Tallahassee, FL 32399-0850

Ladies and/or Gentlemen:

This is in response to your notice of a prospective manager of the water and sewer system here at Sandy Creek.

A group of us here at Sandy Creek are getting together to seek legal counsel in the matter of taking you to court and having you account for giving preference to an outfit way up in Illinois to take over our utilities here at Sandy Creek, rather than giving it to our local Gulf Coast Cooperative, our friends and neighbors.

Anyone interested can surely see that service by our local corporation would be more community conscious and accommodating in the event of utility problems, than an out-of-town, purely business oriented, profit motivated entrepreneur. And anyone can also anticipate as much in rate hikes as the "traffic will bear."

We expect more from our bureaucratic representatives up there in Tallahassee in the way of domestic loyalty toward your statewide constituents.

Questionably yours,

Edward A. Walsh
