DOCKET NO. 970007-EI
ORDER NO. PSC-97-1129-CFO-EI
ISSUED: September 25, 1997

ORDER GRANTING CONFIDENTIAL CLASSIFICATION TO PORTIONS OF FLORIDA
POWER AND LIGHT COMPANY'S FUEL COST RECOVERY AUDIT (DOCUMENT NOS.
06105-97 & 06623-97)

Florida Power & Light Company (FPL) requests confidential classification for certain material obtained during the Fuel Cost Recovery Audit (Audit). The information for which confidential classification is sought is contained in Document Nos. 06105-97 and 06623-97. FPL claims that this information is confidential proprietary business information as defined in Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code. FPL seeks confidential classification for the information discussed herein pursuant to Florida Statutes Sections 366.093(3)(b) (internal audit information), 366.093(3)(d) (contractual data and pricing information), 366.093(3)(e) (data the disclosure of which has the potential to cause competitive harm), and 366.093(3)(f) (employee personnel information unrelated to compensation, duties, qualifications and responsibilities). FPL asserts that the materials for which it seeks confidential classification are confidential business records and are treated as such by FPL. This information has not been disclosed. Pursuant to section 366.093, Florida Statutes, such materials are entitled to confidential treatment exempt from the mandatory disclosure provisions of the public records law.

FPL seeks confidential treatment for workpaper number 9, internal audit notes, pages 1-7 in their entirety because the referenced material is related to internal auditing controls and/or reports of internal auditors within the meaning of Section 366.093(3)(b), Florida Statutes. For the information contained in workpapers 9-2/2, Schedule of Natural Cost and Volumes, FPL seeks confidential classification for the information contained in page 1, Cost Schedule column 2; page 1, column 3, except Total Figure; page 1, columns 2 and 3 Volumes schedule; page 1, handwritten notes beneath schedules, lines 1, 2 and 4; and, page 2 entire columns 1-4. This information is entitled to confidential classification because the referenced material concerns contractual data and pricing information, the disclosure of which would impair FPL's ability and efforts to enter into similar types of contracts in the

future on favorable terms. FPL also asserts that this information is entitled to confidential classification because it relates to competitive interests of FPL and disclosure would impair FPL's competitive business within the meaning of Section 366.093(3)(e), Florida Statutes. FPL argues that all matters identified as exempt from disclosure pursuant to 366.093(3)(d) and (e), Florida Statutes, as that Section applies to workpaper 9-2/2, consist of information concerning contractual data and pricing information. Disclosure of this information would impair FPL's ability and efforts to enter into similar contracts in the future on favorable terms. The information relates to FPL's competitive interests. The disclosure of such information would impair the competitive business of FPL. This information has been and is treated and maintained as confidential by FPL.

In addition, FPL requests that the information contained in workpaper 46-5, analysis of temporary payroll costs, at page one, column 2, Social Security Numbers, be granted confidential classification in its entirety because it is related to employee information unrelated to compensation, duties, qualifications or responsibilities.

FPL requests that the information for which confidential treatment is requested not be declassified for a period of at least 18 months. FPL further requests that the information be returned to FPL in accordance with Section 366.093(4), Florida Statutes, as soon as the information is no longer necessary for the Commission to conduct its business. Because the materials include documents which are derived from internal auditing reports and controls. Related to contractual data and pricing information and FPL's competitive interests, the materials should remain confidential while at the Commission and should be returned to FPL so that FPL can maintain the confidentiality of the documents.

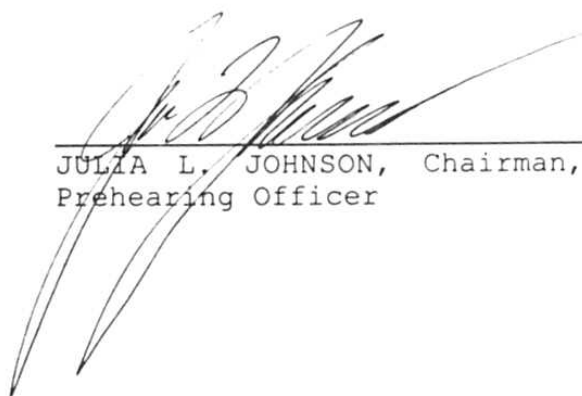

In consideration of the foregoing, it is

ORDERED by Chairman Julia L. Johnson, as Prehearing Officer, that Florida Power & Light Corporation's request for confidential classification for portions of document numbers 06105-97 and 06623-97 is granted as set forth in the body of this Order. It is further

ORDERED that this Order will be the only notification by the Commission to the parties concerning the expiration of the confidentiality time period.
