**** APPENDIX E ****

**** GLOSSARY ****

ACCESS CODE: The term denotes a uniform four or seven digit code assigned to an individual IXC. The five digit code has the form 10XXX and the seven digit code has the form 950-XXXX.

BYPASS: Transmission facilities that go direct from the local exchange end user to an IXC point of presence, thus bypassing the local exchange company.

CARRIERS CARRIER: An IXC that provides telecommunications service, mainly bulk transmission service, to other IXC only.

CENTRAL OFFICE: A local operating unit by means of which connections are established between subscribers' lines and trunk or toll lines to other central offices within the same exchange or other exchanges. Each three (3) digit central office code (NXX) used shall be considered a separate central office unit.

CENTRAL OFFICE CODE: The term denotes the first three digits (NXX) of the seven (7) digit telephone number assigned to a customer's telephone exchange service.

COMMISSION: The Florida Public Service Commission.

COMPANY, TELEPHONE COMPANY, UTILITY: These terms may be used interchangeably herein and shall mean any person, firm, partnership or corporation engaged in the business of furnishing communication service to the public under the jurisdiction of the Commission.

DEDICATED FACILITY: The term denotes a transmission circuit which is permanently for the exclusive use of a customer or a pair of customers.

END USER: The term denotes any individual, partnership, association, corporation, governmental agency or any other entity which (A) obtains a common line, uses a pay telephone or obtains interstate service arrangements in the operating territory of the company or (B) subscribes to interstate services provided by an IXC or uses the services of the IXC when the IXC provides interstate service for its own use.

EQUAL ACCESS EXCHANGE AREAS: EAEA means a geographic area, configured based on 1987 planned toll center/access tandem areas, in which local exchange companies are responsible for providing equal access to both carriers and customers of carriers in the most economically efficient manner.

EXCHANGE: The entire telephone plant and facilities used in providing telephone service to subscribers located in an exchange area. An exchange may include more than one central office unit.

EXCHANGE (SERVICE) AREA: The territory, including the base rate suburban and rural areas served by an exchange, within which local telephone service is furnished at the exchange rates applicable within that area.

EXTENDED AREA SERVICE: A type of telephone service furnished under tariff provision whereby subscribers of a given exchange or area may complete calls to, and receive messages from, one or more other contiguous exchanges without toll charges, or complete calls to one or more other exchanges without toll message charges.

FACILITIES BASED: An IXC that has its own transmission and/or switching equipment or other elements of equipment and does not rely on others to provide this service.

FOREIGN EXCHANGE SERVICES: A classification of exchange service furnished under tariff provisions whereby a subscriber may be provided telephone service from an exchange other than the one from which he would normally be served.

FEATURE GROUPS: General categories of unbundled tariffs to stipulate related services.

Feature Group A: Line side connections presently serving specialized common carriers.

Feature Group B: Trunk side connections without equal digit or code dialing.

Feature Group C: Trunk side connections presently serving AT&T-C.

Feature Group D: Equal trunk access with subscription.

INTEREXCHANGE COMPANY: means any telephone company, as defined in Section 364.02(4), F.S. (excluding Payphone Providers), which provides telecommunication service between exchange areas as those areas are described in the approved tariffs of individual local exchange companies.

INTER-OFFICE CALL: A telephone call originating in one central office unit or entity but terminating in another central office unit or entity both of which are in the same designated exchange area.

INTRA-OFFICE CALL: A telephone call originating and terminating within the same central office unit or entity.

INTRASTATE COMMUNICATIONS: The term denotes any communications in Florida subject to oversight by the Florida Public Service Commission as provided by the laws of the State.

INTRA-STATE TOLL MESSAGE: Those toll messages which originate and terminate within the same state.

LOCAL ACCESS AND TRANSPORT AREA: LATA means the geographic area established for the administration of communications service. It encompasses designated exchanges, which are grouped to serve common social, economic and other purposes.

LOCAL EXCHANGE COMPANY (LEC): Means any telephone company, as defined in Section 364.02(4), F.S., which, in addition to any other telephonic communication service, provides telecommunication service within exchange areas as those areas are described in the approved tariffs of the telephone company.

OPTIONAL CALLING PLAN: An optional service furnished under tariff provisions which recognizes a need of some subscribers for extended area calling without imposing the cost on the entire body of subscribers.

900 SERVICE: A service similar to 800 service, except this service is charged back to the customer based on first minute plus additional minute usage.

PIN NUMBER: A group of numbers used by a company to identify their customers.

PAY TELEPHONE SERVICE COMPANY: Means any telephone company, other than a Local Exchange Company, which provides pay telephone service as defined in Section 364.335(4), F.S.

POINT OF PRESENCE (POP): Bell-coined term which designates the

actual (physical) location of an IXC's facility. Replaces some applications of the term "demarcation point."

PRIMARY SERVICE: Individual line service or party line service.

RESELLER: An IXC that does not have certain facilities but purchases telecommunications service from an IXC and then resells that service to others.

STATION: A telephone instrument consisting of a transmitter, receiver, and associated apparatus so connected as to permit sending and/or receiving telephone messages.

SUBSCRIBER, CUSTOMER: These terms may be used interchangeably herein and shall mean any person, firm, partnership, corporation, municipality, cooperative organization, or governmental agency supplied with communication service by a telephone company.

SUBSCRIBER LINE: The circuit or channel used to connect the subscriber station with the central office equipment.

SWITCHING CENTER: Location at which telephone traffic, either local or toll, is switched or connected from one circuit or line to another. A local switching center may be comprised of several central office units.

TRUNK: A communication channel between central office units or entities, or private branch exchanges.

SYMBOLS SHEET

EXPLANATION OF SYMBOLS - When changes are made in any tariff sheet, a revised sheet will be issued canceling the tariff sheet affected. Changes will be identified on the revised sheet(s) through the use of the following symbols:

- (D) - To signify discontinued or deleted rate, regulation or condition
- (I) - To signify a change resulting in an increase to a customer's bill
- (M) - To signify material moved from or to another part of this tariff with no change in text, rate, rule or condition
- (N) - To signify new material, including a listing, rate, rule or condition
- (R) - To signify a change resulting in a reduction to a customer's bill
- (T) - To signify a change in the wording of text but no change in the rate, rule or condition

TARIFF FORMAT SHEETS

A. Sheet Numbering - Sheet number appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the FPSC.

For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the FPSC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Number Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

SECTION 3 - DESCRIPTION OF SERVICE

- 3.1 **1+ Long Distance Service** - A direct-dialed long distance service that is available to residential and business customers. This service allows customers to place direct dialed long distance calls and intraLATA toll calls to terminating locations within the state. Service is available on a full time basis, 24 hours a day, seven days a week. Calls are placed by dialing "1" and the destination telephone number, including the area code. Service is available only in equal access areas. Calls are billed in one minute increments.
- 3.2 **Travel/Calling Card Service** - A service which allows customers, when away from home or their place of business, to charge a long distance call to a travel card issued by the Company. To bill a call to their travel card, customers dial an 800 number and authorized account code before dialing the number of the called party. Calls are billed in one minute increments. The Company will replace lost or stolen cards quickly and at no charge to the customer.
- 3.3 **Debit Card Service** - A prepaid card service that provides an outbound voice grade communications service for calls billed to the debit card. Customers are provided an 800 number and account number. A flat, per minute charge applies to the call and the charge for the call is deducted from the customer's debit card record/account as the call progresses. Charges for calls are based on one minute increments.
- 3.4 **Alternative Operator Service** - Calls requiring operator services, such as collect, third party billed, person to person and certain calling credit card calls will be routed to one of Company's live operators who will answer each call by identifying the service as that of HSS. The operator will collect billing information and perform validation and call acceptance functions. If the call is authorized, the operator will release the call for completion and call timing will be performed by the Company's switch. Automated calling card and collect calls, i.e., where the end user dials all of the digits required to route and bill the call, are validated through automated switching equipment and, if authorized, will be completed without operator intervention.

Call message detail collected by the switch processors is forwarded via formatted disks for computer processing and application of tariffed rates. After rating has been performed billing tapes are created and forwarded to local exchange carriers and commercial credit card companies. These billing companies acknowledge receipt and after processing confirm revenues due and payable to Company, subject to applicable withhold amounts. The billing companies prepare and render invoices to their end users reflecting the charges of Company.

SECTION 3 - DESCRIPTION OF SERVICE

- 3.4.1 **Customer Dialed Calling Card Station** - The Customer dialed Calling Card Station charge applies when the Customer dials the appropriate operator code plus the telephone number desired and Company's operator assistance is limited to recording the Calling Card number for billing purposes or when the Customer dials the appropriate operator code plus the desired telephone number and the local exchange operator services equipment capability precludes the Customer from completing the call without the assistance of a Company's Operator and the call is billed to the Customer's Calling Card.
- 3.4.2 **Operator Station** - The Operator Station charge applies when calls are completed with the assistance of a Company's operator, except as specified for the Customer Dialed Calling Card Station and Person-to-Person classes of Operator Assistance Service.
- 3.4.3 **Person-to-Person** - The Person-to-Person charge applies when the person originating the call specifies the particular party to be reached by Company's operator. The specified party may be a person, station, department, extension or office.
- After the called station has been reached, if the called party is unavailable and the calling party requests or agrees to speak to a party other than the party initially specified, the call is still billed as a Person-to-Person call. The calling party is responsible for identifying the party at the called station.
- The Person-to-Person charge also applies to those calls for which the calling party requests a Company's operator to make arrangements with a called party to establish a call at a specified time.
- 3.5 **Inmate Service** - Collect call only services are provided from prisons and confinement facilities.
- 3.6 **Measured Usage Charge** - Each operator assisted call billed to an end user will contain a measured usage charge component that is computed on the basis of the duration, distance and time of day applicable to that call.
- 3.6.1 **Timing of Calls** - Each call is timed and billed in sixty second increments. Fractional durations are rounded up to the next minute. The minimum length of a call is one minute.

SECTION 3 - DESCRIPTION OF SERVICE

- 3.6.2 **Determination of Mileage** - Each call will be rated according to the airline mileage between the originating point and terminating point of the call. The originating point shall be identified as the location of the local exchange central office serving central office associated with the caller number. The vertical and horizontal coordinates ("V" and H" coordinates) of the local serving offices shall be utilized for calculating with the formula set forth by Bell Communications Research in their NPAS-NXX V & H Coordinates Tape and Bell's NECA Tariff No. 4.
- 3.6.3 **Time of Day** - Measured usage charges computed hereunder shall be subject to the time of day as set forth herein under Rates and Charges. All times refer to the local time at the originating point.
