RE: Request for Late Filed Recommendation Re: Docket No. 010001-EI - Fuel and Purchased Power Cost Recovery Clause and Generating Performance Incentive Factor

Florida Power and Light Company (FPL) filed a petition for mid-course adjustment to its fuel factors on Friday, February 2, 2001. In its petition, FPL requested the mid-course fuel adjustment issue be placed on the February 20, 2001 Agenda Conference. The utility's petition includes a proposal to increase FPL's 2001 fuel factors to a level that would allow the utility to recover \$508.3 million in increased fuel costs. Staff requested additional detailed information from FPL on February 2, and received such information on February 6. Staff is currently working to complete its analyses and recommendation. To this end, Staff requests permission to submit a late filed recommendation on this matter no later than noon on Monday, February 12, 2001. Thank you.

Melinda,

I request this request because:

1. FPSC didn't file petition until 2/2/01
2. Staff didn't have necessary information until 2/6/01
3. Recommendation due date of 2/8/01 just not realistic
4. Should not defer item because the issue is fuel factors in adjustment to cover the current price
5. Staff will provide NAR with outline of issue + recommendation so that agenda reporting process will not be held up.

Approved on behalf of the chairman.
