IN RE: PETITION BY NATIONAL TELECOMMUNICATIONS, INC., FOR RESOLUTION OF DISPUTE WITH BELLSOUTH TELECOMMUNICATIONS, INC.

DOCKET NO. 47/044 - TP

FILED: AUGUST 13, 1997

PETITION.

Petitioner, National Telecommunications, Inc., a Florida corporation also referred to as National Tel, ("National Tel"), by and through its undersigned counsel, petitions the Florida Public Service commission to resolve a dispute existing between National Tel and BellSouth Telecommunications, Inc. ("BellSouth") and arising under the parties' Resale Agreement and in support thereof states:

1. Petitioner National Tel is a telecommunications carrier in Florida certified by this Commission as both an interexchange carrier and as a competitive local exchange carrier. Its principal Florida business offices are at 6363 N.W. 6th Way, Suite 1000, Ft. Lauderdale, FL 33309. Notices, pleadings, orders and other papers in this docket should be furnished to the following:

C. Everett Boyd, Jr., Esq. Ervin, Varn, Jacobs & Ervin Post Office Drawer 1170 Tallahassee, FL 32302

Mr. Mark Mansour Vice President National Telecommunications 6363 N.W. 6th Way, Suite 1000 Ft. Lauderdale, FL 33309

- BellSouth is a certificated local exchange carrier operating in Florida.
- 3. On or about May 1, 1997, National Tel and BellSouth entered into that certain Agreement Between BellSouth Telecommunications, Inc., and National Tel Regarding the Sale of BST's Telecommunications Services to National Tel For the Purposes of

10610 hours

Fractor - Sincruning

HELL & STILLED

Resale ("Resale Agreement"). A true and correct copy of the Resale Agreement is attached to this Petition as Exhibit "A". Approval of the Resale Agreement has been sought by the parties in Docket No. 970766-TP filed June 24, 1997.

- 4. National Tel has initiated the provision of local exchange service in Florida and purchases BellSouth's telecommunications services pursuant to the Resale Agreement to provide such local exchange service.
- 5. A dispute has arisen between the parties regarding the application and interpretation of the Resale Agreement. National Tel petitions the Commission to resolve that dispute pursuant to the express provisions of Paragraph XI of the Resale Agreement, which in pertinent part provides:

Except as otherwise stated in this Agreement, the parties agree that if any dispute arises as to the interpretation of any provisions of this Agreement or as to the proper interpretation of this Agreement, the parties will petition the applicable state Public Service Commission for a resolution of the dispute.

6. BellSouth, in providing services for resale to National Tel and in billing National Tel for such services, is charging or attempting to charge National Tel a "Charge for Processing Change in Service" in the amount of \$19.00 for business customers and \$10.00 for residential customers. This "Processing Change Charge" is charged to National Tel each time National Tel initiates service to a new customer under the Resale Arrangement. A true and correct copy of a May 10, 1997, statement issued by BellSouth to National Tel and reflecting such "processing change charge" is attached to this petition as Exhibit "B".

- 7. There is no basis whatsoever for such a "processing change charge" in the parties' Resale Agreement, nor in the BellSouth tariffs. National Tel has protested the "processing change charges", but BellSouth continues to assess the charges and refuses to remove the charges from National Tel's bills.
- 8. In the absence of <u>any</u> provision in the parties' Resale
 Agreement even arguably supporting the "processing change charge",
 BellSouth employees have resorted to several misguided attempts to
 create authority for the charges:
 - (1) On April 3, 1997, Chris Walker, BellSouth Manager -Billing/LCSC, wrote to National Tel and stated that "a service order charge is applied for each order issued. See Contract, Page 48, Item R."
 - a. The parties' July 19, 1996, Interconnection Agreement, which, as to the resale provisions, has been superceded by the parties' May 1, 1997, Resale Agreement, at page 48, Section 11.11.r., provides only that "BellSouth shall bill National Tel on a current basis all applicable charges and credits."
 - b. This ordinary billing provision simply says that BellSouth will bill National Tel each month for all current charges and credits. It does not authorize an entirely separate and distinct "processing change charge" when National Tel initiates service to a new customer.
 - (2) When the fallacy of any reliance on Section 11.11.4 of the parties' Interconnection Agreement was pointed out to BellSouth, it tried again. On April 23, 1997, Yvette

Hutcherson, BellSouth Billing Representative - LCSC, wrote to National Tel and sought to justify the processing change charges " . . . as appropriate charges under Page 43, section 4 [of the Interconnection Agreement] and our tariff section A4.3.1.C."

a. Section 11.11 1.4, at page 43 of the parties' Interconnection Agreement, provides in its entirety:

Resold services can only be used in the same manner as specified in BellSouth's tariff. Resold services are subject to the same terms and conditions as are specified for such services when furnished to an individual end user of BellSouth in the appropriate section of BellSouth's tariffs. Specific tariff features, e.g., a usage allowance per month, shall not be aggregated across multiple resold services. Resold services cannot be used to aggregate traffic from more than one end user customer except as specified in Section A23. of BellSouth's tariff referring to shared tenant service.

- b. The foregoing standard resale provision serves only to ensure that any conditions or limitations of particular tariffed BellSouth services [such as usage allowances and thresholds] will not be avoided by being utilized in the resale environment. National Tel cannot resell a residential line to be used as a business connection. This provision in no way authorizes a "processing change charge" when National Tel initiates service to a new customer.
- c. Section A4.3.1.C. of the BellSouth General Subscriber Service Tariff is the provision authorizing "Secondary Service charges" which "applies per customer request" at rates of \$10.00 for residential service and \$19.00 for business service. Such a secondary service charge has

nothing to do with a processing change charge when National Tel initiates service to a new customer.

- 9. BellSouth has now refined its position to reply upon Section A4.2.4.C. of its General Subscriber Service Tariff to justify the processing change charge as a Secondary Service Charge applicable as a "Transfer of Responsibility".
- 10. When viewed in its entirety, Section A4.2.4. is seen to contemplate some 16 specific instances where an existing BellSouth customer is charged a "Secondary Service Charge" for changes to his own continuing service, as (in A4.2.4.B.) when the customer "adds or rearranges" dialing or calling features such as grouping service or Ringmaster R service and (in A4.2.4.C.) when more substantial changes in the nature of the customer's service an are made such as changing from residential to business or installing a Network Interface jack. But in each of these instances, the BellSouth customer continues, uninterrupted, as a BellSouth customer.
- 11. Section A4.2.4.C.1. also provides for a "Secondary Service Charge" where there is a "Transfer of Responsibility" on the <u>customer's</u> account. This section clearly contemplates instances where another person perhaps a parent, other relative or business becomes legally responsible for payment for the customer's <u>continuing</u> service. In that instance, the continuing BellSouth customer continues to receive service from BellSouth, with a new person responsible for payment.
- 12. When a BellSouth customer terminates service as a BellSouth customer, and becomes a National Tel customer using

resold BellSouth service, the customer does <u>not</u> continue as a BellSouth customer. There is no transfer in responsibility for payment for the service. The customer terminates his relationship as a BellSouth customer and National Tel initiates service to the customer utilizing service of BellSouth under the parties' Resale Agreement.

11. The parties' Resale Agreement does not provide for a "processing change charge".

wherefore, National Tel petitions this Commission to resolve the dispute existing between National Tel and BellSouth, and enter its Order finding that the Processing Change Charge attempted by BellSouth is not authorized by or under the parties' Resale Agreement, and further directing BellSouth to issue a credit to National Tel for all such charges previously assess and National Tel, and to grant such other relief as the Commission deems fair and just.

Respectfully submitted,

- H. Such deposit may not exceed two months' estimated billing.
- The fact that a deposit has been made in no way relieves Reseller from complying with the
 Company's regulations as to advance payments and the prompt payment of bills on presentation nor does it
 constitute a waiver or modification of the regular practices of the Company providing for the discontinuance
 of service for non-payment of any sums due the Company.
- J. The Company reserves the right to increase the deposit requirements when, in its sole judgment, the conditions justify such action.
- K. In the event that Reseller defaults on its account, service to Reseller will be terminated and any deposits held will be applied to its account.
- L. In the case of a cash deposit, interest at the rate of six percent per annum shall be paid to Reseller during the continuance of the deposit. Interest on a deposit shall accrue annually and, if requested, shall be annually credited to Reseller by the accrual date.

- D. The Company will render bills each month on established bill days for each of Reseller's accounts
- E. The Company will bill Reseller, in advance, charges for all services to be provided during the ensuing billing period except charges associated with service usage, which charges will be billed in arrears. Charges will be calculated on an individual end user account level, including, if applicable, any charges for usage or usage allowances. BellSouth will also bill all charges, including but not limited to 911 and E911 charges, telecommunications relay charges, and franchise fees, to Reseller.
- F. The payment will be due by the next bill date (i.e., same date in the following month as the bill date) and is payable in immediately available funds. Payment is considered to have been made when received by the Company.

If the payment due date falls on a Sunday or on a Holiday which is observed on a Monday, the payment due date shall be the first non-Holiday day following such Sunday or Holiday. If the payment due date falls on a Saturday or on a Holiday which is observed on Tuesday, Wednesday, Thursday, or Friday, the payment due date shall be the last non-Holiday day preceding such Saturday or Holiday. If payment is not received by the payment due date, a late payment penalty, as set forth in I. following, shall apply.

- G. Upon proof of tax exempt certification from Reseller, the total amount billed to Reseller will not include any taxes due from the end user. Reseller will be solely responsible for the computation, tracking, reporting and payment of all federal, state and/or local jurisdiction taxes associated with the services resold to the end user.
- H. As the customer of record, Reseller will be responsible for, and remit to the Company, all charges applicable to its resold services for emergency services (E911 and 911) and Telecommunications Relay Service (TRS) as well as any other charges of a similar nature.
- I. If any portion of the payment is received by the Company after the payment due date as set forth preceding, or if any portion of the payment is received by the Company in funds that are not immediately available to the Company, then a late payment penalty shall be due to the Company. The late payment penalty shall be the portion of the payment not received by the payment due date times a late factor. The late factor shall be as set forth in Section A2 of the General Subscriber Service Tariff and Section B2 of the Private Line Service Tariff.
- J. Any switched access charges associated with interexchange carrier access to the resold local exchange lines will be billed by, and due to, the Company No additional charges are to be assessed to Reseller.
- K. The Company will not perform billing and collection services for Reseller as a result of the execution of this Agreement. All requests for billing services should be referred to the appropriate entity or operational group within the Company.
- L. Pursuant to 47 CFR Section 51.617, the Company will bill the charges shown below which are identical to the EUCL rates billed by BST to its end users.

		Monthly Rate
1	Residential (a) Each Individual Line or Trunk	\$3.50

M. In general, the Company will not become involved in disputes between Reseller and Reseller's end user customers over resold services. If a dispute does arise that cannot be settled without the involvement of the Company, Reseller shall contact the designated Service Center for resolution. The Company will make every effort to assist in the resolution of the dispute and will work with Reseller to resolve the matter in as timely a manner as possible. Reseller may be required to submit documentation to substantiate the claim.

VIII. Discontinuance of Service

- A. The procedures for discontinuing service to an end user are as follows:
 - Where possible, the Company will deny service to Reseller's end user on behalf of, and at the
 request of, Reseller. Upon restoration of the end user's service, restoral charges will apply and will
 be the responsibility of Reseller.
 - 2. At the request of Reseller, the Company will disconnect a Reseller end user customer.
 - 3. All requests by Reseller for denial or disconnection of an end user for nonpayment must be in writing.
 - Reseller will be made solely responsible for notifying the end user of the proposed disconnection
 of the service.
 - 5. The Company will continue to process calls made to the Annoyance Call Center and will advise Reseller when it is determined that annoyance calls are originated from one of their end user's locations. The Company shall be indemnified, defended and held harmless by Reseller and/or the end user against any claim, loss or damage arising from providing this information to Reseller. It is the responsibility of Reseller to take the corrective action necessary with its customers who make annoying calls. Failure to do so will result in the Company's disconnecting the end user's service.
- B. The procedures for discontinuing service to Reseller are as follows
 - The Company reserves the right to suspend or terminate service for nonpayment or in the event
 of prohibited, unlawful or improper use of the facilities or service, abuse of the facilities, or any
 other violation or noncompliance by Reseller of the rules and regulations of the Company's Tariffs

- 2. If payment of account is not received by the bill day in the month after the original bill day, the Company may provide written notice to Reseller, that additional applications for service will be refused and that any pending orders for service will not be completed if payment is not received by the fifteenth day following the date of the notice. If the Company does not refuse additional applications for service on the date specified in the notice, and Reseller's noncompliance continues, nothing contained herein shall preclude the Company's right to refuse additional applications for service without further notice.
- If payment of account is not received, or arrangements made, by the bill day in the second
 consecutive month, the account will be considered in default and will be subject to denial or
 disconnection, or both.
- 4. If Reseller fails to comply with the provisions of this Agreement, including any payments to be made by it on the dates and times herein specified, the Company may, on thirty days written notice to the person designated by Reseller to receive notices of noncompliance, discontinue the provision of existing services to Reseller at any time thereafter. In the case of such discontinuance, all billed charges, as well as applicable termination charges, shall become due. If the Company does not discontinue the provision of the services involved on the date specified in the thirty days notice, and Reseller's noncompliance continues, nothing contained herein shall preclude the Company's right to discontinue the provision of the services to Reseller without further notice.
- 5. If payment is not received or arrangements made for payment by the date given in the written notification, Reseller's services will be discontinued. Upon discontinuance of service on a Reseller's account, service to Reseller's end users will be denied. The Company will also reestablish service at the request of the end user or Reseller upon payment of the appropriate connection fee and subject to the Company's normal application procedures.
- If within fifteen days after an end user's service has been denied no contact has been made in reference to restoring service, the end user's service will be disconnected

IX. Liability
