WASTEWATER TARIFF

SERVICE AVAILABILITY POLICY

N/A

The Village Lakeland Wastewater System serves only one development, a mobile home subdivision called Village Lakeland. To date, a total of 323 lots have been constructed, and 244 are occupied by mobile homes, leaving 79 constructed, unoccupied lots. The remainder of the property within the Service Area is conceptually planned for approximately 604 additional units, for a total of 927 units within the Service Area.

The 323 lots which have been constructed have roads, stormwater management, and water and sewer infrastructure included. The wastewater treatment plant and effluent disposal area are permitted for a total of 70,000 gpd, and are expected to serve the existing units and the unoccupied, constructed lots.

No expansions to the existing system are anticipated until the remainder of the property is developed. Currently, there are no plans for the development of this property by the owner, and the property is actively being marketed for sale and development. Polk County will require that the sewer system be constructed as part of the development of the remainder of the subdivision.

Currently, the utility charges a one-time tap fee of \$880.00 when a new unit is constructed and connected into the system. Thereafter, a flat monthly fee of \$10.25 is collected. No meters are set, and no deposits are required. No other fees are charged at this time.
