

VOTE SHEET

SEPTEMBER 18, 2001

RE: Docket No. 010782-TL - Petition for generic proceedings to establish expedited process for reviewing North American Plan Administration (NANPA) future denials of applications for use of additional NXX Codes by BellSouth Telecommunications, Inc.

ISSUE 1: Should the Commission establish an expedited process for reviewing NANPA's central office code denials?

RECOMMENDATION: Yes. Staff recommends that the Commission approve staff's proposed expedited process for review of NANPA code denials for any telecommunications carrier certificated by the Commission, as set forth in the analysis portion of staff's September 6, 2001 memorandum. If the Commission approves staff's recommendation, the expedited process should be posted on the Commission website; staff should be directed to administratively dispose of these petitions as set forth herein; and appropriate modifications should be made to the APM to reflect this process.

**MODIFIED** *Approved with modification that Item 4 under B be eliminated, and that staff notify company first (under Item 2, C) if any of four criteria are not met.*

COMMISSIONERS ASSIGNED: Full Commission

(Continued from previous page)

ISSUE 2: Should this docket be closed?

RECOMMENDATION: Yes. This recommendation addresses a purely procedural proposal for handling a category of petitions. Thus, no person's substantial interests will be affected by the Commission's decision from this recommendation. As such, this docket should be closed.

**APPROVED**
