3.4.6 Prepaid Calling Card Services**A. General:**

Prepaid Calling Card Service is voice grade switched or IP based telecommunications service that allows an end user to place calls charged to prepaid cards issued by the company. The end user accesses the network by dialing an 800 or local dial-up number printed on the back of the card via a touch-tone telephone.

Cards will be offered to customers on a first come, first served basis. The number of cards offered by the company will be subject to technical limitations.

B. Unit Value:

Prepaid Calling Cards may be obtained from the company or authorized agent in various denominations with a per unit value which is inclusive of federal excise tax when applicable. One unit equals one minute (or fraction thereof) of domestic calling. The prices apply 24 hours per day, 7 days a week.

Unless the card is given away by the Company to its Independent Representatives as part of a promotion, the value of the long distance telephone service assigned to the card will be clearly and prominently printed on the card in dollar amounts (e.g. \$5.00, \$10.00, \$15.00, etc.) or on the individual enclosure containing the card.

The total number of minutes assigned to each card will be clearly and prominently printed on the card (e.g. 5, 10, 15, 20, 30 minutes, etc.) or on the individual enclosure containing the card.

At the time of sale, prepaid calling card customers will have information which allows them to know, or compute the price per minute of intrastate calls for the prepaid card (i.e., either the price per minute, or the price of the card and the number of minutes provided on the card, on the individual enclosure containing the card or on a voice prompt immediately prior to use of the card.

Credit allowances for failure of service will be granted in accordance with the terms set forth in this tariff.

ISSUED: June 20, 2001**EFFECTIVE:** June 21, 2001**By:**

George Johnson, President
301 Crawford Blvd., Suite 204
Boca Raton, FL 33432

3.4.6 Prepaid Calling Card Services (cont'd)**C. Exclusions:**

The following types of calls can not be completed with Prepaid Calling Card Service:

- 1.) Calls to 700,800, 900 and 950 pay per call numbers;
- 2.) Calls to Directory Assistance; and
- 3.) Operator Assisted Calls at a surcharge. (Call completion will be provided by customer service personnel at no charge to the customer if the customer encounters difficulty in completing a call.)

D. Card Depletion/Renewal and Expiration:

Prepaid Calling Cards will be reduced and depleted proportionately with customer usage. At the beginning of each call, the user will be notified as to the amount of minutes available on the card. Customers will be given a notice one minute before the card balance is depleted. When the available time is depleted, the card will be terminated.

Except in the instance of cards utilized for international calling, no card will be depleted in increments that exceed one full minute. That is, rates will be charges in increments not exceeding one full minute. If a prepaid calling card expires on a certain date, that date will be clearly and prominently indicated on the card. If the card expires a certain amount of time after activation or after first use, or after last use, that will be clearly indicated. If an expiration date is not disclosed, the card will be active as long as time remains on the card.

The end user can extend the use of a Prepaid Calling Card by charging additional units on an authorized credit card. The system will "voice prompt" the user through the process necessary to purchase these additional increments or information may be provided directly to customer service representatives. An online credit check will be done to ensure that approved credit is available.

3.4.6

Prepaid Calling Card Services (cont'd)

A prepaid card will have a clearly defined procedure for refunding the consumer's money or reissuing a new prepaid card should a prepaid card become unusable. Such refund shall be equal to the value remaining on the consumer's card. This information is available from the card provider either through its toll free customer service number, or its refund and reissue policy will be printed on the card. The term "unusable" means that the issuer has ceased providing telephone service for the card, or the Commission has determined that the inadequacy of service provided makes the card unusable.

E. Special Responsibility

The company is not responsible for theft, loss or unauthorized use of any Prepaid Calling Card of the associated Personal Identification Number (PIN). Where applicable, the reseller of Prepaid Calling Cards is solely responsible for the collection and payment of all applicable federal, state and local use, excise, sales and/or privilege taxes, duties or similar fees assessed by any government body or regulatory authority in connection with the service.

F. Card Distributors

The company will make Prepaid Calling Cards available to wholesalers or distributors whose price per card will be based on the number of cards purchased and frequency of purchases.

G. Sample Prepaid Calling Cards

If a prepaid calling card is a sample (a card with no time allocated to it), or other non-functioning card, the card will clearly indicate, either on the card or on the individual enclosure containing the card, that it is a sample with no time assigned to it.

SECTION 4 - RATES continued

4.6 Pay Telephone (Payphone) Dial-Around Surcharge

A \$0.24 surcharge shall be assessed for each call made from a pay telephone to an 800 number or using a travel card and dialing the carrier prefix in the form 101XXXX. Although collected on the customer's bill, this charge is reimbursed to pay telephone service provider.

4.7 Operator Service Rates and Charges

4.7.1 Operator Service Charges:

The per call charges stated below are in addition to the rate(s) per minute set forth in Section 4.7.2.

Operator Station Calls:	\$1.75
Person-to-Person Calls:	\$3.25

No Location Surcharge

4.7.2 Operator Service Rates Per Minute

\$0.30 per minute.

Billed in whole minute increments.

4.8 Generic Retail Cards

The following rate schedules apply to the end-user. The agent or retailer will pay the retail rate for the Prepaid Calling Card at the following rates based on the level of purchase. The retailer will be responsible to pay any applicable Federal, state and local tax that may be due upon the sale of the card. The rate will be \$0.09 per minute of usage billed in whole minute increments.

The rate per minute for usage does not include any taxes, fees or assessments that may be levied by any Federal, state or local regulatory agency on the card usage. For example, if an end-user were to make a call using the card from a pay telephone, the card will be decremented, in addition to the usage, an additional amount to pay the mandated payphone compensation.
