**MCI METRO ACCESS TRANSMISSION SERVICES, INC.'S  
PREHEARING STATEMENT**

MCI Metro Access Transmission Services, Inc. (MCImetro) hereby submits its Prehearing Statement in the phase of the above-captioned docket relating to petitions filed against Sprint-United and Sprint-Centel ("Sprint" or "United/Centel") and GTE Florida Incorporated (GTEFL).

A. Known Witnesses. MCImetro has prefiled the testimony of the following witnesses:

<u>Witness</u>	<u>Testimony</u>	<u>Issues</u>
Dr. Nina Cornell	Direct (2/7/96) Rebuttal (2/21/96)	1-3

B. Known Exhibits. MCImetro has the following direct exhibits. MCImetro reserves the right to use additional exhibits for the purpose of cross-examination.

Cornell Direct	NWC-1	Academic and Professional Qualifications of Dr. Nina Cornell
----------------	-------	--

C. Basic Position. United/Centel and GTEFL should make unbundled local loops, loop transport, and loop concentration available to MFS-FL at prices equal to their total service long

run incremental cost. The unbundling of such elements is technically and economically feasible. Such elements should be priced equal to their direct economic cost (i.e. TSRLIC) in order to prevent the possibility of price squeezes.

D-G. Issues. MCImetro's positions on the issues identified in Order No. PSC-96-0213-PCO-TP are as follows:

Issue 1. What elements should be made available by United/Centel and GTEFL to MFS-FL on an unbundled basis (e.g. link elements, port elements, loop concentration, loop transport)?

MCImetro: United/Centel and GTEFL should make available to MFS-FL unbundled loops, loop concentration and loop transport. The unbundling of such elements is technically and economically feasible. In addition, United/Centel and GTEFL should make available, upon request, any other element that it is technically and economically feasible to unbundle, including the additional elements requested by MFS.

Issue 2. What are the appropriate technical arrangements for the provision of such unbundled elements?

MCImetro: Unbundled loops should be provided from the customer's premises to United/Centel and GTEFL's central office and interconnected, at the MFS-FL's option, to (i) MFS-FL's co-located facilities, (ii) the co-located facilities of another carrier, or (iii) loop transport facilities provided by United/Centel and GTEFL. Loop transport should be provided to transport traffic to or from the United/Centel and GTEFL central office to the point of interconnection with MFS-FL, if not co-located at United/Centel and GTEFL's central office (e.g. to a mid-span meet or to an MFS-FL entrance facility at another central office or access tandem). Loop concentration should be provided to maximize the efficiency with which traffic is delivered through transport facilities.

Issue 3. What are the appropriate financial arrangements for the provision of each such unbundled element?

MCImetro: The price of each such unbundled element should be set equal to its direct economic cost, i.e. its total service long run incremental cost.

Issue 4. What arrangements, if any, are necessary to address other operational issues?

MCImetro: United/Centel and GTEFL should provide order entry, repair, testing, and any other administrative systems required for the provision of unbundled facilities, on a mechanized basis.

H. Stipulations. MCImetro is not aware of any stipulations in this phase of the docket.

I. Pending Motions. MCImetro has no pending motions that require action by the Commission.

J. Requirements of Order. MCImetro believes this prehearing statement is fully responsive to the requirements of the Order on Prehearing Procedure.

RESPECTFULLY SUBMITTED this 20th day of February, 1996.
