4. As required by Rule 25-30.036(3) (j), Florida Administrative Code, provide a statement describing the capacity of the existing lines, the capacity of the treatment facilities, and the design capacity of the proposed extension. Please provide information on the existing water and wastewater lines. Also, reviewing the service area expansion map it appears that the water and wastewater lines in the North 1/2 of Section 25 are separated from the rest of the service area. Does the utility intend to have a separate water and wastewater system for this area, or simply the water and wastewater lines were not drawn on the map to connected to the existing system?

5. As required by Rule 25-30.036(3) (m), Florida Administrative Code, provide a description of the types of customers anticipated such as single family. Although the application states that these customers will be commercial, office buildings and single family customers, the application does not indicate the number of these customers. Please identify the number of commercial, office buildings and single family customers the utility plans to serve from this extension.

Questions Relating to Marion Utilities, Inc.

Also, as we discussed, three descriptions of this amendment application are currently in Marion Utilities, Inc. (Marion) service area. Mr. Tim Thompson, President of Marion is planning to file an application for deletion of these areas. Please coordinate with Mr. Thompson, so there is no confusion on the exact descriptions of the areas to be deleted. Also, as I explained the recommendations for amendment (Decca's) and deletion (Marion) will be taken to the same Agenda Conference.

Reviewing the map submitted in Section 30, it appears that Marion's service area will be split in half. This would seem to make Marion's water system less reliable. Do the utility's (Decca and Marion) intend to interconnect the water system together for emergency water service? If not, why not.

Questions Relating to the Marion County/Decca Bulk Service Agreement

1. Provide an explanation on how you developed the bulk service rates, and provide a copy of the work papers used in obtaining this rate.

2. Section 3(4) of the Marion County/Decca Wholesale Agreement states that "in no event shall the County have to pay all or any portion of such a regulatory assessment fee." Section 367.145(1), Florida Statutes, states in part that "the Commission shall set by rule a regulatory assessment fee that each utility must pay once a year...the amount of the regulatory assessment fee shall not exceed 4.5 percent of the gross revenues of the utility derived from intrastate business, excluding sales for resale made to a regulated company." Because Marion County is regulated by the Commission, Decca will be required to pay regulatory assessment fees on the gross revenues generated from the bulk sales to Marion County. There is no provision for a waiver of this statute. If you have any question regarding the fee, please contact Mr. Hans Ottinot, in our Legal Division at (850) 413-6230, or Ms. Martha Golden in the Water and Wastewater Division at (850) 413-7015.

Mr. Martin S. Friedman
Page 3

Further, Section 367.091(3), Florida Statutes, states "a utility may only impose and collect those rates and charges approved by the Commission for the particular class of service involved. A change in any rate schedule may not be made without Commission approval."

A. Please explain why the utility believes it is appropriate that the County not be required to pay monthly service rates which include an allowance for regulatory assessment fees.

B. According to Composite Exhibit F of the application, the utility has proposed implementing the rates which include an allowance for regulatory assessment fees. Since the Commission may not waive payment of the regulatory assessment fees, and the utility will be required to charge the rates approved by the Commission, how does Decca propose to release the County from paying the regulatory assessment fees?

3. Proposed Water Tariff First Revised Sheet No. 19.0 included in Composite Exhibit F of the application appears to contain a typographical error. According to Sixth Revised Sheet No. 17.0 contained in the utility's current tariff, Decca's approved base facility charge for a 6" meter is \$372.03. Proposed First Revised Sheet No. 19.0 shows a rate of \$872.03. Please either provide a corrected tariff sheet or explain why you believe the 6" meter rate should be \$872.03.

4. How immediate is the need for water and wastewater service for County?

5. Which parcels will be served by Marion County, and how does this amendment relate to the bulk service agreement? If these parcels are not served by Marion County, where does the County intend to provide service?

6. Does the County plan to develop their own wells and build a wastewater treatment plant, and does the County anticipate serving the water and wastewater customers themselves in the future?

Questions Relating to the Reuse Rate

1. According to Item No. 9 on Page 3 of the utility's application, the utility is disposing of its effluent through a combination of Public Reuse Spray Irrigation and restricted access land application.

A. Please provide a copy of any written agreements that Decca has entered into for the provision of effluent reuse service.

B. Does Decca plan to request approval of a reuse rate?

1. If yes, when does the utility anticipate filing this request?

2. If no, please explain why the utility does not believe a reuse rate is appropriate?

Mr. Martin S. Friedman
Page 4
October 16, 1997

C. In past proceedings, the Commission has recognized effluent reuse as a class of service even if the utility does not assess a charge. Therefore, please submit a tariff sheet for effluent reuse with a zero rate. We have attached a copy of a tariff sheet from another utility's tariff for your reference. The example covers two pages, but you can use the same one page format that you used for the bulk rate tariff sheets you filed in the application.

Please file an original and twelve copies of the requested information no later than November 17, 1997 with the Director, Division of Records and Reporting, 2540 Shumard Oak Boulevard, Tallahassee, FL 32399.

If you have any questions please call.

Sincerely,

Richard Redemann, P.E.
