PROCEEDINGS: MOUNT DORA SERVICE HEARING

BEFORE: CHAIRMAN SUSAN F. CLARK
COMMISSIONER J. TERRY DEASON
COMMISSIONER JULIA L. JOHNSON
COMMISSIONER DIANE K. KIESLING
COMMISSIONER JOE GARCIA

DATE: Tuesday, January 30, 1996

TIME: Commenced at 6:00 p.m.
Concluded at 9:40 p.m.

PLACE: Mount Dora Community Center
520 Baker Street
Mount Dora, Florida

REPORTED BY: JOY KELLY, CSR, RPR
Chief, Bureau of Reporting
Official Commission Reporter

1 **APPEARANCES:**

2 **MATTHEW FEIL**, 1000 Color Place, Apopka,
3 Florida, 32703, Telephone No. (407) 880-0058,
4 appearing on behalf of **Southern States Utilities, Inc.**

5 **MAGGI O'SULLIVAN**, Florida Public Service
6 Commission, Division of Legal Services, 2540 Shumard
7 Oak Boulevard, Tallahassee, Florida, 32399-0870,
8 Telephone No. (904) 413-6199, appearing on behalf of
9 the **Commission Staff**.

10 **JACK SHREVE**, Public Counsel, and **CHARLES J.**
11 **BECK**, Associate Public Counsel, Office of Public
12 Counsel, 111 West Madison Street, Room 812,

P R O C E E D I N G S

(Hearing convened at 6:00 p.m.)

CHAIRMAN CLARK: Ladies and gentlemen, it's 6 o'clock and we're ready to call this proceeding to order.

There are a few formalities we have to go through so bear with us while we do those. First of the formalities is to have our Staff read the notice.

MS. O'SULLIVAN: Thank you. Pursuant to notice this time and place has been set for customer service hearing in Docket No. 950495-WS, application for rate increase and increase in service availability charges by Southern States Utilities, Incorporated.

CHAIRMAN CLARK: Thank you. We'll take appearances starting with you, Mr. Feil.

MR. FEIL: Matthew Feil, 1000 Color Place Apopka, Florida, here on behalf of Southern States Utilities, Inc.

CHAIRMAN CLARK: Mr. Shreve.

MR. SHREVE: Jack Shreve and Charlie Beck, Office of the Public Counsel, representing the Citizens of the State of Florida and the customers of Southern States Utilities in opposition to the rate increase. (Applause)

MS. O'SULLIVAN: Maggi O'Sullivan.

1 UNIDENTIFIED SPEAKER: They didn't talk loud
2 enough for everybody to hear.

3 CHAIRMAN CLARK: All right. We'll talk
4 louder. Can you hear us now? Okay, I'm sorry.

5 Mr. Feil, you have the Proof of Publication
6 and Affidavit of the Notice being sent?

7 MR. FEIL: Yes, ma'am. I have that here it
8 would be Exhibit 43 I believe.

9 CHAIRMAN CLARK: Okay. The Proof of
10 Publication and at Affidavit indicating that the
11 notice has been sent to customers will be marked as
12 Exhibit 43:

13 (Exhibit No. 43 marked for identification.)

14 CHAIRMAN CLARK: At this time I'd like to
15 introduce the Commission to you. The full Commission
16 is here tonight. I'm Susan Clark. I'm chairman of
17 the Public Service Commission. To my right is
18 Mr. Terry Deason; to his right is Commissioner Diane
19 Kiesling; to my left is Commissioner Julia Johnson and
20 to her left is Commissioner Joe Garcia. (Applause)

21 We're here tonight at this service hearing
22 to hear from you all about the quality of service you
23 receive from Southern States Utilities. And we're
24 also here to hear your comments about the rate
25 increase request.

1 Southern States filed a petition requesting
2 an increase in rates. Along with that petition they
3 filed numerous documents which contain the financial,
4 engineering and rate information that they believe
5 supports their request for a rate increase.

6 The Utility has requested a two-tier uniform
7 rate along with a uniform wastewater rate. The
8 Utility has requested a final rate increase of up to
9 45.9% for water and 30.21% for wastewater. The
10 Utility also requested --

11 AUDIENCE: I've got 1,000%.

12 CHAIRMAN CLARK: I should explain to you
13 that's on a uniform basis that they requested that.

14 The Commission has granted an interim rate
15 increase. However, that rate increase is subject to
16 refund after we conclude the proceedings on this
17 petition.

18 We have held numerous customer service
19 hearings. This is one of those hearings. We've held
20 over 20 customer service hearings. We will hold the
21 technical hearings in Tallahassee starting on April
22 29th, and that will go for approximately two weeks.
23 At that time we will hear from the Utility and the
24 intervenors through the testimony of their expert
25 witnesses. They will be testifying on the financial

1 justification for the increase and also on the
2 accounting matters and rate matters. At that time,
3 the intervenors will also have the opportunity to
4 present their evidence in opposition to the rate
5 increase. Mr. Shreve will be presenting testimony and
6 evidence, as will the other intervenors.

7 This hearing is designed to hear from you.
8 However, we have allowed the parties to this case to
9 give brief opening statements of no more than five
10 minutes. We will do that right now. After that, I
11 will swear in everyone who wishes to present
12 testimony. But at this time I'd like to hear from the
13 Company. Give you five minutes to make your
14 presentation and then Mr. Shreve you will have five
15 minutes to make a presentation.

16 Go ahead, Mr. Feil.

17 MR. FEIL: Thank you, Commissioner.

18 My name is Matthew Feil. I'm here on behalf
19 of Southern States Utilities.

20 Southern States filed the rate case now
21 under consideration because it was not able to earn a
22 reasonable profit from the rates in effect prior to
23 the case's being filed. Since SSU's last consolidated
24 rate case in 1992 SSU has invested and will invest an
25 additional \$100 million in additional utility plant on

1 on total-company basis.

2 Rates in SSU's last rate case were set using
3 1991 information, so SSU's additional investments
4 since that time, roughly \$20 million on a company-wide
5 basis through 1996 were not considered.

6 SSU submitted information to the Commission
7 showing that in 1994 SSU's earnings were less than 3%
8 on its investment in 1994. Because of the additions I
9 just mentioned, that return will disappear in 1995 and
10 1996 and SSU will lose money.

11 Despite these poor returns, SSU has
12 continued to invest in-plant additions primarily
13 because it is required to do so by the DEP, EPA, Water
14 Management District and other governmental agencies
15 rules, regulations, permits, orders and the like.

16 In Lake County alone from 1992 through 1994
17 plant investments increased approximately \$2 million.
18 Through the end of 1996, an additional \$2 million will
19 be invested in Lake County.

20 With increase investment caused by increase
21 regulation and service requirements comes the need for
22 revenue adjustments. Electric utilities experienced
23 higher revenue requirements and higher revenue needs
24 in the early 1980's such it was not unusual for a
25 electric bill to approach \$100 a month. Water and

1 wastewater facility have been facing similar pressures
2 since the mid-1980s when the Clean Water Act was
3 passed by Congress.

4 SSU's shareholders are no different than
5 shareholders in any other business enterprise. They
6 would like to earn a reasonable rate of return on
7 their investment and that's why we're here.

8 What I've just discussed is one of the two
9 major issues in this proceeding, the total revenue
10 issue. The second major issue in the proceeding is
11 rate structure. Total revenue issue concerns how much
12 money in total the Company would be allowed to collect
13 through rates. The rate structure issue concerns
14 which customer groups will be responsible for what
15 portion of the total.

16 SSU has requested at the conclusion of this
17 case what is called a uniform rate. Basically a
18 uniform rate reflects a pooling of all the revenue
19 requirements from all of SSU's service areas
20 throughout the state, such that most of the customers
21 pay the same uniform rate. A possible alternative to
22 the uniform rate structure is what is called a
23 stand-alone rate, where revenue requirements for each
24 individual locality are calculated and rates even
25 among customers in Lake County may vary widely.

1 How these different rate structures affect
2 you can be illustrated in two ways. First, by
3 considering the difference between your prorate-case
4 uniform rates against what your prorate-case
5 stand-alone rates would have been. For this
6 comparison, the stand-alone rates, which I'm going to
7 refer to, are the modified stand-alone rates from an
8 order the Commission issued in response to a 1994
9 court decision reversing uniform rates.

10 For every SSU service area in Lake County
11 involved in SSU's last rate case, except for Silver
12 Lake Estates Western Shores, the prorate-case, uniform
13 rates are lower than the prorate-case stand-alone
14 rates, ranging anywhere from a few cents in Fern
15 Terrace to a \$76 difference in Palisades Country Club.

16 The second comparison you can make between
17 uniform and stand-alone rates is one that you have in
18 front of you on those blue sheets that the
19 Commissioner has handed out: Comparing the interim
20 rates which the Commission has recently authorized SSU
21 to collect, to the uniform rates SSU has requested at
22 the end of the case.

23 Interim rates are rates which the law allows
24 SSU to collect subject to refund while the rate case
25 is pending. The interim rates the Commission approved

1 in this case follow a version of the stand-alone
2 rates.

3 As a result of that rate structure decision,
4 every residential customer in Lake County, with the
5 exception of Silver Lake Estates Western Shores and
6 Venetian Village customers who have water but not
7 wastewater, will pay interim rates higher than the
8 uniform final rates SSU has requested at the
9 conclusion of this case, based on their average use.

10 This is so even though the interim rates are
11 based on 1994 information and the final rates are
12 based on 1996 information reflecting higher
13 investments. Why? Because the rate structure
14 difference that I've described.

15 SSU customer groups or various customer
16 groups oppose uniform rates because their stand-alone
17 rates as proposed may be lower than uniform rates.
18 You can see from the blue sheets the Commission has
19 passed out how you are affected.

20 SSU favors uniform rates at the end of this
21 case for all of its customers because, among other
22 reasons, uniform rates reflect the fact that you all
23 receive the same service from the same utility
24 company, and because uniform rates serve as insurance
25 against future rate spikes, resulting from high

1 investment requirements in one given locality.

2 Thank you for your attention.

3 CHAIRMAN CLARK: Thank you, Mr. Feil. Mr.
4 Shreve.

5 MR. SHREVE: Thank you. It's good to be
6 here and have a crowd like this; happy, satisfied
7 Southern States customers. (Laughter)

8 Mr. Feil talks about Southern States not
9 being able to earn enough profits.

10 The calculations that they make are on
11 phantom figures. The Public Service Commission in the
12 last case, which you got a hefty -- which Southern
13 States got a hefty increase from everyone. They have
14 disallowed \$6 million profit that was made in a
15 St. Augustine Shores sale, a gain on sale. We have
16 another sale in Sarasota County that's in case, where
17 they made a profit of \$19 million. The last case
18 before that where there was a loss on sale, or a gain
19 on sale -- but a loss on sale was right here in Lake
20 County. Southern States had a loss on sale of a small
21 system north of Leesburg. You paid for the loss on
22 sale but you don't get credit for the gain on sale.

23 In their rate base they are given credit for
24 a higher rate base and a return on it more than they
25 have invested. When they bought Deltona Utilities

1 they paid about \$9 million less than the Public
2 Service Commission gave to them in their rate base.
3 So they are receiving a return from you right now on
4 that.

5 The same situation with Lehigh Acres where
6 they purchased a golf course, country club, utility at
7 about 40% of the value because it was like a bankrupt
8 sale. They wrote everything else down but the utility
9 so that goes in the pot.

10 The increase revenue requirements that they
11 are claiming are for conservation, environmental and
12 that type thing, most -- a very large part of their
13 investment is to cover future growth from which they
14 are going to make more money on; not environmental.
15 And they keep talking more about conservation, water
16 conservation than anything else. There may be some
17 additional testing requirements, but you show me in
18 any of their filing where they are really putting this
19 money to conserve water, unless it's raising your
20 rates so high you can't afford to use it. (Applause)

21 Let me give you a couple of examples. East
22 Lake Harris, coming into the '92 rate case, the one
23 before this one that hasn't been completed yet, the
24 revenue that was coming into Southern States from East
25 Lake Harris was \$20,058. If they get what they want

1 out of this one, they want \$120,000. Holiday Haven,
2 coming into the last rate case, \$17,591. They want
3 \$77,000. Silver Lake Western Shores, the one system
4 that Mr. Feil pointed to that would prefer stand-alone
5 rates, coming into the last rate case, \$240,000;
6 coming out of this one they want \$449,000.

7 The point I'm making here is that they want
8 the money. They will get the total amount of money
9 regardless as to who is paying for it. So the first
10 thing the Public Service Commission needs to do is get
11 the rates down for every system below a fair or to a
12 fair rate.

13 It is not a fair rate for East Lake Harris
14 to go from \$14.76 for 6,000 gallons of water prior to
15 the '92 rate case, to \$110. Regardless of who is
16 going to pay it, Southern States should not get that
17 money. Same situation, Quail Ridge would go from
18 14.76 before the last rate case to \$104 for 6,000
19 gallons of water. That it is not fair, it is not just
20 and it is not reasonable and it should not be granted
21 to Southern States no matter who is paying for it.

22 They want to take out of your county the,
23 before the 1992 rate case, \$535,000. If they get what
24 they want out of your county, 1,436,000 out of this
25 case. In sewer, and there are only four systems on

1 it, they started in in '92 with \$93,000 and they want
2 to go to \$367,000 coming out of your county. It is
3 not right.

4 The rate for Holiday Haven, 12.14 flat rate
5 coming into the '92 case, depending on rate structure
6 who pays it, but they want \$203 for 6,000 gallons for
7 sewer per month. It's not fair, it's not just, it's
8 not reasonable, and rather than increasing their
9 rates, our case is going to show it should be a rate
10 decrease and not an increase. Thank you. (Applause)

11 CHAIRMAN CLARK: Thank you, Mr. Shreve.

12 I would like to introduce some Staff from
13 the Public Service Commission. They are available to
14 help you and answer your questions. If you don't wish
15 to testify, you can talk to them. You can also use
16 the sheet on the back of the handout and mail it into
17 the Commission with your comments. But let me
18 introduce the Staff to you.

19 This gentlemen back here is Marshall Willis.
20 He is the bureau chief of our Bureau of Economic
21 Regulation in our Division of Water and Wastewater.
22 The gentlemen sitting with him is Mr. Troy Rendell,
23 who is a rate supervisor in that bureau.
24 Ms. O'Sullivan has introduced herself when she gave
25 her appearance. In the back of the room we have

1 Margaret Ring, who is with our Division of Consumer
2 Affairs, and Sandy Simmons. I don't see Sandy right
3 now but she was in the back of the room.

4 We also have a engineer with our Water and
5 Wastewater Division, Mr. Stan Rieger, and he's right
6 over here. Our court reporter tonight is Joy Kelly
7 and she's back here taking notes.

8 The Staff is available to help you. If you
9 have any questions, please see them. And when we take
10 a break, you can come up and ask us questions if you
11 would rather not testify.

12 We will be swearing you in tonight so that
13 we can rely on your testimony when we make our
14 decision. Mr. Shreve will call you in the order you
15 have signed up.

16 I should tell you if you previously
17 testified in a service hearing, that record continues
18 to be part of this proceeding and it's available for
19 the Commission to rely on that testimony in making
20 their decision. So you do not have to come up and
21 testify again this evening if you already have.

22 Finally, when you come up to testify, if you
23 would please give us your name again, spell your last
24 name and tell us the utility system from which you
25 receive service, that would be helpful to us.

1 CHAIRMAN CLARK: Is that --

2 WITNESS THAYER: T-H-A-Y-E-R.

3 CHAIRMAN CLARK: Thank you.

4 WITNESS THAYER: I would like to speak just
5 a little bit about the type of people that are running
6 SSU.

7 I moved down here in 1990. I built a house.
8 I came down from near Albany, New York. I moved down
9 here. I built a house in the spring down here in
10 1990. I came down here at the end of May to close on
11 the house but I had to go back north. In the meantime
12 while I was down here my sod was brought in. And so
13 when I went back north, I had an automatic sprinkling
14 system which ran once a day. And I had to let it run
15 automatically, which is only once a day. And I will
16 show you a picture of the property, if you wouldn't
17 mind. It's a property that consists of 70 foot across
18 the front, 150 foot deep and 2,000 foot house on it.

19 When I got back north I got my first -- now
20 when I went north I shut off all the water in my
21 house.

22 CHAIRMAN CLARK: Mr. Thayer, do you have a
23 picture you want us to look at?

24 WITNESS THAYER: Yes, please. It does not
25 include the corner. That's another person's property.

1 You can see the first house there and the land in
2 front of it. It's not exactly what you would call a
3 luxurious mansion or grounds. Unfortunately, SSU
4 didn't think so.

5 You'll see also the first two bills that I
6 received from them -- and I'm going to explain that --
7 when I was down here at the beginning of June they put
8 our sod in and we had to leave immediately afterwards
9 because my son was just out of college, was going to
10 get married and we had to help him. And then we came
11 back in September.

12 My first bill from my water -- and this is
13 also we were using water in the house while we were
14 there -- my first bill came in, the usage was 10,500
15 from 5-24 to 7-3; it cost me \$22.02. Now, if you want
16 to look at horror look at the next bill. I just came
17 down from the town of Queens, which is just south of
18 Albany, New York. In the small town of 2500 people,
19 we have a water rate -- water and sewer rate that
20 comes to a total of \$450 a year. And New York state
21 is high.

22 If you look at my second bill for two
23 months -- now water is shut off in my building.
24 There's no water being used except for watering my
25 lawn once a day because it was new sod. From 7-3,

1 1990 to 9-06, September the 6th, 1990, I got a bill
2 saying I used 302,230 gallons of water. I had to pay
3 \$434 for two months to water my lawn. Now that is a
4 horror story.

5 COMMISSIONER GARCIA: Was your house
6 floating when you got back?

7 WITNESS THAYER: No, I even checked on that.
8 I asked the neighbors. I had no problems. My lawn
9 sprinklers came on in the morning. They were on in
10 the morning for a total about two-and-a-half hours
11 while it worked its way around -- that is wasn't
12 solid. There were four lines. That was the only time
13 that it was on.

14 I went down to Apopka, to their luxurious
15 offices down there, 1000 Color Place, and I complained
16 and I said, "There must be something wrong; that I'm
17 not really watering Disney World." I told them the
18 size of my property. They would not do one thing for
19 me. Their only answer was that maybe somebody tapped
20 into my line and used my water, a total of 302,000
21 gallons of it. I never did get anything from them. I
22 had to pay them the \$434.26.

23 Now, I think this says enough about the
24 people of SSU.

25 COMMISSIONER GARCIA: May I ask, the

1 following month, what was your usage? Did it go back
2 to its normal rate?

3 WITNESS THAYER: Yes.

4 COMMISSIONER GARCIA: Did you turn off the
5 sprinkler system or you just reduced it a little bit
6 or --

7 WITNESS THAYER: Actually I put a well in.

8 (Applause)

9 Since then my bills are running around \$8.

10 (Applause)

11 But these are the people that we have to do
12 business with. These are the people who are asking
13 for outrageous prices for water.

14 Remember, please, water, in most cases, is a
15 necessity. This is a given thing by God that we must
16 have water in order to live. You're not dealing with
17 whether this is going to be my TV cable and whether
18 I'm going to have to pay more to see TV. I can shut
19 the TV off. Or my electricity, I can cut down on the
20 use of my electricity. But water is a needed item.

21 COMMISSIONER GARCIA: They never did
22 anything about this bill.

23 WITNESS THAYER: They never did anything.

24 COMMISSIONER GARCIA: Did you call the
25 Florida Public Service Commission about this issue?

1 WITNESS THAYER: No, I didn't. I was new
2 down here. I just moved in. I was going to go to
3 court. I said wait a minute. I'm new here. I don't
4 want to get involved in this.

5 They refused to do anything about it. They
6 refused to acknowledge the fact that that had to be an
7 error.

8 I think I've said enough about the SSU.

9 CHAIRMAN CLARK: Thank you, Mr. Thayer.

10 (Applause)

11 I want to see if there are any questions for
12 you. Mr. Shreve, do you have any questions, or Mr.
13 Feil?

14 COMMISSIONER GARCIA: Could you see one of
15 our engineers and go into detail with them about that
16 because that seems -- it seems almost impossible.

17 WITNESS THAYER: Have you seen the bill?

18 COMMISSIONER GARCIA: I saw the bill, but
19 could you see our engineer there. He's sitting right
20 over there, and have him look at it also, please. And
21 let me just say something to you, because we've
22 heard -- and I'll use your case to illustrate it -- on
23 the front part of the blue sheet you have there's a
24 1-800 number. When you speak to your company and they
25 are not being cooperative, or they basically ignore

1 you, as in your case, or you say they did, call that
2 1-800 number Monday through Friday. They will open a
3 case; they will open a file and the Company has to
4 respond to us in writing on whatever issue it is that
5 you've brought to their attention and they have not
6 resolved. I would ask you -- it doesn't cost you
7 anything and I guess this is a good case to illustrate
8 that you can use that. Please see our engineer.

9 MR. SHREVE: Mr. Thayer, I just wanted to
10 tell you would you believe we had almost an identical
11 situation come up that was testified in Marco Island
12 for over 300,000 gallons with the same outcome as
13 yours.

14 CHAIRMAN CLARK: Mr. Shreve, I believe that
15 300,000 was in a two-week period, however.

16 MR. SHREVE: You mean it should have been
17 600,000 down there? Okay. (Laughter)

18 CHAIRMAN CLARK: Thank you, Mr. Thayer.

19 Someone has indicated they're concerned
20 about the time people take to testify. We have not
21 traditionally put a limit on how long people talk. I
22 just ask you to remember that there are -- we have a
23 full house tonight and people want to talk to us, so
24 be courteous to the other people who want to provide
25 testimony.

1 Go ahead, Mr. Shreve.

2 MR. SHREVE: Helene Robinson.

3 - - - - -

4 **HELENE ROBINSON**

5 was called as a witness on behalf of the Citizens of
6 the State of Florida and, having been duly sworn,
7 testified as follows:

8 WITNESS ROBINSON: Hello there. What I'm
9 speaking is, I went around our park and we have 58
10 people --

11 CHAIRMAN CLARK: Ms. Robinson?

12 WITNESS ROBINSON: Helene Robinson.

13 CHAIRMAN CLARK: Where do you get service
14 from?

15 WITNESS ROBINSON: Southern States.

16 CHAIRMAN CLARK: Do you know what.

17 WITNESS ROBINSON: Our park is Palms Mobile
18 Homes Estates.

19 CHAIRMAN CLARK: Go ahead.

20 WITNESS ROBINSON: Okay. I went around and
21 we had a petition in our park and everyone signed the
22 petition. We could not afford stand-alone rates,
23 which was 24 -- 21 basic charge, which would be five
24 times as much as we're paying now. And then the per
25 gallons is 16, which would be 15 times as much as

6671

1 we're paying.

2 All of our people, except two families, are
3 working families. They are all senior citizens. And
4 we got a \$12 raise from Social Security and you know
5 they cannot afford 24.21. So we can't find out if
6 we're on stand-alone, modified stand-alone or the
7 utility proposed, which we'd like to know. I don't
8 know if there's a way I can find out or not.

9 COMMISSIONER KIESLING: Ma'am -- I'm right
10 here -- the whole purpose for this case is, one of the
11 issues is, which of those rate structures we're going
12 to use. And that the amounts that are in that blue
13 sheet will only be the amounts if Southern States gets
14 all of the revenue that they're asking for.

15 So first of all, we still have to decide how
16 much revenue they are going to get, and then we have
17 to decide what kind of rate structure, which means
18 which customers will pay what. So that's why all of
19 that information is in there, because we don't have a
20 answer yet. That's what the case is intended to
21 decide.

22 WITNESS ROBINSON: Well, we have three water
23 filter systems on our water because our water is
24 rusty. Not only that, you talk about that man's
25 problem, we came back from the north and we had a \$300

1 bill. So we went to Southern States. They didn't do
2 anything. But they did one thing: They put us in a
3 new meter. So we don't know. We had to pay it. They
4 would not reduce it or anything.

5 COMMISSIONER GARCIA: How long ago was that,
6 ma'am?

7 WITNESS ROBINSON: We have been in that park
8 15 years. I'm not sure for sure; maybe it's about 12
9 years ago. So we paid it. Nothing else we could do
10 about it. Thank you very much for listening.

11 COMMISSIONER GARCIA: Just to let you know,
12 the rates that you were going to begin to have or you
13 are already on, are the approved interim, which is the
14 second column on the blue paper. That's what you were
15 all on if we decided the company is going to get less
16 than that, they are going to refund whatever goes over
17 that to you. Okay. But that's what you're on now.

18 WITNESS ROBINSON: We don't mind a little
19 raise, but to go from 5.13 to 24.21 then 1.23 to 16,
20 you know, that's quite high, and for people on Social
21 Security. Thank you.

22 MR. SHREVE: Ma'am, just one minute.
23 Commissioner Garcia and Commissioner Kiesling are
24 exactly right in what they said. And I think you
25 might as well have the additional information.

1 What Southern States wants from your system,
2 regardless of who pays for it, whether we're talking
3 uniform rates or stand-alone, is to go from \$14.76
4 prior to the last rate case, the '92 case, which would
5 be your total bill for 6,000 gallons, to \$121.35
6 coming out of this rate case. That's what they've
7 requested for your system to be responsible for it.

8 In revenue and the reason it's so high is
9 coming into the '92 rate case they were receiving
10 \$7,536; coming out of that they got \$11,000. Now they
11 are requesting to take that \$11,000 to \$42,000.
12 That's the reason for the big rate increases. You're
13 right, there's something to be decided on stand-alone
14 and on uniform, but they should not get that kind of
15 money from your system from anybody.

16 WITNESS ROBINSON: We can't afford it.
17 (Applause) I do have it, if you would like, for
18 people who signed it in our park.

19 CHAIRMAN CLARK: Ms. Robinson, I'm going to
20 give that the next exhibit number. And the next
21 number is 44. That will be Exhibit No. 44, and it's
22 the Petition from the Customers in Palms Mobile Home
23 Estates, and it's dated January 17th, 1996.

24 This is the original and I had extra people
25 that had come into our park sign it.

1 (Exhibit No 44 marked for identification.)

2 COMMISSIONER KIESLING: I am can't hear you,
3 talk into the mike.

4 WITNESS ROBINSON: The one she's got is the
5 one I Xeroxed. And after I had given this out, this
6 is the original copy, and that one is where the extra
7 people came.

8 CHAIRMAN CLARK: So this has all of the
9 signatures, that one does not.

10 WITNESS ROBINSON: Yes.

11 CHAIRMAN CLARK: Well, that's a Xerox one.

12 That will be fine. I trust you that you
13 have the original.

14 WITNESS ROBINSON: Yes. Thank you.

15 MR. SHREVE: Thank you very much. Anna
16 Cowin.

17 - - - - -

18 ANNA COWIN

19 was called as a witness on behalf of the Citizens of
20 the State of Florida and, having been duly sworn,
21 testified as follows:

22 WITNESS COWIN: My name is Anna Cowin and I
23 think all of you know me.

24 CHAIRMAN CLARK: Just a minute.

25 MR. SHREVE: I just wanted to say that Anna

1 Cowin called me into Lake County about 15 years ago to
2 fight Southern States. I just didn't know it was
3 going to last this long.

4 CHAIRMAN CLARK: I'm sorry, Cowin?

5 WITNESS COWIN: Cowin, C-O-W-I-N, like cows
6 in a pasture.

7 I'm a customer of Southern States under
8 Morningview subdivision in Lake County and under
9 Jungle Den Villas in Volusia County.

10 First of all, I just want to answer some of
11 these people that have had those very high water
12 bills. I, too, experienced that when I first moved
13 into the county.

14 COMMISSIONER GARCIA: Do me favor, before
15 you get started, give me the two; I missed them.

16 WITNESS COWIN: Morningview subdivision in
17 Lake County and Jungle Den Villas in a Volusia County.

18 I, too, experienced the same exact thing
19 with water bill. Again, it was 15 years ago. I
20 remember my water bill was in the neighborhood of 200-
21 300,000 gallons and I protested that. What I found
22 out subsequent to this -- and I wish all of these
23 people would be aware of it -- when the water is cut
24 off and has been turned off for a period of time, what
25 happens is air gets into the pipes, and when it's

1 turned back on, the meter runs very quickly and so
2 what these people have paid for was 300,000 gallons of
3 air. (Applause.)

4 Commissioners, I'd like to thank you for
5 hearing this issue. I remember at the last hearing in
6 October or November, whenever it was, we had not the
7 correct information regarding our rates.

8 Unfortunately, now I do have another
9 question, and I will try and go down the line on all
10 of this. I realize that Southern States Utilities had
11 requested uniform rates going from 6.71 base facility
12 charge to a gallonage charge of 1.61. However, in
13 each particular case that I see here, Southern States
14 Utilities received from the Public Service Commission
15 increased rates. In other words, they asked for much
16 lower interim rates than the Public Service Commission
17 actually gave them in the interim rates, and I'd like
18 to know why.

19 CHAIRMAN CLARK: Ms. Cowin, maybe I can
20 answer that. I believe what they asked for was a
21 uniform rate in the interim, and we had a court case
22 that indicated to us that without a finding of it
23 being functionally related, we could not do that. So
24 in the last rate case we had to go back to what we
25 called modified stand-alone rates. And when we did

1 the interim, the law limits us to using the same
2 adjustments in the previous rate case.

3 So that is why in some instances for some
4 systems it's higher than they requested but it's a
5 difference between uniform and a modified stand-alone.

6 WITNESS COWIN: I understand that
7 explanation. However, I do think that since the
8 decision as to whether uniform rates or stand-alone
9 rates have not been decided, I also think that the
10 lower of the two, perhaps, would have been the best
11 way to go.

12 What happens is the customers get confused.
13 Southern States Utilities has purposely not let people
14 know what they are currently paying. And when we turn
15 around and talk about uniform rates and interim rates
16 and stand-alone uniform rates and uniform stand-alone
17 interim rates and stand-alone proposed rates and
18 stand-alone final rates and, you know, I can go on and
19 on, certainly everyone gets totally confused.

20 MR. SHREVE: If I may, Commissioner, with
21 your remarks there, you're correct. However, Southern
22 States sent that notice out with those rates noticed
23 in it after the decision was made by the Public
24 Service Commission. We objected to it and mentioned
25 at the time that it was going to appear from the

1 notice that was send out by Southern States, that the
2 Public Service Commission, in certain instances, gave
3 more than requested. And Southern States, frankly, at
4 several hearings has pointed out that the Public
5 Service Commission gave them more, when, really,
6 that's what they asked for.

7 WITNESS COWIN: I agree with that, and we
8 were here testifying and those interim rates came out
9 after -- the testifying was that there was a mistake
10 and this is why we had a rehearing.

11 I went to the information meeting that
12 Southern States Utilities had regarding the -- what
13 their side of it was. And I certainly will talk about
14 the clouding of the issues with what they're talking
15 about. But a number of things were brought out that I
16 want you to understand, and this goes to the integrity
17 of the company as Mr. Thayer had brought up in his
18 original arguments.

19 They purposely stated that the reason why
20 this rate case was happening was not at all because of
21 rates, that was already determined. That the Public
22 Service Commission has determined how much revenue
23 that Southern States Utilities would receive. That
24 the issue was only whether there would be stand-alone
25 or uniform rates. And I would like to hear from the

1 Public Service Commission if, indeed, you have
2 established the revenue according to what Southern
3 States has said; that Southern States said you have
4 already determined and if this hearing is a farce.

5 CHAIRMAN CLARK: Ms. Cowin, let me answer
6 that.

7 What happened was we had a rate case back
8 in -- started in '92, I believe, and that was the case
9 in which uniform rates were first established. That
10 went up on appeal to the First DCA. They told us we
11 could not do uniform rates without making a finding.
12 When it came back down to us, the court had found no
13 wrong and the total revenue requirement we had found
14 was appropriate. It was just how we spread that among
15 the customers.

16 WITNESS COWIN: I'm talking about this case
17 now.

18 CHAIRMAN CLARK: I know. What I'm trying to
19 explain to you is I hope they were talking --

20 WITNESS COWIN: No, they were talking about
21 the current --

22 CHAIRMAN CLARK: That they were talking
23 about this case --

24 WITNESS COWIN: Absolutely. And I have it
25 with me. I took notes verbatim, exactly what they

1 said.

2 CHAIRMAN CLARK: Okay. Let me respond to
3 your question. If they're talking about this case,
4 absolutely not. We have not determined the revenue
5 requirement. That's what that proceeding is in April.
6 That's what Mr. Shreve is going to present testimony
7 on. We will have to first determined the revenue
8 requirement then decide the --

9 WITNESS COWIN: Let me tell you what it
10 says. "We were informed that Southern States
11 Utilities spent \$100 million in wastewater charges
12 which were not improvements but required. 75 million
13 of that was required, 25 million was for improved
14 pressure. Southern States Utilities said the Public
15 Service Commission approved these expenditures
16 already." Quote.

17 MR. SHREVE: On that point, I'm sorry -- but
18 this is the third straight hearing we've heard this
19 same thing.

20 Ms. Cowin, did they indicate to you that the
21 only question to be answered was the rate structure,
22 whether it's uniform or stand-alone --

23 WITNESS COWIN: Absolutely. In fact, I'm
24 sure there were about 60, 70 people there; how many
25 people were there and heard the same exact thing I

1 heard? There were a number of people there and they
2 all heard the same thing and it was brought up again
3 in an evening meeting that we had.

4 MR. SHREVE: That they knew how much they
5 were going to get?

6 WITNESS COWIN: That's right.

7 COMMISSIONER GARCIA: What was the name of
8 the representative from the company that said that?

9 WITNESS COWIN: Ida-somebody; she's on the
10 front page of the newspaper. She was a public
11 relations person.

12 MR. SHREVE: Commissioner, I'd like to know
13 what Southern States is saying --

14 WITNESS COWIN: Ida Roberts.

15 MR. SHREVE: -- this type of thing for.
16 Because we're here and that's primarily exactly what
17 we're fighting about is how much Southern States is
18 supposed to get. I'd like to know where they got
19 their information, if they got it. Now, where do they
20 get the information that they can tell these people
21 that it's already a done deal and this is the third
22 straight hearing we've heard that. And I think we
23 deserve an explanation for it now. (Applause)

24 CHAIRMAN CLARK: Ms. Cowin, this case has
25 not even started in terms of the technical hearings.

1 We have not determined a revenue requirement. We will
2 determine it after that case and after we've heard
3 from Mr. Shreve, and after we've heard from other
4 parties as to what they have to say about the evidence
5 presented.

6 WITNESS COWIN: Again, I'm talking as to
7 what Southern States Utilities has said. Let me go on
8 to give you the flavor of what was said.

9 We were also informed that they had -- that
10 the reason why we had to go to uniform rates -- and
11 this is rather hard for me to believe, and excuse me
12 if I laugh in the middle -- but the reason why we had
13 to go to uniform rates is because there is a common
14 aquifer under the state of Florida, and that the
15 aquifer is uniform, therefore, the rates have to be
16 uniform. (Laughter)

17 They further stated --

18 CHAIRMAN CLARK: I can tell you I've heard
19 them make that argument, too.

20 WITNESS COWIN: I can further state that
21 they had to protect against the saltwater intrusion
22 into this aquifer. Now, I haven't seen saltwater
23 intrusion really in Leesburg or Central Florida quite
24 yet. It certainly may be on the coast. But maybe
25 that's why, so we'll protect the rest of the state if

1 we have the uniform rates. And they also compared it
2 to Texas and Texas having water directly under their
3 land and so forth.

4 They also told us -- and this is what I'd
5 like to know, what error, this case that you're
6 talking about where we were -- it was decided that the
7 uniform rates were not appropriate or whatever. They
8 said -- and this is a quote -- the Public Service
9 Commission made a procedural error. I'd like to know
10 what procedural error that the Public Service
11 Commission made in doing this.

12 CHAIRMAN CLARK: I have no idea except they
13 may be referring to the fact that we didn't make a
14 finding of functional relatedness. I really don't
15 know.

16 CHAIRMAN CLARK: Okay. I'm just asking
17 these questions.

18 The Court told us we couldn't do it in that
19 case, and we can't do it until we make a finding of
20 functional relatedness.

21 WITNESS COWIN: Okay. I assert also that if
22 this indeed is a form for rate structure, I think that
23 the uniform rates will ensure gradual increases, as
24 they say. But I also assert that it's a way of hiding
25 the outlandish revenues and the unjustified

1 expenditures in individual systems. What has happened
2 is that they are trying to pit customer against
3 customer. Certainly it's cheaper for me in
4 Morningview and in Jungle Den Villas when my rates go
5 up from \$56 to 195. It would be far cheaper for me to
6 go under uniform rates. But the main problem is what
7 are we doing here but trying to allow them to hide
8 their inefficiency, in effect. (Applause)

9 They also told us that the -- this is
10 another quote, "That the Public Service Commission has
11 already determined what expenditures" -- not the
12 revenues now, I'm talking about expenditures -- "what
13 expenditures and revenues were prudent." That was
14 already determined. And again what we're talking
15 about is the rate structure. So it was not only the
16 revenues, it was also the expenditures. And I gather
17 this is not the case.

18 CHAIRMAN CLARK: No. I mean that's what the
19 hearing is about, to explore all of those issues.

20 COMMISSIONER GARCIA: Ms. Cowin, due to the
21 fact that I have had the opportunity of seeing you
22 before, may I ask how the Company reacted when you
23 began asking questions or they weren't taking
24 questions from the floor.

25 WITNESS COWIN: Actually, what they said to

1 me, they said, "Who are you?" (Laughter) I said, "I
2 am Anna Cowin." And they said, "I don't know who Anna
3 Cowin is." And I told them you will. (Laughter)

4 Likewise, they questioned, they said, "Well,
5 we only speak to people who are customers of Southern
6 States," at which point I said I was a customer of
7 Southern States under Morningview and Jungle Den
8 Villas. And they tried to go to somebody else, which
9 I wouldn't allow them. That's the interchange.

10 They also told us that, "The Public Service
11 Commission never gives us all that's asked for." I
12 assert that this rate case should be no exception and
13 we should actually -- they say they get about 70%
14 average of what they asked for. But they may allow
15 only 10 to 50%, and I say let's disallow it and let's
16 not give them anything. (Applause)

17 One thing I do think, if we disallow the
18 high rates of the very small systems, maybe they'll
19 stop buying them and cause the rates to go down.

20 Let me give you a little bit of history of
21 Southern States Utilities. And I'm not going to go
22 back 15 years, I'll just go back to 1990.

23 In 1990 there were service areas of only 34
24 service areas of Southern States Utilities. There are
25 now 141. There were only seven counties. There are

1 now 22. In 1990 Southern States Utilities allowed
2 only systems that earned below the rate of return as a
3 way of charging the customers for the losses. What's
4 in effect happening is the customers in Florida are
5 being charged for the losses and the profits are being
6 sent to Minnesota. (Applause)

7 Again, by purchasing these very poor systems
8 under these uniform rates we are encouraging the
9 subsidizing of these inefficiencies of the utility
10 company.

11 There are a couple of others -- and these
12 I'm just going to list and then I will close. I do
13 believe that the revenues are too high. I know
14 Mr. Shreve has talked about this. What I'd like to
15 know is, since 1992, how much has increased in
16 revenue? And I assure you if you go looking through
17 your records you'll see it's about three times as much
18 revenue since 1992.

19 Another issue, the lawsuit. You know, that
20 lawsuit of those two subdivisions that sued because
21 they didn't want the uniform rates and they got a
22 \$8 million judgment. I asked about that. And they
23 said whon is going to pay for it? That was never
24 answered. It was never stated to us exactly what the
25 position is of Southern States Utilities or the

1 position of the Public Service Commission on that.
2 When I asked them where they are getting the
3 \$8 million to pay it? I know, and the Public Service
4 Commission knows that they have asked us, the
5 customers, to pay their lawsuit that they have lost.
6 And I don't think that we should be party, and if this
7 is part of the rate case, I certainly would like that
8 \$8 million be thrown out. (Applause)

9 Then the Public Service Commission comes in
10 and says okay, these rates are outlanddish from Palm
11 Mobile Home Estates to pay \$14 and change and go to
12 what was it, \$121, is certainly outrageous. We'll cap
13 it, we'll make it so that, you know, not everybody
14 pays the maximum. But where is that difference going?

15 As we're seeing, the difference is still
16 going into Southern States Utilities' pocket. What's
17 happening, if indeed you do want these uniform rates,
18 what I would do is only do it based on stand-alone
19 rates, cap it as to what the efficient and the proper
20 charge is to the subdivision, and then go into the
21 uniform rates. And if that reduces their revenues,
22 all the more power to the Public Service Commission
23 and their action.

24 According to the book, and I did not bring
25 it with me, there's a revenue book which is part of

1 your rate case expense. And they go in -- it starts
2 from 1992 and it talks about how much -- excuse me, it
3 was expenditures, how much expenditures they were
4 going to get and how much for each subdivision. If
5 you look on the front of that book it closed in 1994.
6 If you look at the expenditures. All of their
7 expenditures were put into 1995 and 1996. It's
8 amazing that in 1992 and '93 they didn't spend a whole
9 lot of money. You spent \$20,000 in a subdivision in
10 1993 and '94, and all of a sudden it jumps to 200,000
11 in 1995. My answer to you is what did they spend in
12 1995? Look up the actual expenditures now that 1995
13 has closed out. See what they actually spent in 1995
14 and give them the same percentage, if that's what it
15 is for '96, but they're certainly not going to spend
16 \$400,000 in Western Shores in one year. I can't
17 imagine that magic.

18 Southern States Utilities says the rate case
19 has nothing to do with age. I say it all has to do
20 with the quality of plant.

21 Southern States, as they did the plant --
22 they said to us in this particular hearing. I asked.
23 They said 100% compliance. I said, "Are all of the
24 plants in Lake County in 100% compliance of today?"
25 And they had their engineer there and they said yes,

1 all of their plants, as of this day, is in 100%
2 compliance. Then where is all of this problem with
3 expenditures that they have to spend? Why are they
4 spending it if all of a sudden, as of today, they are
5 in compliance? (Applause)

6 I asked them, I said, "Where is this
7 \$100 million that you're spending? Where did you
8 spend it?" They said well -- I said, "What's the
9 problem with it? I mean, how come you're spending
10 \$100 million now?" They said well, there's
11 legislative lag. I see Representative Kelly here and
12 I'd like to know what kind of legislative lag?
13 There's also regulatory lag. I don't understand this
14 regulatory lag, when according to some other testimony
15 that's been \$12 million profit by Southern States
16 Utilities and, I believe, in the '93-94 year.

17 Another issue that I think you should look
18 at and they refused to answer, is to the CEO salaries
19 and benefits of Southern States Utilities and the
20 Minnesota utility. (Applause)

21 Another issue I think you should look at,
22 two out of 13 houses have been found to have lead in
23 their water in Valencia Terrace. They attribute that
24 to either, "Well, maybe somebody put lead in there,"
25 was one of their answers. Another answer was that

1 maybe the pipes had something or there was incorrect
2 collection.

3 COMMISSIONER GARCIA: Ms. Cowin, when was
4 this?

5 WITNESS COWIN: Right now. As a matter of
6 fact, Valencia Terrace received notices from what was
7 it, DER, or whatever, that they had lead in the waters
8 and that they had to be careful -- and everyone had to
9 go and get their water checked.

10 COMMISSIONER GARCIA: This Was just
11 recently.

12 WITNESS COWIN: Last few weeks, last month.

13 And they had to get their water checked at
14 their own expense, of course. And they actually said
15 that two out of 13 houses -- of course, they only
16 tested two. They did not test any of the other
17 houses. And they said that the testing, well, you
18 know, they put a sample outside the porch and the
19 people collect it. Certainly, if there's lead in the
20 water -- I know there are people that have called me
21 from that subdivision, numerous people who came to
22 that hearing that was sick and ill. One woman is
23 living -- and I could give you the names of these
24 people -- one woman is living in a hotel because she
25 is living ill from that. Another woman and her

1 daughter have gone to doctors. I'm not a physician.
2 I don't know the effects of lead poisoning. But I
3 think that's something that should definitely be
4 looked at and looked at immediately.

5 COMMISSIONER GARCIA: When you said "this
6 hearing" you're talking about the meeting that
7 Southern States Utilities had?

8 WITNESS COWIN: Yes, I meant that, excuse
9 me.

10 Another thing that they bring up is a
11 conservation issue. I love when they talk about
12 wanting to save money and wanting to save water,
13 although they do admit that if you save water and your
14 bill goes down, that would reduce the rate of return
15 that Southern States Utilities will have and,
16 therefore, their funds will go up -- and their cost
17 will go up.

18 Another issue, and I'd like to question this
19 to the Public Service Commission: Obviously people
20 don't want to be customers of Southern States. I
21 don't want to be a customer of Southern States.
22 Unfortunately, many of us have to be customers of
23 Southern States. (Applause)

24 There's a possibility, and I will work
25 towards getting our local county commission to

1 regulate Southern States Utilities, because I think if
2 we have some closer local control, we'll have a better
3 view at what they're spending. But I'm also under the
4 understanding that the Public Service Commission is
5 disallowing that; is that correct?

6 CHAIRMAN CLARK: There is a law that says
7 when systems are functionally related, then even if
8 they are in a county that is not under our regulation,
9 then we have authority over that utility.

10 WITNESS COWIN: So --

11 CHAIRMAN CLARK: Just a minute.

12 WITNESS COWIN: I'm sorry.

13 CHAIRMAN CLARK: That case is on appeal and
14 there are about four counties, I think, who have
15 challenged that decision.

16 WITNESS COWIN: If we go into stand-alone
17 rates, does that mean we're not functionally related?

18 CHAIRMAN CLARK: Let me ask the question
19 back to you: Are you making the statement that --

20 WITNESS COWIN: No. You're saying that if
21 they are functionally related then the Public Service
22 Commission has domain. I'm asking you that if we go
23 under stand-alone rates, and that is the way that the
24 structure of the rate structure is, I'm asking you
25 does that mean that Southern States Utilities is not

1 functionally related?

2 CHAIRMAN CLARK: I think that's a good
3 question.

4 WITNESS COWIN: I attest then that we should
5 certainly be not functionally related because I don't
6 want to be functionally related to anything that has
7 SSU's name to it. (Applause)

8 COMMISSIONER GARCIA: Just so you know, they
9 are not functionally related.

10 WITNESS COWIN: What did you say?

11 COMMISSIONER GARCIA: Just for your
12 information, if they are not functionally related,
13 then it is not possible to have uniform rates as in
14 this case. So there's -- the whole concept there is
15 the whole system is one, and --

16 WITNESS COWIN: Is that because of the
17 common aquifer that we have under the state of
18 Florida?

19 COMMISSIONER GARCIA: No. Because the
20 company's operation is functionally related.

21 WITNESS COWIN: Oh, I understand. Actually
22 I don't. (Laughter)

23 And my final issue is that I'm not sure what
24 kind of rate of return that Southern States Utilities
25 is getting on its specific subdivisions and, you know,

1 their plants. Where is that rate of return coming
2 from? Is it coming from the original investment? Is
3 it coming from the improvements that were put on? I
4 don't know where it is because it's certainly not in
5 anything -- over 15 years I have yet to find out what
6 the original purchase price was of any of the
7 subdivisions in Lake County. And I attest to you that
8 there is no way that you now can do this, especially
9 if they go into these functionally related uniform
10 rates and subdivisions under one common aquifer under
11 the state of Florida.

12 That's all I have. Thank you. (Applause)

13 CHAIRMAN CLARK: Thank you, Ms. Cowin.

14 MR. SHREVE: Thank you very much. I might
15 like you to make the opening statement for me from now
16 on. (Laughter)

17 Thank you. (Applause) Mr. McCarty.

18 CHAIRMAN CLARK: Mr. Feil and Stan, I would
19 like you to report back to us about the problem in
20 Valencia Terrace with regard to the lead testing. I'd
21 like no know more about that please.

22 MR. FEIL: Yes, ma'am. Our operator is here
23 this evening and I'll have him speak with Mr. Rieger.

24 CHAIRMAN CLARK: Good.

25

- - - - -

1 JACK MCCARTY

2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS MCCARTY: My name is Jack McCarty.
6 M McCarty. M-C-C-A-R-T-Y.

7 This young lady that just left here has done
8 asked about everything I wanted to ask.

9 CHAIRMAN CLARK: Mr. McCarty, you can simply
10 adopt her testimony if that's what you do like to do.

11 WITNESS MCCARTY: Well, I don't know. But
12 I'm just speaking for myself, not the estate that I
13 live in. I'm speaking for Jack McCarty, not Palms
14 Mobile Home Estates.

15 CHAIRMAN CLARK: Okay.

16 WITNESS MCCARTY: I do not understand where
17 they get all --

18 COMMISSIONER GARCIA: Palms Mobile Homes.

19 WITNESS MCCARTY: That's where I own --

20 COMMISSIONER GARCIA: Right. I wanted --

21 WITNESS MCCARTY: That's where I own a
22 place, yes.

23 I don't know what I was going to say.

24 We do not have sewer in our park. We don't
25 have sewer in our park. Just water. And I wanted to

1 know if these rates was going to affect us? If they
2 have this overall --

3 CHAIRMAN CLARK: It's my understanding that
4 it's uniform for water and then uniform for
5 wastewater. They don't combine the two.

6 WITNESS MCCARTY: Okay. That answers one
7 question.

8 Now, on this paper I got, this is what they
9 give me, I know I'm paying \$5.13 a month. And then I
10 pay \$1.23 for a thousand gallons.

11 Now this next one over here -- now I called
12 them people, SSU, and they told us that the PSC told
13 them that they had to put us on stand-alone. Now,
14 that's what they told us on the phone. So as of this
15 month I guess I'm going to be paying \$6.93 for my
16 basic rate, and \$4.51 per thousand gallon. Well,
17 that's kind of a steep jump, I thought, there. But
18 the way this lady and this gentlemen here talk, I
19 don't even understand the figures they're talking
20 about, hundred some dollars a month. That's
21 completely insane. And the people in our park could
22 not pay it. Because I listened to Helene there a
23 while ago and I think she got turned around. There's
24 two people in our park that works. All the rest of
25 them is retired in our park. And we can't pay that

1 kind of rate.

2 We don't mind them having a little bit of
3 extra money; I know that everybody needs a raise. I'd
4 like to have one myself. (Laughter) And we know they
5 need a raise. They need a little bit of money and we
6 don't mind giving them a little bit. But this is
7 ridiculous here. Even if they go for the stand-alone,
8 well, did you people tell them that they could do this
9 rate here? I mean --

10 CHAIRMAN CLARK: We did do the approved
11 interim rates.

12 WITNESS MCCARTY: Okay. Why did you change
13 this from regular to stand-alone?

14 CHAIRMAN CLARK: Because in the previous
15 case the Court reversed our decision on uniform rates
16 and said we could not use uniform rates. We used a
17 modified stand-alone when we reconsidered it. And
18 then when we did interim rates in this case, we had to
19 use that previous rate structure. We could not go to
20 uniform rates.

21 COMMISSIONER GARCIA: Just so you don't --
22 you're not on stand-alone rates, you're not going to
23 be on the stand-alone rate just now.

24 WITNESS MCCARTY: They told us we was.

25 COMMISSIONER GARCIA: That's incorrect.

1 WITNESS MCCARTY: I was wanting to get my
2 bill before I come here. But now I called them and
3 they quoted me exact what you've got here on this blue
4 paper, and that is stand-alone.

5 MR. SHREVE: Which system?

6 WITNESS MCCARTY: Palm Mobile Home Estates.

7 And I also wanted to know about this
8 brackish water. Is that going to be -- is that going
9 to concern us at all or not?

10 CHAIRMAN CLARK: I'm sorry, brackish water?

11 WITNESS MCCARTY: Yes.

12 CHAIRMAN CLARK: It's the saltwater they're
13 supposed to be getting somewhere north, south or
14 somewhere else.

15 COMMISSIONER DEASON: Are you speaking about
16 saltwater intrusion?

17 WITNESS MCCARTY: That's what I'm talking
18 about, brackish water; saltwater intrusion, I guess.
19 I want to know if that's going to be -- have anything
20 to do with me, is what I want to know.

21 CHAIRMAN CLARK: I don't know in it affects
22 your particular system, but there are systems in
23 Florida -- it's usually primarily on the coast that
24 has problems with saltwater intrusion. But I haven't
25 heard that in connection with this case.

1 MR. SHREVE: They don't have any saltwater
2 intrusion here. And there are two systems that are
3 left out of the so-called central case which is Marco
4 Island and Burnt Store. They are the ones who are
5 going to have the reverse osmosis treatment and they
6 have been left out. Southern States' reason for
7 taking them out is because if you had them in with
8 you, you'd have really high rates. (Laughter)

9 WITNESS MCCARTY: If it goes to hundred some
10 dollars, there will be a lot of wells drilled, I can
11 tell you that.

12 MR. SHREVE: Yes, sir. The figures we were
13 talking about a while ago, that I think is correct,
14 what you had coming into the last rate case, you paid
15 \$14.76 for 6,000 gallons of water. And if you ignore
16 the uniform rates, or the stand-alone rates, Southern
17 States says your system, per customer, should be
18 responsible for \$121 a month for 6,000 gallons.
19 That's the money they want whether they get it from
20 you or somebody else.

21 WITNESS MCCARTY: Well, I used 4700 last
22 month, see, and that would put mine up there quit a
23 bit. Social Security told me I couldn't do that.
24 (Laughter)

25 MR. SHREVE: Sir, you mentioned a while ago

1 that you understood everybody wanting a little raise
2 and that you'd like a little raise. I could agree
3 with you on part; I'll be glad to go along with your
4 raise but I sure would like not to give Southern
5 States one. (Applause)

6 WITNESS MCCARTY: I hope you get what you
7 want.

8 CHAIRMAN CLARK: Thank you, Mr. McCarty.

9 MR. SHREVE: Mr. Horton.

10 - - - - -

11 MYRON HORTON

12 was called as a witness on behalf of the Citizens of
13 the State of Florida and, having been duly sworn,
14 testified as follows:

15 WITNESS HORTON: I'm Myron E. Horton, Palms
16 Mobile Home Estates.

17 And I'd like to ask the Chairman, if I might
18 ask all of the Commissioners, do they feel real
19 responsible for their job?

20 CHAIRMAN CLARK: Do I feel responsible?

21 WITNESS HORTON: Can I ask them if they feel
22 responsible for their job?

23 CHAIRMAN CLARK: Sure.

24 WITNESS HORTON: Commissioner, how do you
25 pronounce your name?

1 COMMISSIONER KIESLING: Kiesling.

2 WITNESS HORTON: Okay. Do you feel real
3 responsible to your job?

4 COMMISSIONER KIESLING: Yes.

5 WITNESS HORTON: Okay. The next gentlemen,
6 can you pronounce your name.

7 COMMISSIONER DEASON: Deason. Yes.

8 WITNESS HORTON: Do you feel responsible to
9 your job?

10 COMMISSIONER DEASON: Yes.

11 WITNESS HORTON: Okay. We'll move on to the
12 next Commissioner. Do you feel responsible for your
13 job.

14 COMMISSIONER JOHNSON: Yes, sir.

15 WITNESS HORTON: And the next fellow, with
16 the beautiful smile, curly hair and good-looking
17 glasses, do you feel responsible for your job?

18 COMMISSIONER GARCIA: Yes, sir.

19 WITNESS HORTON: And I'm going to apologize
20 to this fellow here, because we all put him to the
21 task. And we shouldn't feel bad at you, and we
22 shouldn't feel bad to the water company for needing a
23 little raise. But what I'd like to know is, when you
24 put this to the test and vote on this, are you going
25 to have us people at heart or money?

1 CHAIRMAN CLARK: We're going to weigh both
2 sides of the issue, and we're very concerned about the
3 rates that have been requested, I can tell you that.

4 I also have a mother on a fixed income and
5 it's of great concern to me when we have significant
6 requests for rate increases, and we will scrutinize
7 the information they have given to us, and I know in
8 my heart that I make sure I'm comfortable that I have
9 made the right decision.

10 WITNESS HORTON: Right. (Applause)

11 I appreciate all of your answers, and I just
12 hope that you take all of this to heart and dig into
13 some of these questions that the lady asked, that you
14 wasn't able to answer. And when you go to sit down to
15 give this a decision, think of us and also the water
16 company.

17 CHAIRMAN CLARK: Thank you, Mr. Horton.

18 MR. SHREVE: Thank you, sir. I'm trying to
19 pronounce --

20 CHAIRMAN CLARK: Spell it, Jack.

21 MR. SHREVE: If I pronounce this wrong,
22 Commissioner Garcia told me how to pronounce it. If I
23 got it right it was my idea.

24 Mr. Charles Eversole, believe.

25 - - - - -

CHARLES EVERSOLE

1
2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS EVERSOLE: I didn't think the name
6 was that difficult. It's spelled E-V-E-R-S-O-L-E.

7 COMMISSIONER GARCIA: I keep telling him
8 it's not that tough.

9 MR. SHREVE: He saw me having trouble and
10 that's when he got into it.

11 WITNESS EVERSOLE: My dog is not in this
12 fight.

13 MR. SHREVE: He's been getting by on his
14 looks way too long.

15 WITNESS EVERSOLE: You've got all the
16 knowledge and he's got the looks. (Laughter)

17 MR. SHREVE: I'm not sure if it's knowledge
18 or just a better head of hair. (Laughter)

19 WITNESS EVERSOLE: I think this is enough
20 frivolity.

21 I do appreciate the opportunity to come
22 before you and voice my opposition. And there's many
23 more important things being discussed that I have
24 knowledge of, so I will defer my time.

25 CHAIRMAN CLARK: Can you tell us from what

1 system you receive service?

2 WITNESS EVERSOLE: Palms Mobile Homes.

3 COMMISSIONER GARCIA: Has there been a --
4 because a few of you have come up -- has there been a
5 big increase there of people moving into that system,
6 or has it remained exactly the same for the last few
7 years? Mr. Shreve will probably toss out the facts,
8 but I want to ask you from your --

9 WITNESS EVERSOLE: I am one of the newer
10 ones. I understand there's been some turnover.

11 COMMISSIONER GARCIA: Not turnover but new
12 people in terms of new lots coming in.

13 WITNESS EVERSOLE: Buying into the park.
14 No. No.

15 MR. SHREVE: According to Southern States
16 figure, in the 1992 case there were 61 customers.

17 WITNESS EVERSOLE: That's right.

18 MR. SHREVE: And now they list 58 customers.
19 So there's been a decrease but an increase of revenue
20 \$7,536 to \$42,000.

21 WITNESS EVERSOLE: I'm sorry. I
22 misunderstood you.

23 MR. SHREVE: Better get some more customers
24 in there. Mr. Daunoras.

PETER DAUNORAS

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS DAUNORAS: Pete Daunoras, Imperial Terrace West, Unit 570, of the SSU conglomerate.

Good evening, folks, and thank you, Jack, for a barrel full of statistics.

COMMISSIONER KIESLING: Sir, would you spell your name, please?

WITNESS DAUNORAS: D-A-U-N-O-R-A-S, pronounced like "Delores".

COMMISSIONER KIESLING: Thank you.

WITNESS DAUNORAS: Now, on July 6, 1988, SSU -- I'm having trouble reading this -- announced the purchase of our water service system. We expected that an increase in rates would be forthcoming. Since then we have had two docket hearings that provided substantial increases. SSU also adjusted rates based on CPI, Consumer Price Index, as allowed by statute. Our rates went from 48 cents a thousand to \$1.23 a thousand. That's a 250% increase.

The base facility charge increased 195%. That's almost double. SSU attributes most of this to environmental regulations. That is a bunch of bees

1 wax. The new rates are atrocious beyond reason.

2 Early on we became aware that SSU was a
3 monkey on our backs. Unfortunately, we didn't know
4 about the collar it wore to which a leash was
5 attached. This leash was in the hands of a King Kong
6 size gorilla in Minnesota with very long arms; arms
7 that reached all the way into our state house.

8 Now, I went to the library to look at the
9 data provided for justifying the increases. Tavares
10 library had only 12 of 27 fully packed file box
11 cartons provided. Therein, I did find 19 pages
12 pertinent to our system, most of which were full of
13 columns of zeros. One would need the command keyboard
14 to the computer to sort out all of the necessary data
15 from which that computer printout came. The stack of
16 papers that is provided for these hearings is over 50
17 feet tall. That's higher than this room. And we, of
18 course, ultimately are going to pay for all of the
19 effort and the time put into that compilation.

20 SSU has developed a hydraheaded monster that
21 is devouring its patrons. The cost of doing business
22 their way is astronomical, and the only salvation is
23 the sword of Hercules and Malcomb Forbes is saying
24 about income taxes: Kill the dam thing.

25 The PSC, the only bulwark available to us is

1 under Staff to oversee a statewide scrutiny to rates
2 appropriate to both the vendor and the consumer. We
3 should seek to transfer this function to our County
4 Commissions.

5 Recently we were apprised of an SSU addition
6 to our system. This is on the Florida Public Service
7 Commission plant-in-service additions by project. In
8 it a new well costing over \$175,000 was included for
9 1996. This is to set up some new rate structures, no
10 doubt. Nobody ever asked us about needing a new well.
11 We have a good well. And talk about a low man, we're
12 not even on the totem pole.

13 That thing is getting to the point where I
14 have to reiterate a statement I made at the Ocala
15 hearing on the 93880-WS docket. I said then that at
16 this point at my life I can discontinue my telephone,
17 disconnect my electric utility, stop delivery of gas,
18 the paper and even alter the county-established trash
19 collector service. However, I cannot disconnect from
20 the basic water charge, even if I drink and cook with
21 bottled water and bath in captured rainwater. SSU has
22 me locked into a legislative stranglehold. SSU has
23 their collective hand sown right into my pockets. And
24 my only option is to burn down my house. Besides the
25 certainty of death and taxes, we also have Southern

1 States Utilities. (Applause)

2 Now, on this plant-in-service additions by
3 project for 1995, talk about cooking the books, there
4 are 14 items entered here to the tune of 3,231. Not a
5 magnificent sum. But of that entire bunch only four
6 are reasonably legitimate. They are including there
7 fire hydrants in two cases. We don't have fire
8 hydrants in our park. None at all. We have stand-up
9 pipes with a threaded connection for the hose. And I
10 don't know where you would turn that thing on, because
11 we've never had to use them, thank God, but there are
12 no fire hydrants. But they're on the books here, and
13 we're going to be getting charged for them.

14 And they put in a meter. And, of course, a
15 meter is replacement of equipment. What they do is
16 new meter change, Category 4, quality of service. Do
17 you know what that means? That means that they're
18 putting that into the capitalization category. If
19 they replace a meter, they can charge you for a new
20 meter and they get it that same year. If they put it
21 in the capitalization category, they will -- it will
22 take them five years to amortize the cost of that
23 meter, but it will go on forever after. And if they
24 keep adding these meters on, eventually you just won't
25 have enough money to pay for your water.

1 And then, of course, water service is --
2 whatever that is supposed to be, that attribute that
3 to growth. That, of course, is capitalization. And
4 I'm telling you, find 14 things on the page that
5 they're trying to charge you for your, and only four
6 are legitimate, you've got to say that these people
7 know what they're doing, and oh, boy, watch out.
8 Thank you all. (Applause)

9 CHAIRMAN CLARK: Thank you, sir.

10 MR. SHREVE: Thank you, sir.

11 Mr. Warren Weimer.

12 - - - - -

13 **WARREN WEIMER**

14 was called as a witness on behalf of the Citizens of
15 the State of Florida and, having been duly sworn,
16 testified as follows:

17 WITNESS WEIMER: Warren Weimer.

18 W-E-I-M-E-R, Silver Lakes East. We live in Scottish
19 Highlands.

20 I want to thank you, Commissioners, and
21 appreciate the opportunity to make a testimony on this
22 rate case.

23 Before I start I would just -- you know,
24 nobody else has done it, I just want to ask the
25 audience, is anybody out here in favor of an increase?

1 (Laughter)

2 THE AUDIENCE: No.

3 WITNESS WEIMER: Also, how many are you are
4 voters and do vote?

5 THE AUDIENCE: (Responds.)

6 WITNESS WEIMER: How many of you would vote
7 for elected officials that pressure this Commission?
8 Not too many.

9 Somehow in this deluge of paper, my first
10 page got lost. They always seem to hand you a new
11 rate increase here as we start another hearing. I
12 used to tell people that "don't read my lips, watch my
13 feet."

14 Our Lieutenant Governor Buddy MacKay and
15 Secretary of State Dusseau.

16 COMMISSIONER GARCIA: Dusseau.

17 WITNESS WEIMER: Have both written this
18 Commission and urged them to grant SSU this outrageous
19 rate increase. They've lost my vote.

20 I've written the Governor sometime ago and
21 he said he could not intercede in a rate case. And
22 I'd like to quote just two sentences, "Although I
23 appoint the Commission, I have no influence over their
24 decision that they make as they serve. And they are
25 to exercise independent judgment." And that's from

1 our Governor. I hope that's a true statement.

2 As to the SSU system being interconnected,
3 or uniform as they try to call it, if our well over at
4 Silver Lake happens to go out for any reason,
5 lightning, malfunction, I don't think that aquifer is
6 going to supply one drop of water to me.

7 Pump destructions and anything else can
8 interrupt that system and there's only one well over
9 there, even though they do have a diesel generator, I
10 don't know if they could fully maintain on a diesel
11 generator.

12 And that is true of all of their systems.
13 They are all independent systems, and they could be
14 easily -- easily by a good auditor -- found out what
15 the actual cost of that system is to operate.

16 We must force you, Public Service
17 Commission, to maintain that their systems are
18 stand-alone, and force them to refund our money from
19 their previous -- when they will charge us the uniform
20 rates.

21 MacKay states in his letter to you that he's
22 shown concern for the state economy. What state?
23 Minnesota or Florida?

24 We, the residents of Florida, don't see how
25 SSU helps the Florida economy when their excessive

1 profits goes to the parent company in Minnesota. Who
2 wants -- who, the Minnesota Power & Light, wants 23%
3 of their net profits to come out of SSU. And that
4 statement is from their corporate papers that were
5 read here a month ago.

6 I just happen to be in our association
7 office here two weeks ago when some billing came in,
8 some mailing came in. All 39 of them. We happened to
9 have 39 meters in our subdivision for different cul de
10 sacs, for different buildings that we have. Wouldn't
11 one envelope and one printout do? This is so
12 inefficient.

13 COMMISSIONER GARCIA: I'm sorry, I didn't
14 understand what you stated. Speak into the mike.

15 WITNESS WEIMER: We have 39 meters that are
16 assigned to our condominium association.

17 COMMISSIONER GARCIA: Right.

18 WITNESS WEIMER: They sent 39 letters.

19 COMMISSIONER GARCIA: Okay.

20 WITNESS WEIMER: Bills. That's 39 bills
21 every month. I'll let you present these later. I
22 figure that cost to be somewhere over \$70.

23 COMMISSIONER GARCIA: Are you stating that
24 what, the bill is the same for everyone in the --

25 WITNESS WEIMER: No, no.

1 CHAIRMAN CLARK: These are homeowners
2 associations, right?

3 WITNESS WEIMER: This is a homeowners
4 association. The association -- the meters are in cul
5 de sacs for the cul de sacs which belong to the
6 association, for the swimming pool, for the buildings
7 and what have you.

8 One bill on a computerized printout would
9 do; save all of that cost of mailing. Do you follow
10 what I'm saying?

11 CHAIRMAN CLARK: I do.

12 WITNESS WEIMER: Yeah. Yeah.

13 It took them just 19 days here lately to get
14 the interim rate, their new interim rate in effect,
15 where it's taken them three years to get what I call
16 bank drafting.

17 I have been after -- and many people have
18 been after SSU to get bank drafting. In November they
19 sent a statement that we've now got bank drafting.

20 I called this morning, wondered where the
21 form is that I have to send in with my blank check.
22 "Oh, we're not ready. We won't be ready until March.
23 Why do you think you should have that now?" And the
24 young lady really was fairly sharp. I guess she was
25 tired of people asking her, you know, "You said you

1 were going to do it. When are you going to do it?"

2 COMMISSIONER GARCIA: They stated in a
3 mailer that they were going to have bank drafting?

4 WITNESS WEIMER: Yes. Yes. They have
5 started the bank drafting procedure but their
6 computers can't handle the load.

7 After three years of study and implementing,
8 now their computers can't handle the load. It's
9 ridiculous what they do to us. They waste so much
10 money.

11 As to the interim rate that you allowed,
12 which ours is 84 cents a thousand. This is up from 53
13 cents a thousand in 1989. That's 61% in six years.
14 10% a year.

15 The meter rate of 4.45 to the present rate
16 interim rate of 5.79. That's only 30%. Talk about
17 inflation. That's not a bad inflation rate. I wish
18 my Social Security check would go up equally.

19 We have to put a limit -- and I'm going to
20 ask Mr. Kelly and every legislator I can find to put a
21 limit on the profits that they're allowed, and to stop
22 the interim increases.

23 I wonder how many -- in closing, I'm
24 wondering how many years it will take for SSU to repay
25 the uniform rate that they have been changing? Maybe

1 Buddy can get it for us quickly. Thank you so much.

2 (Applause)

3 CHAIRMAN CLARK: Thank you, Mr. Weimer.

4 MR. SHREVE: Representative Kelly. How many
5 years has it been since we had that first meeting down
6 by the lake?

7 REPRESENTATIVE KELLY: Before I got into
8 this process.

9 MR. SHREVE: I want to tell you, before you
10 get started, if you don't mind, I appreciate very much
11 on behalf of the consumers and customers, your support
12 over the years on their behalf. Thank you.

13 (Applause)

14

- - - - -

15 **REPRESENTATIVE EVERETT KELLY**

16 was called as a witness on behalf of the Citizens of
17 the State of Florida and, having been duly sworn,
18 testified as follows:

19 REPRESENTATIVE KELLY: I have a little thing
20 here that -- Ms. Cowin kind of got fired up there and
21 she forgot to give you that. I think that's supposed
22 to go with her testimony.

23 Chairman Clark and fellow Commissioners,
24 welcome again. We have all of you here tonight and
25 welcome again to our beautiful Lake County.

1 I can assure the people, and assure you,
2 too, that there is no saltwater intrusion under this
3 county. (Applause) I chair the Committee on Natural
4 Resources in the House. We have the -- the Speaker
5 has created a Select Water Policy Committee to come up
6 with a state water policy. And when you see these
7 sorts of things happen, I think the need is very
8 urgent to do that.

9 We do have a fairly common aquifer under
10 this state, but it's not as common as I heard earlier.

11 This state is blessed with water. However,
12 if these things keep going on and we keep asking for
13 triple the amount in water rates that we have been
14 getting, with whatever justification they can come up
15 with to do that, I think we're going to see in
16 Florida, instead of having a Klondike gold rush, we're
17 going to have a Lake County water rush and people are
18 going to be coming here to mine water.

19 I guess you have to sort of be on this side
20 and you have to look at the situation in totality; you
21 know, whether we're intertwined or not intertwined.
22 But I'm intertwined and I can't help that. I have to
23 look out for my people here, and I have to look out
24 for the people of this state. And as a chair of that
25 very important committee in the House, the

1 responsibility is even greater.

2 I'm also a pharmacist by profession. Now,
3 folks you can take it from me, that the cost of
4 prescription drugs is too high. I am the first to
5 admit that. I don't know how some people survive.
6 And this is why some people, that are sitting in this
7 audience tonight, their medication bills will run
8 anywhere from \$100 to \$300 a month. And they have to
9 have it to live. A lot of them have to make the
10 decision as to whether or not they're going to take
11 their medication or whether they're going to get food
12 to eat.

13 And when we look at water increases, like
14 I've seen here -- and I am rather jolted by what I've
15 seen here -- even that someone would come to you and
16 propose that we have that kind of rate increase -- I
17 agree with these people out here who said that we just
18 cannot afford it.

19 I've got a well and the city has been
20 trying -- to City of Lady Lake -- I live just west of
21 Lady Lake. The City of Lady Lake has been trying to
22 get me to come into the city. And I said, "When you
23 come to get me, bring your army, too," because then
24 I've got to get on their water rate. And Southern
25 States Utilities, they only have one customer there so

1 I don't think I'll have a problem with them coming and
2 trying to buy my system. I wouldn't sell it to them
3 anyway. (Laughter) (Applause)

4 I'm going to get serious here, Madam
5 Chairman, for just a moment. I heard a statement said
6 here tonight that I think impugns on the integrity of
7 the Commission and this system that the people of
8 Florida have set up to assure, not only that utilities
9 are able to survive and provide the services that they
10 are charged to provide, or that they get into to
11 provide to provide for the people of the state, but
12 that statement that was made, that you had decided how
13 much you were going to give Southern States and only
14 was now just a formality.

15 Now, I don't believe that's true. I know
16 all of you, and I know most of your backgrounds and I
17 know you're honorable people with a lot of integrity.
18 But I think that impugns on the integrity of the
19 system that you represent and you, personally. And if
20 I had a legal Staff, I'd have that legal Staff look
21 into where that statement comes from.

22 The gentlemen from Southern States, I think
23 that you probably need to get you a new public
24 relations lady if she goes around making statements
25 like that. That can be very damaging to your company.

1 Now, I don't know which way you're going to
2 go. I'm sure that you're going to look at all of the
3 facts.

4 I get concerned about not being able to
5 ferret out all of the things that are involved in a
6 rate increase. I know that you must be confused many
7 times about, "Well, what should we allow and what
8 should we not allow?" I don't know how much of their
9 records you can get. I don't know how much of the
10 investment you can get from them and demand they bring
11 to you so you can get a honest picture of a business
12 that's trying to deliver a service so that you know
13 there's nothing that's been padded. And I'm not
14 implying that that's occurring. But it seems to me
15 there are a lot of unanswered questions about what is
16 allowed; what are they doing with the money that
17 they're requesting?

18 I would hope that you would take all of
19 these things into consideration; the plight of the
20 people who are living here.

21 Many of them come done, they brought life
22 savings with them and at the time they came they said,
23 "This will be plenty." I talked to a lady about five,
24 six years ago, and she said, "Mr. Kelly -- " she has
25 since died and, consequently, I'm not, you know,

1 giving away a secret she imparted to me, but she said
2 "I'm in good shape. I have \$30,000 in CDs, so I'm all
3 set for the rest of my life." She lived in a mobile
4 home. They had their own water system. And I said
5 "Dear heart, I hope that you find that that's true."
6 And I don't know if it turned out that way or not.
7 But that's the plight that a lot of these people --
8 now, there are some people that live in our county,
9 some people that come done here and retire in our
10 beautiful state of Florida that could probably buy
11 me -- and that wouldn't cost very much -- they could
12 buy you, that would cost -- I better not say that.
13 (Laughter) But they could buy a lot of things
14 because they are fairly wealthy. But that's no
15 reason, I think, to assail those people and subject
16 them to exorbitant rate increases.

17 I'm going to be following this very closely,
18 and I'm going to be going back and talking to our
19 legal Staff. I know you're created. Your a
20 constitutional creation. The people of this state
21 voted you in -- not you, personally, but the system
22 that you represent tonight into the Florida records.
23 And that makes you independent. And I believe in that
24 independence. I believe in the three branches of
25 government, and they should stay independent because

1 that gives us the balance that has allowed this great
2 democracy to survive as long as it has. And I support
3 that.

4 But I would hope that in this special case
5 where you see rate increases requested that are this
6 today, and they're requesting an increase of three
7 times that rate -- and sometimes even more -- that
8 there is something wrong with that. And I would hope
9 that your final answer would be, "Southern States, you
10 know, we want to make sure that your company is able
11 to survive, but we do not want to allow you to do the
12 things to people that you are not to do, and this is
13 to come up with exorbitant rates. We're not going to
14 allow." That's what you're charged to do.

15 I have had a lot of dealings with this
16 company. Mr. Thayer, I'd like to say to you that you
17 have this office. This office that I represent
18 belongs to you. And if you would have called me when
19 you had this problem, I'm sure that we could have
20 gotten it straightened out.

21 Now, you know, I own my own car. In fact,
22 I'm trying get me a bumper sticker made now that says
23 "No, the state didn't buy it for me. Me and the bank
24 own it together. They own most of it. But we own it
25 together." But this office belongs to have. And

1 that's what we're here for. We're here to try to
2 intercede with government.

3 There's only so much intercession that we
4 can do with the Commission. As the Governor has told
5 you, he stated the facts. He appoints the
6 Commissioners, and he looks at people -- and if you
7 ever want to go through that appointed process, just
8 come to Tallahassee and visit with us, and we'll take
9 you down and let you see how they review these people
10 to make sure that he gets the very best that we can
11 possibly get.

12 You've got a big job. A terrible
13 responsibility. But I would hope that you would
14 consider my people and all of the people of this
15 state. Many of them just cannot afford what is being
16 requested of them. And I'd hope that you'd make the
17 right decision and be fair to everyone.

18 Thank you very much. (Applause)

19 MR. SHREVE: Thank you, sir.

20 Representatively Kelly.

21 CHAIRMAN CLARK: Thank you, Representative
22 Kelly.

23 I would just like to add that I know you
24 watch what we do because I've gotten letters from you
25 inquiring about our procedures. And I hope we've

1 answered those letters for you. But I know that you
2 have always been interested in what we do, and ask for
3 explanations when it was not well understood by the
4 people you represent.

5 REPRESENTATIVE KELLY: Well, thank you very
6 much. I appreciate those comments. Because we do try
7 to stay on top of what all agencies do that deal in
8 the payment of services for the people of this state.
9 We have to do that.

10 Folks, water is an issue that is going to
11 become more critical, more critical all the time.
12 It's going to control growth in this state. Pretty
13 soon -- probably I won't be here, many of us won't be
14 here, but pretty soon we're going to find that to do
15 any sort of growth, water has to be taken into
16 consideration. And you've got a heck of a
17 responsibility. Good luck.

18 CHAIRMAN CLARK: Thank you.

19 MR. SHREVE: Thank you, Representative
20 Kelly.

21 COMMISSIONER KIESLING: I'd like to add
22 something to that.

23 I just wanted to add something, also, that I
24 can assure you that our Staff, both auditors and
25 engineers, are going to go line-by-line through the

1 reports and the records that were given to us. They
2 will go out to every single plant and facility. They
3 will make sure that if an expenditure is listed that
4 they actually see that it's there. We do not just
5 accept, you know, the Company's statement of "This is
6 how much we spent and this is how much we're going to
7 spend." We will have Staff who are going through that
8 line-by-line and right down to the point of looking at
9 receipts.

10 REPRESENTATIVE KELLY: I think that's all we
11 can ask of you. And I say "hurrah." I'm sure the
12 people appreciate that. I know you've got a very
13 professional, competent Staff that will do those
14 things. And to the Company, they just need to do
15 something about improving their image for this thing
16 that's sort of drifting around. Thank you very much.
17 I'm going to wait here --

18 MR. SHREVE: Just a second. I appreciate
19 Commissioner Kiesling's remarks. And we'll be glad to
20 accompany Staff to all of those, and if you'd keep us
21 informed, we'll certainly do that.

22 I hope everyone here knows that I work for
23 the legislature. And the legislature has been very
24 supportive. And Representative Kelly has been very
25 supportive over the years of us and our representation

1 of the consumer. And the only instructions I have
2 ever had were "Do the best job you can for the
3 people," and I appreciate it.

4 REPRESENTATIVE KELLY: Thank you very much,
5 Jack.

6 Madam Chairman, and to the people that are
7 here, I have to be in Lady Lake by 8 o'clock, and so I
8 am glad I got my legislative tag -- I'm just kidding
9 folks. We get tickets too, rest assured.

10 But I have to be back by 8 o'clock, so I'm
11 going to have to leave, but I know you'll do the right
12 thing by our people. Thank you very much. (Applause)

13 MR. SHREVE: Jean Hagerty.

14

- - - - -

15

JEAN HAGERTY

16 was called as a witness on behalf of the Citizens of
17 the State of Florida and, having been duly sworn,
18 testified as follows:

19 WITNESS HAGERTY: Jean Hagerty,
20 H-A-G-E-R-T-Y, and I'm with the Imperial Mobile
21 Terrace Water System.

22 CHAIRMAN CLARK: Ms. Hagerty, you should be
23 able to move that microphone down. There you go. Is
24 that more comfortable?

25 WITNESS HAGERTY: We'll see. I hope you

1 understand how intimidating this is.

2 CHAIRMAN CLARK: Take your time.

3 WITNESS HAGERTY: Okay. You get up here and
4 your mind turns to mush. I don't think I have been in
5 front of this many people since the first grade. I
6 was a bumble bee in a play.

7 MR. SHREVE: Talking about the mush, don't
8 worry, it's already happened to all of us. (Laughter)

9 WITNESS HAGERTY: Good. I couldn't feel
10 worse if I just had a hot cup of McDonald's coffee
11 fall in my lap. Now I know I have the attention of
12 all of the attorneys.

13 Things are never so bad that they can't get
14 worse for an SSU customer. (Applause)

15 Once again, we spend a nice evening with the
16 SSU/PSC traveling road show. Get your programs. You
17 can't tell the players without a program.

18 We went through all of this in '92 at a
19 meeting in Eustis, with very dismal results for the
20 SSU customers. Some of us will never recover, I don't
21 think. We couldn't believe what happened. I have
22 faith now because I see some new faces on the
23 Commission.

24 The SSU customers got shot down big time at
25 that meeting. And in 1993 our water rates in Imperial

1 Terrace increased a whopping 78%.

2 This past November we had this same type of
3 meeting right here, and a SSU representative told us
4 in no uncertain terms -- in fact, he was down right
5 belligerent and threatening -- perhaps I was over-
6 sensitive and delicate -- but he sounded threatening
7 to me. I was so mad I couldn't see straight so I
8 don't know whether it was Mr. Feil or not. But let me
9 put it this way, when they were passing out PR skills,
10 he wasn't standing in line.

11 He told us that the less water we use, the
12 more SSU was going to charge us for it. Dah, don't we
13 know that already? Did we need him to tell us?

14 We aren't using less water to spite SSU. We
15 are using less water because it just plain costs too
16 much. When something is too expensive, the Hagertys
17 do without it. Or if it's a necessity, we use it
18 sparingly.

19 We've cut back on our usage of your product
20 in order to keep our heads above water. Some of our
21 neighbors have done away with their lawns and put in
22 stone yards. Others have put in wells for their
23 irrigation purposes.

24 Water usage in Imperial Terrace has declined
25 because SSU has priced themselves out of the market.

1 We haven't cut back for vengeance. We've cut back
2 because of necessity. I can assure you that I do not
3 enjoy trying to break the four-minute shower record.
4 My 2,000 body parts long for the good old days when a
5 leisurely shower was the norm. (Applause)

6 On a yearly basis the Hagertys have gone
7 from a average of 11,000 gallons a month prior to
8 1993, when the "fit hit the shan," to 4,000 gallons a
9 month -- that's our average -- this past year, 1995.

10 I'm here this evening to ask what is going
11 on? I've heard a lot of good comments from my fellow
12 sufferers.

13 We feel that SSU has been given a license to
14 steal and Docket No. 950495-WS is their application to
15 upgrade that license. It seems the PSC keeps throwing
16 our money at them. Something about reasonable return
17 on investment. I can't figure it out. But thankfully
18 the benevolent state of Florida provides us with a
19 public counsel, Jack Shreve. (Applause) And he's
20 presented some darned good arguments and some very
21 hard-to-obtain information to PSC in this matter. And
22 he's been unable to get their attention.

23 And then I have to ask myself doesn't Jack
24 Shreve and the PSC Commissioners all get their
25 paychecks from the same place? No, I don't mean to

1 imply the fox is guarding the hen house. No way. I
2 think Jack and his hard working Staff have done a fine
3 job. And most of the information they have regarding
4 SSU activities was very difficult to come by, let
5 alone decipher. I'm just wondering, if he can't get
6 the PSC's attention, how in the world can I?

7 I think I'm beginning to hear a little more
8 encouragement from the Commissioners this evening. I
9 just still -- (applause) -- I still wonder if there's
10 not something that smells somewhere.

11 Recently we received a letter from SSU
12 saying the interim rates would go into effect January
13 23rd. My husband and I have been buying water from
14 one company or another for 45 years, and up until 1992
15 we've never had a mess like this. This does not
16 include the bills. You're supposed to get these.

17 Imperial Terrace, from 1981 through '92, the
18 cost of 6,000 gallons increased from \$5.38 to \$6.28 or
19 an increase of 17% in 11 years. If SSU's requested
20 rate is approved, the 1992 to '96 cost of 6,000
21 gallons will increase from \$6.28 to \$31.43 a month, or
22 250%. For those using 3,000 gallons, percent increase
23 from '92 to '96 will be 353.3%, or five times the
24 dollar amount.

25 Most water companies throw the first 3,000

1 or 4,000 gallons in with your base facility rate. Not
2 SSU. It boggles the mind.

3 These are not numbers off the top of my
4 head. I can verify all the figures I have used. I
5 only mention that because they are so unbelievable.
6 You can't believe the numbers.

7 Stop throwing our money at this outfit.
8 Give Jack Shreve serious audience. He and his Staff
9 have worked hard, extra hard, because obtaining
10 information and numbers from SSU is very difficult.

11 As for expansion of the Imperial Terrace
12 system, it is quite improbable. We have a city of
13 Tavares on three sides, and the Dead River on the
14 fourth. SSU has a new well planned for Imperial
15 Terrace this year. We wonder why. Would you know
16 why, Mr. Feil?

17 MR. FEIL: I would assume that it is because
18 of a regulation requiring that --

19 WITNESS HAGERTY: That's what we wondered.
20 It's a serious curiosity question.

21 MR. FEIL: We'll get you that information if
22 that's what you want, yes, ma'am.

23 WITNESS HAGERTY: Okay.

24 With over 3,000 SSU customers in Lake
25 County, there should be an even bigger turnout here

1 this evening. But this is a great turnout. We're
2 proud. There are many reasons for not attending,
3 however. And the hour is difficult for the younger
4 employed SSU customers. But for the over 225 homes in
5 Imperial Terrace, many of the residents are shut-ins,
6 getting out only for trips to the doctor or the
7 hospital.

8 Many of our residents do not like to come
9 out after dark, and others are in the hospital or home
10 recovering from recent surgery. The joys of the
11 golden years. But, unfortunately, many are not here
12 this evening because they were participates at the
13 1992 SSU/FPSC meeting in Eustis, and they're convinced
14 this whole thing is a done deal.

15 The people you see here this evening may be
16 just as disillusioned but we are fighters. Something
17 smelled back there at the meeting in '92 in Eustis,
18 and it smelled quite a bit more at the meeting here in
19 Mount Dora this past November. The people you see
20 here this evening want to find out what is causing
21 that awful stench. We finally have the attention of
22 the newspapers and that should help.

23 I'm certain a lot of the people here this
24 evening would much rather be playing bingo. That's
25 where SSU and the PSC have goofed big time. Never,

1 but never have a bingo player for an enemy.

2 (Laughter)

3 I'm reminded of what the old Japanese
4 admiral said to his fellow officers back in '41 when
5 they were planning the attack on Pearl Harbor.
6 "Beware of sleeping giants."

7 We oppose Docket 950495-WS. We oppose any
8 increase whatsoever (Applause)

9 Thank you for this opportunity and your
10 attention. (Applause.)

11 CHAIRMAN CLARK: Thank you, Ms. Hagerty.

12 MR. SHREVE: Thank you very much.

13 CHAIRMAN CLARK: Ladies and gentlemen, we
14 have been going for two hours now. We have one court
15 reporter. We're going to need to take about a
16 15-minute break and give her a break. We'll reconvene
17 as 8:15.

18 (Brief recess taken.)

19 - - - - -

20 CHAIRMAN CLARK: Ladies and gentlemen, we're
21 ready to call the hearing back to order.

22 Mr. Beck, will you call the next witness?

23 MR. BECK: Next witness is Mr. Ron Poneleit.

24

25

1 want.

2 I've reviewed your credentials. You're all
3 very intelligent people. We have a lot of people out
4 here that have, I'm sure, very good educations as well
5 as a lot of good common sense. And it appears that we
6 have a figure of 70% we will give as a rate. Why not
7 ask for 144% because I'll get half of it and I don't
8 blame SSU for that. It seems like that whatever they
9 ask for, maybe they'll get half of that percentage.
10 So they ask for the moon and they'll get the sky.

11 I think that there's been a lot of good
12 commentary made here tonight. I think Anna Cowin has
13 expressed everything that most all of us feel, and I
14 don't believe that -- well, first of all, I want to
15 say that there is no incentive for SSU to do a better
16 job at cutting cost, because no matter whatever they
17 call as expenses they can pass on as a rate increase.
18 You also state, I think, Commissioner Kiesling, that
19 you're going to look at all of the figures. You've an
20 atrocious job, because I have a hard time making any
21 sense out of the figures that I have. I look at what
22 they're asking for for a stand-alone rate, which will
23 be 122.2% for our argument. If they go to a modified
24 stand-alone rate it's 148.1%. And if we go to the
25 proposed uniform rate it's 144.4%. Those increases

1 are just not acceptable. You know, it's really
2 ludicrous when you can't even drink the water. We
3 have to buy all of our water out there. (Applause)
4 Why should we have to pay these kind of increases when
5 we can only use it for bathing and washing clothes and
6 flushing the toilets? That's pretty expensive water.

7 I think it's not fair to ask for the people
8 to pay for the inefficiencies of SSU. Most companies
9 cut their costs inside the company looking for the
10 savings. And if General Motors continued to have
11 inefficiencies, you'd never buy one of their
12 automobiles. You know, I throw a little humor in
13 here. When Jessie James rode on to Minnesota he at
14 least carried guns. But when Minnesota is coming back
15 into Florida through SSU, they're robbing us without a
16 gun. Thank you. (Applause)

17 MR. BECK: Joseph Ware.

18 - - - - -

19 **JOSEPH WARE**

20 was called as a witness on behalf of the Citizens of
21 the State of Florida and, having been duly sworn,
22 testified as follows:

23 WITNESS WARE: My name is Joseph Ware. I
24 live over in Scottish Highlands.

25 I have a couple of questions I'd like to

1 direct to the fellow from SSU. All right? I notice
2 in the brochure here that the Public Service
3 Commission put out -- we're talking about \$116 million
4 worth of additions to the plant in service. How was
5 that paid for? Long-term debt, debentures over a
6 period of time or what?

7 MR. FEIL: A combination.

8 WITNESS WARE: Give me a breakdown.
9 Ballpark.

10 MR. FEIL: Sir, the Company is capitalized
11 on a companywide basis, so it has borrowings, it has
12 equity --

13 WITNESS WARE: No, on that \$116 million, how
14 did you get the money to pay for that?

15 MR. FEIL: On the \$116 million attributable
16 to what, sir?

17 WITNESS WARE: To the additions to plant in
18 service in this brochure here.

19 MR. FEIL: Again, it's a combination of --

20 WITNESS WARE: Internal money and
21 borrowings.

22 MR. FEIL: Yes, sir.

23 WITNESS WARE: Okay. Has your long-term
24 debt increased appreciably over the last five years,
25 and this is something that you should know if you come

1 to a meeting like this.

2 MR. FEIL: Well, I'm sorry, I do not know.

3 WITNESS WARE: I would suggest that you get
4 a running account of an in-depth annual report, the
5 real detail.

6 Incidentally, Representative Kelly hit it
7 right on the nose. These people can give you a song
8 and dance with an annual report and they can make it
9 sound great. But if you don't get the meat behind
10 this thing and you don't annualize it over a period of
11 time, they're just going to tiptoe right by you. And
12 it's very, very difficult. I don't know whether any
13 of you people are financial analysts or not, but in
14 your Staff there better be somebody.

15 I have another question: Is this unique to
16 SSU throughout the state of Florida? Are you getting
17 hit with some of these rate increases to this extent
18 in any magnitude? Are many water companies doing
19 this?

20 CHAIRMAN CLARK: I am aware of at least one
21 other case --

22 WITNESS WARE: One other in the state of
23 Florida?

24 CHAIRMAN CLARK: -- that has asked for a
25 significant amount.

1 WITNESS WARE: Significant. How many --
2 ballpark, how many water systems might we have in the
3 state of Florida?

4 CHAIRMAN CLARK: I don't know how many.

5 WITNESS WARE: Just a ballpark.

6 CHAIRMAN CLARK: Let me tell you something
7 different. We regulate in 39 counties, and I
8 understand there are about -- over 1300 systems that
9 we regulate.

10 WITNESS WARE: And there's another one
11 that's coming up for a real sizable increase along
12 with SSU.

13 CHAIRMAN CLARK: Well, I should tell you
14 there are more than that. At any given time we have
15 several pending rate increases in the water and
16 wastewater area. I don't have on the tip of my tongue
17 the rate increases they have asked for.

18 WITNESS WARE: All right. While I am --
19 excuse me just a moment. I have a very direct
20 question and if I can get an answer. What is the
21 current permitted rate of return that they're allowed
22 right now, prior to any of these increases?

23 CHAIRMAN CLARK: Let me ask my Staff to tell
24 me, because for this particular company it's probably
25 10 or 11. 10.32%.

1 WITNESS WARE: What is it?

2 CHAIRMAN CLARK: 10.32.

3 WITNESS WARE: Now, that's what they're
4 hoping to get. What are they presently allowed?

5 CHAIRMAN CLARK: That's what he thinks is
6 allowed. Just a minute.

7 WITNESS WARE: I'm looking here at your
8 brochure and it says, "SSU proposes that a fair and
9 reasonable rate of return for its combined water and
10 wastewater rate base is 10.32." That's what they
11 consider fair and equitable. I'm asking you what are
12 they permitted right now by law?

13 CHAIRMAN CLARK: They are permitted a fair
14 and reasonable return. I'm trying to get the figure
15 from --

16 WITNESS WARE: No, that is not it. It must
17 be a figure.

18 CHAIRMAN CLARK: Just a minute and I'll get
19 it for you.

20 WITNESS WARE: Okay. Fine.

21 MR. FEIL: Mr. Ware, our chief financial
22 officer is here this evening, so if you'd like an
23 answer to your question regarding interest rates, I'm
24 sure he'll get you that answer.

25 MR. SHREVE: As long as we're making

1 comments, some of the figures that you're being given
2 are a combination of debt and equity and return. I
3 think what you're looking for is what return on
4 equity --

5 WITNESS WARE: That is correct.

6 MR. SHREVE: -- they would get. And they're
7 asking for 12.25.

8 WITNESS WARE: Okay. 12.25 on equity and
9 what are they actually allowed presently?

10 MR. SHREVE: I'll let the Staff give you
11 that.

12 WITNESS WARE: Okay.

13 COMMISSIONER GARCIA: Sir, you had some
14 questions earlier on while they were working on that,
15 could you ask those questions -- you asked them of Mr.
16 Feil and you sort of stopped. If you had more in
17 detail, because Mr. Feil --

18 WITNESS WARE: Well basically, the first
19 thing I mentioned was how did they finance the
20 additional -- additions to service, \$11 million and
21 was it a combination of internal borrowings. In other
22 words, dipping into their own till, or going and
23 floating debenture issues, whatever they might do,
24 stock. I suppose they are a stock company as well,
25 but usually their debentures that they issue based on

1 strictly the goodwill of the company. They don't have
2 to put anything up for it.

3 COMMISSIONER GARCIA: Could we get him an
4 answer in writing, Mr. Feil?

5 WITNESS WARE: The breakdown. How much
6 internal borrowings and how much debentures.

7 COMMISSIONER GARCIA: He doesn't know.

8 WITNESS WARE: That's all right. I'm just
9 trying to bring this up to let you people know.

10 MR. FEIL: As I said, our chief financial
11 officer is here this evening. If you would like an
12 answer this evening, he can give you one.

13 WITNESS WARE: It isn't urgent, but we would
14 like to get it.

15 MR. FEIL: I'd like it in writing, anyway.

16 WITNESS WARE: Yes.

17 COMMISSIONER KIESLING: While they're
18 looking that up, what facility is Scottish Highlands
19 in?

20 WITNESS WARE: It's Silver Lake, I believe.
21 Silver Lake --

22 UNIDENTIFIED SPEAKER: West Shore.

23 WITNESS WARE: West Shores, yes.

24 Third from the bottom on Page 6. We're
25 going from 6.36 to 11.33. That's about a 100% or so.

1 87%, I believe it is, increase.

2 CHAIRMAN CLARK: Mr. Ware, we don't have the
3 order setting their last return on equity. Not all of
4 the systems have the same return on equity. But we
5 can get that for you. We just did not bring with us
6 the last order.

7 WITNESS WARE: You have my address on that
8 slip that I made out.

9 CHAIRMAN CLARK: Would you give it to us
10 again?

11 WITNESS WARE: What's that?

12 CHAIRMAN CLARK: Give us your address so we
13 have it on record.

14 WITNESS WARE: All right. 2508 Lochness
15 Court, that's in Scottish Highlands, Leesburg 34788.

16 I'm not going to prolong this any further,
17 but I would just like to reiterate. As I said before,
18 Representative Kelly hit it right on the nose. The
19 detail that you people have is going to be the thing,
20 if you're unbiased, that will give you an honest
21 approach to this. If you have questions, get back to
22 them and say, "What do you mean by this?" I'm not
23 trying to take you by the hand or tell you how to do
24 your job. But they can slow you to parade rest, but
25 you have to know the details behind what they give

1 you. You'd never get away with this. I worked for
2 New England Tel for 36 years up in Massachusetts. We
3 had to put out what they call a Form M that did
4 everything but measure your footprints going into the
5 local state utility commissions. They knew everything
6 you did. Another thing. Get an indication of their
7 increases over the last few years in salaries,
8 particularly among the high people. And also you
9 would have to be very naive if you didn't realize if
10 they are having a little tough time this pressure is
11 all coming from Minnesota. Get this thing off the
12 ground so we can take our 23% out of the state.
13 That's all I have to say. (Applause)

14 CHAIRMAN CLARK: Thank you, Mr. Ware.

15 MR. SHREVE: Thank you, sir.

16 Lee Snyder.

17 - - - - -

18 **LEE SNYDER**

19 was called as a witness on behalf of the Citizens of
20 the State of Florida and, having been duly sworn,
21 testified as follows:

22 WITNESS SNYDER: My name is Lee Snyder,
23 S-N-Y-D-E-R. And I'm in the Silver Lakes Estates or
24 the West Shore service area.

25 Everything I'm talking about came from my

1 water bills or the various statements that have come
2 from SSU.

3 This docket is becoming very confusing. The
4 docket dated 9-12, we only had proposed interim rates
5 and final rates. Now we have interim rates,
6 stand-alone rates, modified stand-alone rates, and
7 proposed uniform rates, all quoted on the various
8 sheets.

9 The Commission-approved interim rates on
10 January 4th, which was a rate entirely different from
11 any of those that were proposed. More confusion to
12 me. I don't understand the reasoning here.

13 Basically our base rate was 5.13. You're
14 asking for an interim rate of 6.71. You gave us one
15 of 5.79. A stand-alone rate, you're asking 8.30 a 61%
16 increase. A uniform rate of 9.17, a 79% increase. A
17 modified stand-alone, which is probably the objective
18 of Minnesota Power, \$10.23, a 99.4% increase.

19 The base range was 3.22. If the modified
20 stand-alone rate of \$10.23 goes through, our increase
21 over four years will be 217%. An average of dividing
22 that by four for the four years, that's 54% every
23 year. You say in your brochure that they are allowed
24 a reasonable rate of return of 10.32%. Why do our
25 rates have to go up 54%? That's a big difference. I

1 don't understand it. I don't understand it at all.

2 The docket also proposed a water gallonage
3 rate from \$1.23 to a \$1.61 which was 31%. A
4 stand-alone of \$1.21, we'd come down 2%, big deal. A
5 modified stand-alone of \$1.49, 21% increase. A
6 proposed uniform rate, which is the one they're
7 probably trying to get, is 76% increase.

8 The Commission on January 4th approved an
9 interim rate of 84 cents. I really don't understand
10 this. Have we been overcharged at \$1.23 for the last
11 two years? Why have we got an 84% stand-alone rate
12 now? Is this based on the expenses of 1994? Or 1993,
13 or 1992? Can you tell me?

14 CHAIRMAN CLARK: Let me be clear. Are you
15 asking about the new rates, are they proposing --

16 WITNESS SNYDER: No, why we got an interim
17 rate of 84 cents. On gallons.

18 CHAIRMAN CLARK: Okay. As I understand it
19 it was based on 1994 figures.

20 WITNESS SNYDER: Okay. I understand. Okay.

21 Well, now another thing comes to mind. If
22 you approve \$2.16, will we have to make up the
23 difference on this low rate? Okay. Thank you. I'm
24 glad to hear that. I understand you're not going to
25 rule on this until July or August; is that correct?

1 CHAIRMAN CLARK: That is correct.

2 WITNESS SNYDER: Thank you.

3 You know I can't help but look at other
4 public utilities. I've lived here in Florida since
5 1989. My phone bill went up 3% once. My electrical
6 bill has not changed on base rates or kilowatt-hours.
7 My gas rate hasn't changed. My electrical company put
8 a little notice in with my bill this month says next
9 month we're going to decrease your kilowatt-hours by
10 1% and your base rate by 3%. Now, that's not a big
11 deal, but it's a decrease. I applaud them.

12 I'm sure these companies had to meet
13 environmental laws, rules and regulations, too. They
14 seem to have done it without increases but they have
15 had great management then. Cost of living has
16 averaged about 3% each year during the past four
17 years. Yet we're looking at a base rate increase of
18 285% from the year 1992 to now. The gallon charge is
19 379% increase. That's 126 times the cost of living.
20 Maybe you folks can afford it, but I can't.

21 It appears from the history of Minnesota
22 Power & Light, or SSU, they still receive about, since
23 1992 to present, 30% increase every year. 30%. In
24 order for them to make their 10% profit. Yet they're
25 losing money. They tell me they're losing money.

1 In trying to obtain from Minnesota Power &
2 Light or SSU cost figures to substantiate these rate
3 increases is very difficult. All you do is get a
4 runaround. Percentage of profit or return to
5 stockholders, as I learned in basic economics and
6 through my business years, should be based on expenses
7 plus book value of capital assets. SSU for Silver
8 Lakes published no capital assets or can I find out
9 what the capital assets invested are.

10 SSU gave us expenses -- oh, this is very
11 interesting -- since 1992. The filing was taken from
12 Volume 2, Book 4 of 4 titled "Summary of
13 improvements." From the Silver Lakes Estates the
14 following is noted: Expenses for 1992 to 1994 was
15 \$48,722. That's an average of \$16,241 per year. The
16 1995 are only estimated. They can't give you a figure
17 on 1995, but it jumped up to 880,000; \$880,000. How
18 can a person go out and spend money for expenses that
19 are that much different? There's one item they list
20 at \$862,000, which is a WTP which I imagine is a water
21 treatment plant and distribution improvement.

22 Now, Silver Lakes is not a large area and we
23 all know what is going on in the various surrounding
24 community. They have put in some new pumps, but they
25 needed to do this to bring the water pressure up. But

1 did these pumps cost \$880,000? What were the expenses
2 for 1995? I'm really curious. How could they change
3 so much?

4 Now, if you subtract the \$862,000 from
5 880,000 the expenses drop down to a normal expense of
6 \$18,000. You know, I can go along with that. That's
7 what they have been running. They estimate for 1996
8 \$24,000. Hey, I can go along with that.

9 And really was this 880,000 really spent in
10 1995? How much of that is capital improvements?
11 Aren't pumps capital equipment? They would be in my
12 book of economics. I think we're getting a lot of
13 capital items expensed as they go along from
14 year-to-year.

15 And this is something other people have
16 pointed out to you. Your accountants need to go in
17 and dig that out. You know, I go along with the
18 stand-alone rates because when I bought my lot in 1989
19 or '88 they told me there was about a 26, \$2,700 to my
20 water pipes that come to my place. You know, they had
21 to develop the whole thing. So I paid for a lot of
22 this capital investment that SSU runs or borrows from
23 me because the developer put it all in.

24 COMMISSIONER GARCIA: Are you saying that
25 you paid an impact fee?

1 WITNESS SNYDER: No, the developer paid it
2 all and he added it into the cost of the lots. And he
3 mentioned that it was --

4 COMMISSIONER GARCIA: Was it like a hookup
5 fee or something like that?

6 WITNESS SNYDER: No, it was not a hookup
7 fee; it was part of the cost of the lots. The
8 developer had to put the pipes in the roads and
9 everything in and, of course, these grand totals help
10 establish the cost of the lots.

11 My main question --

12 COMMISSIONER GARCIA: It's like a
13 contribution to build the water system, more or less?

14 WITNESS SNYDER: Probably so.

15 COMMISSIONER GARCIA: Do you remember that
16 being listed separately?

17 WITNESS SNYDER: No, it was not listed
18 separately. It's what the developer or the salesman
19 told me at the time.

20 COMMISSIONER GARCIA: Okay.

21 WITNESS SNYDER: On that part of it.

22 Well, now another thing I'd really like to
23 know, what is the capital basis in Silver Lake Shores?
24 What is our capital basis there? Do you know? Is it
25 a \$1 million? They spent 882,000 this year.

1 CHAIRMAN CLARK: Mr. Schneider, I don't know
2 that, but our Staff is looking at that, and when we go
3 to hearing we will know how much investment they have.
4 We also audit their books and records to make sure
5 that the investment they say they have they, in fact,
6 have. And Mr. Shreve will likewise be looking at
7 that.

8 WITNESS SNYDER: Well, does that investment
9 go on their capital accounts or does it go into the
10 expense accounts?

11 CHAIRMAN CLARK: We'll look at that too. It
12 has to be appropriately categorized, and we require
13 them to adhere to the Uniform System of Accounts. And
14 that system tells them how to categorize the various
15 expenses, and then we look at that to make sure they
16 do, in fact, do it correctly. And I can tell you in
17 the several water and wastewater cases I have been
18 involved with, we frequently find they have
19 miscategorized things as expenses when they should
20 have been capitalized and vice versa, so we will be
21 looking at that.

22 WITNESS SNYDER: Okay. I called again from
23 your brochure. The rates are to be fair, just and
24 reasonable. That's great. Got a good PR man there.

25 The Commission in its report states that

1 10.32% is a fair, just and reasonable rate. A return
2 for Minnesota Power. I repeat again my rate increase
3 has been 30% for the last 4.5 years. And I just don't
4 understand why I have to go up 30% for them to make
5 10%.

6 The only one other thing I'd like to say is
7 that the lobbyists have done their job well. And the
8 other gentleman here quoted the St. Petersburg Times.
9 It's a shame the people can't have a lobbyist like
10 Buddy MacKay, too. (Applause)

11 The integrity of Minnesota Mining is also
12 noted in this article that was published in the
13 papers. They wrote a letter to Governor Chiles
14 complaining about the treatment. They were not
15 getting their rates, and so on and so forth, and this
16 letter was attached to Buddy MacKay's letter, as you
17 well know, too. Now, I just wish we had Buddy MacKay
18 on our side. I rest my case.

19 CHAIRMAN CLARK: Thank you, Mr. Snyder.
20 (Applause)

21 MR. SHREVE: Just one second.

22 WITNESS SNYDER: Yes.

23 MR. SHREVE: In their expenditures or
24 investment they have listed \$862,000 which appears to
25 be for water treatment plant and distribution

1 improvement. Do you have any water treatment plant.

2 WITNESS SNYDER: No, we don't have a water
3 treatment plant in Silver Lake. The only thing, like
4 I said, you know, it's a small area so we all know
5 what is going on everywhere, you know, pretty well.
6 All they did was put in three or four new pumps.

7 MR. SHREVE: Okay.

8 WITNESS SNYDER: That's all we could see.
9 Now, you know, maybe after dark they come in and put
10 in something else. I don't know.

11 COMMISSIONER GARCIA: Let me ask you
12 something. Has there been much growth in the area?

13 WITNESS SNYDER: Yes. We have -- right now
14 we're up to about 1,300 some customers according to
15 their report. There has been -- well, I have been
16 there six years. I think I was No. 241 in Scottish
17 Highlands; we now have 650. There's between two or
18 three other parks that have been developed since then.
19 So, yes, there has been a lot of growth in the Silver
20 Lake area.

21 COMMISSIONER GARCIA: I'd like to ask you,
22 if you get a chance, I know it's a lot, but if you get
23 a chance could you go through -- perhaps you don't
24 have it but maybe some of your neighbors do -- some of
25 those expenses that were built in? Because I know

1 sometimes developers get sloppy and they write them in
2 differently for different people.

3 WITNESS SNYDER: I'll go back and check.

4 COMMISSIONER GARCIA: If you do find it,
5 could you give it to Mr. Shreve?

6 WITNESS SNYDER: Sure, I'd be glad to if I
7 can find it. But, you know, those things get stored
8 away and get kind of lost.

9 MR. SHREVE: As to your question on the
10 growth, Southern States listed 1,213 customers in
11 their '92 case, and estimated in '96, 1,448, so a
12 couple of hundred growth. That's about it.

13 COMMISSIONER GARCIA: Is it all a contiguous
14 area or are they taking it out to further areas, do
15 you know? I mean, have they run it -- from your
16 treatment plant have they run a big line to some
17 other? Or it's all --

18 WITNESS SNYDER: No, it's all in the central
19 area, probably within five square miles or something
20 like that. Okay?

21 COMMISSIONER GARCIA: Thank you.

22 WITNESS SNYDER: Any other questions? Thank
23 you. (Applause)

24 MR. SHREVE: Thank you, sir. (Applause)

25 Loren Foote.

25**LOREN FOOTE**

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS FOOTE: My name is Loren Foote, and I'm from the Valencia Terrace group.

COMMISSIONER GARCIA: Mr. Foote, lift up the mike a little bit closer.

WITNESS FOOTE: A little higher? About there?

CHAIRMAN CLARK: Sounds good. Thank you.

WITNESS FOOTE: Okay. I spoke here at the last hearing session and the only thing that, you know, makes it very difficult is it wasn't until the last hearing session that I got a copy of this blue report. And most of the information that you pick up, it seems like I only get ten minutes before the meeting and it gets a little difficult to try to go through these things. And then we attended the meeting held by Southern States and I picked up some more information from there. So it gets hard to get things together to come before a hearing like this on the spur of the moment. It would be nice if somehow or other when these rate increase things come along,

1 that Southern States would furnish us a little bit
2 more information as to just exactly what is going on.
3 It wasn't until, you know, real late that we got any
4 definitive information on these separate systems or
5 anything else. The first thing we got was papers
6 saying this is what the rates are going to be, and
7 here you go.

8 The thing that makes it difficult for the
9 people trying to talk about it is it's hard to get
10 information. You can't find out, just like many of
11 the people have stated. You can't really tell what
12 you're talking about because you don't have any
13 information. And it's just like, you know, they
14 acquired our system in March of '95. And there's only
15 353 water customers and 354 sewer customers according
16 to them. And they list the 1993 figures for income on
17 this paper, 46,321 for water; 69,106 for the sewer.
18 That's 115,427 for the year. Now they're asking in
19 this rate case, they want the total income to come up
20 to 221,094. That's a 48% jump. From the '93 figures
21 to present, to what they're asking for now is 48%
22 more. That's 105,667, and if you divide that even by
23 the 354 instead of the 353 that's 298.50 a year. And
24 if you add that to my present bill, which is like \$441
25 a year, that's going to jump -- that \$300 share that

1 I'm going to have to pay for that 105,000 increase
2 brings my yearly bill to 739.50, and that's a pretty
3 healthy water bill.

4 The other thing that I would like to, you
5 know, check on is I was told that these caps that are
6 given in the rate sheets, like the 9725 and now the
7 proposed 6,000-gallon cap for the sewer systems, is
8 set by the Public Service Commission. It's not set by
9 Southern States Utilities. They're told what the cap
10 is. Now, I don't know if that's true or not true. Do
11 you tell them what the cap will be?

12 CHAIRMAN CLARK: Let me just be clear. Are
13 you saying a cap of 6,000 gallons or you're saying a
14 cap on the rate?

15 WITNESS FOOTE: Well, on your gallonage
16 charge for your sewer system, the present rate right
17 now we're paying, I believe, \$1.56 a thousand, and you
18 pay up to 9,725 gallons, and anything over that you
19 don't pay anymore. Now on the proposal they're saying
20 they're going to drop that cap from 9725 down to
21 6,000, which is all well and good except they jump the
22 rate to 474 a thousand. So now it can get rather
23 expensive.

24 CHAIRMAN CLARK: Mr. Foote, I think in the
25 last rate case we did set the cap for wastewater at

1 the 6,000 gallons.

2 WITNESS FOOTE: I don't know how you arrive
3 at these caps, and all, but for my particular usage
4 that's the only thing I can go by. I've got my bills
5 back to '91, and my average use is about 10,000
6 gallons as month. And I have a sprinkler system,
7 which I think I run very sparingly. I run it three
8 days a week, 4:30 in the morning, 15 minutes on each
9 zone. I've checked the water meter, and its average
10 use is 585 gallons every time I do it. Now, If you
11 figure that I do it for the month, that's 12 times.
12 And that comes to 7,020 gallons a month that goes on
13 my yard. Which out of 10,000 gallons that only leaves
14 me 2,980 going through the house and into the sewer
15 system. And it would seem to me that -- I can't
16 hardly imagine that any house would use more than
17 maybe 4,000 gallons or so that actually goes through
18 the house. Now, we have a washer, dryer and
19 everything and, you know, I think probably use an
20 average amount.

21 Now, they say that for Valencia Terrace they
22 only have like -- I don't know, a 5,400-gallon average
23 for those 353 people but that certainly doesn't
24 include me. I mean, ever since I put this sprinkler
25 in that 7,000 gallons has been on there. And my

1 average bill runs about 36.75 every month. And if we
2 were to move to those interim rates that they
3 published on one of the sheets it would jump to 47.47
4 a month. If we go to these uniform rates, it's going
5 to jump to 76.800 for 10,000 gallons. You know, I
6 just can't imagine that such a jump is needed. You
7 know, based on their expense here I just don't see how
8 they can buy a system that has \$115,000 income in '93
9 and expect to jack it up to 221,000 when, basically,
10 there are no more customers. They aren't expanding
11 the system. They did put a fence around the sewer
12 plant. They have made some improvements. But not
13 anything wild and it certainly doesn't justify
14 forecasting needing 221,000. You know, I just can't
15 believe the figures that I do get from these people.

16 Several people have remarked -- one of the
17 things I wanted to get on the record was -- has been
18 mentioned, so I won't elaborate on it, is just exactly
19 what kind of money they actually spend, what they're
20 buying. In other words, are they buying something
21 nice? Are they buying something we need? You know,
22 like they put a nice fence around the sewer plant over
23 there and it looks great and they took down a
24 perfectly good Cyclone fence that was around there,
25 chain link fence, that would probably have stood for

1 20 years. And they put a nice fancy wood fence which
2 will probably deteriorate in five years and they'll
3 have to buy a new one. But it looks nice. And to me
4 there's a lot of difference between somebody buying
5 something that necessarily looks down and something
6 that is serviceable. And also in their expenses it's
7 very difficult to tell when somebody is buying
8 something which makes them more efficient. If I could
9 invest money and become more efficient, but at the
10 same time I can point to you and say, "I spent a
11 hundred million being more efficient, I want 10.32% on
12 that hundred million." But that -- whatever they did
13 made them more efficient, they didn't even need a rate
14 increase at that rate.

15 So it's difficult to tell exactly what they
16 are doing with their money, for sure.

17 The other thing is they've talked about
18 uniform rates, and I don't feel that uniform rates is
19 something that we, as users, really want. Because
20 it's true it averages out the bumps when a particular
21 system has to have a high dollar replacement of some
22 particular item. But the other thing it does here in
23 this state, especially, is it encourages people to
24 settle in high cost areas because people that have
25 settled in low cost areas like I feel that I have in

1 Lake County, I'm going to be paying the bill for the
2 guy who settles over on the coast in a high cost area.
3 And if I had that kind of money I might have settled
4 over there, too. But I didn't have that kind of money
5 and I came here because the economy and the cost of
6 living were what I thought very reasonable. And now,
7 if you put uniform rates in, the people that are in
8 these high cost areas, I'm helping pay their bill and
9 why should I? I don't feel this is justified
10 whatsoever.

11 It's like the people that live out on Marco
12 Island, so they need a reverse osmosis plant. I had a
13 man come to my house, he wanted to put a reverse
14 osmosis unit in just for my mobile home. \$800. So
15 it's obvious if they put a whole plant up it costs a
16 ton of money. But I don't live on Marco Island and I
17 don't think it's right for me to expect to pay for
18 somebody who does. And that's, you know, a bad
19 example but on the same thing, there's many high cost
20 areas along the coastline, and I don't see why we, in
21 Lake County, should be subsidizing people that settle
22 in those areas. I mean, if we wanted to settle over
23 there and had the money to afford it, we probably
24 might have.

25 But there's all kinds of things that, you

1 know, your hurricane insurance and all kinds of
2 expenses are extremely high when you're right on the
3 coast.

4 So I just don't think that, you know, having
5 uniform rates for all of their different little
6 companies is a good thing, because it gets the people
7 in the economic areas like where we are that have to
8 kick in and pay bills for people that are settled in
9 high areas.

10 The other thing that, you know, has been
11 mentioned in asking for these rates is the fact that
12 there's all kinds of environmental laws that are
13 having to be met. This I can understand, but I don't
14 understand why, for instance, that it takes 48% more
15 money for SSU based on their uniform rate they want to
16 pump water to me and service it to me than it costs
17 Fruitland Park to furnish their little city with
18 water. I mean they aren't a mile from us they have a
19 tank and water stem, furnishes water all through the
20 park for 48% less than they're asking for. And
21 they're, I assume, governed by the same environmental
22 laws SSU is governed by. It costs 38% more for them
23 to furnish water than it does Leesburg. And I assume
24 Leesburg is covered by the same environmental laws and
25 the same rules. Why does it cost them 38% more to

1 furnish me water than it would Leesburg? And these
2 are questions that, you know, it's hard to get answers
3 to from any of these people.

4 And, you know, I reviewed the numbers that
5 were in this blue folder that we got last time, and
6 the increases that they asked for on the interim,
7 which would have given them \$12,348,847 increase, and
8 it said that at that point their total combined
9 revenue would have been 54,499,601.

10 So at that point they were also stating in
11 here that they were making no profit. That they were
12 just -- at that point, "We're just breaking even or
13 maybe losing some money." So if you take that interim
14 rate increase that you had supposedly given them away
15 from that 54 million that they claimed was going to be
16 the combined revenue, that says that the break-even
17 point is 42 million. In other words, if they weren't
18 making any money without the interim rates, they were
19 right level with the board; at that point they were
20 pulling in 42 million and making nothing.

21 So if you give them 10.32% on 42,150,754
22 that brings the revenue needed to 46,500,711.

23 Now, once you get to that point they said
24 that they have spent 116 million. That's what this is
25 in this blue paper. And, you know, we've argued about

1 how much of this is loans and how much is equity, and
2 whatever. But if you use the whole thing, and they
3 did spend 116 million, that says to earn 10.32% on
4 that you'd need an additional 11,971,000. So if you
5 take the 465 and that and put it together end up at
6 58,471,911, and if you take your break-even point
7 away, you end up with 16,321,157.

8 In order to make their money, they claim,
9 you know, you're going to need a \$16 million increase
10 to support that. And then if you go on to their final
11 rates, the uniform rates that they want, the increase
12 there, the total combined final revenue increase would
13 be 18,137,000. And they've got, you know, the total
14 for the water and everything. And if you take -- that
15 whole thing comes to 65,302,524. Therefore, if you
16 look at what they want to earn on, they want to make
17 10.32%, that would mean that in a sense they're
18 telling me they have 59,193,731. Because if you take
19 that number and take 10.32% that comes to 6,108,793,
20 and if you add that it comes out to your 65,302,000,
21 which is in the blue form.

22 But I just can't believe that, you know,
23 these numbers make any sense at all to the real cost.
24 I can't imagine that you have a company that's
25 bringing in a break-even of 42 million, which is what

1 the numbers say, and you're making -- to make 10.3 you
2 need 4,349, so totally it's only 46.5, and then you're
3 going to turn around and spend 116 million? I mean, I
4 don't understand how you would expend that kind of
5 money when the income that you have -- I mean, it's
6 just beyond reason that you would expend this kind of
7 money and most of these sheets and the paper we've
8 got, like our little plant, I think they said they
9 plan on spending 15,000 for '96. I think it's 15,000.
10 So you know these things just simply don't hang
11 together. And I feel that, you know, you're going to
12 have to take a really good look at this. (Applause)

13 CHAIRMAN CLARK: Thank you, Mr. Foote.
14 Thank you.

15 MR. SHREVE: Thank you, sir.

16 Don Palmer. Mr. Palmer?

17 Ida Perez.

18 Mr. Gray. Wexler Gray.

19 Mr. Tom Ryan.

25**TOM RYAN**

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS RYAN: Madam Chairman, Commission members and others, first of all, I'd like to apologize for my attire. I came right off the golf course right before 6:00. If I had known this meeting was going to take this long, I probably would have had time to go home and change my clothes or maybe played another 18 holes of golf.

CHAIRMAN CLARK: Mr. Ryan, you look just fine.

WITNESS RYAN: You may remember me, I testified here last October, and I was the guy that wasn't going to tell you how we did it up North, but instead, I told you how we did it out West.

I'm sure that you know of the effect of this rate increase on senior citizens as certainly been stated here this evening. It probably more than triples or quadruples their COLA increase that we recently received of about 2.8%. And you've heard many complaints about these rate increases and all, I think justified. And I agree with all of them. But I

1 believe that this Commission is going to make a
2 decision concerning some type of an increase whether
3 it be big, or whether it be small or whether it be not
4 at all. There's going to be a decision made, and
5 something that you're compelled to do and to provide
6 Southern States Utility with an adequate rate of
7 return. Even though I do not agree with the current
8 rate of return that they're requesting. I think it's
9 something like 12%. I certainly consider that
10 excessive in this time when current interest rates are
11 much lower than that.

12 I'm not going to take much of your time this
13 evening, but I would like you to look at Southern
14 States Utilities' depreciation rates, which play a
15 significant role in their profitability.

16 Generally government regulations, whether
17 they be federal, state, IRS or GAAP, General Accepted
18 Accounting Principles, more or less dictate a maximum
19 rate of depreciation. By maximum, I mean the minimum
20 time that they can depreciate various assets and most
21 corporations take advantage of these accelerated
22 depreciation rates and rightly so. I was connected
23 with a large corporation and I know that when you can
24 accelerate or depreciate these assets over an
25 accelerated time you do it.

1 But these assets, through an accelerated
2 depreciation, may be depreciated far sooner than their
3 normal life expectancy, and I don't know whether or
4 not you've looked at this or not, but I think that
5 it's one thing that should be looked at.

6 CHAIRMAN CLARK: Mr. Ryan and Commissioner
7 Deason will correct me if I'm wrong, I think the
8 Uniform System of Accounts indicates how -- we dictate
9 how fast they can depreciate and it's over the useful
10 life the equipment. Let me let Commissioner Deason
11 give you a more expertise answer to that.

12 COMMISSIONER DEASON: The Commission does
13 prescribe the depreciation rates that the company can
14 utilize. It's true they can use an accelerated
15 depreciation rate for tax purposes and it's to their
16 benefit to do so. We capture that benefit as well in
17 the deferred taxes that result from that accelerated
18 depreciation, and we recognize those deferred taxes to
19 either reduce the rate base or to result in a lower
20 rate of return in their capital structure.

21 WITNESS RYAN: Do you ever suggest
22 lengthening those depreciation rates?

23 COMMISSIONER DEASON: We look at the useful
24 life of the plant and we review that, and we try to
25 come up with a composite depreciation rate which is

1 reflective of the useful life of those facilities.
2 And we periodically review those rates to make sure
3 they are reasonable.

4 WITNESS RYAN: Well, I'm not just saying
5 reasonable, I'm saying do you ever recommend --
6 because this affects their profitability. For
7 example, let's say this \$116 million in the normal
8 depreciation rate was ten years. I'm not sure.
9 That's probably not the figure, but just for exemplary
10 purposes. And that would mean that in ten years they
11 would be depreciating at 11.6 million per year. If
12 that were extended to 20 years, I'm just using this as
13 an example, you'd drop it to 5.8 million. The savings
14 would be 5.8 million. That represents about 80% of
15 the increase that they're requesting, and I'm just
16 looking at the water rates, not the wastewater
17 treatment plant.

18 COMMISSIONER DEASON: Yes, you're correct,
19 that the depreciation rate they used, it does have a
20 material affect on their expenses. Depreciation
21 expense is an expense that is passed on to customers,
22 and the more rapidly it's depreciated the higher the
23 expense is during those years of depreciation. And if
24 you lengthen it, you reduce the expense per year but
25 you have to pay it for more years. But what we try to

1 do is to look at the useful life of the facilities in
2 question.

3 WITNESS RYAN: So that is taken into
4 consideration when you look at their depreciation
5 rate. I feel --

6 MR. SHREVE: If I may, I agree totally with
7 what Commissioner Deason said. But one other point
8 that might be well to bring out here that you probably
9 never even heard of, in the Deltona purchase and also
10 quite a few of the systems that are purchased here,
11 there's one named Grand Terrace, I think it was, had a
12 rate base of about \$80,000 and Southern States
13 purchased it for less than 40. The Public Service
14 Commission, in the rates that you pay right now, has
15 allowed them a depreciation on the full 80,000 even
16 though they only paid the 40. And in Deltona they're
17 allowing a depreciation expense that you're paying for
18 on approximately \$9 million that they didn't pay in.
19 Now, they couldn't do that with IRS, but that's in
20 your rates.

21 WITNESS RYAN: Yes. Well, I'm glad that
22 you're aware of that. And I'm just suggesting that
23 you look at that depreciation rate and if it can be
24 extended in any way to soften some of this rate
25 increase, I think that's just one area you could look

1 at.

2 I think surely the stockholders of Minnesota
3 Power, the parent company, could be patient and bear
4 some of this burden that these large increases in
5 water rates place on the Citizens of Florida.

6 Just one thing that Mr. Shreve alluded to
7 earlier. The fact that most of the \$100 million
8 investment, I believe he said, was made based on
9 future growth. If this is true, then I say let
10 Southern States Utilities receive their increase in
11 revenues from future growth and not from its current
12 customers. And they can do this by lengthening the
13 time they depreciate those assets. Thank you.

14 (Applause)

15 CHAIRMAN CLARK: Thank you.

16 MR. SHREVE: Which system were you from,
17 sir?

18 WITNESS RYAN: Pardon?

19 MR. SHREVE: Which system?

20 WITNESS RYAN: Oh, I'm sorry. It was Silver
21 Lake. I'm in Scottish Highlands, it's Silver Lake
22 Estates.

23 COMMISSIONER KIESLING: I remember you from
24 the last time. I knew you were Silver Lake.

25 WITNESS RYAN: Really?

1 COMMISSIONER KIESLING: Yes.

2 WITNESS RYAN: And I didn't have shorts on,
3 either. Thank you.

4 MR. SHREVE: The gentlemen that spoke just
5 before you, I was checking some of his figures and I
6 think the revenues were requested to go up from
7 115,000 to approximately 221,000 or about an increase
8 of \$105,000 for Silver Lake Estates. And by their own
9 figures their total investment was, for 1995, 7,273,
10 and estimated for '96, 7,943 or \$15,216. If you give
11 them a 20% return on that, it comes to 3,043. Now,
12 how that justifies an increase of \$105,000, I have no
13 idea.

14 WITNESS RYAN: Certainly. I agree with you.

15 CHAIRMAN CLARK: Thank you, Mr. Ryan.

16 MR. SHREVE: Mr. Barrows.

17 - - - - -

18 **ROBERT BARROWS**

19 was called as a witness on behalf of the Citizens of
20 the State of Florida and, having been duly sworn,
21 testified as follows:

22 WITNESS BARROWS: Madam Chairman, members of
23 the Commission, my name is Bob Barrows. I also live
24 in Scottish Highlands which is serviced by Silver
25 Lakes system. My comments relate to the management

1 systems which Montana Power and it's fully owned
2 subsidiary, SSU, employ in running this operation.

3 COMMISSIONER KIESLING: Minnesota.

4 WITNESS BARROWS: Did I say Minnesota? Yes,
5 Minnesota Power. I'm sorry. Thank you. That
6 Minnesota Power and SSU employs in running the
7 operation.

8 The box that I brought with me represents
9 the outer envelopes of bills which have been mailed to
10 our condominium. It's a single account which covers
11 the various meters in our cul de sacs used for
12 watering lawns and for our office and for our
13 clubhouse. 39 of these envelopes appear in the mail
14 each month to be opened by our volunteers. Our
15 manager was kind enough to save all of the envelopes
16 from SSU that have come this year.

17 CHAIRMAN CLARK: Mr. Barrows, let me ask,
18 have you brought this up with Southern States before
19 and suggested to them they could do one bill?

20 WITNESS BARROWS: Our efforts to bring this
21 to their attention went to no avail. They weren't
22 interested in the problem. The cost of the envelopes,
23 the time of our volunteers, the inter-envelopes, the
24 computer time, the postage alone involves, just in our
25 case, several hundred dollars a year. Simply by

1 making an alteration to their computer system and
2 sending us 12 envelopes a year, they could save
3 themselves several hundred dollars. But my greater
4 concern is that certainly this problem must also exist
5 with all of the businesses that SSU enjoins that have
6 more than one meter, the wastage of our monthly
7 billing system becomes substantial.

8 Just tonight I was reminded of another
9 business problem.

10 We had a water main going to one of these
11 meters that waters our lawn around the cul de sacs
12 failed last week. And I'm told that they sent six
13 service men to repair it, five of whom watched the
14 other fellow work.

15 Another example of management systems is
16 reflected in the four case -- no, the six cases of
17 records that I referred to last month. You might be
18 pleased to know that it has now been expanded to 12
19 cases of records. I feel kind of sorry for your poor
20 Staff. You're going to make them go through every
21 line of those 12 cases of material. I see as their
22 only saving grace the hundreds of pages, blank pages
23 that are marked reserved for future use. They
24 probably won't have to work too hard on those pages.

25 But generally this unsummarized,

1 disorganized mountain of information seems to me to be
2 a monument to obfuscation. Was the purpose intended
3 to inform us or to confuse us? Or simply discourage
4 us from seeing what is in there? I certainly have
5 your -- you certainly have my full sympathy in having
6 to review all that mess.

7 Another management question, of course,
8 relates to this alleged meeting at the Breakers
9 between the Governor and the Lieutenant Governor and
10 the CEO of Minnesota Power.

11 It seems that the six-page fax that he has
12 reported to have sent to them summarizing the meeting
13 have gone the way of the Rose law firm billing
14 accounts.

15 Your Commission must see that each utility
16 derives a fair return on their investment so that they
17 don't go broke serving us. However, Minnesota Power
18 has bragged in their last two annual reports that your
19 decisions are going to increase that out-of-state
20 company's annual dividends to their stockholders.

21 I strongly urge that you use your authority
22 to severely limit or reject this poorly managed rate
23 hike. (Applause)

24 Now, if you would like to add my 32 pounds
25 of empty envelopes and call it Exhibit 46, I'd be

1 perfectly happy not to carry them back to my car.

2 Thank you.

3 MR. SHREVE: Mr. Barrows, can I ask you one
4 questions. I went over those figures where they're
5 asking for a increase in your area of 105,000. By
6 their own figures their investment would seem to
7 justify a little less than 3,000.

8 WITNESS BARROWS: Correct.

9 MR. SHREVE: Perhaps would that 102,000
10 additional increase be due to their administrative
11 efficiency?

12 WITNESS BARROWS: They might even be able to
13 buy a new computer system.

14 MR. SHREVE: Thank you.

15 CHAIRMAN CLARK: Mr. Barrows, that's a very
16 generous offer, but I believe you. I know that there
17 are 39 bills in there for each month, and you can take
18 it back with you. (Laughter)

19 WITNESS BARROWS: Thank you.

20 MR. SHREVE: Mr. Roger Harper.

21 - - - - -

22

23

24

25

ROGER HARPER

1
2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS HARPER: The hour is late and you
6 want to go home as much as I do.

7 I think that this is the first time I've
8 ever appeared before this many lawyers not being
9 charged with anything. (Laughter). And I feel sorry
10 for the gentleman from SSU because he has been charged
11 with plenty tonight, or at least his company has.

12 MR. SHREVE: You can't overrule me this
13 time.

14 WITNESS HARPER: I just wanted to make a
15 comment. There was a comment made a little while ago
16 about the debit billing of bank accounts.

17 I was primarily responsible for that taking
18 place -- I think I was, and I started this about two
19 years ago or so, and in -- and, incidentally, I
20 furnished my complete packet of information to
21 Mr. Willis about a month or so ago and I hope you got
22 it.

23 I hadn't heard from them. I received -- in
24 my bill in December I received a Christmas present
25 saying that, "Hey, we're going to go to debit billing.

1 I thought that was great, so I sent in my check stub
2 and did the whole ten yards. I hadn't heard from them
3 and I was very much alarmed when Mr. Weimer said that
4 they weren't going to do that right away. I did have
5 a letter, June 9th, 1995, from Julie Sweat of SSU. Her
6 final paragraph says, "We hope to have the
7 requirements and implementation completed by the last
8 quarter of this year. If you have any additional
9 questions or if I can be of further assistance, please
10 let me know."

11 COMMISSIONER GARCIA: Let me ask you
12 something. You're concerned because you just sent in
13 your check stub and they haven't billed you?

14 WITNESS HARPER: Well, I understood that
15 within 60 days we would get put on the debit billing.
16 We're approaching that point now, and I don't look for
17 it to happen within 60 days. So it just shows what an
18 unreliable company SSU has been.

19 The other thing I wanted to comment just
20 briefly about, last night I received a very late
21 telephone call from a certain attorney. I'm sure
22 you're all familiar with him. And he wanted to
23 solicit my help in engaging in the legal activities
24 going against SSU to the tune of about \$13,000. And I
25 don't mind doing that.

1 I distrust lawyers, I really do, because I
2 think this country is in a hell of a mess because of
3 lawyers. But I have some good friends who are lawyers
4 and I discount them. Jack, you're not -- you people
5 aren't in this. But, anyhow --

6 COMMISSIONER GARCIA: Jack isn't the one
7 that was trying to charge you, right?

8 WITNESS HARPER: No, it wasn't Jack. I will
9 give him a nickel after this is over with.

10 MR. SHREVE: Overrule him.

11 WITNESS HARPER: But anyhow, it really
12 bothers me when we have a system of government whereby
13 the Commissioners of a group such as yours are
14 appointed by a Governor, where when you write a letter
15 to the Governor asking for his favorable help in
16 trying to save us from being a victim of a company
17 like SSU, and he writes back and tells you that you
18 are a nonpolitical group and that he has no authority
19 over you. And then not two weeks later I walk into
20 our administration building and find this (indicating)
21 posted on the bulletin board.

22 And, Ms. Clark, I think this does you a
23 great disservice. And if I were you, I would go back
24 with my gun loaded for Buddy MacKay and I would see
25 that he couldn't run for politics anymore. But I

1 think he has done this Commission a real disservice.

2 One of the comments that was made last night
3 on that late-night telephone call was referenced to a
4 meeting between Mr. MacKay, Mr. Chiles and the CEO of
5 SSU. If there's any truth in this, I think that our
6 state government has done a real disservice to we, the
7 people, not only to you, because I think it's put you
8 in a very bad position. You now must rule on a
9 situation that is clouded by political effort that was
10 not too well done.

11 There is happiness in my little talk, and
12 I'm going to get to that right now and then I'm going
13 to quit.

14 I am really happy, I am really happy that
15 Scottish Highlands Condominium Association of 650
16 stand-alone homes has their own sewage treatment
17 plant. Now, let me give you just a benchmark figure
18 on what it costs to run a sewage treatment plant for
19 650 homes, and I hope you take note of this.

20 Our billing each month to each resident in
21 our condo association -- and forgive me if I'm a
22 couple cents off but I think it's right, \$7.53. There
23 is no -- absolutely no gallonage fee charged. That is
24 the total cost of processing the sewers. Now, you'll
25 have to realize --

1 COMMISSIONER GARCIA: Per person in your
2 association?

3 WITNESS HARPER: Per home.

4 COMMISSIONER GARCIA: Right. And there's no
5 gallonage fee?

6 WITNESS HARPER: There's no gallonage fee.
7 That's the total cost, 7.53. Now, if our sewage
8 treatment happens to go up, then we will assess our
9 people more next here, but you can bet it's not going
10 to be four times this amount.

11 CHAIRMAN CLARK: Is it the homeowners
12 association that runs --

13 WITNESS HARPER: This is a condominium
14 association by the state law, yes.

15 CHAIRMAN CLARK: Okay.

16 WITNESS HARPER: It's the same as a
17 homeowners, really, in your line of thinking.

18 Okay. All these figures, I went down here
19 to Venetian Village in Lake County and I just quickly
20 math'd out the proposed utility final in wastewater.
21 And using a figure of 6,000 gallons, which I think
22 would be probably a normal figure, that wastewater
23 treatment would amount to \$46.03. That's almost seven
24 times -- six times what we pay actually to treat
25 wastewater.

1 Now, I realize that SSU is not going to be
2 nearly as efficient as what we are. But boy, six
3 times that amount, that is criminal.

4 Now, I would like to leave you with one
5 thing, and all of the figures have gone through my
6 head tonight, and I don't even know what in the hell a
7 standing rate is. You know, these things have just
8 confounded everybody. So I have been trying to think
9 of some way that I could shock you into some
10 sensibility. And one of the things that -- because I
11 have a devious mind -- one of the things that kind of
12 confused me when you were talking about stand-alone
13 rates and interim rates, I thought you were saying
14 "rapes," with a "P." And I thought, man, that's
15 apropos. That's really apropos for what is going on
16 here. Because SSU is out to rape its customers.

17 And I'll tell you something, if somebody
18 tried to get through my open bedroom window with rape
19 in mind, I would slam that window on his finger so
20 fast he wouldn't know what hit him. Now, it's too bad
21 the people of this locality cannot slam that window
22 down. The only ones who can slam that window on that
23 rapist happens to be Commissioner, Commissioner,
24 Commissioner, Commissioner, Commissioner.

25 I implore you, stop this rape of the people

1 that have to buy water from SSU. I know that you have
2 the power to do it. And you know I'm not against a
3 fair rate at all. I think, you know, I got 2.8%
4 increase. You know, the funny things is, I'm a
5 retired federal government worker, and, you know, our
6 great people in Washington gave us a 2.8% pay increase
7 this year, and then they said, "But you've got to wait
8 until April to get it." So you know why I like
9 politicians and why I like attorneys.

10 But, anyhow, I just implore you to keep us
11 in mind in everything you do, because we are the
12 people and we are the ones who, by golly, comes the
13 next election, you know, you might find yourselves out
14 of \$90,000-a-year jobs. I don't know. Maybe you want
15 to be. I think after this deal I would want to be.
16 Not a threat. I just think that, you know, there has
17 to be some reasonableness to this. And I would
18 implore you look out for the people, help the people.
19 Do the things that are right; morally right, not just
20 legally right, but morally right for the people. And
21 I think if you do that you'll stand in good stead with
22 the people of the state of Florida. Thank you very
23 much and good bless you. (Applause)

24 CHAIRMAN CLARK: Thank you, Mr. Harper.

25 MR. SHREVE: Thank you, sir.

1 Carroll Fulmer.

2

- - - - -

3

CARROLL FULMER

4 was called as a witness on behalf of the Citizens of
5 the State of Florida and, having been duly sworn,
6 testified as follows:

7 WITNESS FULMER: Thank you. Thank you for
8 giving me the opportunity, Commissioners.

9 I have a couple of -- information that I
10 have gathered from -- that would answer a lot of the
11 questions that have been asked tonight. I'll try not
12 to repeat anything that's been said if possible.

13 CHAIRMAN CLARK: Mr. Fulmer, would you spell
14 your last time and tell us --

15 WITNESS FULMER: F-U-L-M-E-R. Carroll
16 Fulmer, I'm in Lake County Industrial Park, Highway
17 19. I do not know what system supplies me.

18 Anyway, after the November hearing I started
19 to compiling some information, and I'd like to give it
20 to you, to Jack. There's a copy for Jack and the
21 attorney here and for each of the Commissioners. It's
22 from a Dunn & Bradstreet report. It is from the SSU's
23 own CPA, Price-Waterhouse. It's an audited statement,
24 and I think you'll find it to be very accurate and
25 very disagreeing with what you've heard in a lot of

1 cases.

2 I only have four questions that I really
3 want addressed, but I want to, before we get started,
4 adopt everything that has been truthful and forthright
5 that everybody has said, without repeating any of it.

6 CHAIRMAN CLARK: Mr. Fulmer, we'll go ahead
7 and mark this as an exhibit. It should be Exhibit 45.

8 (Exhibit No. 45 marked for identification.)

9 WITNESS FULMER: I am sure you have a lot
10 more information I've given you. I've just taken
11 various reports that I've pulled and pulled out items
12 that I thought might be of interest and highlighted --
13 had some of it highlighted. You've got much more
14 information than I have.

15 But when they talk about return on equity, I
16 believe I can quote, in 1992, they had a loss of
17 \$1,747,000, according to their report. In 1993, they
18 made \$1,029,574. In 1994, they made \$12,671,181.
19 Now, I call your attention to one other thing that
20 needs to be added to that profit, and they did not
21 disclose it. I have ordered the full-blown annual
22 report that's given to Wall Street, for lack of a
23 better word. And what they've got buried in there and
24 is not unfair, I'm not saying that, but we don't know
25 what it is to increase -- you've got to increase their

1 profit by the amount of the management fees.
2 Price-Waterhouse, in one of those documents, or either
3 A. G. Edwards -- I called A. G. Edwards, an investment
4 broker, and said, "Just tell me whatever you know
5 about SSU." First I checked their Kansas group and
6 their Minnesota Power. But in any event, if you take
7 their net worth on their return on equity is
8 \$78,177,000, 1994, they earned, earned 16.2% on their
9 equity. They already are earning more than they are
10 requesting by 6%, and this is their own numbers and
11 certified, sworn to by Price-Waterhouse. And some of
12 that is just an opinion from a stock broker, but
13 certainly it carries a lot of weight. I want to leave
14 you with that.

15 Another thing they do in addition, the
16 reason they want a higher return on equity, they pay
17 out more to their stockholders, and I'd be happy to be
18 a stockholder. They pay out 2% more on the dollar
19 than the whole industry does. But guess who is paying
20 for it?

21 The management fees, I mentioned. If you
22 study all of this information in the highlighted items
23 and look at the equity that they've really got there,
24 which is very good, and if you look in the A. G.
25 Edwards thing, they recommend -- they have a strong,

1 strong balance sheet. And one case there, they quote
2 in one of the reports, three different times I
3 believe, the Florida regulators, they can avoid the
4 Florida regulators by doing internal financing, is
5 what they say. That's what the financial analyst has
6 got in there. They can avoid being criticized by
7 anybody, especially because they do internal financing
8 and they don't go external to get their money. I'm
9 not saying they're doing anything wrong. I'm just
10 saying that they are making a lot of money already if
11 you add everything back.

12 And my last question would be -- well, not
13 my last, I have one other quick one. But I don't
14 think they need any increase because the 1995 numbers
15 are not available yet and the sales that I could find
16 out today for 1995 is about equal or flat with 1994
17 numbers.

18 Now, one other thing, I haven't heard -- I'm
19 not a commercial or industrial. I don't know how they
20 rule the account. But when I came here to Lake County
21 in July I put in all of the pipes and the sewer lines
22 and the water lines and everything in my property and
23 all they done was went by the highway. It cost me
24 \$30,000 just -- and then I had to turn over the system
25 to them. They didn't pay a penny to do business with

1 me. They just went straight down the road and hooked
2 up everybody they go by. So it didn't cost them
3 anything. And I had to turn around and give it to
4 them.

5 I don't have any problem with that, but I've
6 got a problem with them capitalizing on things they
7 didn't even install. I don't know that. I'm not
8 accusing them of that. I don't mean that at all.

9 CHAIRMAN CLARK: That's good information for
10 us, and we'll check and make sure they have properly
11 accounted for it as donated property.

12 WITNESS FULMER: Yeah, because we have to
13 donate it to them and they maintain it once we've got
14 it in there, but we do give it to them. And, you
15 know, this fee I'm talking about has nothing to do
16 with what the county assesses me for hooking up to the
17 system. That's just what I have to do to turn over
18 the system to them.

19 I think that's -- if you'll look in there,
20 this Company is involved in so many things it's hard
21 to sort out what of it is earned by the power company,
22 the electric company. They're in the automobile
23 auction business they acquired. They're in the -- I'm
24 going from memory now, but it's in there. They are
25 numerous businesses in there. Some of them tells how

1 much the write-down was. I believe in '94, when they
2 showed that \$12 million profit, they also took a 22
3 cents per share write-down because of a loss on a
4 business that they had. So I don't know what the
5 profit would be if we took everything into
6 consideration.

7 It's late, the hour is late. I don't want
8 to belabor you. I did want to bring what I understand
9 and what I see from my business standpoint in running
10 a business, how things work and I just believe that we
11 need to listen to everything that is said tonight.

12 Thank you. (Applause)

13 CHAIRMAN CLARK: Thank you.

14 MR. SHREVE: Thank you, Mr. Fulmer.

15 William Woodall. Mr. Woodall. I thought
16 you were both coming.

17 - - - - -

18 **MARGARET WOODALL**

19 was called as a witness on behalf of the Citizens of
20 the State of Florida and, having been duly sworn,
21 testified as follows:

22 WITNESS WOODALL: I'm Margaret Woodall, and
23 I live in Valencia Terrace.

24 MR. SHREVE: This is not William Woodall.

25 WITNESS WOODALL: I'm not William. He's

1 William. But he said I could --

2 CHAIRMAN CLARK: Did you get sworn in? Did
3 you stand and raise your right hand and get sworn in?
4 You did not? Okay.

5 (Witness sworn.)

6 WITNESS WOODALL: Okay. I have a neighbor
7 -- and this was told to me by another neighbor as she
8 was leaving -- at the bottom of her water bill --
9 she's nine months pregnant -- was the notice, "Your
10 water may have a high level of lead." She's nine
11 months pregnant.

12 CHAIRMAN CLARK: Is she in Valencia Terrace?

13 WITNESS WOODALL: Yes, ma'am, she is. I am
14 a third grade teacher. On my block I have three of my
15 students in my classroom. I have taught many of these
16 children on my block. Another teacher who lives on my
17 block came into my classroom today. I taught her son
18 last year. She said, "How did your water smell this
19 weekend?" I had already called about it, and I said,
20 "Really bad." I looked at Joey, "Joey, how did your
21 water smell this weekend?" "Yuk." "Jessica, how was
22 your water?" "Bad." I forgot to ask Lindsey, but I'm
23 quite sure hers wasn't much better. I mean, it's one
24 thing to get \$400 tacked on; it's another thing to be
25 having a baby and be told that there is lead in your

1 water.

2 I'm concerned. Where is the money going?

3 Thank you.

4 CHAIRMAN CLARK: Thank you, Mrs. Woodall.

5 MR. SHREVE: Thank you. (Applause)

6 Chuck Matthew. Mr. Matthew.

7 Mr. Flora. Mr. Henry Flora.

8 Lee Kemp. Mr. Kemp, have you been sworn?

9 WITNESS KEMP: I just stood up on the last
10 opportunity.

11 MR. SHREVE: All right. You're covered.

12 - - - - -

13 **LEE KEMP**

14 was called as a witness on behalf of the Citizens of
15 the State of Florida and, having been duly sworn,
16 testified as follows:

17 WITNESS KEMP: My name is Lee Kemp. I live
18 in Silver Lake Estates.

19 After sitting here, I had to say a couple of
20 things. One, I'm not on Social Security or whatever,
21 I'm just trying to make a living. Okay. And I have
22 my budget, what I live within, and, you know, take us
23 into consideration, too.

24 I have two kids, 12 and 16. You know, I
25 used to be concerned with them taking long hot

1 showers. I don't want to be concerned about them just
2 taking long cold showers. It's just, you know, things
3 get out of hand. If they can't run their company more
4 efficient -- I have to do it every day. I'm not -- I
5 haven't been entitled to increases. Lord knows I wish
6 I could have increases like that just in sales let
7 alone profit. But they're also -- they're expanding
8 and all of their administrative costs should come less
9 per unit. And so it doesn't make any sense where
10 they're trying to tack on, "Oh, we're expanding,
11 expanding.

12 Another thing. It's not up to, I guess, the
13 consumer to share the burden of capitalization when if
14 they run an efficient company their stocks, they
15 should look well enough for people to invest in the
16 company under the long term. But to go through and --
17 I mean the rates that they're looking at, hell, I'm
18 starting to feel sorry for living where I do. You
19 know, so after -- that's all I've got to say. But
20 after sitting here that long, I had to say something.
21 And I'm going to go home and get something to eat.

22 (Applause)

23 CHAIRMAN CLARK: Thank you, Mr. Kemp.

24 MR. SHREVE: Thank you.

25 Mary Ann Williams. Mary Ann Williams.

1 That's the last sign-up we have.

2 CHAIRMAN CLARK: That completes the people
3 who have signed up. Is there anyone here who wishes
4 to speak?

5 I want to thank you all for staying as long
6 as you have, and I also want to thank you particularly
7 for being polite. I know this is a very contentious,
8 confusing case, but I can say you've all been -- made
9 your point and done it in a very polite way and I
10 really appreciate it. Thank you all. This hearing is
11 adjourned.

12 (Thereupon, the hearing concluded at 9:40
13 p.m.)

Affidavit of Publication

The Daily Commercial

Leesburg, Lake County, Florida

DOCKET 950495-WS
EXHIBIT NO. 43
CASE NO. 96-04227
Attach Notice Here

Case No. _____

STATE OF FLORIDA
COUNTY OF LAKE

Before the undersigned authority personally appeared Jim Perry, who on oath says that he is Publisher of The Daily Commercial, a daily newspaper published at Leesburg in Lake County, Florida, that the attached copy of advertisement, being

Ad # 3095
in the matter of Notice of Service
Hearing
in the _____ Court,

was published in said newspaper in the issues of _____
January 5, 1996

Affiant further says that the said Daily Commercial is a newspaper published in said Leesburg, in said Lake County, Florida, and that the said newspaper has heretofore been continuously published in said Lake County, Florida each day and has been entered as second class matter at the post office in Leesburg in said Lake County, Florida, for a period of one year preceding the first publication of the attached copy of advertisement; and affiant further says that he has neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in said newspaper.

Signed [Signature]
Jim Perry, Publisher

Sworn to and subscribed before me this 10th day of January, 1996, by Jim Perry, Publisher, who is personally known to me.

ELIZABETH K NEWBERRY
My Commission CC390839
Expires Aug. 28, 1996

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION NOTICE OF SERVICE HEARING DOCKET NO. 950495-WS

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Lake County(ies) will be held at the following time and place:

January 30, 1996
6:00 p.m.
Mt. Dora Community Center
Upper Level
520 Baker Street
Mt. Dora, FL 32757

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customer receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have place nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charge for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, at the plant capacity and main extension charges proposed for wastewater are uniform.

3095
FLORIDA PUBLIC SERVICE COMMISSION
DOCKET 950495-WS EXHIBIT NO. 43
COMPANY/ SSU
WITNESS: _____
DATE: 4/29/96

STATE OF FLORIDA)
COUNTY OF ORANGE)
_____)

AFFIDAVIT

STEVEN M. GALLIS, having been duly sworn, states as follows:

1. I am Supervisor of Administrative Services in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.

2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.

3. In my presence and under my supervision, SSU personnel mailed to the customers in Lake County a copy of the document identified as "Notice To Customers Of Service Hearing Letter" attached hereto and marked "Exhibit A."

4. The names and addresses of the aforesaid customers were obtained by SSU from SSU's Information Services Customer Address Files. A copy of the list of SSU customer names and addresses used to print the mailing labels for customers in the aforesaid county is attached hereto and marked "Exhibit B." "Exhibit C" attached hereto, is the presorting report printed from SSU's Information Services Customer Address Files to prepare the mailing.

5. On January 3, 1996, my staff and I machine postmarked the labeled envelopes containing copies of Exhibit A and hand delivered the envelopes to a representative of the United States Postal Service for delivery.

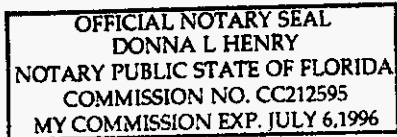

6. Attached hereto and marked "Exhibit D" is a copy of the relevant page of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit D contains information pertinent to the aforementioned mailing, to wit: on January 3, 1996, SSU mailed 30,086 total batch items, which included mail fitting the description "Lake County" for the Lake County service hearing. I personally made this entry into the logbook, and the recordation therein coincides with my personal observations

7. The total batch count on the logbook included 3,543 pieces of mail as listed in Exhibit C mailed to those persons listed in Exhibit B. If applicable, any logbook totals which are

less than Exhibit B & C totals reflect automation malfunctions in copying and sorting. In such cases, envelopes were reprocessed by hand and metered separately for mailing the same day.

Steven M. Gallis
STEVEN M. GALLIS

The foregoing instrument was acknowledged before me this 29th day of January, 1996, by STEVEN M. GALLIS, who is personally known to me and who did take an oath.

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
DOCKET NO. 950495-WS
NOTICE TO CUSTOMERS OF SERVICE HEARING**

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

DATED: January 2, 1996

Notice is hereby given that the Florida Public Service Commission will conduct service hearings to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for customers in Lake County(ies) will be held at the following time and place:

§
**January 30, 1996
6:00 p.m.
Mt. Dora Community Center
Upper Level
520 Baker Street
Mt. Dora, FL 32757**

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any person requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

PETITION
 PALMS MOBILE HOME ESTATES

The following is a PETITION IN PROTEST of Southern States Utilities proposed "Uniform Water Rates" and subsequent doubling, tripling or quadrupling of our water payments. We are a very small community without pool, golf course or other major water using amenities. We refuse to be made liable for other communities amenities, and for further profiteering by Southern States Utilities and the parent company Minnesota Power.

DATE INCORPORATED: 11/22/1961
STATE OF INCORP: Florida

AUTH SHARES-COMMON: 2,000,000
PAR VALUE-COMMON: \$0.1000

Business started 1961 by others. Present control succeeded in 1984. 100% of capital stock is owned by parent company.

This business was a subsidiary of Universal Telephone Inc, Milwaukee, WI, which in turn, since 1984, was a wholly owned subsidiary of Minnesota Power & Light Inc, Duluth, MN. In Jul 1989 Minnesota Power & Light sold this company's parent company, and through a stock transfer, moved stock ownership of this company to its present parent company. The starting date of 1984 is thus used because the ultimate stock ownership of the companies stock has been held by Minnesota Power & Light Inc since that time.

Effective Apr 1 1992 United Florida Utilities Corporation, a sister company, and Venice Gardens Utility Corporation, Venice, FL, a subsidiary of this company, were merged into this company, with this company being the surviving entity.

Also effective Jul 1 1992, Deltona Utilities Inc, Deltona, FL, a sister company, was merged into this company with this company being the surviving entity.

Also effective Apr 1 1993, Lehigh Utilities Inc, Lehigh, FL, a sister company, was merged into this company with this company being the surviving entity.

JOHN CIRELLO. Graduated from Rutgers University with BS in civil/sanitary engineering, MS in environmental engineering and PhD in Environmental Science. He has over twenty-eight years of experience in environmental engineering and management. Prior to 1985 active as president/officer of Princeton Aqua Science, assistant professor/instructor and researcher of Rutgers University and

WS, administrative assistant. 1963-1968 The Trane Company, processed medical and life insurance claims.

Affiliates: The following are related through common principals, management and/or ownership.

Heater Utilities Inc, Carey, NC, started 1987. DUNS #05-440-9230. Operates as water and waste water plants.

Lehigh Acquisition Group, Lehigh, FL, started 1991. DUNS #78-108-5501. Operates as land development company

OPERATION

1/24/96
