ATTACHMENT II

The proposed water and sewer rates and charges for the residents of the Los Prados Apartment community will not exceed the current rates and charges of the City of Plantation Utilities Department (suppliers to Los Prados Apartments). This property is classified as multi-family and lies within the city limits of Plantation, Florida. As part of the resellers rates and charges schedule, we propose the following allocation for consideration:

WATER Minimum charge

The City of Plantation Utilities Department charges their multi-family water users a base meter charge of \$ 1.59 per meter and a debt service base charge of \$ 2.53 per apartment unit. Los Prados is serviced by twenty nine (29) meters, twenty three are apartment building meters and six (6) are common water meters. The allocation will be based upon the twenty three (23) building meters. The residents will not be charged for common water usage. The twenty three meters equals \$ 36.57 or a per unit base meter charge of \$ 0.08, (\$ 2.53 + \$ 0.08 = \$ 2.61). \$ 2.61 would then be considered the minimum charge for water per apartment unit per month.

Metered consumption

There is no minimum or maximum usage. All consumption is measured per 1,000 gallons at a rate of \$ 1.43 per 1,000 gallons of usage, (\$ 0.87 water charge p/1,000 and \$ 0.56 base unit charge p/1,000).

SEWER Minimum charge

The City of Plantation charge their multi-family sewer users a debt service charge of \$ 7.22 per apartment unit. This would then be considered the minimum charge for sewer per apartment, per month.

Metered consumption

Sewer consumption is charged at the rate of \$ 2.22 per 1,000 gallons (sewer charge of \$ 1.43 p/1,000 and a base unit charge of \$ 0.79 p/1,000). There is no minimum or maximum usage.

ATTACHMENT III

Los Prados Apartments will **not** have individual water meters installed in each apartment unit (444 total units) to register the amount of water consumed. The residents of Los Prados will be charged for water and sewer service by means of an **allocation** based upon the **existing allocated base unit charges** for both water and sewer from the City of Plantation and the occupancy of their leased apartment unit.

Los Prados is billed for consumption from twenty nine (29) individual water meters located on the property. Each of the twenty three (23) apartment buildings has it's own water meter. The remaining six (6) meters are for common water usage. For the purpose of this allocation, only the twenty three building meters are figured in the calculations. Common water usage is not allocated or charged to the residents of Los Prados.

When the master bills for the apartment community are received from the local supplier or utility, the billing company will pro rate or **allocate** the bills for each individual apartment unit. These bills will be for the **same** period of time as that of the local utility. The bills will be mailed to the residents within **two** business days of the receipt of the master bill. The total recorded on the bill will reflect the proportionate cost of water and sewer. The resident is expected to remit that amount on a monthly basis. In no case will the total amount billed to the residents ever exceed the total amount billed by the local utility to the community.

ATTACHMENT IV

Typical Rate Schedule

Below is a **sample** billing received from the City of Plantation for Los Prados apartments and the resulting sample of an **allocated** individual tenant bill. Some **actual** building bills are enclosed and marked as **exhibit 'A'**

Assumptions:

1. Total consumption from the twenty three (23) individual building master meters equaled 1,798,000 gallons.
2. Los Prados contains four floor plans with accurate statistical occupancy data for each floor plan.
3. All 444 apartment units are fully occupied with a total of 594 residents.

Los Prados master metered bills (total of 23 building meters)

Consumption of 1,798,000 gallons	
Water	\$ 3,731.03
Sewer	<u>7,197.24</u>
Total	\$ 10,928.27

Calculations for above:

Water = 23 meters x	\$ 1.59	\$ 36.57	
1,798 gal x	\$ 0.87	1,564.26	
444 units x	\$ 2.53	1,123.32	
1,798 gal x	\$ 0.56	<u>1,006.88</u>	
Total water			\$ 3,731.03
Sewer = 1,798 gal x	\$ 1.43	\$ 2,571.14	
444 units x	\$ 7.22	3,205.68	
1,798 gal x	\$ 0.79	1,420.42	
Total sewer			<u>\$ 7,197.24</u>
Total			\$ 10,928.27

Individual resident bill

Basis of calculations:

1. The total amount of residents in all 444 apartment units is 594. The occupancy per floor plan is also known (see schedule)
2. Consumption for all apartment units was 1,798,000 gallons.
3. Consumption of 1,798,000 gallons x \$ 3.65 (Water \$ 1.43 + Sewer \$ 2.22) equals \$ 6,562.70 divided by 594 residents equals \$ 11.04 per resident total rounded down to \$ 11.04).

The individual apartment bill

Los Prados contains four floor plans consisting of the following:

Plan	Plan Type	Persons per Unit*	Number of Units of this Type
------	-----------	-------------------	------------------------------

A-1	1-Bd-Rm, 1-Bath	1.14	112
A-2	1-Bd-Rm, 1-Bath	1.27	128
B-1	2-Bd-Rm, 2-Bath	1.52	72
B-2	2-Bd-Rm, 2-Bath	1.48	132

Calculations:

A-1 = $1.14 \times \$ 11.04 = \$ 12.59 + \$ 2.61 + \$ 7.22 = \$ 22.42 \times 112 = \$ 2,511.04$

A-2 = $1.27 \times \$ 11.04 = \$ 14.02 + \$ 2.61 + \$ 7.22 = \$ 23.85 \times 128 = \$ 3,052.80$

B-1 = $1.51 \times \$ 11.04 = \$ 16.67 + \$ 2.61 + \$ 7.22 = \$ 26.50 \times 72 = \$ 1,908.00$

B-2 = $1.48 \times \$ 11.04 = \$ 16.34 + \$ 2.61 + \$ 7.22 = \$ 26.17 \times 132 = \$ 3,454.44$

Total billed to residents **\$10,926.28**

Accountability

A. Master bill **\$ 10,928.27**

B. Individual bills **\$ 10,926.28**

C. B does not exceed A

* Statistical data for occupancy per unit is kept monthly and would be calculated each month or as occupancy changes.

CHAPTER 25-30.266, F.A.C.  
METER TEST BY REQUEST

(1) (a) Upon written request of any customer whose meter has not been tested within one-half the maximum interval provided in Rule 25-30.265, the utility shall make a field test for accuracy of that customer's meter.

(b) The utility may not charge for any field test performed pursuant to paragraph (a) of this subsection.

(2) (a) The utility may require a deposit to defray cost of any bench test requested by any customer. However, the deposit may not exceed the following schedule:

| Meter Size<br>(inches) | Fee                 |
|------------------------|---------------------|
| 5/8 and 3/4            | \$20.00             |
| 1 and 1-1/2            | \$25.00             |
| 2 and over             | Actual Cost of Test |

(b) The utility may retain the deposit if the customer's meter is found to register accurately or below accuracy.

(c) The utility shall refund the deposit if the customer's meter is found to register in excess of prescribed accuracy limits.

(3) The Commission may provide a representative to observe or supervise any bench test upon written request from the customer or utility. The utility shall advise the customer of the customer's right to witness the bench test.

(4) The utility shall provide the customer with a written report of the results of any test performed pursuant to this rule.

(5) A meter shall in no way be disturbed after the utility has received notice that application has been made for a test by the customer unless a representative of the Commission is present or unless authority to do so is first given in writing by the Commission or by the customer.

(6) At the request of the customer, the utility shall make arrangements for a meter test to be conducted by an independent meter testing facility of the customer's choosing. The customer shall be responsible for negotiating and paying to the independent meter testing facility any fee charged for such a test. Such independent meter testing facilities shall, at minimum, conform to the requirements of the American Waterworks's Association Water Meters Selection Installation Testing and Maintenance (AWWA-M6-1972). Where appropriate, the meter may be field tested. The customer shall be responsible for all the costs to the utility associated with a meter test by an independent meter testing

facility. The utility shall provide a detailed estimate of such costs and may require payment of such costs prior to the actual meter test. If the meter is found to be running fast in excess of the limits established by these rules, such costs shall be refunded, but if within the allowable limit, the utility may retain the costs.

(d) File the application fee required by s. 367.145; and

(e) Submit an affidavit that the applicant has provided notice of its actual application pursuant to this section.

(2) A utility may not delete or extend its service outside the area described in its certificate of authorization until it has obtained an amended certificate of authorization from the commission. When a utility applies for an amended certificate of authorization from the commission, it shall:

(a) Provide notice of the actual application filed by mail or personal delivery to the governing body of the county or municipality affected, to the Public Counsel, to the commission, and to such other persons and in such other manner as may be prescribed by commission rule;

(b) Provide all information required by rule or order of the commission, which information may include a detailed inquiry into the ability or inability of the applicant to provide service, the need or lack of need for service in the area that the applicant seeks to delete or add; the existence or nonexistence of service from other sources within geographical proximity to the area that the applicant seeks to delete or add, and a description of the area sought to be deleted or added to the area described in the applicant's current certificate of authorization;

(c) Provide a reference to the number of the most recent order of the commission establishing or amending the applicant's rates and charges;

(d) Submit an affidavit that the utility has tariffs and annual reports on file with the commission;

(e) File the application fee required by s. 367.145; and

(f) Submit an affidavit that the applicant has provided notice of its actual application pursuant to this section.

(3) If, within 30 days after the last day that notice was mailed or published by the applicant, whichever is later, the commission does not receive written objection to the notice, the commission may dispose of the application without hearing. If the applicant is dissatisfied with the disposition, it may bring a proceeding under s. 120.57.

(4) If, within 30 days after the last day that notice was mailed or published by the applicant, whichever is later, the commission receives from the Public Counsel, a governmental authority, or a utility or consumer who would be substantially affected by the requested certification or amendment a written objection requesting a proceeding pursuant to s. 120.57, the commission shall order such proceeding conducted in or near the area for

service as is prescribed by part VI of chapter 403 and parts I and II of chapter 373, or rules adopted pursuant thereto; but such service shall not be less safe, less efficient, or less sufficient than is consistent with the approved engineering design of the system and the reasonable and proper operation of the utility in the public interest. If the commission finds that a utility has failed to provide its customers with water or wastewater service that meets the standards promulgated by the Department of Environmental Regulation or the water management districts, the commission may reduce the utility's return on equity until the standards are met.

### 367.121 Powers of commission.—

(1) In the exercise of its jurisdiction, the commission shall have power:

(a) To prescribe fair and reasonable rates and charges, classifications, standards of quality and measurements, and to prescribe service rules to be observed by each utility, except to the extent such authority is expressly given to another state agency;

(b) To prescribe, by rule, a uniform system and classification of accounts for all utilities, which rules, among other things, shall establish adequate, fair, and reasonable depreciation rates and charges;

(c) To require such regular or emergency reports from a utility, including, but not limited to, financial reports, as the commission deems necessary and, if the commission finds a financial report to be incomplete, incorrect, or inconsistent with the uniform system and classification of accounts, to require a new report or a supplemental report, either of which the commission may require to be certified by an independent certified public accountant licensed under chapter 473;

(d) To require repairs, improvements, additions, and extensions to any facility, or to require the construction of a new facility, if reasonably necessary to provide adequate and proper service to any person entitled to service or if reasonably necessary to provide any prescribed quality of service, except that no utility shall be required to extend its service outside the geographic area described in its certificate of authorization, or make additions to its plant or equipment to serve outside such area, unless the commission first finds that the utility is financially able to make such additional investment without impairing its capacity to serve its existing customers;

(e) To employ and fix the compensation for such examiners and technical, legal, and clerical employees as it deems necessary to carry out the provisions of this chapter;

(f) To adopt, by affirmative vote of a majority of the commission, rules reasonably necessary and appropriate for the administration and enforcement of this chapter;

(g) To exercise all judicial powers, issue all writs, and do all things necessary or convenient to the full and complete exercise of its jurisdiction and the enforcement of its orders and requirements;

(h) To order interconnections of service or facilities between utilities, and to approve any plant capacity charges or wholesale service charges or rates related thereto, provided the commission first finds that the utility is financially able to make such additional investment as is required without impairing its capacity to serve its existing customers;

(i) To require the filing of reports and other data by a public utility or its affiliated companies, including its parent company, regarding transactions or allocations of common costs, among the utility and such affiliated companies. The commission may also require such reports or other data necessary to ensure that a utility's ratepayers do not subsidize nonutility activities;

(j) To seek relief in circuit court including temporary and permanent injunctions, restraining orders, or any other appropriate order, because the Legislature finds that violations of commission orders or rules, in connection with the impairment of a utility's operations or service, constitute irreparable harm for which there is no adequate remedy at law. Such remedies shall be in addition to and supplementary to any other remedies available for enforcement of agency action under s. 120.69 or the provisions of this chapter. The commission shall establish procedures implementing this section by rule; and

(k) To assess a utility for reasonable travel costs associated with reviewing the records of the utility and its affiliates when such records are kept out of state. The utility may bring the records back into the state for review.

(2) The commission or its duly authorized representatives may, during all reasonable hours, enter upon any premises occupied by any utility and set up and use thereon any necessary apparatus and appliance for the purpose of making investigations, inspections, examinations, and tests and exercising any power conferred by this chapter. Such utility shall have the right to be notified of and be represented at the making of such investigations, inspections, examinations, and tests.

### 367.122 Examination and testing of meters.—

(1) The commission may provide for the examination and testing of all meters used for measuring any product or service of a utility.

(2) Any customer or user may have any such meter tested by the utility upon payment of the fee fixed by the commission.

(3) The commission shall establish reasonable fees to be paid for testing such meters on the request of the customers. Current utility customers or users may, at their discretion, pay the fee fixed by the commission at the time of the request or have the utility include the fee with their next regularly scheduled statement. However, the fee shall be paid by the utility and repaid to the customer or user if the meter is found defective or incorrect to the disadvantage of the customer or user in excess of the degree or amount of tolerance customarily allowed for such meters, or as may be provided for in rules and regulations of the commission. No fee may be charged for any such testing done by the commission or its representatives.

(4) The commission may purchase materials, apparatus, and standard measuring instruments for such examinations and tests.

History.—s. 1, ch. 71-278, § 100; ch. 73-332, § 2; ch. 76-166, § 1; ch. 77-457, §§ 18, 25, 26; ch. 80-99, §§ 2, 3; ch. 81-318, §§ 17, 26, 27; ch. 89-353, § 4; ch. 91-429.

**367.123 Service for resale.**—The commission may require a utility to provide service for resale. However, before requiring the provision of service, the commission shall first find that the utility is financially able to make such additional investment as is required without impairing its capacity to serve its existing customers. Any utility which provides service for resale shall provide such service upon terms and conditions established by the commission, and no utility shall discontinue such service without the approval of the commission. In the event a governmental authority voluntarily enters into an agreement for resale, such agreement shall provide that the service will not be discontinued without 90 days' notice being given to the purchaser prior to discontinuing such service. Nothing contained herein shall be construed to prohibit the governmental authority from requiring adequate security being given to such authority to ensure payments required in the agreement.

History.—s. 1, ch. 71-278, § 2; ch. 76-166, § 1; ch. 77-457, §§ 17, 25, 26; ch. 80-99, § 2; ch. 81-318, §§ 17, 26, 27; ch. 89-353, § 4; ch. 91-429.

**367.145 Regulatory assessment and application fees.**—

(1) The commission shall set by rule a regulatory assessment fee that each utility must pay once a year in conjunction with filing its annual financial report required by commission rule. Notwithstanding any provision of law to the contrary, the amount of the regulatory assessment fee shall not exceed 4.5 percent of the gross revenues of the utility derived from intrastate business, excluding sales for resale made to a regulated company.

(a) A governmental authority to which ownership or control of a utility is transferred is not liable for any fees owed the commission by the utility as of the date of transfer. However, whenever a purchase at wholesale is made of any water or wastewater service and a fee is paid or payable thereon by the selling utility and the utility purchasing such water or wastewater service resells the same directly to customers, the purchasing utility is entitled to, and must receive, credit on such fees as may be due by it under this section to the extent of the fee paid or payable upon such water or wastewater service by the utility from which such purchase was made. All such fee payments and penalties must be deposited in accordance with s. 350.113.

(b) In addition to the penalties and interest otherwise provided, the commission may impose a penalty upon a utility for failure to pay regulatory assessment fees in a timely manner in accordance with s. 367.161.

(2) Each utility shall pay an application fee, established by the commission, for an original certificate of authorization; an amendment to an existing certificate of authorization; a request for rate relief in accordance with s. 367.081 or s. 367.0814; a proceeding pursuant to s. 367.0822; service availability charges filed in accordance with s. 367.101; and when this chapter becomes

applicable to a county in accordance with s. 367.071. The amount of the application fee determined by the commission may not exceed \$4,500 and must be based upon the existing or proposed capacity of the system, extension, or deletion. All such fee payments must be deposited in accordance with s. 350.113.

(3) Fees collected by the commission pursuant to this section may only be used to cover the cost of regulating water and wastewater systems. Fees collected by the commission pursuant to chapters 364 and 366 may not be used to pay the cost of regulating water and wastewater systems.

History.—s. 19, 27, ch. 89-353, § 2; ch. 90-166, § 4; ch. 91-429.

**367.156 Public utility records; confidentiality.**—

(1) The commission shall continue to have reasonable access to all utility records and records of affiliated companies, including its parent company, regarding transactions or cost allocations among the utility and such affiliated companies, and such records necessary to ensure that a utility's ratepayers do not subsidize non-utility activities. Upon request of the utility or any other person, any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from s. 119.07(1).

(2) Discovery in any docket or proceeding before the commission shall be in the manner provided for in Rule 1.280 of the Florida Rules of Civil Procedure. Information which affects a utility's rates or cost of service shall be considered relevant for purposes of discovery in any docket or proceeding where the utility's rates or cost of service are at issue. The commission shall determine whether information requested in discovery affects a utility's rates or cost of service. Upon showing by a utility or other person and a finding by the commission that discovery will require the disclosure of proprietary confidential business information, the commission shall issue appropriate protective orders designating the manner for handling such information during the course of the proceeding and for protecting such information from disclosure outside the proceeding. Such proprietary confidential business information shall be exempt from s. 119.07(1). Any records provided pursuant to a discovery request for which proprietary confidential business information status is requested shall be treated by the commission and the office of the Public Counsel and any other party subject to the public records act as confidential and shall be exempt from s. 119.07(1), pending a formal ruling on such request by the commission or the return of the records to the person providing the records. Any record which has been determined to be proprietary confidential business information and is not entered into the official record of the proceeding must be returned to the person providing the record within 60 days after the final order, unless the final order is appealed. If the final order is appealed, any such record must be returned within 30 days after the decision on appeal. The commission shall adopt the necessary rules to implement this provision.

(3) Proprietary confidential business information means information, regardless of form or characteristics, which is owned or controlled by the person or company

misdeemeanor is of the particular degree designated by statute. Any crime declared by statute to be a misdemeanor without specification of degree is of the second degree.

(3) This section is supplemental to, and is not to be construed to alter, the law of this state establishing and defining criminal offenses that are divided into degrees by virtue of distinctive elements comprising such offenses, regardless of whether such law is established by constitutional provision, statute, court rule, or court decision.

(2) For the purposes of this section, the placing of a person on probation without an adjudication of guilt shall be treated as a prior conviction if the subsequent offense for which he is to be sentenced was committed during such probationary period.

(3) In a separate proceeding, the court shall determine if the defendant is a habitual felony offender or a habitual violent felony offender. The procedure shall be as follows:

(a) The court shall obtain and consider a presentence investigation prior to the imposition of a sentence as a habitual felony offender or a habitual violent felony offender.

**775.0841 Legislative findings and intent.**—The Legislature hereby finds that a substantial and disproportionate number of serious crimes is committed in Florida by a relatively small number of multiple and repeat felony offenders, commonly known as career criminals. The Legislature further finds that priority should be given to the investigation, apprehension, and prosecution of career criminals in the use of law enforcement resources and to the incarceration of career criminals in the use of available prison space. The Legislature intends to initiate and support increased efforts by state and local law enforcement agencies and state attorneys' offices to investigate, apprehend, and prosecute career criminals and to incarcerate them for extended terms.
