March 31, 1997

Ms. Blanca S. Bayo, Director  
Division of Records and Reporting  
Florida Public Service Commission  
4075 Esplanade Way, Rm. 110  
Tallahassee, FL 32399-0850

RE: DOCKET NO. 970007-EI

Dear Ms. Bayo:

Enclosed for filing please find an original and ten (10) copies of Florida Power & Light Company's Petition for Approval of Environmental Cost Recovery True-Up for Period Ending September 1996 in the above-referenced docket.

Also enclosed please find the original and ten (10) copies of the Testimony and Exhibits of R. Morley.

Very truly yours,

Matthew M. Childs, P.A.

FPSC-RECORDS/REPORTING

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION  
FLORIDA POWER & LIGHT COMPANY  
TESTIMONY OF ROSEMARY MORLEY  
DOCKET NO. 970007-EI

March 31, 1997

- 1 Q. Please state your name and address.

2 A. My name is Rosemary Morley and my business address is 9250 West

3 Flagler Street, Miami, Florida, 33174.

4

5 Q. By whom are you employed and in what capacity?

6 A. I am employed by Florida Power & Light Company (FPL) as Rate

7 Development Manager of the Rates and Tariff Administration Department.

8

9 Q. Have you previously testified in this docket?

10 A. Yes, I have.

11

12 Q. What is the purpose of your testimony?

13 A. The purpose of my testimony is to present for Commission review and

14 approval the Environmental Compliance Costs associated with our

15 Environmental Compliance activities for the period April 1996 through

1                   September 1996.

2

3                   **Q. Have you prepared or caused to be prepared under your direction,  
4 supervision or control an exhibit in this proceeding?**

5                   **A. Yes, I have. It consists of eight forms. Form 42-1A reflects the final true-  
6 up to be carried forward to the October 1997 - September 1998 period.  
7 Form 42-2A consists of the final true-up calculation for the period, Form  
8 42-3A consists of the calculation of the Interest Provision for the period.  
9 Form 42-4A reflects the calculation of variances between actual and  
10 estimated/actual costs for O & M Activities, Form 42-5A presents a  
11 summary of actual monthly costs for the period for O & M Activities, Form  
12 42-6A reflects the calculation of variances between actual and  
13 estimated/actual costs for Capital Investment Projects, Form 42-7A  
14 presents a summary of actual monthly costs for the period for Capital  
15 Investment Projects and Form 42-8A (Page 1 of 9 through Page 9 of 9)  
16 consists of the calculation of depreciation expense and return on capital  
17 investment.**

18

19                   **Q. What is the source of the data which you will present by way of  
20 testimony or exhibits in this proceeding?**

21                   **A. Unless otherwise indicated, the actual data is taken from the books and  
22 records of FPL. The books and records are kept in the regular course of  
23 our business in accordance with generally accepted accounting principles**

1 and practices, and provisions of the Uniform System of Accounts as  
2 prescribed by this Commission.

3

4 Q. What Is the actual true-up amount which FPL Is requesting for the  
5 six-month period April 1996 through September 1996?

6 A. FPL has calculated and is requesting approval of an overrecovery of  
7 \$61,308 as the actual true-up amount for the six-month period.

8

9 Q. What Is the adjusted net true-up amount which FPL Is requesting for  
10 the April 1996 through September 1996 period which Is to be carried  
11 over and refunded in the next projection period?

12 A. FPL has calculated and is requesting approval of an overrecovery of  
13 \$69,606 as the adjusted net true-up amount for the six-month period. This  
14 adjusted net true-up amount is the difference between the actual  
15 overrecovery of \$61,308 for the period April 1996 through September 1996  
16 and the estimated/actual true-up for the same period of an underrecovery  
17 of \$8,298, approved in FPSC Order No. PSC-96-1172-FOF-EI. This is  
18 shown on Form 42-1A.

19

20 Q. Is this true-up calculation consistent with the true-up methodology  
21 used for the other cost recovery clauses?

22 A. Yes, it is. The calculation of the true-up amount follows the procedures  
23 established by this Commission as set forth on Commission Schedule A-2

1           "Calculation of True-Up and Interest Provisions" for the Fuel Cost  
2           Recovery Clause.

3

4       Q.     **Are all costs listed in Forms 42-4A through 42-8A attributable to**  
5           **Environmental Compliance projects approved by the Commission?**

6       A.     Yes they are.

7

8       Q.     **How did actual expenditures for April 1996 through September 1996**  
9           **compare with FPL's estimated/actual projections as presented in**  
10          **previous testimony and exhibits?**

11      A.     Overall, costs were \$40,972 higher than estimated/actual projections. O  
12       & M Activities were \$53,461 higher and Capital Investment Projects were  
13       \$12,489 lower than estimated/actual projections. Below are variance  
14       explanations for those O & M Activities and Capital Investment Projects  
15       with variances greater than \$30,000. All variances are provided in detail  
16       on Forms 42-2A through 42-8A.

17

18       Significant variances by project were as follows:

19

20      1.     CONTINUOUS EMISSION MONITORING SYSTEMS - O & M  
21       Project expenditures were \$107,456 less than anticipated. This  
22       variance was due to fewer replacement parts and gases purchased  
23       during this period than originally anticipated. Additional underruns

1                   were a result of delays in vendor activities.

2

3                   2. MAINTENANCE OF STATIONARY ABOVE GROUND FUEL  
4                   STORAGE TANKS - O & M

5                   Project expenditures were \$133,017 less than anticipated. This  
6                   variance was due to actual cost savings realized during the  
7                   recoating of terminal tank exteriors.

8

9                   3. RCRA CORRECTIVE ACTION - O & M

10                  Project expenditures were \$294,735 more than projected. This  
11                  variance was due to schedule accelerations in order to  
12                  accommodate plant availability.

13

14                  Q. Does this conclude your testimony?

15                  A. Yes, it does.

Notes:

- (A) N/A
- (B) N/A
- (C) The gross-up factor for taxes uses 0.61425, which reflects the Federal Income Tax Rate of 35%; the monthly Equity Component of 4.8826% reflects a 12% return on equity.
- (D) Depreciation expense is calculated using the appropriate rate and account rates. Half month depreciation is calculated on additions closing to Plant In Service during the month.
- (E) Depreciation and return are calculated and recorded on a one month lag due to the timing of the month end closing. Amounts recorded and shown above apply to prior month activity.

Notes:

(A) N/A  
 (B) N/A

(C) The gross-up factor for taxes uses 0.61425, which reflects the Federal Income Tax Rate of 35%; the monthly Equity Component of 4.8826% reflects a 12% return on equity.  
 (D) Depreciation expense is calculated using the appropriate site and account rates. Half month depreciation is calculated on additions closing to Plant In Service during the month.  
 Depreciation and return are calculated and recorded on a one month lag due to the timing of the month end closing. Amounts recorded and shown above apply to prior month activity.

Notes:

- (A) N/A  
 (B) N/A

(C) The gross-up factor for taxes uses 0.61425, which reflects the Federal Income Tax Rate of 35%; the monthly Equity Component of 4.8826% reflects a 12% return on equity.  
 (D) Depreciation expense is calculated using the appropriate site and account rates. Half month depreciation is calculated on additions closing to Plant In Service during the month. Depreciation and return are calculated and recorded on a one month lag due to the timing of the month end closing. Amounts recorded and shown above apply to prior month activity.

Notes:

(A) The gross-up factor for taxes uses 0.61425, which reflects the Federal Income Tax Rate of 35%, the monthly Equity Component of 4.8826% reflects a 12% return on equity.

In accordance with FPSC Order No. PSC-94-0393-FOF-EI, FPL has recorded the sales of emissions allowances as a regulatory liability. This schedule reflects the return on that regulatory liability.
