Subject: fwd: DOCKET 970785-EI

---NOTE------7/09/97--2:31pm--I think we should not refer to this FPL study as "comprehensive;" the transmittal letter does speak of a comprehensive study, but it is to be filed later and the Co. will propose a 1-1-98 implementation for it. This study covers (six) specific (steam) generation sites, and the request is for implementation of proposed rates at 1-1-97. Sorry I didn't notice this until I started to write the preliminary implementation rec. But if we don't reviese the CASR title now, it might compound confusion in the future. If I need to answer any question or help with the CASR revision in some way, please do let me know. Thanks much.

Fwd=by:=Linda=William=7/09/97==2:35pm== Fwd to: Jeanette Bass

Ok, give me the exact title I should use, please so that we will have the right one in the system.

Fwd=by:=Jeanette=Bass=7/09/97==2:48pm== Fwd to: Linda Williams

Exact wording I would use: "Depreciation Studies by Florida Power and Light for Specific (Steam) Generation Sites"

FACE-by:=Linda=William============= Fwd to: Jeanette Bass 

Alrighty, I'll use this email to change the title by. Thanks Jeanette.
