

VOTE SHEET

DATE: June 11, 1996

RE: DOCKET NO. 960527-EI - Request for approval of site specific depreciation studies by Florida Power & Light Company.

Issue 1: Recommendation that FPL be allowed to implement the proposed rates for its combined cycle units, shown on Attachment A of staff's recommendation dated May 30, 1996, on a preliminary basis at January 1, 1996. In addition, FPL should be allowed to implement its proposed 3-year amortization period for post-1995 additions of personal computer equipment. The effect of these proposals will increase annual depreciation expense by an estimated \$22.4 million annually, based on January 1, 1996 investments and reserves. The rates, amortization period, and resultant expenses will be trued-up when final action is taken by this Commission later in 1996.

APPROVED

Issue 2: Recommendation that the implementation date for the new depreciation rates and amortization should be January 1, 1996.

APPROVED

COMMISSIONERS ASSIGNED: Full Commission
