RE: DOCKET NO. 961230-TP - Petition by MCI Telecommunications Corporation for arbitration with United Telephone Company of Florida and Central Telephone Company of Florida concerning interconnection rates, terms, and conditions, pursuant to the Federal Telecommunications Act of 1996.

Issue 2: Recommendation that permanent, geographically deaveraged, reciprocal, per minute rates for end office termination for those central offices for which Sprint provided cost data. For the central offices that Sprint did not provide end office termination cost data, the rates in Zone 1 should be used in the interim. The rates for end office termination are listed in Table 2A below. An interim reciprocal per minute rate for transport of \$.000255 and a permanent, reciprocal per minute rate of \$.00275 for tandem switching is recommended. Sprint should not compensate MCI for transport and tandem switching unless MCI actually performs each function.

Sprint should file TSLRIC cost studies for the end office switches for which it did not provide cost data. Sprint should also file TSLRIC cost studies for transport. These cost studies should be filed within 60 days from the date of the order.

MODIFIED

Approved with modifications.

Issue 3b: Recommendation that the appropriate cost methodology for setting rates for Unbundled Network Elements is Total Service Long Run Incremental Cost (TSLRIC). The cost studies submitted by the parties in this case, as filed, do not conform to this standard. Adjustments to the results have been made, as discussed in the analysis portion of staff's memorandum dated January 23, 1997, that reflect more reasonable costs upon which to set interim rates. Sprint should be required to file TSLRIC estimates for ~~the~~ ~~NID~~, Loop Distribution, and Unbundled Loops in order to set permanent rates. TSLRIC estimates should also be filed for those elements for which interim rates are approved. TSLRIC studies should be filed no later than ~~90~~ days following issuance of the order in this proceeding.

MODIFIED

Approved with modifications.

Issue 3c: Recommendation that the Commission set rates for each of the items listed in 3b of staff's memorandum, as set forth in the analysis portion. (Recommended interim rates are marked with an asterisk.)

MODIFIED

Approved with modifications

Issue 7: Recommendation that Sprint be required to offer voice mail for resale to MCI since it is a telecommunications service offered to end user customers who are not telecommunications carriers. Sprint should not be required to resell inside wire maintenance since it is not a telecommunications service.

APPROVED

Issue 9: Recommendation that the wholesale discount rates listed in Table 9A below be applied to the appropriate retail service category.

TABLE 9A

WHOLESALE DISCOUNT RATES				
Simple Access	Complex Access	Features	Operator/DA	Other
19.41%	12.65%	36.60%	12.06%	12.76%

Sprint should translate the percentage discounts into fixed dollar discount amounts based on the rates in effect at the time the order from this docket is issued. Sprint should include the fixed discount dollar amounts in the agreement when it is filed with the Commission.

MODIFIED

Approved with modification in body of staff's recommendation.
