PREHEARING STATEMENT

Peggy Arvanitas, Realtor of RE/MAX First Class but representing only herself, hereby completes the pre-hearing filing with the inclusion of the issues stated from the pre-hearing questions on consecutive numeration in this above referenced docket.

A. APPEARANCES

ISSUE 1: Should code holders be required to distribute telephone numbers consecutively, beginning with the lowest assignable telephone number?

Peggy Arvanitas' position: Yes. The industry created NANPA has voluntary suggestions and guidelines for implementation of many rules and regulations. Unfortunately, they are "voluntary", "guidelines", "suggestions", and any other passive word that comes to mind for the conservation of the PUBLIC's numbers. With utilization studies showing less than 30% and less, ~~there~~ there comes a time when this self-regulation must be dismissed. Any discussion, then, that 30 year old PABX or CENTREX equipment would be incompatible for defined number conservation must be put aside for the needs of a much greater public good.

ISSUE 2: Should this docket be closed?

Peggy Arvanitas' suggestion: No.
