Re: Docket Nos. 990223-TL; 981941-TL; 990184-TL
Late Filed Exhibits 4 and 5 of Lockheed Martin IMS as
the North American Numbering Plan Administrator

Dear Director:

Pursuant to an Order by the Commission at the April 8, 1999 Technical Meeting in the above-referenced dockets, enclosed for filing are an original and 7 copies of Late Filed Exhibits 4 and 5 of Lockheed Martin IMS as the North American Numbering Plan Administrator. Please date-stamp the enclosed return copy as received and return it in the attached self-addressed stamped envelope.

If you have any questions regarding this matter, please contact the undersigned.

Respectfully submitted,

Kimberly D. Wheeler
Counsel for Lockheed Martin IMS
North American Numbering Plan Administrator

Late-filed Exhibit 4

Request: Please provide the predicted life of the 813 NPA at the time that the 941 NPA was implemented.

Response: The assignment of the 941 NPA to the geographic area split from the 813 NPA was made in 1994 by Bell Communications Research, Inc. ("Bellcore"). At the time of the assignment, GTE was the NPA relief planner. The transition of NPA assignment duties from Bellcore to Lockheed Martin IMS ("LMIMS") did not begin until November 1997, three years after the request for the 941 NPA was made. In addition, the transition of central office code administration duties from GTE to LMIMS did not begin until February 1998. Documentation as to the predicted life of the 813 NPA at the time that the 941 NPA was implemented was not transferred to LMIMS from Bellcore or GTE. Therefore, LMIMS does not have access to information to enable it to provide a response to the requested late filed exhibit.

Response provided by:
Pamela Kenworthy, NPA Relief Planner
Lockheed Martin IMS
1133 15th Street, N.W.
Washington, D.C. 20036

Late Filed Exhibit 5

Request: Provide a list of three-way geographic splits that have been assigned.

Response: To the best of my knowledge, information and believe, there have been at least seven three-way geographic splits assigned. They are as follows: (1) the 619 NPA in California; (2) the 602 NPA in Arizona; (3) the 909 NPA in California; (4) the 210 NPA in Texas; (5) the 817 NPA in Texas; (6) the 206 NPA in Washington; and (7) the 708 NPA in Illinois.

Section 9.2.2.3 of the NPA Allocation Plan And Assignment Guidelines (INC 96-0308-011, Jan. 27, 1999) (Exh. 6), states that normally one code will be assigned per request unless the codes are to be introduced simultaneously or unless implementation concerns dictate a phased-in implementation of a subsequent NPA(s) within two years of the relief date of the preceding relief code. Pursuant to Section 5.0 (h) of the NPA Code Relief Planning & Notification Guidelines (INC 97-0404-016, Jan. 27, 1999) (Exhibit PK-1 of Composite Exhibit 3), the most effective use possible of all codes serving a given area would dictate that the codes ideally exhaust at approximately the same time. In the case of area code splits, severe imbalances in exhaustion times may occur. For example, a difference of an NPA lifetime of more than 15 years is to be avoided.

Response provided by:
Pamela Kenworthy, NPA Relief Planner
