RE: BellSouth's Request for Confidential Classification of
 Exhibit B - Document No. 07557-01

Staff has reviewed BellSouth Telecommunication Inc.'s July 27, 2001, Request for Confidential Classification of Exhibit B, document number 07557-01. Staff believes that the request should be denied. When Exhibit B was filed on June 16, 2001, no party filed a notice or request for confidentiality; therefore, the document was treated as a public document. On July 6, 2001, Bellsouth filed its notice of intent to request confidential classification of Exhibit B; however, because the notice was filed approximately two weeks after the document, it was not possible to treat Exhibit B as confidential. Exhibit B is currently being treated as a public document which staff believes is appropriate.
