Re: Petition by BellSouth Telecommunications, Inc. for approval of arbitration of an interconnection agreement with US LEC of Florida Inc. pursuant to the Telecommunications Act of 1996 (Fla. P.S.C., Docket No. 000084-TP)

Dear Kip:

This will confirm our telephone conversations of December 11, 2000, concerning the referenced arbitration by and between BellSouth Telecommunications, Inc. and US LEC of Florida Inc. ("US LEC")

As we discussed, US LEC will adopt the arbitrated interconnection agreement by and between BellSouth and Intermedia Communications, Inc. ("Intermedia") which has been deemed approved as a matter of law in Florida pursuant to 47 U.S.C. § 252(e)(4) (the "Intermedia Agreement") in the form in which it was deemed approved. At the same time, by your signature below, BellSouth agrees to amend the Intermedia Agreement to incorporate the modifications discussed by the parties and set forth on Exhibit 1 hereto, as those modifications may be further amended by agreement of the parties. The parties agree to complete, execute and file such an amendment within thirty days.

2 Please prepare an original for execution by US LEC. The agreement will expire on October 2, 2002, with the terms, conditions and pricing relating back to January 1, 2000, in accordance with the terms of the expired agreement between US LEC and BellSouth in Florida. Also, in section 19.1 of the Agreement please include Ms. Wanda Montano, Vice President, Regulatory and Industry Affairs of US LEC, and Sumner Smith, Esq., Senior Corporate Counsel

of US LEC as the individuals to receive notice on behalf of US LEC of Florida. The address for Ms. Montano and Ms. Smith is: US LEC Corp., Three Morrocroft Centre, 6801 Morrison Boulevard, Charlotte, North Carolina 28211. If there are any other specific changes to be made, please let me know and I will obtain the necessary information. On the execution of the adoption papers, the parties jointly will submit the agreement to the Florida Commission for approval.

US LEC's acceptance of the Intermedia Agreement for Florida in order to resolve the pending arbitration in Florida is without prejudice to, and does not have any impact on, the remaining arbitrations in Georgia and Tennessee. In that regard, US LEC expressly reserves the right to continue to arbitrate issues in Georgia and Tennessee which may be addressed in the Intermedia Agreement.

Thank you for your assistance in bringing this matter to a successful resolution in Florida and, in advance, for facilitating prompt preparation of the new agreement.

Very truly yours,

Michael L. Shor

MODIFICATIONS TO INTERMEDIA AGREEMENT

As discussed and agreed, section 6.1.1 of the Intermedia Agreement will be replaced with the following:

For reciprocal compensation between the Parties pursuant to this Attachment, Local Traffic is defined as any circuit switched call that is originated by an end user of one Party and terminated to an end user of the other Party within a given LATA on that other Party's network, except for those calls that are originated or terminated through switched access arrangements as established by the ruling regulatory body. Additionally, Local Traffic includes any cross boundary, voice-to-voice intrastate, interLATA or interstate, interLATA calls between specific wire centers established as a local call by the ruling regulatory body.

Section 6.2 of the Intermedia Agreement will be replaced with the following:

Pursuant to the definition of Local Traffic in this Attachment, and for the purpose of delivery of BellSouth originating traffic to US LEC, BellSouth shall pay to US LEC reciprocal compensation for Local Traffic delivered to US LEC end users physically located within the LATA in which the call originated and within which US LEC end user's NPANXX is assigned. If US LEC assigns NPANXXs to specific BellSouth rate centers within the LATA and assigns numbers from those NPANXXs to US LEC end users physically located outside of that LATA, BellSouth traffic originating from within the LATA where the NPANXXs are assigned and delivered to a US LEC customer physically located outside of such LATA, shall not be deemed Local Traffic, and no compensation from BellSouth to US LEC shall be due therefor. Further, US LEC agrees to identify such interLATA traffic to BellSouth and to compensate BellSouth for originating and transporting such interLATA traffic to US LEC at BellSouth's switched access tariff rates. If US LEC does not identify such interLATA traffic to BellSouth, to the best of BellSouth's ability BellSouth will determine which whole US LEC NPANXXs on which to charge the applicable rates for originating network access service as reflected in BellSouth's Access Service Tariff. BellSouth shall make appropriate billing adjustments if US LEC can provide sufficient information for BellSouth to determine whether or not said traffic is Local Traffic.

It also is my understanding that the definition of Local Traffic in Part B, page 20 will need to be modified to reflect the changes discussed above.
