1.0 POLICY DISPUTE - Any dispute between the Company and the customer or prospective customer regarding the meaning or application of any provision of this tariff shall upon written request by either party be resolved by the Florida Public Service Commission.

2.0 GENERAL INFORMATION - The Company's Rules and Regulations, insofar as they are inconsistent with any Statute, Law, Rule or Commission Order shall be null and void. These Rules and Regulations are a part of the rate schedules and applications and contracts of the Company and, in the absence of specific written agreement to the contrary, apply without modifications or change to each and every customer to whom the Company renders wastewater service.

In the event that a portion of these Rules and Regulations are declared unconstitutional or void for any reason by any court of competent jurisdiction, such decision shall in no way affect the validity of the remaining portions of the Rules and Regulations for wastewater service unless such court order or decision shall so direct.

The Company shall provide to all customers requiring such service within the territory described in its certificate upon such terms as are set forth in this tariff pursuant to Chapter 25-9 and 25-30, Florida Administrative Code, and Chapter 367, Florida Statutes.

- 5.0 WITHHOLDING SERVICE - The Company may withhold or discontinue wastewater service rendered under application made by any member or agent of a household, organization, or business unless all prior indebtedness to the Company of such household, organization, or business for wastewater service has been settled in full in accordance with Rule 25-30.320, Florida Administrative Code.

Service may also be discontinued for any violation made by the Customer or Consumer of any rule or regulation set forth in this tariff.

- 6.0 EXTENSIONS - Extensions will be made to the Company's facilities in compliance with Commission Rules and Orders and the Company's tariff.

- 7.0 LIMITATION OF USE - Wastewater service purchased from the Company shall be used by the customer only for the purposes specified in the application for wastewater service. Wastewater service may then be discontinued only after the Company has mailed or presented within five (5) working days a written notice to the customer in accordance with Rule 25-30.320, Florida Administrative Code. Wastewater service shall be restored only after the Company has received payment for all past-due bills and reconnect charges from the customer.

Partial payment of a bill for wastewater service rendered will not be accepted by the Company, except by the Company's agreement thereof or by direct order from the Commission.

- 17.0 **PAYMENT OF WATER AND WASTEWATER SERVICE BILLS CONCURRENTLY** - When both water and wastewater service are provided by the Company, payment of any wastewater service bill rendered by the Company to a customer shall not be accepted by the Company without the simultaneous or concurrent payment of any water service bill rendered by the Company. The customer's deposit may be transferred from one service location to another, if both locations are supplied wastewater service by the Company; the customer's deposit may not be transferred from one name to another.

SERVICE AVAILABILITY POLICY

Pursuant to Order No. 16528 in Docket No. 850517-WS, initial rates and charges were established to this utility. Within that docket, system capacity charges were established for both the water and sewer system as well as meter installation charges for the water system.

Pursuant to Order No. 18255 in Docket No. 870122-WS, the Commission recognized a negative acquisition adjustment for both the water and sewer system. Based upon the resultant large decrease to rate base the Commission approved the utility's request for cancellation of service availability charges and meter installation fees. Therefore, service availability charges approved in Docket No. 850517-WS are no longer in effect.

[2] If historical data is unavailable, a rough estimate for the daily flow of residential wastewater can be calculated by taking 80% of the corresponding water usage. However, it is recommended that historical data of actual wastewater flow be used. A similiar estimate for the daily flow of commercial wastewater can be calculated by taking 100% of the corresponding commercial water usage.
