JUL 24 1995  
Florida Public Service Comm.  
Communications Clerk

Dear Madam Chair:

I would like to take this opportunity to thank you for the Public Service Commission's close collaboration with the Florida Legislature in rewriting Chapter 364, Florida Statutes.

The final language of CS/SB 1554 grants authority to the PSC to monitor and supervise the development of open competition in the telecommunications industry. Specifically, the role of the PSC includes reviewing basic service rate caps; establishing service quality standards; cross-subsidy enforcement; development of universal service mechanisms by January 1, 1997; resolution of interconnection disputes; anti-competitive oversight; establishing a consumer information program; and reporting to the Legislature on the status of effective competition on an exchange-by-exchange basis in order to determine the future of price caps.

Moreover, earlier in the legislative process, language was adopted that would grant broad authority to the PSC to thoroughly examine several factors in preparing a report to the Florida Legislature. Among the factors outlined in the amendment language was "any other information in the public interest". It is my opinion that the clear intent of the Legislature is to have the PSC safeguard the interests of consumers as effective competition develops.

Mrs. Susan Clark

Page 2

Equally important, however, is the Legislature's mandate to the Commission to actively encourage the development of local competition. In the long run, it is my hope and expectation that competition will provide the best chance for consumer choice, new services, and lower prices. Putting into place rules and mechanisms that enable competitors to enter and operate successfully in the market will have the greatest long term positive impact for consumers. This will require the Commission to take an aggressive approach with that end in mind.

Resolution of the key areas of interconnection, number portability, and universal service/carrier of last resort mechanisms can have a major impact on the early and long term viability of competitors. For example, the mandate for an interim universal service mechanism need not necessarily result in immediate funding by telecommunications companies, and could have a chilling effect on new entrants. Additionally, the rules governing the operations of new entrants should reflect their lack of market power and the ability of their customers to get service from the existing local companies. I note that the proposed staff rules for ALECs call for tariffs to be filed by AAVs with their ALEC certificate notices. Tariffs may not be the vehicle of choice for disseminating ALEC price information, and the statute certainly does not require them to be filed with the notice letter. The Commission should adapt to regulating in a competitive environment by asking whether each requirement it imposes is consistent with the statute's intent, and whether the requirement is absolutely necessary to achieve that intent.

It is my hope that the PSC will adopt a policy of thorough examination of all relevant factors in the best interest of the consumer in the effort to foster effective competition in the telecommunications industry.

Mrs. Susan Clark  
Page 3

I look forward to working with you, the other PSC Commissioners, and your staff as Florida moves forward. Your work and the decisions relating to how the new act is implemented will have a profound impact on Florida's citizens.

Sincerely,

I guess by this message this is
considered intervention as an
interested person in keeping with the
memo's you and Monica sent out.

=Fwd by: Michael Billmeier= 8/15/95 8:47am=
Fwd to: Don Strickland

~~~~~  
It is not intervention in the sense  
that we will send the company copies of  
discovery. Send notices, CASRs,  
Agendas, etc. The company can still  
file a petition to intervene up to 5  
days before the hearing.

As I said, they are to be interested
persons. FYI this entitles them to
orders and notices automatically only.
They may request copies of the CASR and
recommendation after these documents
are posted to CMS.

Re: Witness Testimony/Docket No. 950737

Dear Ms. Barone:

In response to the suggestion at the prehearing conference regarding the stipulation of witness testimony, AT&T Wireless Services of Florida, Inc. ("AWS") has contacted each party to this docket regarding the testimony of John Giannella. No party has expressed an objection to inserting Mr. Giannella's testimony into the record at the November 25, 1996 hearing and waiving cross-examination of Mr. Giannella. Therefore, at the hearing AWS will request that Mr. Giannella's testimony be inserted in the record and Mr. Giannella will not be present at the hearing.

Should you have any questions, please call.

CONFIRMED

====NOTE=====2/20/97==4:58pm=====

CC: Rob Vandiver, Terry Deason

Bill,

Although this is not the official notice required under APM section 5.02, I wanted to let you know as soon as possible that I had a discussion today with Jerry Johns of Sprint Corporation. Jerry extended an offer of employment. I have not yet decided whether to accept the offer. I advised Commissioner Deason yesterday that I had a meeting with Mr. Johns scheduled for today wherein I thought that he would want to discuss employment with the Company. Last Thursday night at the PURC conference in Gainesville Mr. Johns indicated that he wanted to schedule a meeting to discuss filling a vacancy in the legal department. At the time the discussion centered more around any recommendations I would have for filling that vacancy.

I intend to follow this email up with a formal memo. However, since the 5 working day deadline for reporting contacts is drawing near and because of this afternoon's developments, I wanted to be sure to notify you as quickly as possible. I am copying Rob Vandiver due to his capacity as counsel to the Commissioners.

Thanks. I acknowledge and await your memo with regret.
