Dear Sir:

This letter is written to you to object to the proposal by Windstream Utilities Company to extend service into our area which is Lemonwood II, west of C475. This is a newly developed subdivision with lot sizes of one (1) acre +/- and the homes have private wells and septic tanks. We see no need or the necessary expense for an expansion in this low density development.

There was a recent scare of bad water in this area because one of the houses in a low elevation has a shallow well. They took this information to the newspaper and the whole matter got blown out of proportion and has hurt the value of the homes and lots in this area. The only problem we really had was that some of the water systems had not been sanitized. Once homeowners sanitized their system the water tests cleared up.

We do not want to be forced into having to hook up to a utility company when the need is not there. Hopefully, you will take this protest in consideration before you grant the extension to Windstream Utilities.

Sincerely,

Carlyle Ausley, Jr.
