my white clothes in it. Then I have to  
5 go out to my yard with my water hose and run off  
6 thousands of gallons of rusty water so that it doesn't  
7 get into the rest of my house.

8           And, normally, everyone else on my street  
9 works during the day. I'm the only person home  
10 because I work evenings. So I'm running off water for  
11 the whole neighborhood.

12           I called. They tell me, "We can't help  
13 you." I have said, "Please if you are flushing the  
14 line, I would like to request that you advise us on  
15 our monthly bill of what date you will be flushing the  
16 line and what time so that I can do my scheduled  
17 laundry accordingly."

18           "Well, that's a good suggestion,  
19 Ms. Behanna, we'll see that someone gets that." Only  
20 it never happens.

21           The worst thing I had happen was one day I  
22 was making a pitcher of Kool Aid. I was getting ready  
23 to pour the Kool Aid into a glass, my granddaughter  
24 reaching out for it, putting it up to her mouth. I  
25 turned the water on to make coffee, and in my coffee

1 pot is brown water. Of course, I didn't see that when  
2 I was handing it to my granddaughter because it was  
3 red Kool Aid. The brown mixed right in really well.  
4 I yanked that away from her, called the water company  
5 again. Well, "We'll see what we can do." Never  
6 anything was done.

7 And I really don't think that the price we  
8 pay, the quality of water is worth it. And if there's  
9 anything I can do to stop this rate increase, I'm  
10 going to do it. And that's about all I've got to say.

11 CHAIRMAN CLARK: Ms. Behanna, from what  
12 facilities do you receive service?

13 WITNESS BEHANNA: SSU, formerly Seaboard  
14 Utility.

15 CHAIRMAN CLARK: Okay. Thank you. Any  
16 other questions?

17 COMMISSIONER GARCIA: Ms. Behanna, if you  
18 have that happen again, please call our 1-800-number  
19 and file the case with us.

20 WITNESS BEHANNA: Well, I called consumer  
21 affairs once. I called the Health Department.

22 COMMISSIONER GARCIA: You called consumer  
23 affairs at the PSC?

24 WITNESS BEHANNA: I'm not sure. I just took  
25 the number from water in the directory.

1 I called the Health Department. The Health  
2 Department says there's nothing that they can do  
3 unless they can come out with their own container, put  
4 the water in it. In other words, I can't take that  
5 water from a jug from my home down and have it tested.  
6 And when I called, they said, Well, we have only one  
7 field officer. And he's busy, and he can't come.

8 COMMISSIONER GARCIA: All right. Well, call  
9 us the next time that that happens. At least I know  
10 there's still a jurisdictional issue. But since we --  
11 we may have this before us or not, please call our  
12 office -- the 1-800-number is on that green paper --  
13 the next time you have any problems.

14 WITNESS BEHANNA: Well, this is at least  
15 once or twice a month that this happens to me, so you  
16 certainly will be hearing from me in the future.

17 COMMISSIONER GARCIA: Great, great, thank  
18 you.

19 CHAIRMAN CLARK: Thank you.

20 MR. SHREVE: Thank you. Jennie Howell.

21 - - - - -

22

23

24

25

## 1 JENNIE HOWELL

2 was called as a witness on behalf of the Citizens of  
3 the State of Florida and, having been duly sworn,  
4 testified as follows:

5 WITNESS HOWELL: My name is Jennie Howell.

6 I live at 8512 Blue Ridge Drive, Tampa. My last name  
7 is H-O-W-E-L-L, and we were with SSU, formerly  
8 Seaboard. And I'd like to say before I get started  
9 that it took me several times of reading this letter  
10 before I fully understood what was going on. In fact,  
11 I wasn't even sure that we were supposed to be here  
12 tonight from the wording in the back. So I wanted to  
13 say that first.

14 But let me say, I've lived in this area for  
15 the past 17-and-a-half years, and I've seen a lot of  
16 rate increases, particularly in the past five or six  
17 years. SSU took over services from Seaboard Utilities  
18 in 1989. In January of 1990, I received a letter from  
19 SSU. The opening paragraph was: "When your utility  
20 became part of SSU, Florida's largest investor owned  
21 water, wastewater, L.P. gas utility network, we  
22 promised you that we will provide quality utility  
23 service no matter in which of our 27 service counties  
24 you live. We remain committed to that promise."

25 I don't see quality service from a company

1 that has tripled our water bill and not improved our  
2 drinking water or provided adequate fire protection  
3 for our homes. Let me read you something that was  
4 written up in the Tampa Tribune early last month. It  
5 is in reference to a town meeting that was held for an  
6 area in Palm River.

7 "It's well water that Palm River residents  
8 have been used to drinking, cooking, baking with, and  
9 keeping clean for the past 20 years. Residents are  
10 begging the City of Tampa to run water lines to their  
11 self-acknowledged low to middle income neighborhood  
12 along Causeway Boulevard near 78th Street. But Carl  
13 Burroughs, 2403 Wishing Well Way, showed well owners  
14 their alternatives. He proudly popped a meter bottle  
15 of potty brown tap water in front of the  
16 commissioners. The liquid was from a well, Burroughs  
17 said. He lives in an area serviced by Southern States  
18 Utilities in the City of Tampa.

19 "Commissioners were aghast. If I won't  
20 drink this water, then I'm going to find you something  
21 to drink, said Commissioner Phyllis Busansky, and I  
22 won't drink it. I wouldn't bathe in it, said  
23 Commissioner Sandra Wilson, who promised to hoist the  
24 bottle Wednesday in front of cameras televising the  
25 county commission meeting." So much for the quality

1 of water in the are that I live in.

2 How about fire protection for our homes?

3 The area that I live in isn't even up to code for fire  
4 hydrants. You have to look real hard to find one.

5 And in some areas, no matter how hard you look, you  
6 won't find one.

7 They have raised our rates in the past, and  
8 now they want to raise them again. We have been  
9 paying through the nose and not seeing any improvement  
10 in our community. They haven't even seen fit to give  
11 us an agenda as to when things might improve. Surely  
12 they must be aware of the problem.

13 From my point of view, they have a lot of  
14 nerve wanting another increase from us. We are a low  
15 income neighborhood, and yet we pay some of the  
16 highest rates in Florida. It just isn't fair. No  
17 more increases. Thank you.

18 CHAIRMAN CLARK: Thank you, Ms. Howell. Let  
19 me see if there are any questions. I have a question  
20 about the brown water. Ms. Behanna indicated that  
21 it's brown when they're flushing the line, or do you  
22 have it --

23 WITNESS HOWELL: Almost all the time.

24 CHAIRMAN CLARK: All the time, okay.

25 WITNESS HOWELL: It's not real brown, but it

2900

1 is real cloudy most of the time.

2 CHAIRMAN CLARK: It's brown sometimes, but  
3 it's always cloudy?

4 WITNESS HOWELL: Yes.

5 CHAIRMAN CLARK: Okay. Any other questions?

6 MR. TWOMEY: Yes, ma'am. Since SSU's taken  
7 over the operation of your system, has the  
8 availability of a customer service office where you  
9 pay your bills or make local complaints changed any?

10 WITNESS HOWELL: Yes. They closed the one  
11 in our neighborhood, and now the closest one is  
12 Apopka, Florida that I'm aware of. That's the one we  
13 have to deal with. We used to have one locally.

14 MR. TWOMEY: I see. And were the people  
15 more responsive when it was local than it is now?

16 WITNESS HOWELL: Responsive in what way?

17 MR. TWOMEY: I mean, were they there for  
18 you? That sounds like a --

19 WITNESS HOWELL: Well, they closed very soon  
20 after Seaboard left. Seaboard was always there. I  
21 mean, if I had a problem, they were out in my house  
22 like that. I'm not saying that the quality was any  
23 better than what it is now, but we weren't paying  
24 three and four times as much as what we're paying now.

25 MR. TWOMEY: But I think I hear you saying

1 that the customer service was better.

2 WITNESS HOWELL: Yes, the customer service  
3 was better because they have a local office.

4 MR. TWOMEY: Okay. Thank you very much.

5 CHAIRMAN CLARK: Thank you, Ms. Howell.

6 MR. SHREVE: Thank you. I'm having a little  
7 problem with this name, but it's -- I believe it's Rod  
8 at 2013 --

9 WITNESS WEST: It's Roy. (Laughter)

10 MR. SHREVE: Roy. I'm not even going to  
11 fool with this last name.

12 WITNESS WEST: West, W-E-S-T.

13 MR. SHREVE: West.

14 WITNESS WEST: I know I'm not going to need  
15 this microphone.

16 The whole point is we need a new waterline  
17 out there in the Clair Mel area. I understand that  
18 SSU is going to let Hillsborough County take this over  
19 in the year 2005. I don't know, this is my  
20 understanding. But why should we have to suffer the  
21 rate increase now when they are going to let them take  
22 over in the year 2005?

23 And another thing that I'm here about is our  
24 sewer line. Somebody's dumping sewer in the ditch  
25 back there behind my house. I can smell it, my

1 neighbor can smell it. We called the EPA, and the EPA  
2 said they came out and they couldn't smell it. So  
3 something's wrong with their nostrils. (Laughter)

4 We don't see no way they should be able to  
5 increase the rates. They just bought a new truck for  
6 the meter reader they hired. The only meter reader  
7 that's been there since I moved in there in '83. All  
8 right?

9 Now, I don't know how they read the meters  
10 before that, I assume they did. I watch them read  
11 mine because I know what day they're coming, it says  
12 on your bill. I get up and watch it and make sure  
13 they do it.

14 And they've got a water leak right now on  
15 the Tidewater on the west side of 78th Street. It's  
16 been there two months, boiling up through the street.  
17 They need to fix that. If they don't fix that, why  
18 should they get a raise?

19 COMMISSIONER GARCIA: What are you saying?  
20 That it's been leaking for two months?

21 WITNESS WEST: Yes, sir.

22 COMMISSIONER GARCIA: Just water flowing  
23 out?

24 WITNESS WEST: At least two months, coming  
25 out of two streets.

1 CHAIRMAN CLARK: And can you give us exactly  
2 where it is?

3 WITNESS WEST: Not exactly, but you can't  
4 miss it when you go by -- down the Tidewater on the  
5 east side of 78th Street.

6 CHAIRMAN CLARK: The name of the road is  
7 Tidewater?

8 WITNESS WEST: Yes, ma'am. They had two  
9 guys over there. Monday was a week ago, and they said  
10 they were looking at it to see what they were going to  
11 do about it. And they haven't done nothing yet.  
12 Haven't even started.

13 COMMISSIONER GARCIA: What system do you  
14 belong to?

15 WITNESS WEST: SSU.

16 COMMISSIONER KIESLING: Seaboard?

17 COMMISSIONER GARCIA: Seaboard?

18 WITNESS WEST: No, it's SSU, whatever that  
19 is, whatever that means. You all can figure it out.  
20 And you all talk about calling you to complain. I  
21 have called up there hundreds of thousands of times.  
22 Nobody's ever in the office that you need to talk to.

23 COMMISSIONER GARCIA: You've called the PSC?

24 WITNESS WEST: Yes, sir. I've called the  
25 EPA; I've called the county commissioners. Nobody's

1 in that office that you need to talk with at times.  
2 You're all, like, in a meeting or something. I never  
3 get ahold of anybody.

4 COMMISSIONER GARCIA: Mr. West, could you  
5 give me your phone number so I can have them call you?

6 WITNESS WEST: Why you want my phone number?

7 COMMISSIONER GARCIA: Well, so that they can  
8 speak to you about what problems that you're having.

9 CHAIRMAN CLARK: 626-2007.

10 COMMISSIONER GARCIA: 6007, you said?

11 WITNESS WEST: 626-2007, just like a James  
12 Bond. (Laughter)

13 I thought I could never say, you know, I'm  
14 going to have to use --

15 CHAIRMAN CLARK: Thank you, Mr. West. Any  
16 questions?

17 MR. SHREVE: Mr. Gus Alexakos.

18 - - - - -

19 **GUS ALEXAKOS**

20 was called as a witness on behalf of the Citizens of  
21 the State of Florida and, having been duly sworn,  
22 testified as follows:

23 WITNESS ALEXAKOS: My name is Gus Alexakos,  
24 G-U-S, A-L-E-X-A-K-O-S. I reside at 4625 Windy Lane  
25 spelled W-I-N-D-Y Lane in Zephyrhills, Florida.

1 First of all, I want to thank the Chairman  
2 and the Commission for holding these hearings here  
3 today at Temple Terrace on October 3, 1995, regarding  
4 Southern States Utilities proposed rate increase with  
5 the Docket No. 950495-WS.

6 Zephyrshores Estates is in Zephyrhills,  
7 Florida and is serviced by Southern States Utility in  
8 our water and wastewater system. We recommend the  
9 following: That there be no interim rate increase  
10 until a final decision is made by the Florida Public  
11 Service Commission, and I know you vote on this  
12 sometime next year, in the spring of next year.

13 We suggest you eliminate the basic charge  
14 for water and wastewater for those residents that do  
15 not live in their homes for six months during the  
16 summer because SSU now maintains the basic charge of  
17 \$17.80 a month. For those spending six months away  
18 from our park, this amounts to over \$100 for the  
19 period. And there's over 100 residents there, and  
20 they're not there during the summer. And this means  
21 that Southern States Utilities gain over \$10,000, and  
22 they haven't done a thing with that money in helping  
23 us.

24 We are very upset over Friday's Tampa  
25 Tribune in the Pasco section of Friday, September 29,

1 1995, where the Commission voted for the monthly bill  
2 that will triple in Zephyrshores Estates, and we don't  
3 think that's fair until the final hearing is done.

4           Let me tell you something that happens in  
5 our community. We'd like to recommend that SSU has a  
6 fiscal check on their audit on their fiscal records of  
7 all their utilities that they have in Zephyrshores  
8 Estates; that means the water and sewer plant. Find  
9 out how much they spend on our community. Improve the  
10 quality of the drinking water and also the flushing  
11 out system that should be done at least twice a year.

12           My neighbor across the street, he's over 90  
13 years old, his name is Mr. Kanar, K-A-N-A-R. And he  
14 lives at 4620 Windy. They reported all kinds of  
15 sediments in their water, and they were drinking just  
16 mucky water and sedimentation at the bottom for weeks  
17 and weeks. And finally, they called me across the  
18 street over because they knew I was a former mayor of  
19 Cary, Illinois. And so they said, "Why don't you come  
20 and help us out. You know something about water and  
21 sewer."

22           So on July 18, 1995, I personally contacted  
23 Dennis Floor (phonetic), their supervisor for the  
24 area. And I documented some of the information for  
25 this hearing. And we met the next day with his

1 technician, and they saw all the sedimentation. And  
2 we poured a glass of water. And, Commissioners, if  
3 you look at this water, it was nothing but cloudy and  
4 sediments. And I asked the supervisor's technician,  
5 "Would you like to have a glass of water of Mr. and  
6 Mrs. Kanar's?"

7 "Oh, no," they said. They didn't want to  
8 touch it. They didn't want to even sip it. But they  
9 did take a sample.

10 The next day they came out, and they flushed  
11 the system. The system hadn't been flushed in two  
12 years. Now, you all know that the system should be  
13 flushed at least twice a year. There's three flush  
14 out areas in our park. They only locate one. The  
15 other two they haven't even tried to locate.

16 I talked to the technician two weeks ago.  
17 We told them exactly where the one is on Carl Avenue;  
18 they haven't been out there yet, and they haven't  
19 found the third flush out system.

20 So people in Zephyrshores Homeowners Estates  
21 Park, they have to go buy Zephyrhills bottled water,  
22 and that's not right. So we're paying twice for the  
23 water. We've paying for Southern States Utilities'  
24 bills. We're supposed to be drinking that water, and  
25 we have to go to the grocery store to buy bottled

1 water. And that's not right.

2           The well that feeds Zephyrshores Estates is  
3 right next to our park. It should be one of the  
4 lowest cost maintenance wells to operate. All they  
5 have to do is add chlorine. I talked with the  
6 technician. He said that's all we do. We add no  
7 other chemicals, just chlorine. So you should look  
8 into the records and see how much they actually spent  
9 on that well, because we feel we've got the cheapest  
10 water at the highest price.

11           The next thing in our Zephyrshores Mobile  
12 Home Estates, there isn't one fire hydrant in our  
13 park, not one. So that means if we have a house fire,  
14 within 10 minutes that house is gone. That's  
15 terrible. That's why we have a whole bunch of us from  
16 Zephyrshores Estates right here because they'd like to  
17 have a fire hydrant. We need more than one. We need  
18 them all over the park, but they have never made an  
19 attempt to install one fire hydrant. If we had fire  
20 hydrants, as you all know, our homeowners insurance  
21 would be classified at a lower rate, and we'd like to  
22 see that happen.

23           On occasion the switch is made from Southern  
24 States Utilities water to the county. It would be  
25 nice if SSU notifies somebody in our board and the

1 homeowners because the check valves, if they're not  
2 working -- and some of those homes are over 20 years  
3 old -- if the check valve isn't working, you are going  
4 to have a back-up flow, it will burn out your water  
5 heater. That means more hundreds of dollars --

6 COMMISSIONER GARCIA: Sir, in a back up  
7 flow, what happens? Does the --

8 WITNESS ALEXAKOS: Right. There's a check  
9 valve, and the check valve, they're  
10 20-something-years-old.

11 COMMISSIONER GARCIA: But what does it do?

12 WITNESS ALEXAKOS: If they're faulty, if the  
13 pressure backs up, the instant pressure would back up  
14 the check-up valve and blow off that water heater.

15 COMMISSIONER GARCIA: Why? Because the  
16 county water pressure is high?

17 WITNESS ALEXAKOS: It's higher than ours.  
18 And during the summer they had to switch over to  
19 county, they never notified us.

20 COMMISSIONER GARCIA: Did they explain why  
21 they did that?

22 WITNESS ALEXAKOS: No, they never came to  
23 us.

24 A few years ago at the well site, there was  
25 a submerged pump. One of the pumps fell into the

1 well. It's still there, so it's really contaminating  
2 our well. In other words --

3 COMMISSIONER GARCIA: -- the pump is inside  
4 the well?

5 WITNESS ALEXAKOS: It's still in there.  
6 They've never retrieved it. They've never notified us  
7 that they've retrieved it, so the rust from that pipe  
8 is getting into the water system.

9 And I understand that SSU has proposed \$18  
10 million for another rate increase and how it affects  
11 Zephyrshores Homeowners Association and all our  
12 people, we would like to have that answered.

13 We were very upset when we got the notice  
14 the next day. We thought the Commission would vote on  
15 this sometime in May because we got the schedule on  
16 the hearing, and it's supposed to be going on in May,  
17 and here we see it's going to be triple our water  
18 rates, and they don't spend a dime other than a little  
19 chlorine they add into our well system. So I think  
20 you ought to look into that, and I think it should be  
21 rescinded, and all of our people here and all the 400  
22 homeowners feel the same way.

23 Back on August 7th, I sent in petitions that  
24 I personally went door to door. And I sent it to  
25 Chairman Clark, and I appreciate her response. This

1 evening I have petitions, additional petitions, of 23  
2 names I will turn in to you folks and a letter to the  
3 Chairman and to the Board, and I'd like to read this  
4 letter. Dear Chairman Clark: Zephyrshores Estates  
5 Homeowners Association, which is composed of 209 homes  
6 in Zephyrhills, Florida is opposed to Southern States  
7 Utilities proposed increase in their water and  
8 wastewater, the Docket No. 950495-WS. sincerely Chet  
9 Hillestad, Member of the Board of Directors,  
10 Zephyrshores Estates Homeowners Association. And I'd  
11 like to present those.

12 MS. O'SULLIVAN: Chairman Clark, have you  
13 identified that exhibits?

14 CHAIRMAN CLARK: Yes.

15 MS. O'SULLIVAN: Okay. And also you have  
16 identified Mr. McKnight's exhibit as well. And that  
17 would be Exhibit No. 11.

18 CHAIRMAN CLARK: And that's his map?

19 MS. O'SULLIVAN: That's correct.

20 CHAIRMAN CLARK: Okay.

21 MS. O'SULLIVAN: Composite of his map and  
22 Polaroid picture.

23 CHAIRMAN CLARK: Okay.

24 MS. O'SULLIVAN: This exhibit will be  
25 No. 12.

1 CHAIRMAN CLARK: Which is the letter and the  
2 petition.

3 MS. O'SULLIVAN: Petition.

4 (Exhibit Nos. 11 and 12 marked for  
5 identification.)

6 WITNESS ALEXAKOS: I hope you can check into  
7 that submerged pump. If you can check on that because  
8 we're drinking that water, and it may be contaminated.

9 COMMISSIONER GARCIA: After you finish  
10 speaking, you can see our engineer and let him know  
11 precisely what station that's at. We'll make sure to  
12 get someone out there right away to look at that.

13 WITNESS ALEXAKOS: Mr. Schmidt is a resident  
14 of our park, and he has a sample of the water he  
15 brought with us today. He'll be speaking to you, to  
16 the Commission. And we took that water sample from  
17 his house and I was present there and it was 2:30 this  
18 afternoon. So maybe you can take it to one of your  
19 labs.

20 COMMISSIONER GARCIA: Let me ask you. Why  
21 was the quality so different from your house to across  
22 the street, do you know? Is it better than --

23 WITNESS ALEXAKOS: We got very little  
24 sediment compared to the neighbor across the street.  
25 I'll tell you. When we saw the flush out being done,

1 it was filthy green and black, because I was there and  
2 so was Mr. Hilstead, who is a member of the Board of  
3 Directors. And we witnessed the flushing out, and it  
4 was darker than this floor.

5 And when I asked the technician, "When was  
6 the last time you did it?"

7 "Well, we did it two years ago."

8 I said, "You know you are supposed to do  
9 this at least twice a year?" And he didn't answer.

10 The supervisor, though, was very nice. I  
11 have to comment on that. When he came out, Mr. Kanar,  
12 who is 91, was getting the runaround; and I don't  
13 think that's right. So that's why I came to his aid.  
14 He's our neighbor, and a very excellent neighbor.

15 CHAIRMAN CLARK: Thank you.

16 WITNESS ALEXAKOS: I just want to thank you,  
17 the Commissioners and Chairman Clark, for giving us  
18 the opportunity to speak here this evening. And we're  
19 all in favor of no increase at all.

20 CHAIRMAN CLARK: Mr. Alexakos, I want to  
21 tell you -- did I pronounce your last name right.

22 WITNESS ALEXAKOS: Alexakos, yes.

23 CHAIRMAN CLARK: What happened with the  
24 increase you've been notified of recently is that  
25 there was a case about two years ago, perhaps longer

1 than that. We set uniform rates. The court  
2 overturned that decision and said we could not set  
3 uniform rates. We had to go back and figure those  
4 rates, and it resulted in an increase for some people  
5 and a decrease for other people. It's not this new  
6 case. It was an old case that we had to go back and  
7 change.

8 WITNESS ALEXAKOS: I understand that, but we  
9 still don't feel that we should be hit that severe  
10 with a case that -- how many years back does that go?

11 CHAIRMAN CLARK: Well, it took that long to  
12 get to the court system.

13 WITNESS ALEXAKOS: So here they're proposing  
14 another increase besides tripling our rates.

15 CHAIRMAN CLARK: Well, it is troubling to  
16 have rate increases that frequently.

17 COMMISSIONER GARCIA: I just want to  
18 reiterate what the Chairman is saying that -- and  
19 Mr. Twomey hit upon it and several have spoken on it.  
20 But the fact is that that rate increase to some degree  
21 is caused by the fact that the court overturned  
22 uniform rates. And there are certain systems that  
23 will receive a subsidy because their rates were so  
24 high from other parts of the state. And that's when  
25 you have those increases that certain water systems

1 are very expensive.

2 I also wanted to point out, since you have  
3 some experience in government, that the Company is  
4 required by law to file what they filed before us in a  
5 local public library. And I'm sure that the Staff has  
6 the address of where that library is. And you having  
7 had some government experience, you can take a look at  
8 their books and what they say they need and what they  
9 say they spent. And it may be even helpful for our  
10 Staff to have you look at it. But we certainly are  
11 looking at that.

12 I don't know; do we know the address of  
13 where that's filed?

14 MS. O'SULLIVAN: Here in Pasco County, is  
15 that correct?

16 WITNESS ALEXAKOS: Yes.

17 MS. O'SULLIVAN: It's Pasco County.

18 WITNESS ALEXAKOS: Is that the library?

19 MS. O'SULLIVAN: Right. On Library Road.

20 WITNESS ALEXAKOS: Okay.

21 MS. O'SULLIVAN: In Hudson, Florida.

22 WITNESS ALEXAKOS: In Hudson.

23 COMMISSIONER GARCIA: And any help you may  
24 need in deciphering that, you can call up our Staff,  
25 and they will be helpful with that.

1           WITNESS ALEXAKOS: Now with the increase  
2 they said triple the rates. I'm just going to go back  
3 to that. What can we do to eliminate that? What, do  
4 we have to go back to court?

5           CHAIRMAN CLARK: That case is over. We have  
6 a new case.

7           WITNESS ALEXAKOS: I can't see paying -- we  
8 can't see paying for somebody else's water especially  
9 when ours is at low minimum cost.

10          COMMISSIONER KIESLING: No, it was the other  
11 way around. You were getting a subsidy to keep your  
12 rates low from other systems. Once the court said  
13 that we could not do that, then we had to go back to  
14 what your rates would have been on a stand-alone  
15 basis.

16          WITNESS ALEXAKOS: But our homeowners don't  
17 feel that way.

18          COMMISSIONER KIESLING: No. That was the  
19 facts.

20          WITNESS ALEXAKOS: See, we're all retired.  
21 We're on fixed incomes.

22          COMMISSIONER GARCIA: And I would suggest  
23 that you, again, if you are retired, and you have the  
24 time, and you have some experience, take a look at  
25 that. Clearly you were receiving a subsidy from some

1 other place in the state of Florida. That's the  
2 concept of uniform rates so that everybody pays more  
3 or less the same thing.

4           You have that concept with your electric  
5 company, as an example, or with the phone company that  
6 serves you. Regardless of where you are with that  
7 phone company system, you pay the same amount for the  
8 basic system. So I would strongly suggest that you  
9 look at it because that's what the Company is telling  
10 you it costs to run your system, and that's the price  
11 that you're paying.

12           But that isn't what Staff reports today. In  
13 other words, that's a case that happened already. Two  
14 of us weren't even on the Commission at the time, and  
15 that isn't what we passed.

16           WITNESS ALEXAKOS: Do they ever have a  
17 senior citizen's rate for some of the mobile home  
18 parks?

19           CHAIRMAN CLARK: No. We don't have rates  
20 that are differentiated on ability to pay. That's  
21 only done in the telephone industry, and that's called  
22 a Lifeline rate. To my knowledge we don't have that  
23 in water and wastewater.

24           You had mentioned something that's  
25 suggesting that we audit the books and records of this

1 Company. We do audit their books and records in  
2 connection with the rate case. And it's my  
3 understanding that our auditors are at their  
4 facilities now conducting that audit.

5 Mr. Shreve's staff also goes over to their  
6 offices and does their own investigation of the  
7 justification for the rate increase they've asked for.  
8 And I think Mr. Shreve, likewise, has a number of  
9 people at their offices investigating the validity of  
10 this rate request. Thank you, Mr. Alexakos.

11 WITNESS ALEXAKOS: Thank you. And I want to  
12 thank the Commission for holding this hearing again  
13 and giving us the opportunity to say a few words. I  
14 hope you do something for our citizens.

15 CHAIRMAN CLARK: Thank you.

16 WITNESS ALEXAKOS: Do you have questions?

17 MR. SHREVE: Thank you very much for your  
18 presentation, and I have some questions that I think  
19 you should follow up Commissioner Garcia's suggestion  
20 at taking a look at the filing that has been filed by  
21 them. I think there's some information you are not  
22 going to find there because it's not in there, and I  
23 would like to make you aware of that.

24 Unless I'm mistaken, before the last rate  
25 case, you were on a \$5.69 flat rate for sewer, if I

1 recall. Now, the benefit that you have received from  
2 Southern States is up to where you are now, which  
3 supposedly is what is justified for your system at  
4 this point on a more of a stand-alone basis without  
5 worrying about that increase you just got, you are at  
6 that point. And I certainly understand how you object  
7 to being there.

8           With Southern States filing -- and you will  
9 not find this in that information. In the last rate  
10 case, the total revenue requirement that was  
11 approved -- in other words, what your system was  
12 responsible for water was \$86,000. They are now  
13 asking for \$124,000 that your system be responsible  
14 for.

15           In the last rate case, the revenue  
16 requirement approved by the Public Service Commission  
17 was approximately \$93,000, and they are now asking for  
18 \$187,000. Whether it's paid for by you or someone  
19 else, they want that much money. It is not justified.  
20 There is no way. And I think the people need to know  
21 factual information so that you can -- you still  
22 clearly have the ability, if you have the facts, I'm  
23 sure you'd like to make a presentation to this county.

24           WITNESS ALEXAKOS: Thank you for giving me  
25 those facts.

1 MR. SHREVE: Yes, sir.

2 WITNESS ALEXAKOS: One last thing here. And  
3 we've complained to Southern States Utilities about an  
4 odor at our sewer plants, and we've complained over  
5 and over. The Board of Directors has sent memorandums  
6 to them, they've met with them, invariable has been  
7 done. They did one nice thing, they painted the  
8 plant. But that doesn't stop the odor. All we got  
9 was a paint odor for a day, but we got the sewer odor  
10 back again two days after that. And it's still there.

11 Thank you, again, very much.

12 CHAIRMAN CLARK: Thank you.

13 MR. TWOMEY: I have a question.

14 MR. SHREVE: And I have one other thing I  
15 wanted to mention, a point you brought up, and I think  
16 it was excellent. At looking at the individual  
17 systems, the only way you can tell what the total  
18 amount that Southern States is entitled to is by  
19 looking at the individual systems and seeing what is  
20 required there. They have filed approximately 152  
21 different systems in past days, that would be many,  
22 many rate cases. You can say what you want to, but it  
23 is absolutely impossible for anybody to really do the  
24 job.

25 And the only group that has benefited by

1 filing a massive rate increase like that so that  
2 nobody can handle it is Southern States Utilities  
3 because nobody really gets to look at the books and  
4 records in the detail they should. (Applause)

5 CHAIRMAN CLARK: Thank you. Mr. Twomey, you  
6 have a question?

7 MR. TWOMEY: Yes. Let me ask you a question  
8 that may give you something of a visual inventory of  
9 SSU's facility, and that is -- and it may be  
10 consistent with the other testimony, it may not -- the  
11 guy that came out, the SSU technician that came out  
12 that couldn't find the right holes in the ground to  
13 flush out, what kind of pickup truck was he driving?  
14 Was it a shiny white new pickup truck, or was it an  
15 old pickup truck?

16 WITNESS ALEXAKOS: It was an older pickup,  
17 I'll be honest with you.

18 MR. TWOMEY: I want you to be honest.  
19 You're supposed to be; you're under oath. How about  
20 his supervisor? Was he in the same truck or a  
21 different truck?

22 WITNESS ALEXAKOS: He was in the same  
23 vehicle.

24 MR. TWOMEY: Okay.

25 WITNESS ALEXAKOS: They both came out. They

1 flushed the system. They saw how filthy dark it was.  
2 Like I said, it was darker than the floor, almost  
3 green. And they came again the following day. They  
4 flushed it again. They haven't been back to flush it.

5 My neighbor, Mr. Kanar and Mrs. Kanar,  
6 they're somewhat satisfied with the water at the  
7 present time because they don't get all that sediment.  
8 But they should have a regular system and flush the  
9 system periodically.

10 MR. TWOMEY: Sure. Last question. Customer  
11 service facility in your area, did you have one  
12 before, and has that changed under SSU? Did you ever  
13 have one?

14 WITNESS ALEXAKOS: No, sir.

15 MR. TWOMEY: Okay. Now do you go to the  
16 1-800-number in Apopka?

17 WITNESS ALEXAKOS: Yes.

18 MR. TWOMEY: Thank you.

19 WITNESS ALEXAKOS: And we go right to the  
20 supervisor now because we don't want to talk to  
21 anybody else.

22 CHAIRMAN CLARK: Thank you.

23 WITNESS ALEXAKOS: Thank you.

24 COMMISSIONER GARCIA: Mr. Alexakos, you did  
25 mention about the -- was it the fire hydrants? That's

1 a local government rule that you'll have to speak to  
2 your local officials. It's not something that we can  
3 require the Company to do.

4 WITNESS ALEXAKOS: So we have to go to the  
5 county board in other words?

6 COMMISSIONER GARCIA: That's right.

7 WITNESS ALEXAKOS: Okay, we will do that.

8 Thank you.

9 MR. SHREVE: Mr. Schmidt?

10

- - - - -

11

**GEORGE SCHMIDT**

12 was called as a witness on behalf of the Citizens of  
13 the State of Florida and, having been duly sworn,  
14 testified as follows:

15 WITNESS SCHMIDT: The name is George  
16 Schmidt, S-C-H-M-I-D-T. I live on 34834 Carl Avenue  
17 in Zephyrshores. I'd like to make a complaint on the  
18 water. I have a specimen here. It looks like my  
19 urine specimen, but it's not. It's water that was  
20 just drew before we come here. (Laughter)

21 And talking about the blow-off valves, I  
22 have a blow-off valve in my backyard which hasn't been  
23 blown off. I've been there for a little better than  
24 18 years. It's never uncovered or blown off.

25 We're on a dead end, and you've got to hold

1 your nose in order to get this water down, so I'm  
2 buying my water. Why should I pay SSU, this I don't  
3 understand, for drinking water along with a lot of  
4 other people in the park that buy their water.

5 So it's a hard thing to follow Mr. Alexakos,  
6 so I'll just keep this short so somebody else that  
7 wants to speak up can state their mind.

8 CHAIRMAN CLARK: Thank you, Mr. Schmidt.  
9 Any questions?

10 COMMISSIONER GARCIA: Hang on, Mr. Schmidt.

11 CHAIRMAN CLARK: We're thinking the water  
12 looks pretty good, but I think it's maybe the light in  
13 here is very poor.

14 MR. SCHMIDT: No, taste, taste. Drink it.

15 CHAIRMAN CLARK: Oh. (Laughter)

16 Well, you promise me this is water?

17 (Laughter)

18 MR. SCHMIDT: If you leave it set long  
19 enough, then it's going to give you sediment also. We  
20 shook it up pretty good just now.

21 CHAIRMAN CLARK: I've tasted worse, but it  
22 does have a taste.

23 MR. SCHMIDT: It does have a bad taste,  
24 you'd better believe it.

25 CHAIRMAN CLARK: We've had some sulfur water

1 down in Mount Dora; was it?

2 COMMISSIONER KIESLING: That was pretty  
3 sulfuric.

4 CHAIRMAN CLARK: Mr. Schmidt, thank you.  
5 Any questions?

6 MR. SCHMIDT: Thank you.

7 COMMISSIONER GARCIA: Thanks, sir.

8 CHAIRMAN CLARK: I'm going to take one more  
9 witness, and then we are going to take a break. As  
10 you can see, we have one court reporter, and I have  
11 not introduced her. This is Rowena Hackney. We're  
12 going to need to take one more witness, and then we'll  
13 take a break and let her rest for about 10 minutes.

14 MR. SHREVE: Edie Reihl? Is that right?

15 WITNESS REIHL: You said the last name  
16 right. You used my nickname. Do you want my real  
17 name?

18 MR. SHREVE: Yes.

19 WITNESS REIHL: It's Aida, A-I-D-A,  
20 R-E-I-H-L.

21 MR. SHREVE: But you have E-D-I-E as a  
22 nickname.

23 WITNESS REIHL: It's my nickname.

24 MR. SHREVE: Okay. So I was right, wasn't  
25 I?

1           WITNESS REIHL: Most people can't pronounce  
2 Aida.

3           MR. SHREVE: Okay.

4                           - - - - -

5                           **AIDA REIHL**

6 was called as a witness on behalf of the Citizens of  
7 the State of Florida and, having been duly sworn,  
8 testified as follows:

9           WITNESS REIHL: I live at 4631 Windy Lane in  
10 Zephyrhills, Florida. Do you want the zip? Okay.

11           After listening to former testimony, maybe  
12 my testimony won't be as great as what other people  
13 have said. But on August 12th I noticed the water  
14 pressure which is never, never very good. My water  
15 pressure stinks just like the water, and I have asked  
16 the man who comes up to check different things. I  
17 don't know if he checks, but he comes, with a white  
18 truck by the way. He has a new white truck.

19 (Laughter)

20           And I asked him about the water pressure,  
21 and he said he's doing it according to state law. I  
22 said, "How many pounds?"

23           "20/40."

24           I said, "That isn't very much poundage."

25           "Well," he said, "that's what I'm allowed to

1 do. That's it." So I didn't get anywhere.

2           On August 12, our water was decreasing to  
3 the point where I couldn't even draw a glass of dirty  
4 water. And I immediately -- this is on Saturday, and  
5 I called Southern States Utilities never thinking I'd  
6 contact them, but I did. And I spoke to the manager  
7 there, and I told her if something wasn't done about  
8 our water, when we had this session -- and at that  
9 time I thought it was in Tallahassee -- I would gladly  
10 go up there and be the first speaker.

11           Well, within an hour, I did have a man down  
12 who was very pleasant, and they connected our water to  
13 the county water because something electrical had  
14 blown up or gone off or something, and that's why we  
15 had -- eventually we had no water in our park at all.  
16 This is on August 12th.

17           They put us on county water. And the  
18 quality immediately was better, and we had much better  
19 pressure. Because with the amount of money we are  
20 paying for our water rates right now before they go  
21 up, I live alone, and I don't like paying over \$40 or  
22 \$50 a month for not even -- usually not even 5,000  
23 gallons of water a month. That's not much.

24           I forgot where I was. When we went on  
25 county water, it was much, much better. The man came

1 up, and I drew some water. Before he turned over to  
2 the County, I was able to get some water out of my --  
3 I told him that at times when I make a cup of tea, I  
4 boil the water, there's a little scum on the top. And  
5 there is always lime deposit on my stainless steel  
6 pans, so it's not caused by anything else but from the  
7 water.

8 I got a telephone call from Mr. Dennis  
9 Fuller in Tampa, who's quite nice to speak with. I  
10 told him the same story that I'm telling you. And I  
11 told him, the fellow -- once he turned us over to  
12 county water, I said go out and measure the poundage  
13 right now before it starts losing; and it was 48  
14 pounds. And I mentioned this to Mr. Fuller. I said,  
15 "We are on county water, and we are getting 48 pounds  
16 of pressure which seems to be quite good." And he  
17 thought that was an ideal amount. It was passable.  
18 It wasn't too high because I understand with plastic  
19 pipes that they may break. But he said that that was  
20 a reasonable poundage. I also told him the quality of  
21 water was so bad. We live in Zephyrhills, Florida who  
22 advertises wonderful water, great water, spring water;  
23 and our water is so bad I am ashamed to have guests in  
24 to have to drink it.

25 Now, I think something should be done. I

1 told Mr. Fuller I didn't think it was right that many  
2 of our people in the park have to buy water softeners  
3 and other things just to make the quality better.  
4 That should be done at the well. Why don't they spend  
5 some money? And if the well is so bad, dig a new one.  
6 They're collecting the money. Give us the quality.  
7 I'll pay the amount I'm paying, but give us the  
8 quality of water.

9 In this United States, we should be getting  
10 a much better quality than the rest of the world. We  
11 talk about third world countries, maybe we ought to  
12 look at ourselves. That's all I have to say.

13 CHAIRMAN CLARK: Thank you, Ms. Reihl. Any  
14 questions?

15 Okay. We're going to take a break until  
16 quarter of 8:00. Thank you.

17 (Brief recess.)

18 - - - - -

19 CHAIRMAN CLARK: Ladies and gentlemen, can  
20 we reconvene the hearing?

21 UNIDENTIFIED WITNESS: Can we limit debate  
22 to four minutes or so, so we won't be here all night?  
23 Not to be redundant, but a lot of people are saying  
24 the same things, and I've got a lot to say, too.

25 CHAIRMAN CLARK: Let me just -- we don't

1 limit people on how long they can speak because we do  
2 not come to these things that often. But generally,  
3 people limit themselves, and I think it will go  
4 faster. If you choose to, you can simply adopt the  
5 testimony of somebody who has appeared before you.  
6 But we do want to hear from you. Mr. Shreve?

7 MR. SHREVE: Mr. Pepin?

8 COMMISSIONER KIESLING: Sir, I couldn't hear  
9 you.

10 MR. SHREVE: Pepin.

11 - - - - -

12 **PAUL PEPIN**

13 was called as a witness on behalf of the Citizens of  
14 the State of Florida and, having been duly sworn,  
15 testified as follows:

16 WITNESS PEPIN: Good evening. My name is  
17 Paul Pepin, P-A-U-L, P-E-P-I-N. I live at 4540  
18 Newcomb Avenue in Zephyrshores. It's in Zephyrhills.  
19 I'm just here tonight to let you know that I'm the one  
20 that makes the daily trips to the market or to the  
21 machine to get the water for our neighbor to drink  
22 that water for the last nine years.

23 While I'm at it, I'd like to bring up an  
24 incident that happened six months ago with the sewage  
25 line. We developed a problem with the water backing

1 up. We have to keep a plunger by our toilet when we  
2 flush it. Anyway, six months ago, I called SSU to  
3 come give me a hand to solve our problem. And this  
4 man came along in a brand new white shiny pickup truck  
5 that said SSU on it. He got out, and he opened up the  
6 line for us on the outside. And he said, "Yep. You  
7 have a problem there someplace." He measured out  
8 where the problem was, it was quite a ways out. And I  
9 asked him if he had a snake. He said, "No, that's  
10 your problem."

11 He left with his shiny white pickup truck,  
12 and I called Mr. Plummer (phonetic). I believe he's  
13 from Springhill. It was a Dade City number. He come  
14 along, and he put a snake in there. It cost \$150.  
15 And I asked him where the plugage was. And he said it  
16 was up in the main line, but that's pretty hard to  
17 prove. It still cost me \$150.

18 Talking about the smell in that area where  
19 the tank is, nine years ago when the wife and I came  
20 to Zephyrshores we were led to a house on Dale Avenue  
21 in Zephyrshores, went in. A very nice house, pretty.  
22 Real nice. It had sprinklers on the lawn and  
23 everything. Came out. I got this smell and I said,  
24 "What is that smell?"

25 And the man turned around and said, "Oh,

1 it's just that tank back there." And I looked, and  
2 the smell was horrible, to give you an idea what the  
3 smell's like.

4           What it comes down to, it looks like we're  
5 going to be paying 54% of what we are paying now, and  
6 we're not getting anything for it. Now, \$150 to  
7 somebody that's on a fixed income, it's pretty stiff.  
8 And I understand that we are paying three times more  
9 for storage wastewater, I'd like to know why. I'd  
10 like to know why we're not getting an investigation,  
11 you know, to try and straighten out things, and we  
12 wouldn't mind paying the size amount that they're  
13 asking for. That's all I have to say. Thank you.

14           CHAIRMAN CLARK: Thank you, Mr. Pepin. Any  
15 questions? Thank you.

16           MR. SHREVE: Thank you, sir. Jane Zinkhan?

17

- - - - -

18

**JANE ZINKHAN**

19 was called as a witness on behalf of the Citizens of  
20 the State of Florida and, having been duly sworn,  
21 testified as follows:

22           WITNESS ZINKHAN: My name is Jane, J-A-N-E,  
23 Z-I-N-K-H-A-N. I was formerly serviced by Seaboard.  
24 At the time that Seaboard was our water company, the  
25 water was so poor that I had to buy a very expensive

1 water conditioner. But that wasn't so bad because the  
2 rates were not a drop in the bucket to what they are  
3 now.

4           For the month, the bill, 5/11 through 6/9 --  
5 I live alone, no one else was there during this  
6 month -- my water and sewer bill was \$70.77.  
7 Forty-five cents higher than my electric bill with  
8 central air. I think that's quite upsetting. So I  
9 pick up the phone and I called SSU. They were very  
10 rude to me on the phone, said, "Well, you've used the  
11 water."

12           I said, "Could the reader not have made an  
13 error?"

14           "No."

15           I said, "Okay. I will be watching."

16           The next month I was out of state for two  
17 weeks out of the month because my mother passed away.  
18 That bill was \$45.24. So for two weeks of water  
19 usage -- they kept telling me I had a leak somewhere;  
20 I don't even have a drippy faucet because that drives  
21 me crazy. My faucet has lasted much longer with my  
22 water conditioner. I used to replace faucets very,  
23 very regularly, and I haven't had to do that since I  
24 had a water conditioner. The water is so poor.

25           This past month is a 24-day billing period,

1 \$41.67. So that's actually, basically, a little over  
2 three weeks. I'm waiting to see what my next bill is  
3 going to be. I was in the hospital for a week and  
4 then in Georgia for two weeks because I broke my back.  
5 I was up there recuperating. But I want to see how  
6 they are going to answer to that bill.

7           This last bill, I saw the meter reader going  
8 up the street, and I don't know what kind of a truck  
9 he was in because he walks. Maybe he's hiding that  
10 shiny new truck; I don't know. But I saw him walking  
11 up the other side of the street, so I went out and  
12 read my meter because they keep arguing with me I have  
13 a leak.

14           I read the meter. I went back in the house.  
15 I did not use one drop of water. And when he went  
16 back, read my meter, I went back outside; the meter  
17 had not changed one bit.

18           I had asked on this June to July bill if  
19 they would please come and read my meter. I said the  
20 man just read them today. And the lady said, No, he  
21 can't do that. And I said, Why can't he? He's a  
22 human. He can make an error.

23           "Well, we'll get him back."

24           Two weeks later he came, and he read it.  
25 And he said, "Your washing machine must have been

1 running, because the meter was running." He didn't  
2 knock on the door and tell me he was there, he left a  
3 note hanging on the door which I later found. It had  
4 blown off. I'm not sure exactly, it was several days  
5 prior to that before I found it, you know, that he was  
6 there. They are very uncooperative.

7 Back, I think, approximately a year or so  
8 ago, they raised our basic sewer rates to \$19.16.  
9 They no longer were charging for the extra water usage  
10 as Seaboard used to do. Now, they have switched,  
11 they're back up to charging your basic rate plus  
12 additional for each gallon of water you use.

13 I've been predicting that we were going to  
14 have a water increase. I said, They've raised the  
15 sewer, now they've got it up really, really high. And  
16 now they are going to give us the water. And I was  
17 right.

18 I have checked with several friends on their  
19 water bills who get water from either Temple  
20 Terrace -- I'm not sure where that comes from or the  
21 City of Tampa. They are astounded at my water bill,  
22 my water and sewer bill. They said they have never  
23 heard of such a thing, especially for one person.

24 This gentleman over here was talking about  
25 some horror stories. I had one last -- well, no. Let

1 me back up before I tell the horror story. With the  
2 water conditioner, I have had brown water which should  
3 not be. That means that there is so much that the  
4 water conditioner cannot take it out. They had a  
5 ruptured pipe on 38th Street. My water was running in  
6 pure mud. I ran, literally, hundreds of gallons of  
7 water out trying to clear it up, and I called and said  
8 is there going to be an adjustment made?

9 "We can't do that."

10 Now, about 50% to 75% of the time, even with  
11 a water conditioner that has been totally overhauled,  
12 everything is new on it, the water is still brown.

13 Now, the horror story. I came home from  
14 work one night, went in the bathroom to change my  
15 clothes, and I heard some splashing in the toilet, a  
16 big sewer rat. I nearly died. I didn't know what to  
17 do, so I saw some neighbor's lights on and the  
18 gentleman was kind enough to come over and kill that  
19 rat.

20 I had never seen a sewer rat before. If  
21 that does not put the fear in you -- you know, you're  
22 afraid to sit down on that toilet because you are  
23 afraid there might be a rat come swimming up. I  
24 watched and I watched. I was on vacation. Well, I  
25 had called SSU and told them about it, and they said

1 "Oh, no it can't be. They can't come up."

2 I said, "Don't tell me. They're not in my  
3 house. I have never seen a rat like this ever  
4 before."

5 So they said, "Well, there's nothing we can  
6 do. Call the county."

7 So I called the county, and the county said  
8 they have no program for rats. So after the second  
9 one came up, the lid was closed and I was on vacation  
10 and I had my neighbor check every day to make sure  
11 there was no sewer rats. I didn't want the things  
12 running loose in my house. And the last day I was  
13 gone, another one came up. It was a younger one, and  
14 it had drown by the time I got there. It drowned, or  
15 it probably died of exhaustion. Then they came out  
16 and still denied that this could possibly happen but  
17 did put some poison in the sewer. Thank you.

18 CHAIRMAN CLARK: Thank you. Any questions?  
19 Thank you, Ms. Zinkhan.

20 MR. SHREVE: Thank you. Anne Ryan?

21 - - - - -

22

23

24

25

1 I was confused when I came here in reference  
2 to this appeal, and I don't know whether I'm still  
3 quite sure on it. I understand it has not been  
4 satisfied as yet, is that correct, on this appeal?

5 CHAIRMAN CLARK: The appeal on the uniform  
6 rates was decided by the court. They sent it back to  
7 us and told us to change the rates, which we did. And  
8 those new rates, you'll be notified of them shortly,  
9 and they will go into effect after that.

10 COMMISSIONER KIESLING: Are you asking about  
11 the appeal on whether Hillsborough County will --  
12 (simultaneous conversation)

13 CHAIRMAN CLARK: Oh, I beg your pardon.

14 WITNESS RYAN: Or who will set our rates.

15 COMMISSIONER KIESLING: That is still on  
16 appeal, and it could be a year or two before the court  
17 rules on that.

18 WITNESS RYAN: And at what time? And I  
19 meant it to the gentleman a moment ago. We had been  
20 told that we would be getting an increase on our rates  
21 because the water they were getting from the City of  
22 Tampa would cost more so it would cost us more; is  
23 that correct?

24 CHAIRMAN CLARK: Currently the rates that --  
25 you're in Zephyrshores?

1 WITNESS RYAN: No, I'm in southeast Tampa.

2 CHAIRMAN CLARK: Seaboard?

3 WITNESS RYAN: It was Seaboard Utilities.

4 CHAIRMAN CLARK: Okay. At the present time  
5 the county is regulating your rates.

6 WITNESS RYAN: Okay. Well, I guess I have  
7 that much straight. I thank you much for listening to  
8 me.

9 CHAIRMAN CLARK: Thank you, Ms. Ryan. Any  
10 questions?

11 MR. SHREVE: Thank you. Donald Odom?

12 - - - - -

13 DONALD ODOM

14 was called as a witness on behalf of the Citizens of  
15 the State of Florida and, having been duly sworn,  
16 testified as follows:

17 WITNESS ODOM: Good evening, Madam Chairman,  
18 Commissioners. I'm going to be very brief. I'm here  
19 to --

20 COMMISSIONER KIESLING: Would you give us  
21 your name, etcetera. Thank you.

22 WITNESS ODOM: I'm sorry. My name is Don  
23 Odom. I'm a chief assistant county attorney in  
24 Hillsborough County, and I'm here in two capacities.  
25 First of all, the county is a customer on the SSU

1 system. We have a couple of -- a park facility and a  
2 health facility there. Well, actually, we're  
3 customers.

4 In addition to that, as you know, the county  
5 is a party in the case, Docket No. 950495, which is  
6 the case that deals with the jurisdiction of the  
7 Commission over SSU systems in Florida. And as you  
8 know, you did run an opinion on that issue on June the  
9 20th. We are of the opinion that the inclusion of  
10 Hillsborough County in this uniform rate case is  
11 improper and that it should not continue. There  
12 again, we have filed a petition requesting a formal  
13 administrative hearing on that issue.

14 Just briefly, the petition alleges that in  
15 your August 1st agenda conference when you decided to  
16 include Hillsborough County as one of the counties  
17 that would be included in this uniform rate case, you  
18 decided a matter that was of substantial interest to  
19 Hillsborough County. And that being the case, we are  
20 of the opinion that we should have had notice and  
21 opportunity to appear and protect our interest in that  
22 proceeding, which we were not allowed to do that. So  
23 that issue will be decided hopefully in the  
24 administrative arena before your body or perhaps on  
25 the appellate level.

1           That being said, I would like to emphasize  
2 that my appearance here in no way waives our ability  
3 to contest your ability or your jurisdiction to  
4 include us in this rate case. We would like for you  
5 on behalf of the Commission to be cognizant of the  
6 type of rate impact that the proposed uniform rate  
7 would have on Hillsborough County. I don't want to be  
8 redundant. I know that you have ample documentation  
9 that illustrates the impact; but for purposes of  
10 convenience and clarity, the staff, the utility's  
11 partner, has prepared an exhibit that I would like to  
12 present to you at this time.

13           The exhibit does illustrate the three SSU  
14 systems that are operating in Hillsborough County:  
15 Seaboard, Valrico Hills, and Hershel Heights. And if  
16 you examine the rate comparisons there, you will find  
17 that in some instances the increase is as much as  
18 198%.

19           And in the case of Valrico Hills, the system  
20 for the average bill would go from a current, under  
21 the county's regulation of \$24.30 to 72.48. We think  
22 that this is absolutely outrageous. We think that our  
23 citizens and our customers shouldn't be paying these  
24 types of rates because all it does is go to subsidize  
25 other people in the system. So I'd like to, on behalf

1 of the Board of County Commissioners, register our  
2 county's objection to the imposition of these rates.

3 I would like to just clear up one thing that  
4 was said. I think a previous gentleman testified that  
5 Hillsborough County intends to take over all the  
6 systems by the year 2005. We do have a long-range  
7 plan in our land use policy that sits as a goal to  
8 take franchise systems off line and go to the original  
9 concept, but it's a goal. And we have no intention or  
10 we have no authority to take over upon any existing  
11 systems, so that's merely a long-range plan.

12 COMMISSIONER GARCIA: Can I ask you a  
13 question? As a county attorney, though, you would, if  
14 the county showed desire, you could take over these  
15 systems using eminent domain as long as you reimburse  
16 the utility?

17 WITNESS ODOM: As long as we actually  
18 compensate --

19 COMMISSIONER GARCIA: All right.

20 WITNESS ODOM: -- that's correct. That's  
21 all I have. Are there any questions?

22 CHAIRMAN CLARK: No, Mr. Odom. Thank you.  
23 We'll mark your SSU franchise's billing comparisons as  
24 Exhibit 13.

25 WITNESS ODOM: Thank you.

1 (Exhibit No. 13 marked for identification.)

2 MR. SHREVE: Thank you, Mr. Odom. Tom  
3 Freund?

4 - - - - -

5 TOM FREUND

6 was called as a witness on behalf of the Citizens of  
7 the State of Florida and, having been duly sworn,  
8 testified as follows:

9 WITNESS FREUND: Tom Freund, F-R-E-U-N-D,  
10 520 Windermere Drive, Lakeland, in utilizing the Lake  
11 Gibson facility.

12 COMMISSIONER GARCIA: Mr. Freund, could you  
13 speak into the mike? We can barely hear you.

14 COMMISSIONER KIESLING: And I didn't catch  
15 your first name, sir.

16 WITNESS FREUND: It's Tom.

17 COMMISSIONER KIESLING: Tom? Thank you.

18 WITNESS FREUND: Madam Chairman, you were  
19 specifically asking for quality comments; is that  
20 correct?

21 CHAIRMAN CLARK: Yes. We are particularly  
22 interested in hearing about the quality of service you  
23 receive from Southern States.

24 WITNESS FREUND: My neighbor addressed it  
25 fairly well, the first speaker, and I would simply

1 like to react to the things that have been said here  
2 today, as well as our own reaction. It seems to me  
3 that these folks really have an administrative problem  
4 from the top down. Some of the things could be  
5 handled very easily. For example, if I may say that  
6 the fact that our system was overloaded, whereas the  
7 City of Lakeland simply brings out trucks and hauls  
8 out when they are overloading their system, that could  
9 have been copied quite easily it would seem. They  
10 could have at least provided portable johns for us;  
11 that would have been helpful. The public relations is  
12 just too poor.

13           We've had some concerns about water quality.  
14 I don't have any documentation. Some of my neighbors  
15 have gone to bottled water.

16           I would like to say that I am pleased, Madam  
17 Chairman, that you are doing an account -- an  
18 auditing. Certainly, that's the place to start from  
19 my viewpoint, because I've got more questions than I  
20 have answers here when I look at the piece of paper  
21 which was brought to us. If I may address some of  
22 those, even though they are not quality?

23           CHAIRMAN CLARK: Go ahead.

24           WITNESS FREUND: Does the state or the  
25 Public Service Commission provide guidelines for the

1 utilities to determine what their -- what is an  
2 acceptable return on their investment?

3 CHAIRMAN CLARK: For the water and  
4 wastewater companies, we do have what we call a  
5 leverage graph, which is the formula for figuring out  
6 what is an appropriate rate of return. And some  
7 utilities also put on expert witness to testify to an  
8 appropriate rate of return.

9 WITNESS FREUND: Okay. Then it would be  
10 helpful if these folks when they ask for money, they  
11 would give us some documentation in terms of what  
12 their current rate of return is. And, number two,  
13 what are they currently doing to reduce fixed and  
14 operating costs? In fact, the quality would then  
15 simply say that -- certainly, there's an ongoing  
16 concern throughout the state as far as water quality  
17 is concerned. If they would simply provide along with  
18 their billing, occasionally, what the quality of their  
19 water is as compared to acceptable standards.

20 Well, I won't delve into any other  
21 questions, I don't think. But there's just no  
22 evidence here for what they're asking.

23 CHAIRMAN CLARK: Mr. Freund, I do want you  
24 to know that all the information that the Company has  
25 filed, their petition and their supporting

1 documentation, is available in the library.

2 WITNESS FREUND: Yes, I was made aware of  
3 that.

4 CHAIRMAN CLARK: Okay.

5 WITNESS FREUND: I doubt seriously whether  
6 many people are going to take it upon themselves to  
7 wade through that to try and find the answer.

8 CHAIRMAN CLARK: Well, I can tell you that  
9 our Staff will wade through it, and I know  
10 Mr. Shreve's staff is wading through it now.

11 WITNESS FREUND: Very good.

12 CHAIRMAN CLARK: If you have any questions,  
13 please feel free to call us on the 1-800-number, and I  
14 know you can call Mr. Shreve, too, if you have any  
15 questions.

16 WITNESS FREUND: Well, I think you can  
17 understand, if they'd answered questions, a lot of us  
18 wouldn't be here.

19 CHAIRMAN CLARK: Thank you. Any questions?

20 MR. TWOMEY: Yes, I have a question. Sir,  
21 with regard to your last statement, do you realize  
22 that because SSU has elected to file a joint rate  
23 case, a consolidated rate case for 152 of its various  
24 systems around the state, that the burden of you  
25 trying to examine that information goes from several

1 thousand sheets of papers perhaps that would be  
2 concerned with your system alone, some 25,000 to  
3 30,000 involving all of it, and that's what you'll  
4 find at your library, sir.

5 WITNESS FREUND: That's what I understand,  
6 yes.

7 MR. TWOMEY: Which address all the systems,  
8 not just your own.

9 WITNESS FREUND: That's correct.

10 CHAIRMAN CLARK: Thank you. Mr. Shreve?

11 MR. SHREVE: Thank you. Reverend Hancock?

12 - - - - -

13 JERRY HANCOCK

14 was called as a witness on behalf of the Citizens of  
15 the State of Florida and, having been duly sworn,  
16 testified as follows:

17 WITNESS HANCOCK: The only thing worse than  
18 giving a preacher a microphone is giving one to a  
19 lawyer. My name is Jerry Hancock, H-A-N-C-O-C-K.

20 MR. SHREVE: Objection.

21 WITNESS HANCOCK: Objection? (Laughter)

22 First of all, I'm here kind of in a three  
23 part. Right now, I'm talking to you as the pastor of  
24 my church. And 60% of my congregation lives in Clair  
25 Mel City, Animal Acres, Winston Park; and I think

1 that's it. I had a meeting with those who live in the  
2 area, so I'm in representation of those 55  
3 families that live in the area.

4 COMMISSIONER KIESLING: Where are you  
5 living? Just clarify that, that that used to be the  
6 Seaboard System?

7 WITNESS HANCOCK: Yes. The same one where  
8 they conveniently removed the office after they had --  
9 I'll show you pictures in just a moment.

10 COMMISSIONER KIESLING: See, we know it as  
11 the Seaboard System still --

12 WITNESS HANCOCK: Okay.

13 COMMISSIONER KIESLING: -- even though  
14 Seaboard doesn't own it any more, so that's -- I just  
15 needed to know. (Simultaneous conversation)

16 WITNESS HANCOCK: Okay. The Seaboard  
17 System, the one that there's been 30 or 40 people  
18 here. So I discussed, because not only do I live  
19 there, too, I live in Winston Park, which is around  
20 the corner from there. So I personally took it upon  
21 myself to contact each and every one of them. We had  
22 a meeting, and every one of them has been dissatisfied  
23 with the same thing that you've heard from all the  
24 other people here tonight, the dirty water and the  
25 other things.

1           And I know that the system has to be  
2 cleaned. I'm not ignorant, and I understand those  
3 things. But I took time to take my toilet apart. Let  
4 me give you these two pictures that you can look at.  
5 And this was --

6           COMMISSIONER GARCIA: Don't speak when you  
7 are walking --

8           WITNESS HANCOCK: As you can see, just the  
9 discoloration picture, that's the -- the waves on the  
10 one side is where I had the water running in from my  
11 tub. It ruined a whole load of clothes. My wife got  
12 very frustrated, and she went down there, and they  
13 give her a chemical. This was right before they moved  
14 the office from the old Seaboard place, and now you  
15 have to come in here because they had so many  
16 complaints about that day -- and you see the date on  
17 the picture, something-something in '94 -- that I  
18 actually had went around before other activities took  
19 my time -- and I was actually getting a petition.

20           I don't -- my personal self, I don't want  
21 just the rate increase. And I don't want SSU, period.  
22 I think we need to do what it would take to get rid of  
23 them all together, you know.

24           From 70th Street -- I don't know how you're  
25 familiar with the area, but from 70th Street, that

1 way, has city water, where all my in-laws live. From  
2 just three streets over from where I live on Coconut  
3 Drive has SSU. The difference between the city water  
4 and our water is night and day. I mean, you have to  
5 just go -- you know, like I say, if you live in our  
6 area and you don't have a water filter, you are one.  
7 So either you have a water filter or your kidneys are  
8 a water filter you have a choice which one you want,  
9 so that's what I wanted to say about that.

10 COMMISSIONER GARCIA: I just wanted --

11 WITNESS HANCOCK: Go ahead, I'm sorry.

12 COMMISSIONER GARCIA: I wanted to let you  
13 know that we can't take this away from them, but your  
14 local county government can.

15 WITNESS HANCOCK: Right.

16 COMMISSIONER GARCIA: I mean, in essence,  
17 they can purchase the system if they want it to  
18 service you. So they may not want to; they may think  
19 it's too expensive. They have a right to do that.

20 WITNESS HANCOCK: Okay. Well, I'll take  
21 that further as soon as I get finished with my new  
22 building project. And that's taken most of my time.  
23 And I appreciate you taking your time to listen to me.

24 On the second part, something -- if I'm  
25 ignorant, I apologize for that. But is there

1 something in the water that every year I have to  
2 change my spigots, or is that normal with the other  
3 water systems, or -- I don't understand. There's all  
4 the people that live in my area. Do you have the same  
5 problem? (Audience responds) I thought so. At least  
6 every year-and-a-half -- I think I bought a PRICE  
7 PFISTER, one of those real expensive ones one time,  
8 and it lasted me two years. So now I go to Home Depot  
9 and buy the 5.95 cheap all-made-into-one that has the  
10 no washer thing that just goes bad, and it drips, and  
11 you throw it away and buy another system. But it's  
12 not that that's the problem. It's the problem of  
13 getting under there.

14           And I can see some of these elderly people  
15 that don't have the capabilities that I do, and they  
16 are on fixed incomes. They don't have the financial  
17 stability that I do and difference with the age, I  
18 don't know how they would do that. And it's very  
19 difficult for me to crawl under that sink, you know,  
20 and to get all them little things that you have to  
21 undo. So that's something that even if this is the  
22 money issue, it needs to be addressed, too. Somebody  
23 needs to find out what's causing the chemicals -- if  
24 it's doing that to your plumbing, what do you think  
25 it's doing to your plumbing, this plumbing, the one

1 inside of you, you know. And that's the thing that  
2 concerns me most.

3 I have a very expensive, you know, water  
4 filter that's only on my kitchen sink, which is what  
5 we drink, only from there. I have a very bad stomach.  
6 If I don't drink from that, then I have diarrhea and  
7 all the things that go along with it for the next two  
8 or three days.

9 If someone accidentally comes to the house  
10 and makes tea, you know, out of the regular faucet,  
11 then I'm in big trouble, you know, for the next few  
12 days. But I have a funny stomach, so I can't just  
13 attribute that just only to the water. But it doesn't  
14 bother me when I use a water filter, so what does that  
15 tell you?

16 Is there anything else you'd like to ask me  
17 about those -- you understand the pictures?

18 CHAIRMAN CLARK: Yeah. Can we keep these  
19 pictures?

20 WITNESS HANCOCK: Sure. You sure can.

21 CHAIRMAN CLARK: We'll make them Composite  
22 Exhibit 14.

23 (Exhibit No. 14 marked for identification.)

24 WITNESS HANCOCK: What I did, you'll  
25 understand this, I took -- because I have a -- you

1 know, the thing that's built across your counter top  
2 and comes across your sinks and your toilet. It's not  
3 there. Whoever designed that wasn't real smart. I  
4 had to take the whole thing apart and stand up so you  
5 could see that it just wasn't urine or something in  
6 the toilet to make it that color, but it's in the top  
7 part of that. It took me 45 minutes to take that  
8 apart when I took that picture, but I had to do  
9 something to try to console my very angry wife.

10           One of the things is my son today -- I  
11 couldn't bring him in because he had a game. But I  
12 was very embarrassed last week when my son is the  
13 only -- even though he's in high school level playing  
14 here in Temple Terrace, goes to the game, and he's the  
15 only one out there with a medium blue shirt when  
16 everybody else has a blue shirt, because the bleach  
17 that someone spoke of earlier, whatever it is, was so  
18 strong last week in my water -- was anybody else's --  
19 that my son's shirt was just really --

20           I wanted to bring the shirt tonight, but  
21 they have a game in Plant City. He can't wear the  
22 shirt and be here. And if he's not in uniform, he  
23 can't play. So high school is very strict about those  
24 rules even though it's winter. So that's another  
25 issue.

1 years ago, I guess it was, when SSU took over Seaboard  
2 Utilities, we began getting these letters in the mail.  
3 And I'm sure that some of you gentlemen and ladies  
4 probably sat on other boards for rate increases.

5 My bill this month is \$65. Most of you all  
6 being attorneys and different things, that might not  
7 seem much to you; but I also am a lay minister, so I  
8 work a trade. I have to work six or seven hours a  
9 month to pay for that bill. Now, they want another  
10 increase.

11 First of all, let me say, I don't agree with  
12 across-the-board increases to level out one utility to  
13 another. That's kind of like the old idea in school  
14 when one kid messed, you spanked the whole class. To  
15 me, it's just not that way. Also, I want to say, yes,  
16 there are several new trucks in the area, which they  
17 needed, so I can't complain about that.

18 What I would like to say is my home was  
19 built in 1959. It's a three-bedroom block home.  
20 Since that time there are several houses in the area  
21 they were probably built a couple years before, maybe  
22 from '57, '58. I don't believe, as far as I know,  
23 that any of the lines in the area have been changed  
24 since that time. Since SSU took over, there hasn't  
25 been any substantial work done on any of the

1 facilities in the area.

2 I would also like to say to this gentleman  
3 over here that works for SSU, bad business deals on  
4 your all's part shouldn't mean we have to pay more  
5 money. I mean, basically, in your opening statements,  
6 that's what you said. You lost money on this plant,  
7 that plant, and the other plant, that shouldn't be our  
8 problem.

9 And my wife, we have a problem with chlorine  
10 in the water. You wash clothes; I have several shirts  
11 myself. You buy a new shirt and go to wear it, and  
12 the next week you have a big blotchy spot right here  
13 or several spots in different places. It's not very  
14 much fun. I also have had to replace my faucets  
15 several times. I had to replace all my plumbing. The  
16 proper lines were built inside the slab. I don't know  
17 if it's because of the chemicals. Sometimes the  
18 chemicals in board will break down copper; I know  
19 this. I had to replace all mine with PVC fittings.

20 What I'm saying is this. We've had at least  
21 three rate increases in the last couple of years. I  
22 mean, what's next? If they get this rate increase,  
23 will I be paying \$150 for water and sewer in two  
24 years, some basic necessity that you need to survive?

25 I mean, I submit to you it's kind of getting

1 ridiculous. Somebody somewhere has to put a stop to  
2 it. And our quality of water is very poor. They  
3 haven't upgraded, that I can see, much of anything  
4 except they've upgraded our bill about three times as  
5 much as it was. And somewhere along the line,  
6 something needs to be done. It needs to be stopped.  
7 Thank you.

8 MR. SHREVE: Thank you, Reverend. I've  
9 heard a lot of complaints about the water and the  
10 sewer service in your area tonight, and you made a  
11 comment concerning the improvements. It's very hard  
12 to figure it out, exactly what they have done. But  
13 they say they have made in '93, \$1.7 million in  
14 improvements in the sewer. Have you seen that going  
15 in out there?

16 WITNESS WATSON: No, sir, I have not.

17 MR. SHREVE: And in the last two to three  
18 years, about \$300,000 for the water.

19 WITNESS WATSON: No, sir. They may have  
20 done something on the plant itself over there, some  
21 pumping stations or something like that; but as far as  
22 I know, I don't see any substantial change in anything  
23 except the bills.

24 And let me add this. If you have 4 to 800  
25 or I don't know how many homes on these lines and you

1 go from \$24 a month to \$65 a month, multiply that  
2 every month, and you're adding a lot of money in three  
3 years. And you do that in how many counties, did you  
4 say, in the state of Florida, the rates go up?

5           Somebody is padding their pockets so bad  
6 'til -- I mean, it's unreal. There's money going  
7 somewhere to somebody that either isn't showing up or  
8 something. It's just -- it's gotten out of hand. I'm  
9 sorry, but it has just like everything else in our  
10 society.

11           MR. SHREVE: Reverend, I think what you  
12 would like to see is some justification from a logical  
13 standpoint as to what they need, why they're forever  
14 increasing these rates.

15           WITNESS WATSON: Yes, sir, there needs to be  
16 a cap put on it somewhere.

17           The people in our area are low to middle  
18 income. And some of them, their water bills are \$100  
19 a month, and these people can't afford that. And I'm  
20 sure a lot of them probably may be on welfare and  
21 different things. I'm paying their bill, too. I  
22 think I'm paying enough, and I don't want to pay  
23 anymore. Thanks.

24           MR. SHREVE: Thank you.

25           CHAIRMAN CLARK: Thank you, Reverend Watson.

1 (Applause)

2 MR. SHREVE: Mr. McKnight?

3 MR. FERNANDEZ: I think he signed the sheet.

4 MR. SHREVE: Okay. We got him first.

5 That's right. Who's next?

6 MR. FERNANDEZ: He stepped out.

7 MR. SHREVE: He'll be back?

8 MR. FERNANDEZ: No, he's not.

9 MR. SHREVE: Thank you. Gloria Herrington?

10 - - - - -

11 **GLORIA HERRINGTON**

12 was called as a witness on behalf of the Citizens of  
13 the State of Florida and, having been duly sworn,  
14 testified as follows:

15 WITNESS HERRINGTON: Hi. I'm Gloria  
16 Herrington, very nervous, H-E-R-R-I-N-G-T-O-N, 3219  
17 Lancaster Lane, Tampa, Samson Park area, Clair Mel.

18 COMMISSIONER KIESLING: Is that Seaboard?

19 WITNESS HERRINGTON: Southern States  
20 Utilities.

21 COMMISSIONER KIESLING: And it used to be  
22 Seaboard?

23 WITNESS HERRINGTON: Yes, when I first moved  
24 there. I don't usually come to these meetings. I was  
25 talking to a gentleman there. I need to get involved.

1 They have done so many increases. I've lived in my  
2 home five years. I rent. I pay my utilities like  
3 everybody else. This past year I have been late every  
4 month with my water bill. I mean, it's horrible. I  
5 can't keep up.

6 My water bill with the late charge is 81.56  
7 as of now. My sewer is a base charge of 19.16, you  
8 know. But then I pay 29.80 for the usage. I can't  
9 afford it no more. I can't afford my water bill. I  
10 want to move out of this area. I want to move away  
11 from this utility company.

12 Everybody is just trying to make a living.  
13 I understand there's a lot of homeowners. And I'm  
14 like here for my neighbors, the senior citizens that  
15 can't come. Or they say, like one, Mr. and  
16 Mrs. Kelly, they told me -- I go, "Are you coming?"  
17 They go, "No. They're going to be able to do what  
18 they want to do. They'll probably get the rates."

19 Them people pay \$95. They've got three  
20 grandchildren they raise. It makes me angry that  
21 these people keep raising the rates. What I'd like to  
22 see is a decrease. I really would. I used to pay \$32  
23 when it was Seacorp. It had just changed. Then I  
24 went to \$45. I could live with that.

25 I'm paying \$70 to \$80 a month. I'm a family

1 person. We're working. This water, I don't drink it.  
2 I go to Winn Dixie. I buy the bottled water. I don't  
3 let my family drink it. I barely like bathing in it.  
4 The brown water they talk about, yes, you do see it.  
5 You don't take a bath at night. You take a shower.

6 The clothes? No problem. You smell the  
7 chlorine. I don't use bleach no more. Why should I?  
8 It's there for me. (Laughter) You know, it's  
9 ridiculous.

10 People are trying to survive. This area is  
11 not a high class area. We do not make a lot of money.  
12 We are trying to live. What are we going to do  
13 without next? Groceries for the kids? No clothes?  
14 Can't afford shoes? We are trying to survive. It's  
15 got to stop. It really does. Thank you.

16 CHAIRMAN CLARK: Thank you, Ms. Herrington.  
17 Are there any questions?

18 MR. SHREVE: No.

19 CHAIRMAN CLARK: Thank you. (Applause)

20 MR. SHREVE: Hilaire Putnam? Ms. Putnam?

21 - - - - -

22

23

24

25

## 1 HILAIRE PUTNAM

2 was called as a witness on behalf of the Citizens of  
3 the State of Florida and, having been duly sworn,  
4 testified as follows:

5 WITNESS PUTNAM: Hi. Hi, I'm Hilaire  
6 Putnam. I live at 3223 Lancaster Lane.

7 THE COURT REPORTER: I'm sorry, you need to  
8 speak right into the mike.

9 WITNESS PUTNAM: My name is Hilaire Putnam.  
10 I live at 3223 --

11 COMMISSIONER KIESLING: Talk right up to it.

12 WITNESS PUTNAM: Okay. My name is Hilaire  
13 Putnam. I live at 3223 Lancaster Lane. It's in  
14 Samson Park, Clair Mel area.

15 I have the same problem, the water bill  
16 keeps going up, trying to raise kids, trying to feed  
17 them. I have to buy my own water. I have small  
18 children which half the time they have to go to day  
19 care dirty. I tell them because the water is too  
20 dirty, and I'm not going to put them in that water.  
21 Who knows what they might catch.

22 I have called before, complained about the  
23 water. They tell me the water is perfectly all right.  
24 Drink it, you know, whatever you want to do with it.  
25 Bathe in it; it's fine. Well, I don't see it fine.

1           And then, okay, I live on a corner lot.  
2 This is the next subject you haven't heard. I live on  
3 a corner lot with a fire hydrant out front. We have  
4 people come up and run water all the time, maybe three  
5 or four times a month. And then the man comes up to  
6 my faucet, and one -- well, a couple of times I've had  
7 it out with him. But this one particular time in the  
8 middle of summer, he's running my water to test it. I  
9 timed him, 10 minutes now.

10           We're in a water shortage. We're not  
11 allowed to even have a swimming pool for my children;  
12 he's running my water. I come out the house to look.  
13 That water is very expensive. I'm not getting no  
14 break off of this, and I want you to turn it off. He  
15 says no, I have to run it.

16           I said that's very unjust because my  
17 children can't even swim. My children can't even --  
18 you know, I can't even wash my car, anything. And why  
19 does he come to my house, run my water? Just running  
20 my water up in my house, and that's my bill. He goes,  
21 doesn't reimburse me for 10 years of the water  
22 running.

23           CHAIRMAN CLARK: Is he running the water  
24 from the fire hydrant out front testing?

25           WITNESS PUTNAM: Then he goes back out to

1 his truck and does something. But I'm paying for that  
2 5 to 10 minutes, and my children don't even get to  
3 play in the water.

4 MR. TWOMEY: Call the Sheriff on him.

5 WITNESS PUTNAM: But he works for you guys.

6 MR. TWOMEY: Call the sheriff. No, get the  
7 police after him.

8 CHAIRMAN CLARK: Mr. Twomey, may I finish  
9 asking my question?

10 MR. TWOMEY: Yes, ma'am.

11 CHAIRMAN CLARK: He comes up to your house,  
12 and he's running your spicket?

13 WITNESS PUTNAM: Right.

14 CHAIRMAN CLARK: Okay.

15 WITNESS PUTNAM: And I even went out, "Well,  
16 I'll just take that spicket off with a screwdriver."

17 And he goes, "Well, you can't do that  
18 because we have to test it."

19 CHAIRMAN CLARK: When did this happen?

20 WITNESS PUTNAM: Oh, the last time was  
21 probably six months ago. The time before was like  
22 nine months ago. Well, I work, you know, this is just  
23 times I happen to be home and I catch them. You know,  
24 but there's one time there's a water shortage, and  
25 we're not supposed to run our water on certain days.

1 And here he is just running water. It's all over my  
2 yard. Well, you know, all over.

3 CHAIRMAN CLARK: Did you notice a change in  
4 your bill, a substantial change in your bill?

5 WITNESS PUTNAM: I haven't had time. My  
6 bills basically run anywhere from 7 to 1,000 gallons  
7 different from month to month.

8 As far as price, yes. But as far as  
9 gallonage usage, it varies because sometimes I water  
10 my plants. You know, sometimes the kids might overdo  
11 the bathtub or something like that, you know.

12 COMMISSIONER GARCIA: Before you implement  
13 the calling of the police, do me a favor, call us at  
14 the Commission when they do that. That's your money  
15 that they're spending, and they have to reimburse you  
16 for that if they do that. I mean, clearly, if it's a  
17 short amount of time, it's not very much. But,  
18 nonetheless, I'm sure they don't let you get off with  
19 any free water --

20 WITNESS PUTNAM: Right.

21 COMMISSIONER GARCIA: -- so why should you  
22 let them get off with it?

23 So next time that happens, I would suggest  
24 you call our number and report that it happens.

25 MR. TWOMEY: Pardon, Commissioner Garcia,

1 line, I'm going to tell you right now that I think  
2 probably the reason for that, what we as consumers,  
3 believe is too much chlorine probably is, because of  
4 the sediment probably. It would follow that  
5 overchlorinating the water in an attempt to get rid of  
6 the sediment. I don't know.

7 I am curious and I learned something from  
8 Mr. Alexakos concerning the water maintenance -- and I  
9 don't know if it applies here, but certainly I'd like  
10 to highlight it and point it out to this Commission  
11 that I'm curious as to whether SSU is draining our  
12 system twice on an annual basis, if such a thing is  
13 possible, to get rid of their sediment. I'm concerned  
14 that they're probably not doing that at all.

15 I've lived at 7409 Sherren Drive since 1976.  
16 I am a 21-year veteran law enforcement officer. I'm  
17 still a police officer. And that area is a -- the  
18 area where I live, which includes Clair Mel City,  
19 Winston Park, Samson Park, Green Ridge Estates, and we  
20 probably have more people from the area where I live  
21 in here tonight than any other area.

22 And the reason that we're all here is  
23 because we don't feel that we're getting adequate  
24 service. We need for you as a watch dog committed to  
25 march in and make these people do the job that they

1 get paid for and to hold these rates down. I'll tell  
2 you right now. My personal feeling is that there  
3 ought to be a rollback in the rates. (Applause)

4           It is a working class area. And I'll tell  
5 you right now, we're all working class people. And  
6 don't be misled, looks are very deceiving. I look  
7 like a working man, but I'm not a stupid man. And  
8 this man sitting over here that represents the SSU is  
9 trying to feign that he's concerned, he's not  
10 concerned.

11           My belief is that he's not concerned at all  
12 about us as consumers. Therefore, I'm going to  
13 request that this -- and I don't know what I can  
14 request of you because I have enough doing my job and  
15 just trying to live than to try and understand what it  
16 is, everything that the PSC does. I know why you  
17 exist. I don't know what your authority is. I'll  
18 tell you right now that I'm going to request if it's  
19 within your power to hold another hearing similar to  
20 this one, possibly at this facility, for the purpose  
21 of additional consumer input on these proposed rate  
22 increases on wastewater and water prior to any  
23 considered rate increase to these people, SSU. That's  
24 one of my requests.

25           The other one is to -- and I don't know if

1 you can do this, but to mandate them to adjust  
2 excessive bills to consumers when there's a -- the  
3 best way I can explain it is a nonnormal water break  
4 where you have a water main break in an area where you  
5 have consumers being charged for that water because an  
6 old outdated pipe or something broke and then our  
7 water bills go up. I think if it's a generally known  
8 water break, the fact that a pipe broke, if it's  
9 generally known and we as consumers can prove it and  
10 then our water bills increase as a result of that,  
11 then I think they ought to be held to test, and not  
12 tests that cost on us as consumers that they are not  
13 keeping up equipment, because that's what's happening.  
14 They're just passing the cost on.

15           They don't absorb any costs. They pass them  
16 on. They spread them around to us as consumers. I  
17 don't want to pay for somebody's water in the north  
18 end of the county. I live in Clair Mel City. I don't  
19 have a problem with paying a reasonable rate for  
20 water, but I don't want to pay for some guy's water in  
21 Zephyrhills. And that's no disrespect to anybody here  
22 from Zephyrhills or any other area, I just use that as  
23 an example.

24           I'm also going to request that you order  
25 them to show their service records or maybe have one

1 of your engineers look at their service records to see  
2 whether there's an indication that they test this  
3 water system in the Clair Mel City area, Samson Park,  
4 Palm River to see if it's been flushed to try to  
5 eliminate the sediment problem out there.

6           This has been a lesson in government for me.  
7 This is not the first hearing that I've attended  
8 dealing with SSU. I do know now that there're a  
9 franchise system. I would like to see us go to a  
10 regional concept system, as the attorney that was here  
11 indicated, but I understand you don't have anything to  
12 do with that. I think I know where to take that now.

13           In conclusion, I would like to say that, you  
14 know, on the vagueness of the letter -- and probably  
15 to all of you on the Commission, it's not vague  
16 because you are used to reading government documents.  
17 But to give you an example of what I mean by  
18 "vagueness," when I picked up this Special Report, if  
19 you will look at -- well, I look to see, well, where  
20 is my area? And I thought, okay, well, it's going to  
21 be Seaboard. And then I look on Page 29, that's  
22 obviously my area, I believe, because I made a  
23 concerted effort to try and understand this ledger.  
24 But actually when I first picked it up, I thought it  
25 was Hershel Heights because it says Hillsborough

1 County. And then Seaboard, it says Polk County.  
2 Right under the caption on Page 29 where it says  
3 Seaboard, it says, Polk County Proposed Conventional  
4 Treatment Monthly Rates With Additional County Plants.

5 And on Page 18 where it has Hershel Heights,  
6 it indicates Hillsborough County. Well, I belong in  
7 Hillsborough County. I'm saying, well, does this  
8 apply to me on Page 29, or should I be over here on  
9 Page 18? And I'm really still looking at the rates.  
10 I probably should be on Page 29. But the point being  
11 that it's kind of misleading.

12 You know, I'm not the smartest guy in the  
13 world, but I can read. You know, it's a little bit  
14 misleading. And I'm saying, well, jeez, I write  
15 police reports every day, and I read all the time.  
16 And if it's confusing to me, that's probably why you  
17 don't see this hall packed with people from the area  
18 because I've mentioned where I live, because there are  
19 a lot of working people out there in that area that  
20 probably feel like, you know, I'm never going to  
21 understand all this government gobbledeygook, and I'm  
22 just not going to go because they're going to do what  
23 they want to do and raise the rate, increase -- raise  
24 the water and wastewater rate.

25 In conclusion, I'm also going to say that

1 some of the other consumers and homeowners from this  
2 area where I live have said before, and I reiterate,  
3 the area in which we live is an area of homes that are  
4 valued no more than, on the low end, \$25,000. On the  
5 high end, tops, \$50,000 to \$51,000. But we're paying,  
6 I think we are being -- you know, I don't want to say  
7 extorted. Sometimes I feel like that when I look at  
8 the rate increase that my water bill has taken since  
9 1989 until the present. I'm finished. Are there any  
10 questions?

11 CHAIRMAN CLARK: Thank you, Mr. Peterson.

12 MR. SHREVE: Mr. Peterson --

13 CHAIRMAN CLARK: Oh, I'm sorry.

14 MR. SHREVE: What notice did you receive  
15 about this hearing? Did you receive a letter or --

16 WITNESS PETERSON: I received a one-page  
17 letter which I think most of us received.

18 MR. SHREVE: Does that have rates on it,  
19 that letter?

20 WITNESS PETERSON: Absolutely not. No, it  
21 just says that they are asking for -- there's a notice  
22 of hearing really. And then it's kind of -- you've  
23 got to kind of sift it out to see that there asking  
24 for a rate increase. I mean, it's down there in all  
25 the writing, I think.

1           There was something I was going to bring up,  
2 and I know there are a lot of other people waiting,  
3 but this was it. This is the extent of what I  
4 perceived.

5           MR. SHREVE: So there's nothing on there  
6 that would indicate to you how much they are asking  
7 for from you, is there?

8           WITNESS PETERSON: Absolutely not, no.

9           MR. SHREVE: Would that keep a lot of your  
10 neighbors from knowing or maybe even caring because  
11 they don't know how much anybody's trying to raise  
12 their rates?

13           WITNESS PETERSON: I think some of my  
14 neighbors feel the same way I do, that there are  
15 people in charge and people in place, such as your  
16 Commission, that are going to look after us and say,  
17 well, it must not be -- this rate increase must not be  
18 that much because they didn't put it on here. It's  
19 probably just a little bit. And I think it's  
20 deceptive. I think that these kind of notices should  
21 have some idea what the proposed rate increase is  
22 going to be.

23           MR. SHREVE: Yes, sir. Have you received  
24 anything else from SSU giving you any information on  
25 the rates or anything like that?

1 WITNESS PETERSON: No, I have not.

2 MR. SHREVE: Thank you very much.

3 MR. TWOMEY: Madam Chair? Mr. Peterson,  
4 would you consider giving that up to the court  
5 reporter so that the record will show what notice you  
6 were speaking to?

7 WITNESS PETERSON: Yes. I'll give it. I've  
8 got it. I've made plenty of copies. This is the  
9 Docket No. 950495-WS letter that you are referring to?

10 CHAIRMAN CLARK: Yes.

11 WITNESS PETERSON: Well, what is your name  
12 anyway?

13 MR. TWOMEY: My name is Mike Twomey.

14 WITNESS PETERSON: S-u-m-e.

15 MR. TWOMEY: Twomey, T-W-O-M-E-Y.

16 WITNESS PETERSON: Okay.

17 CHAIRMAN CLARK: Mr. Peterson, Mr. Twomey  
18 would like to make that an exhibit in this proceeding.

19 WITNESS PETERSON: Sure.

20 CHAIRMAN CLARK: And if you would give it to  
21 me, I'll mark it as an exhibit. It'll be Exhibit 15.  
22 And that's the notice SSU sent to you.

23 (Exhibit No. 15 marked for identification.)

24 MR. SHREVE: And Mr. Peterson, if you had  
25 received any other notice from SSU, you'd know it,

1 wouldn't you?

2 WITNESS PETERSON: I believe I would.

3 MR. SHREVE: Yes, sir. This might be a good  
4 time. SSU hasn't offered anything even as an exhibit  
5 as far as their notice or advertisement of this  
6 meeting or anything tonight.

7 CHAIRMAN CLARK: You make a good point,  
8 Mr. Shreve. Mr. Feil, do you have a notice of  
9 publication?

10 MR. FEIL: I have three boxes of noticing  
11 right here behind me, and I have the publication  
12 notices and affidavits of the service hearing notices.

13 CHAIRMAN CLARK: For all the service  
14 hearings?

15 MR. FEIL: For all the service hearings that  
16 have occurred thus far. I do not have the Kissimmee  
17 publication because that has been offered and  
18 identified previously, as I understand it.

19 CHAIRMAN CLARK: Okay.

20 MR. SHREVE: Is there one for Jacksonville  
21 there?

22 MR. FEIL: There is the publication notice  
23 for Jacksonville and the affidavit.

24 MR. SHREVE: The affidavit that all the  
25 customers were sent the notices?

1 MR. FEIL: The affidavit has attached to it  
2 the customer list, and you have a copy of that.

3 MR. SHREVE: The reason I raise that,  
4 because you probably know that the day after the  
5 Jacksonville hearing, we were just inundated with  
6 people calling us saying that they were very mad  
7 because they had not received any notice whatsoever  
8 until now.

9 WITNESS PETERSON: Can I add -- well, I'm  
10 going to add it, and I'm going to get away from here.  
11 But let me just say something. Since these people  
12 moved their local office, what they did, they packed  
13 up and moved out of town. You know, if we had  
14 somebody local that we could take to task on a  
15 one-to-one basis, individually, in person, I think we  
16 could alleviate some of the problems. But, you know,  
17 they quietly packed up their office, and they moved  
18 out of town, and all they want now is the money. "Pay  
19 your bill." And we don't have anybody locally that we  
20 can hold accountable for this matter. There's a  
21 flurry of paperwork, and then we've got to wait until  
22 the PSC has a hearing like this one and all to address  
23 our concerns.

24 COMMISSIONER GARCIA: I will tell you this  
25 though. You can call us, and we take it from there.

1 So that we are an intermediary when there's a problem.  
2 You've got the number there; next time you have a  
3 problem, please call us. Because you don't have to  
4 wait for this, for us to intercede.

5 CHAIRMAN CLARK: Thank you, Mr. Peterson.

6 MR. SHREVE: Thank you, Mr. Peterson.

7 Maxine Nichols? Ms. Nichols? Kenneth Rutkowski?

8 - - - - -

9 **KENNETH RUTKOWSKI**

10 was called as a witness on behalf of the Citizens of  
11 the State of Florida and, having been duly sworn,  
12 testified as follows:

13 WITNESS RUTKOWSKI: Good evening. My name  
14 is Kenneth Rutkowski.

15 CHAIRMAN CLARK: Can you spell it?

16 WITNESS RUTKOWSKI: K-E-N-N-E-T-H, last  
17 name, R-U-T-K-O-W-S-K-I. I live on 2019 Waikiki,  
18 W-A-I-K-I-K-I, Way. That's Tampa Florida, Clair Mel.

19 I'm here tonight to speak on behalf of some  
20 people I talked to in the neighborhood. A lot of the  
21 subjects that people have addressed about the cloudy  
22 water, that is true. The water tastes nasty from time  
23 to time. It's heavily chlorinated from time to time.  
24 You can see my shirt. My shirt is fairly new, and  
25 there are spots on it that are white or whitened. I'm

1 sorry, if I'm nervous.

2           We are in a lower income development. There  
3 are people that make \$5.00 an hour. Minimum wage is  
4 lower than that. Over a year's period of time, that  
5 comes to about \$10,400. You drop \$400 rent. Then you  
6 drop \$200 food, \$100 electric, and before you know it,  
7 you are down to about \$1,160 a year to survive on,  
8 along with the \$70 water bill. That's incredible.  
9 New Port Richey is a more expensive area to live in,  
10 and my mother pays that every three months, \$70. I  
11 don't know who pumps her water.

12           The pressure changes do happen. I'm lost  
13 for words.

14           One thing I don't understand, where do they  
15 base the rates for people in areas? Valrico Hills,  
16 Valrico Hills is \$50,000 to \$90,000 homes. We are 20  
17 to 50, just like Mr. Billips (sic) said. Where do  
18 they base their rates?

19           And if you look on the sheets here about  
20 Valrico Hills versus Seaboard, which says Polk County,  
21 the rates we are paying now, we're paying more money,  
22 and we're making less. I make decent money. There  
23 are people I know in the neighborhood they can't  
24 afford a car. Something's got to change and may be  
25 this will help start it.

1           Somebody addressed the question about the  
2 county pumping the water. I called when our bills  
3 first jumped, and they said that the water is pumped  
4 from the county. Well, sure, the county makes money  
5 off of pumping it to SSU, and then SSU makes a profit  
6 off of pumping it to us. Why can't we stop it and  
7 save the money right by paying the county. That's  
8 what we pay our taxes for.

9           Mr. West made a comment about the smell back  
10 in the back sewer. I drive by it every morning and  
11 roll my window down, and I'm amazed. There's been  
12 sewerage runoff in that runoff canal in the back to  
13 keep it from flooding, and something has got to be  
14 done about that. My wife called and also my neighbor  
15 called about it, and we'll just have to wait and see.

16           Another topic I've got to address -- and if  
17 I'm wrong I want somebody to speak up. I came down  
18 with Giardia (phonetic) a year and a half ago. My  
19 wife, since we moved into our neighborhood four years  
20 ago, has not once drank the water out of the spigot.  
21 She won't let my son drink it. I've drank it from  
22 time to time until I came down with "Giardia"  
23 (phonetic).

24           Giardia is a parasite that resides in water.  
25 It can be found in food as well. But basically, it's

1 found in the water system.

2 I called the water company. They said,  
3 well, we heavily chlorinate our water, plus we get it  
4 from Tampa. I said can you run a test to prove to me  
5 that I'm not getting Giardia from my water pipes?  
6 They said no. So I just treat it, and I have not  
7 drank water in the last year-and-a-half from my tap.

8 I'm sorry, I'm stuck. I'm lost for words.

9 They were talking about -- you got the  
10 exhibit of this letter here. In the same neighborhood  
11 as mine, somebody else got this letter. I never saw  
12 it. It's a different letter. I have not looked at  
13 it, but it's addressing this situation.

14 COMMISSIONER GARCIA: Would you mind giving  
15 that to us so we can take a look at it?

16 WITNESS RUTKOWSKI: Do you want it now?

17 COMMISSIONER GARCIA: Either way. Do you  
18 need the notes to read it?

19 WITNESS RUTKOWSKI: No, it's not necessary.

20 COMMISSIONER GARCIA: Okay.

21 WITNESS RUTKOWSKI: I'm going to finish with  
22 one last thing, the heavy chlorination. Like the one  
23 man said previously, the houses were built back in the  
24 late '50s, my house was. I've had a pipe break  
25 underneath the ground. Chlorine, what does chlorine

1 do? Chlorine is a heavily caustic chemical that will  
2 breakdown metals, among other things, over a period of  
3 time. So what are we doing to our pipes? We're just  
4 beating them up with this heavy chlorination of water.

5           What happens when it breaks on our side of  
6 the meter? They don't care. I had a broken pipe. I  
7 pumped out 90,000 gallons, if I'm correct. It broke  
8 outside of my house, and I was responsible for paying  
9 for it. You don't get much of a decrease, but I feel  
10 that the breakdown in the pipes is due to the chlorine  
11 content of the water.

12           I was in the navy, and I was a corpsman. We  
13 did our part in the water. We also desalinized water  
14 to survive on the boat, and the water didn't taste as  
15 bad as what it tastes here. That's about all I've got  
16 to say.

17           CHAIRMAN CLARK: Thank you, Mr. Rutkowski.  
18 Just a minute. Let's see if there's any questions.

19           MR. SHREVE: I'll take a look at those  
20 letters. I appreciate you bringing those down. Did  
21 you receive anything other than the one one-page  
22 letter?

23           MR. RUTOWSKI: Just this.

24           MR. SHREVE: Does that have any rate  
25 structuring in it?

1 WITNESS RUTKOWSKI: There's no rates at all.

2 MR. SHREVE: Does that tell you what they're  
3 trying to raise your rates to?

4 MR. RUTOWSKI: No.

5 MR. SHREVE: And you didn't receive any  
6 other kind of notice that you know of other than this?

7 WITNESS RUTKOWSKI: No, not that I know of,  
8 no, sir.

9 MR. SHREVE: Okay. Thank you very much.

10 COMMISSIONER GARCIA: Sir, could the person  
11 who gave you this come up here so that we can have  
12 someone verify this, as having received it from the  
13 company instead of from yourself?

14 Just read your name into the record and  
15 verify that you did.

16 WITNESS BERNINGER: Flo Berninger. And the  
17 cover letter you got first, I didn't receive. The  
18 single sheet, I didn't get that.

19 CHAIRMAN CLARK: Okay. But you got --

20 WITNESS BERNINGER: I got that. That's what  
21 I received. That's got my handwriting all over the  
22 back.

23 Right, that is what I received.

24 CHAIRMAN CLARK: And this is all you've  
25 gotten?

1 WITNESS BERNINGER: That's all I've got.

2 CHAIRMAN CLARK: You got nothing from  
3 Southern States with it, in an envelope from Southern  
4 States?

5 WITNESS BERNINGER: Yes, that was in an  
6 envelope from Southern States.

7 CHAIRMAN CLARK: All right. We are going to  
8 mark that as a Exhibit 16. It was a notice received  
9 by --

10 WITNESS BERNINGER: Flo Berninger.

11 CHAIRMAN CLARK: And the title of it is:  
12 Before the Public Service Commission Docket  
13 No. 950495-WS, notice to customers of application.  
14 Thank you.

15 (Exhibit No. 16 marked for identification.)

16 MR. SHREVE: Could I ask a question? When  
17 did you receive that?

18 WITNESS BERNINGER: I did not bring the  
19 envelope.

20 MR. SHREVE: Last couple days?

21 WITNESS BERNINGER: She can probably give us  
22 the date because we stay in communication.

23 WITNESS HOWELL: I got mine the same day she  
24 got hers, and the envelope is marked the 21st, so we  
25 probably got it the 22nd or 3rd.

1           CHAIRMAN CLARK: You need to state that into  
2 the microphone.

3           COMMISSIONER GARCIA: Come up here for a  
4 second. State your name and then give us the  
5 information. Yeah, just so we can identify.

6           WITNESS HOWELL: My name is Jennie Howell,  
7 and she got her letter the same day I got mine because  
8 I called her on the phone and asked if she had gotten  
9 it. The outside of the envelope -- I have the  
10 envelope with me stating --

11          CHAIRMAN CLARK: Just tell us when.

12          WITNESS HOWELL: The envelope says the 21st,  
13 so you can assume I got it the next day or maybe a day  
14 or two after that.

15          CHAIRMAN CLARK: The 21st of September?

16          WITNESS HOWELL: That's what's on the  
17 envelope.

18          CHAIRMAN CLARK: Thank you.

19          MR. SHREVE: May I? Just so that we'll be  
20 very clear on what we are talking about here.  
21 Southern States was required to send a notice of this  
22 hearing to everyone 14 days prior to the hearing.

23          WITNESS HOWELL: No.

24          MR. SHREVE: In addition to that, they have  
25 sent out at least partially the larger letter that was

1 brought up. That's the one you just received?

2 WITNESS HOWELL: I got both of them. I got  
3 the cover letter and the one you just read.

4 MR. SHREVE: The second letter, separately?

5 WITNESS HOWELL: Yes.

6 CHAIRMAN CLARK: Ms. Howell, did you get one  
7 notice that had the cover letter, and then this  
8 several page notice?

9 WITNESS HOWELL: I'm sure it was all in the  
10 same envelope.

11 CHAIRMAN CLARK: Okay.

12 MR. SHREVE: This, I believe, is the letter  
13 that came the day after the Jacksonville hearing.

14 CHAIRMAN CLARK: But she's indicating she  
15 got it on the 21st of September.

16 MR. BECK: Which is about the right time.

17 WITNESS HOWELL: Well, I got it -- that's  
18 the stamp on the envelope.

19 CHAIRMAN CLARK: Thank you. That's what we  
20 need to know. Thank you, Ms Howell.

21 MR. SHREVE: Thank you very much.

22 CHAIRMAN CLARK: Mr. Shreve, do you have  
23 anymore on your list?

24 MR. SHREVE: That's all we have.

25 CHAIRMAN CLARK: Ladies and gentlemen, is

1 there anyone else here who would like to testify? Let  
2 me just see if there's somebody else who has not  
3 testified.

4 Ms. Reihl, did you want to add something to  
5 your testimony?

6 WITNESS REIHL: No. I wanted to ask you --

7 CHAIRMAN CLARK: You need to come up.

8 COMMISSIONER GARCIA: You have to come up  
9 here.

10 WITNESS REIHL: Do I have to identify myself  
11 again?

12 CHAIRMAN CLARK: Go ahead and give your name  
13 again.

14 WITNESS REIHL: Aida Reihl. And I would  
15 like to ask a couple of more questions.

16 CHAIRMAN CLARK: Go ahead.

17 WITNESS REIHL: One thing that was  
18 concerning me now about listening to people talk,  
19 about the amount of chlorine. If it will affect  
20 pipes, what is it doing to our body? By adding more  
21 chlorine to have a quick fix on this water, what is it  
22 doing to us? It's a chemical, you know.

23 And another thing, I would like to ask,  
24 since the sewage wastewater is about three times more  
25 than the regular water, most of us use our water

1 outside to water our gardens, our plants, wash our  
2 cars, our lawns, I would like to have someone explain  
3 to me why we are paying so much for sewage water when  
4 a good much of it is just going into the ground  
5 outside our homes?

6 CHAIRMAN CLARK: They do put a cap on the  
7 gallonage that they count for sewerage. In this case  
8 is it 10,000 gallons?

9 MS. O'SULLIVAN: Yes.

10 WITNESS REIHL: But why is it so much more  
11 than our regular water bill? It's the same water that  
12 comes in the pipe, and they are charging us three  
13 times more for going out. And I'm sure 50% of it is  
14 just being used on the hose outside.

15 CHAIRMAN CLARK: Well, they have to charge  
16 you for what it costs them to treat the sewage so it  
17 can be discharged again out of the environment. And  
18 that costs -- (Simultaneous conversation)

19 WITNESS REIHL: It costs three times more?

20 CHAIRMAN CLARK: Well, that's what they are  
21 indicating in their rates, and we will be looking at  
22 that.

23 WITNESS REIHL: Okay. We appreciate it.

24 CHAIRMAN CLARK: With respect to the  
25 chlorine, it's my understanding that there are certain

1 levels of chlorine that have to be maintained in the  
2 water to meet the Department of Environmental  
3 Regulation requirements. I'm not sure they have an  
4 upper level on the amount of the chlorine.

5 WITNESS REIHL: Well, I'm a little afraid of  
6 it at this point.

7 CHAIRMAN CLARK: But we've checked during  
8 rate cases to make sure that the water and wastewater  
9 companies do, in fact, meet DER standards and don't  
10 have any violations outstanding on them. But those  
11 standards are set and enforced by a different state  
12 agency. But we do check to make sure that the  
13 companies meet those standards.

14 WITNESS REIHL: So we're to just assume that  
15 it's a safe level?

16 MR. TWOMEY: No.

17 CHAIRMAN CLARK: We'll look into it and make  
18 sure, and the Company is responsible for maintaining  
19 it.

20 WITNESS REIHL: I mean, we're talking about  
21 human bodies here, you know, not a piece of copper.

22 CHAIRMAN CLARK: Yes. You are not the first  
23 customers who have complained about chlorine levels in  
24 different systems, and we do look into that when we  
25 conduct our rate cases.

1 WITNESS REIHL: Thank you.

2 CHAIRMAN CLARK: Thank you.

3 Now, I think -- Reverend Watson, did you  
4 want to add --

5 WITNESS WATSON: I have a question.

6 CHAIRMAN CLARK: Come on up and ask your  
7 question.

8 WITNESS WATSON: And my question is this.  
9 Last month, I believe it was or the month before -- I  
10 usually pay my bills early. I overlooked it. And I  
11 think mine was postmarked the day before it was due.  
12 And it got there like a day late. Isn't there some  
13 kind of grace period before they slap a 5% service  
14 charge on that? I mean, if you have a car, they give  
15 you 10 days to make the payment before they jack the  
16 price up.

17 In the state of Florida, I believe there's a  
18 law. I don't know about utilities, but with finance  
19 companies and all, you have a certain grace period  
20 before they can charge you extra interest for  
21 different things. How does that work with utilities?

22 CHAIRMAN CLARK: I believe for the -- well,  
23 we don't set it for this particular -- Seaboard. The  
24 county has done that. But for those which we  
25 regulate, they have to put in their tariffs when the

1 bills are due and what they will charge in the event  
2 it is late.

3 Now, one of the reasons we allow them to  
4 charge the late fee is because it does cost money not  
5 to have money come in on time, and we feel that the  
6 customer who is late should bear that cost and not the  
7 other customers.

8 John, help me out on -- do we have a grace  
9 period or what is generally the rule for rate  
10 payments?

11 MR. WILLIAMS: A minimum of 20 days from the  
12 postmarked date on the bill. And after 20 days, the  
13 company then has to give them a five-day written  
14 notice before they can discontinue service.

15 CHAIRMAN CLARK: But a late fee, is it  
16 due -- if you don't pay by the 20th day after the  
17 postmark, a late fee does accrue?

18 MR. WILLIAMS: Each one is approved for the  
19 company.

20 CHAIRMAN CLARK: Okay. Well, you have to  
21 have a late fee approved by us.

22 WITNESS WATSON: What's so strange about  
23 this 20 days from the postmark or whatever, the way  
24 they do it, if you send your bill in the day after you  
25 get it, you'll get your other bill in a day or two.

1 If you send it two weeks later, you'll get your next  
2 month's bill then.

3 CHAIRMAN CLARK: That's not supposed to  
4 occur. They are supposed to be on a regular billing  
5 cycle.

6 WITNESS WATSON: They float around like --  
7 it's just unreal. It's up and down the way it's  
8 going. Thank you.

9 CHAIRMAN CLARK: Thank you.

10 WITNESS HANCOCK: My name is Jerry Hancock  
11 again. One thing I forget to ask you when I was  
12 making statements is a few months back, maybe -- I  
13 don't know how many -- maybe it's been six, eight, ten  
14 months, I got a letter from them in the mail; and it  
15 said your sewer rate is going up, and we do not have  
16 to go before the County Commissioner, whichever one --  
17 I don't remember which department which it was.

18 CHAIRMAN CLARK: It was the County  
19 Commission.

20 WITNESS WATSON: We do not have to go  
21 before -- I mean, how can they do that? My bill went  
22 up \$27.

23 CHAIRMAN CLARK: Well, you have to ask the  
24 county that for that particular case, but --

25 WITNESS HANCOCK: That's why I was asking

1 because I want to know what I have to do.

2 CHAIRMAN CLARK: I don't know what the  
3 procedures are.

4 WITNESS HANCOCK: It wasn't on water. It  
5 was on sewer. They said that we don't have to have an  
6 approval to raise your rates, and that's why  
7 everybody's complaining so much. My bill went --  
8 because I know the church pays my water bill for me.  
9 That's part of my housing.

10 CHAIRMAN CLARK: Well, I'm sure Mr. Odom can  
11 help you out who is the county attorney.

12 WITNESS HANCOCK: Because my secretary calls  
13 and says, "You've got a busted pipe or what? Why is  
14 your water bill from \$42 the last three months to 75?"  
15 I mean, it was all sewer. So they just raised my rate  
16 from 42 to 75, just added to the sewer, and that was  
17 it.

18 CHAIRMAN CLARK: As I say, that would have  
19 been done through the county, and you need to check  
20 with them.

21 WITNESS HANCOCK: Okay. I think that's why  
22 you're getting most of your major complaints with the  
23 bill. It's because they got the big rate hike in  
24 sewer, and now they're looking for the same thing with  
25 the water. So, what, you're bill's going to be \$100?

1           CHAIRMAN CLARK: Thank you, Reverend.  
2 Ladies and gentlemen, thank you very much for coming  
3 out. And thank you very much for staying here the  
4 entire evening.

5           This hearing is adjourned.

6           MS. O'SULLIVAN: Chairman Clark, you need to  
7 amend the exhibits of the notice?

8           CHAIRMAN CLARK: Yes. We're going to have  
9 to do some procedural things, but we are through  
10 taking customer testimony. Go ahead, Ms. O'Sullivan.

11          MS. O'SULLIVAN: We need to move in or  
12 identify at least the notice of the service hearing.

13          CHAIRMAN CLARK: Mr. Feil?

14          MR. FEIL: I have it here, if you want me to  
15 access the box immediately or --

16          CHAIRMAN CLARK: Well, we have some notices  
17 of hearings that we had to identify as exhibits. Can  
18 you give me --

19          MR. FEIL: Some were previously identified.

20          MS. O'SULLIVAN: Yes.

21          MR. FEIL: And Ms. O'Sullivan may have the  
22 numbers.

23          CHAIRMAN CLARK: All right. Help me out  
24 here. What do we have to identify?

25          MS. O'SULLIVAN: Exhibit No. 8 was notice of

1 the Pasco County hearing.

2 CHAIRMAN CLARK: Okay. That's already been  
3 identified.

4 MS. O'SULLIVAN: Yes, but was not presented.  
5 Copies were presented.

6 CHAIRMAN CLARK: Okay.

7 MS. O'SULLIVAN: No. 9 is the notice of  
8 Kissimmee hearing. And No. 10 is the notice of the  
9 Jacksonville hearing.

10 UNIDENTIFIED WITNESS: Ma'am, we have a  
11 Pasco letter if you want it.

12 CHAIRMAN CLARK: No, this is some formal  
13 exhibits we have to get from the Company, but thank  
14 you. All right.

15 MS. O'SULLIVAN: And No. 17 will be the  
16 notice of this service hearing.

17 CHAIRMAN CLARK: Okay. And Exhibit 17 will  
18 be the notice of the Temple Terrace service hearing?

19 MS. O'SULLIVAN: That's correct.

20 CHAIRMAN CLARK: And, Mr. Feil, you have all  
21 of those to give the clerk?

22 MR. FEIL: Yes, ma'am.

23 (Exhibit No. 17 marked for identification.)

24 COMMISSIONER KIESLING: Since you weren't  
25 there at the Pasco hearing, let me tell you kind of

1 what happened there.

2 Mr. Shreve wanted the list of who all  
3 actually was mailed these things, so I delayed letting  
4 them having to put that in until they had the list.  
5 And it's my understanding now that they have those  
6 lists attached to the other notices, the other systems  
7 as well.

8 CHAIRMAN CLARK: Okay.

9 COMMISSIONER KIESLING: So that's what these  
10 boxes are. Am I correct?

11 MR. FEIL: Yes, ma'am.

12 CHAIRMAN CLARK: Thank you, Mr. Feil. Is  
13 there anything else we need to identify?

14 MR. SHREVE: That notice is with the name  
15 and address of the --

16 CHAIRMAN CLARK: That's my understanding,  
17 Mr. Shreve.

18 MR. FEIL: Yes, sir.

19 CHAIRMAN CLARK: Thank you very much. The  
20 hearing is adjourned.

21 (Thereupon, the hearing concluded at 9:10  
22 p.m.)

**RTC**Resolution Trust Corporation

**DOCKET** 950495-WS **11**  
**EXHIBIT NO.** 11  
**CASE NO.** 96-04227

Mr. Richard Fitzgerald  
 June 24, 1991  
 Page 2

On February 16, 1989, pursuant to resolution 89-212, the Federal Home Loan Bank Board appointed the Federal Savings and Loan Insurance Corporation as conservator of Security Savings and Loan Association. Then, on March 15, 1991, pursuant to Order No. 91-161, the office of Thrift Supervision appointed the Resolution Trust Corporation (RTC) as receiver for Security Savings and Loan Association.

On that same day, RTC became receiver of Security Savings, and the receiver took possession of the business and property of Security Savings and Loan Association. That property included the stock of Land Resources Corporation and its wholly-owned subsidiary, Lehigh Utilities. Thus, it appears that pursuant to actions in accordance with federal law, a transfer of the stock of Lehigh Utilities, Inc., was accomplished on March 15, 1991. Although all of the stock of Lehigh Utilities will be transferred again on July 1st to Seminole Utility Company, Lehigh Utilities, itself, has made no transfer nor is it presently proposed that it will in the transaction scheduled to take place on July 1st. The stock transfer on July 1 is a transaction over which Lehigh Utilities has no control.

Personnel of Topeka Group have expressed their preference that closing be postponed pending the processing of a formal application to the Florida Public Service Commission as though this transaction were one which fell within the scope of the Florida law in Chapter 367, Florida Statutes. [We of the RTC sincerely believe that our obligation under the federal law to the depositors of Security Savings and Loan Association and to the American tax-payers is such that we should proceed as expeditiously as is reasonably possible. We are advised that Seminole Utility Company proposes to proceed as quickly as it can before the Commission to request that the Commission acknowledge and accept this transfer. RTC is willing to be a party to those proceedings. RTC wishes to emphasize that Lehigh Utilities had no voice in this matter, and that the decision to proceed with this stock transfer was made by RTC pursuant to its obligation, to place these properties into private enterprise ownership again, in order that these businesses may be operated efficiently and profitably in the public interest.

Resolving The Crisis  
Restoring The Confidence

August 31, 1995

Mr. Frederic W. Schlosstein, Jr.  
1411 Irondale Street  
Lehigh Acres, Florida 33936

Dear Mr. Schlosstein,

This is in response to your correspondence dated August 10, 1995, inquiring as to: (i) how Southern States Utilities acquired ownership of Lehigh Utilities and (ii) and what part the Resolution Trust Corporation ("RTC") played in the sale for consideration or tax-free exchange of a related corporation.

As covered in previous correspondence to Senator Kerry, a copy of which you are in receipt, Security Savings and Loan Association, under the jurisdiction of the RTC, negotiated a sale of Lehigh Corporation to the Topeka Group, a wholly owned subsidiary of Minnesota Power (the "Minnesota Power Transaction").

Our files show no reference to Southern States Utilities. For information regarding transactions concluded after the purchase by Minnesota Power, the appropriate entity to contact is Minnesota Power, as the RTC would not be privy to privately held information regarding subsequent transactions.

I hope the information presented above is helpful to you.

Sincerely,

January 20, 1983

Please Address Reply To: Lee County Health Department  
Joseph W. Lawrence, M.D., Director

DOCKET 950495-WS  
EXHIBIT NO. 13  
CASE NO. 96-04227

Mr. Edward Shapiro, Vice President  
Lehigh Corporation  
201 East Joel Boulevard  
Lehigh, Florida 33936

Dear Mr. Shapiro:

The Lee County Health Department and the Lehigh Corporation entered into a firm policy pertaining to onsite sewage disposal systems within the total land area then known as the Lehigh Acres Development and in the eastern portion of Lee County. The initial policy was adopted on April 8, 1970. Subsequent changes in regulations of the Florida Sanitary Code, and more specifically identified as Chapter 10D-6, Florida Administrative Code, raised questions as to the validity of the prior agreement.

Through many consultations and exchanges of pertinent information with the Florida Department of Health and Rehabilitative Services, Health Program Office, the 1970 agreement, with some modification, has been agreed upon. A letter from H.R.S. dated January 11, 1983 is attached for its supportive value.

The entire development of the Lehigh Corporation, having a long history of satisfactory ground water, shall be given approval for onsite sewage disposal systems based upon requirements of Chapter 10D-6, F.A.C. and other stipulations as follows:

1. Each residential site shall be allowed an onsite sewage disposal system, within a section of land; along with a private potable water well, until twenty-five percent (25%) of the building sites have been used for residential building.
2. After public water distribution lines are installed and made functional to a section of land within the development, onsite sewage disposal systems shall be approved until the same section of land reaches a fifty percent (50%) density of residential building.
3. Commercial and multi-family buildings over four (4) living units shall be evaluated for onsite sewage disposal systems individually and separately.

 COMPANY/  
 WITNESS:  
 DATE: 1/29/83

4. The Lehigh Corporation shall furnish the Lee County Health Department an up-to-date report on densities of construction on each section of land and this report shall be made annually and beginning in December 1983.
5. The Lehigh Corporation shall cause all system failures to be corrected.
6. In the event that Lehigh Corporation; Lehigh Utilities, or any portion of the development changes ownership (excluding normal lot sales), this agreement shall require a written statement from the new owner/management agreeing to all provisions of this document. Said statement shall be presented to the Lee County Health Department within thirty (30) days from the ownership/management change.

This agreement shall be considered valid when the authorized representatives of the Lehigh Corporation and the Lee County Health Department have signed this document.

July 17, 1991

Mr. Joseph H. Barker  
Environmental Health Director  
Department of Health and Rehabilitative Services  
3920 Michigan Avenue  
Fort Myers, FL 33916

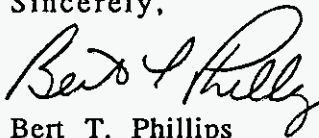

Dear Mr. Barker:

This letter is to inform you that on July 1, 1991, a change of ownership of Lehigh Utilities, Inc. occurred whereby Lehigh Utilities was acquired from Lehigh Corporation by Seminole Utility Company. Pursuant to Condition No. 6 of your letter dated January 27, 1987 regarding the Lehigh Acres area density agreement, we wish to inform you that Lehigh Utilities, Inc. and Seminole agree and accept the terms of the agreement embodied in that letter.

Although we wish to continue with such an agreement, Lehigh Utilities, Inc. is no longer directly affiliated with the Lehigh Acres developer(s). Therefore, we request that the agreement refer solely to Lehigh Utilities, Inc. Please feel free to contact Mr. Edward Mangold, Development Administrator, or myself, if you have any questions regarding this matter. We may be reached at SSU Services, 1000 Color Place, Apopka, Florida 32703, or telephone 407/880-0058.

I look forward to receiving your acknowledgement that the Department has received this notice and is agreeable to the revision proposed herein.

Sincerely,

Bert T. Phillips  
President

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION  
 DOCKET NO. 950495-WS  
 NOTICE TO CUSTOMERS OF SERVICE HEARING**

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

**DATED: September 12, 1995**

Notice is hereby given that the Florida Public Service Commission will conduct service hearings to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for customers in Hillsborough County(ies) will be held at the following time and place:

**October 3, 1995  
 6:00 p.m.  
 Temple Terrace Golf and Country Club  
 200 Inverness Avenue  
 Temple Terrace, FL 33617**

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any person requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

**PURPOSE**

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

Mr. Bert T. Phillips, President  
Lehigh Utilities, Inc.  
305 Coolidge Avenue  
Lehigh Acres, Florida 33936

Dear Mr. Phillips:

Thank you for your letter of July 24, 1991 informing this department of the change of ownership of Lehigh Utilities. I apologize for the delay in my response to you regarding the long established density agreement between us. It was not until today that I was able to receive clarification from our Tallahassee office on this issue relative to language addressing density agreements in the proposed Chapter 10D-6 code revision. I was reluctant to respond until I was certain the new rule would permit us to continue with our present agreement.

I am pleased that Lehigh Utilities, Inc. and Seminole Utility Company agree to accept the terms of the agreement as we have over the years benefited from this workable arrangement. Densities are monitored, homeowners benefit from repair stipulations, and public health considerations are addressed by limiting the proliferation of septic systems. I look forward to the continuance of this agreement and the submission of the water and sewer analysis sometime in January, 1992. If I can be of any further assistance do not hesitate to call.

Sincerely,

*Joseph H. Barker*

**Notice to Customers of Application**

Application by Southern States Utilities, Inc.  
for rate increase and increase in service availability charges  
for Osceola Utilities, Inc., in Osceola County, and in  
Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval,  
Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau,  
Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns,  
St. Lucie, Volusia, and Washington Counties.

Dated: September 12, 1995

On June 28, 1995, SOUTHERN STATES UTILITIES, INC. (hereinafter referred to as "Southern States") filed an application for increased water and wastewater rates ("Application") with the Florida Public Service Commission ("Commission"). The Commission cited certain deficiencies in the Application, and Southern States corrected these deficiencies by filing an Amended and Restated (the "Amended") Application on August 2, 1995. That date is considered the official date of filing for this proceeding. The Amended Application and supporting Minimum Filing Requirements ("MFRs") address Southern States' need for rate relief in its 152 water and wastewater service areas in 26 counties throughout the State of Florida. According to the Amended Application, Southern States would earn no return on equity on either its water operations or wastewater operations applying present rates to the Commission approved test year of calendar 1996. The final rates proposed in the Amended Application will generate total annual revenues of \$44,479,271 for water operations and \$31,947,518 for wastewater operations. The Amended Application states that Southern States has or will have placed over \$100 million of additional water and wastewater plant improvements into service since 1992 through the end of December 31, 1996. The Amended Application also states that the majority of these plant improvements were required by environmental laws, rules or regulations.

Southern States has requested a rate increase because its existing water and wastewater rates are insufficient to provide the funds needed to operate its facilities and provide a fair rate of return on its investment in property used and useful in the public service. Southern States is requesting an increase in final rates sufficient to allow it to operate its facilities and to provide the opportunity to earn an overall rate of return of 10.32% on its water and wastewater operations.

Southern States has proposed interim rates to be collected while ~~its request for final rates is~~ pending. The proposed interim rates would be charged in all service areas except Buenaventura Lakes and service areas located in Hernando, Hillsborough and Polk Counties. The proposed interim rates are designed to generate annual revenues of \$31,930,571 for water operations and \$22,569,030 for wastewater operations. Commission action on Southern States' request for interim rate is scheduled to be heard on October 6, 1995, and, if approved, interim rates would become effective on the date revised tariff sheets are stamped and approved by the Commission. Interim rates are collected subject to refund.

**FLORIDA PUBLIC SERVICE COMMISSION**  
**DOCKET**

**NO.** 950495 **EXHIBIT NO.** 16

**COMPANY/**

**WITNESS:**

**DATE** 9/23/96

SSU is requesting that the Commission approve uniform rates for all water service areas which receive service from conventional treatment facilities. Two of SSU's service areas, Marco Island (Collier County) and Burnt Store (Charlotte/Lee Counties), receive service using an advanced treatment technology known as reverse osmosis. SSU has proposed that these two service areas constitute a separate reverse osmosis service classification. Therefore, SSU proposes that these two service areas have their own uniform reverse osmosis water rates. SSU proposes that all wastewater customers be charged a uniform rate. SSU also proposes that the Commission authorize SSU to implement a monthly weather normalization clause adjustment. This mechanism provides for monthly adjustments to the gallonage charge, up or down, to reflect variations in customer consumption. SSU will produce an expert on water conservation and water conserving rate structures who will testify that the implementation of SSU's proposed rate structure and the weather normalization clause will foster and encourage water conservation in the areas to which SSU provides service.

A schedule of Southern States' present rates, proposed interim rates and proposed final rates for your service area is attached. All proposed rates, interim and final, are subject to Commission approval in this proceeding. Although Southern States has proposed certain revisions to its existing rates in order to generate additional revenues, the Commission is not bound by such proposals and will give consideration to applying said revenue increases, if any are authorized, in the manner the Commission deems fair, reasonable, and proper. Southern States will send you another notice stating the effective date and the amount of the rates prior to implementation of the rates ultimately approved by the Commission. Additional information concerning the proposed rates appears later in this notice.

#### Service Hearings

The Commission will conduct 14 service hearings to discuss the above Amended Application for a water and wastewater rate increase. The service hearings are currently scheduled to be held at the following dates, times and locations:

September 14, 1995 (10:00 a.m. CST)

All persons who wish to testify are urged to be present at the beginning of a service hearing as the hearing may be adjourned early if no customers are present. Any person requiring some accommodation at this hearing because of physical impairment should call the Division of records and Reporting at (904) 488-8371 at least five calendar days prior to the hearing. If you have hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) or 1-800-955-8771 (TDD).

#### Purpose of Service Hearings

The purpose of the service hearings is to allow customers and other substantially affected persons an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility.

Any person who wishes to comment or provide information to the Commission may do so at one or more of the service hearings, orally or in writing. Written comments may also be sent to the Commission at the address given at the end of this notice.

The Reasons for Rate Request

As stated above, the necessity for a rate increase arises from the fact that Southern States has or will have placed an additional \$100 million of plant into service during the period January 1, 1992 through December 31, 1996 and will not earn a fair and reasonable rate of return for the test year ended December 31, 1996. The specific reasons for and discussion of the requested rate increase are found in the Application, Amended Application, and MFRs on file at the locations identified below.

Public Inspection

Copies of a Rate Case Synopsis (a brief summary of the case and rate-setting process), the Application, Amended Application, and MFRs are available for public inspection during the regular business hours of the following locations:

Bradford County Public Library

### Case Schedule

The Rate Case Synopsis contains the time schedule established for this rate case. The Commission has established the following dates for this case:

<u>Event</u>	<u>Date</u>
Service Hearing - Sunny Hills	September 14, 1995
Service Hearing - Kissimmee	September 19, 1995

Service Hearing - Jacksonville	September 20, 1995
Staff Recommendation - Interim Rates	September 26, 1995
Service Hearing - New Port Richey	September 28, 1995
Service Hearing - Temple Terrace	October 3, 1995
Special Agenda - Interim Rates	October 6, 1995
Service Hearing - Ocala	October 11, 1995
Service Hearing - Sanford	October 12, 1995
Service Hearing - Brooksville	October 13, 1995
Order - Interim Rates	October 26, 1995
Service Hearing - Mt. Dora	November 8, 1995
Intervenor Testimony filed	November 20, 1995
Service Hearing - Sebring	November 27, 1995
Service Hearing - Ft. Myers	November 28, 1995
Staff Testimony filed	December 6, 1995
Service Hearing - Stuart	December 12, 1995
Rebuttal Testimony filed	December 20, 1995
Prehearing Statements filed	December 20, 1995
Prehearing	January 5, 1996
Service Hearing - Marco Island	January 22, 1996
Service Hearing - Citrus County	January 24, 1996
Final Hearings - Tallahassee	January 29 - February 2 and February 5, 7-9, 1996
Briefs Due	February 26, 1996
Staff Recommendation - Revenue	April 17, 1996
Staff Recommendation - Rates	April 24, 1996
Agenda - Revenue Requirements	April 29, 1996
Agenda - Rates	May 6, 1996
Final Order	May 28, 1996

### **Rates**

The current and utility-proposed interim and final rates are as set forth in the attached rate schedule and are explained more thoroughly in the Application, Amended Application, Rate Case Synopsis, and MFRs available at the locations listed in this notice.

Please note that for those service areas where Southern States provides conventional water treatment service and for those service areas where Southern States provides wastewater treatment service, the rate schedules attached show two distinct sets of proposed final rates, unless the affected service area lies within Polk, Hillsborough, or Hernando Counties (the "Additional Counties").

For service areas not within the Additional Counties, the first set of final rates (identified as "Proposed Rates/Without Counties"), taken from the original Application, reflects a

consolidation of service areas receiving conventional water treatment service and all wastewater service areas but excludes plants in the Additional Counties. The second set of proposed final rates (identified as "Proposed Rates/With Counties"), taken from the Amended Application, reflects a consolidation of all Southern States' service areas receiving conventional water service and all wastewater service areas, including those in the Additional Counties. Customers receiving water service from reverse osmosis treatment facilities are grouped in a distinct service classification in both final rate scenarios.

Both sets of proposed final rates are being provided to you in the rate schedule for service areas not within the Additional Counties since the rates the Commission ultimately approves may be impacted by an appeal of a recent Commission decision regarding the Commission's jurisdiction to set rates for SSU's service in the Additional Counties. Because of this appeal, Southern States' proposed interim rates do not include service areas in the Additional Counties and Southern States has not proposed interim rates for communities in the Additional Counties. In addition, Southern States has not requested interim rates for the Buenaventura Lakes service areas pending completion of Southern States' acquisition of these areas which is expected to occur later in 1995 or early 1996.

#### **How to Contact the Commission**

Written comments regarding the utility and the proposed rates, and requests to be placed on the mailing list for this case, may be directed to the following address:

Director, Division of Records and Reporting  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

All correspondence should refer to "Docket No. 950495-WS -- In Re: Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Osceola Utilities, Inc., in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia, and Washington Counties."

If you wish to contact the Commission regarding complaints about service, you may call the Commission's Division of Consumer Affairs at the following toll-free number: 1-800-342-3552.

#### **How to Contact the Office of Public Counsel**

Any utility customer that wishes to contest the proposal may contact Florida's Office of Public Counsel at 1-800-342-0222 for assistance.

This Notice was prepared by Southern States at the direction and with the approval of the Commission Staff for distribution to Southern States' customers.

The headquarters of Southern States is located at the following address:

Southern States Utilities, Inc.  
1000 Color Place  
Apopka, Florida 32703

Our toll-free customer service number is 1-800-432-4501. You can reach customer service personnel at this number from 7:00 a.m. to 8:00 p.m., Monday through Friday.

Gallonge Charge (per 1,000 gals):	\$3.58	\$3.58	N/A	\$5.70

(1) Service areas located in Hernando, Hillsborough and Polk Counties as well as Buenaventura Lakes service area in Osceola County are not included in SSU's proposed interim rates. Please refer to footnote 2 for further explanation.

(2) The Florida Public Service Commission recently issued an order asserting jurisdiction over SSU's service areas in Hernando, Polk & Hillsborough Counties. These counties have appealed the Commission's decision to the First District Court of Appeals. It is now questionable whether the Commission possesses authority to establish rates for SSU's service areas in these Counties or whether such authority will exist at the time the rate increase application is completed.

NO Rate Increase!

Letter is not clear -

We have a variety of languages and I'm sure that if Eng. speaking people don't understand then what about Spanish or others.

The letter seemed to eliminate Hills County from the interim rate ~~but how hard would we be hit later?~~ ~~and at one point~~

L.B.6

It isn't sound like our rates were affected!

When my husband read he thought that ~~none~~ of it applied to us. Rates have more than doubled in about 3 years - why the <sup>Quality</sup> of water ~~service is no better~~ doesn't seem better.

Misleading - vague - almost purposely deceitful!

No pressure

If new plants have been installed how come Quality is no better?

increase

# Lehigh Utilities, Inc. <sup>16</sup>

a subsidiary of seminole utility company

July 24, 1991

Mr. Joseph H. Barker  
Environmental Health Director  
Department of Health and Rehabilitative Services  
3920 Michigan Avenue  
Fort Myers, Florida 33916

Dear Mr. Barker:

This letter is to inform you that on July 1, 1991 a change of ownership of Lehigh Utilities, Inc. occurred whereby Lehigh Utilities was acquired from Lehigh Corporation by Seminole Utility Company. Pursuant to Condition No. 6 of your letter dated January 27, 1987 regarding the Lehigh Acres area density agreement, we wish to inform you that Lehigh Utilities, Inc. and Seminole agree and accept the terms of the agreement embodied in that letter.

Although we wish to continue with such an agreement, Lehigh Utilities, Inc. is no longer directly affiliated with the Lehigh Acres developer(s). Therefore, we request that the agreement refer solely to Lehigh Utilities, Inc. Also, Mr. Ed Mangold, Business Development Administrator at Southern States Utilities, Inc. (SSU) in Apopka will be working with Garry Long in the future on all development related matters. We, therefore, further request that you include Ed in all development related discussions and correspondence as we proceed. Please feel free to contact Ed, Garry or me if you have any questions regarding these matters. SSU's address and phone number are; 1000 Color Place, Apopka, FL 32703; (407) 880-0058.

I look forward to receiving your acknowledgement that the Department has received this notice and is agreeable to the revisions proposed herein.

Sincerely,

Bert T. Phillips  
President  
Lehigh Utilities, Inc.

## OVERVIEW

Under the District's enabling legislation, the purpose of East County Water Control District is to manage the construction, operation and maintenance of the major infrastructure services necessary for the community of Lehigh Acres. In accordance with the provisions of the Act, Gee & Jenson, Engineers-Architects-Planners, Inc., as Engineers for the District, prepared an overall Master Water Management Plan for the District. East County Water Control District is committed to the implementation of this plan, which has been supplemented as new areas were added to the District boundaries. Implementation of the drainage system has been conceptually approved and permitted by South Florida Water Management District (SFWMD). As individual projects are prepared for construction, necessary construction permits are secured from SFWMD as a check that the master conceptual plan is being followed.

The Master Plan is illustrated by the enclosed Drainage System Map. System improvements yet to be constructed have been color-coded by the fiscal year in which completion is anticipated. A Construction Schedule Forecast has also been prepared (see following page) which describes the various construction projects to be built in each of the fiscal years noted.

Under the District's enabling legislation, East County Water Control District was authorized and has issued a series of bonds for the purpose of acquiring and constructing system improvements in accordance with the Master Water Management Plan. Monies from these bonds are presently administered by the Tampa office of N.C.N.B., and funds are drawn for payment of authorized construction costs through requisitions approved by the Board of Supervisors, the Engineer for the District, and the Attorney for the District.

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION  
NOTICE OF SERVICE HEARING  
DOCKET NO. 950495-WS**

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Hillsborough and Polk County(ies) will be held at the following time and place:

October 3, 1995  
6:00 p.m.  
Temple Terrace Golf and Country Club  
200 Inverness Avenue  
Temple Terrace, FL 33617

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

**PURPOSE**

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

STEVEN M. GALLIS, having been duly sworn, states as follows:

1. I am Supervisor of Administrative Services in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.
2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.
3. On in my presence and under my supervision, SSU personnel mailed to the customers of Hillsborough and Polk Counties a copy of the document identified as Notice To Customers Of Service Hearing Letter" attached hereto and marked "Exhibit A."
4. The names and addresses of the aforesaid customers were previously obtained by SSU from SSU Information Services Customer Address Files. A copy of the list of customer names and addresses is attached hereto and marked "Exhibit B."
5. On September 8, September 11, September 13, and September 15, 1995, my staff and I machine postmarked the envelopes containing copies of the aforementioned document(s) and hand delivered the envelopes to a representative of the United States Postal Service for delivery.
6. Attached hereto and marked "Exhibit C" is a copy of the relevant page of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit C contains information pertinent to the aforementioned mailing, to wit: on September 8, 1995, SSU mailed 9228 total batch items which included 375 pieces of mail fitting the description of "SSU Billing - Hershel Heights," on September 11, 1995, SSU mailed 1140 pieces of mail fitting the description of "Temple Terrace, FL Hearing Letters (Polk County) Labels," on September 13, 1995, SSU mailed 2596 pieces of mail fitting the description of "Temple Terrace Customer Hearing - Seaboard" and on September 15, 1995, SSU mailed 5712 total batch items which included 346 pieces of mail fitting the description of "SSU Billing Temple Terrace - Valrico Hills Customer Hearing Notice." I personally made these entries into the logbook, and the recordation therein coincides with my personal observation.

NOTICE TO CUSTOMERS OF SERVICE HEARING**

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

**DATED: September 12, 1995**

Notice is hereby given that the Florida Public Service Commission will conduct service hearings to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for customers in Hillsborough and Polk County(ies) will be held at the following time and place:

**October 3, 1995  
6:00 p.m.  
Temple Terrace Golf and Country Club  
200 Inverness Avenue  
Temple Terrace, FL 33617**

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any person requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

**PURPOSE**

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.
