The allocation of water over common area is calculated by taking a three (3) month property average for water and sewer multiplied by twelve percent (12%). This twelve percent (12%) is then evenly divided by the total number of units in the property. Twelve percent (12%) is the average common area usage we have identified from a data base of 94 communities. Once the property is fully metered, we adjust the common area fee to be totally accurate for that community.

The Courtyards of Coral Springs Apartments/CBSI does not propose to charge any additional administrative/processing fees to the residents. The Courtyards of Coral Springs Apartments will pay all fees.
