FLORIDA TELECOMMUNICATIONS TARIFF

This tariff applies to the telecommunications services furnished by Shared Communications Services, Inc. for calls that originate and terminate within the State of Florida. This tariff is on file with the Florida Public Service Commission. **TARIFF FORMAT**

Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Public Service Commission ("PSC"). For example, the Fourth Revised Sheet No. 14 cancels the Third Revised Sheet No. 14. Because of various suspension periods, deferrals, etc. the PSC follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

Paragraph Numbering Sequences - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1
- 2.1.1
- 2.1.1.1
- 2.1.1.1.1

Check Sheets - When a tariff filing is made with the PSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheet contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the PSC.
