Re: Approval of a Two Amendments to the Interconnection, Unbundling, Resale and Collocation Agreement Negotiated by BellSouth Telecommunications, Inc. ("BellSouth") and Network Telephone Corporation pursuant to Sections 251, 252 and 271 of the Telecommunications Act of 1996

Dear Mrs. Bayo:

Pursuant to section 252(e) of the Telecommunications Act of 1996, BellSouth and Network Telephone Corporation are submitting to the Florida Public Service Commission two amendments to their negotiated agreement for the interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to Network Telephone Corporation. The initial agreement between the companies was filed in Docket 010880-TP, on June 22, 2001, and was deemed effective by operation of law on September 25, 2001. These amendments delete in their entirety Sections 5.6.1 through 5.6.3.7 of Attachment 2 and incorporate UNE rates as ordered by the Florida Public Service Commission.

Pursuant to section 252(e) of the Act, the Commission is charged with approving or rejecting these amendments to the negotiated agreement between BellSouth and Network Telephone Corporation within 90 days of its submission. The Act provides that the Commission may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity. Both parties aver that neither of these reasons exist as to the agreement they have negotiated and therefore, as such this amendment should be deemed effective by operation of law on February 1, 2002.

Very truly yours,

Regulatory Vice President (KA)

UNBUNDLED PORT LOOP COMBINATIONS - MARKET RATES									
Market Rates shall apply where BellSouth is not required to provide unbundled local switching or switch ports per FCC and/or State Commission rules. These scenarios include:									
1. Unbundled port/loop combinations that are Not Currently Combined in all of the BellSouth states except as noted for Georgia and Tennessee.									
2. Unbundled port/loop combinations that are Currently Combined or Not Currently Combined in Zone 1 of the Top 8 MSAs in BellSouth's region for end users with 4 or more DS0 equivalent lines. The Top 8 MSAs in BellSouth's region are FL (Orlando, Ft. Lauderdale, Miami), GA (Atlanta), LA (New Orleans), NC (Greensboro-Winston Salem-Highpoint/Charlotte-Gastonia-Rock Hill), TN (Nashville).									
BellSouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section. In the interim, BellSouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true up the billing difference. The Market Rate for unbundled ports includes all available features in all states. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Core Port/Loop Combinations which have a flat rate usage charge (USOC URECU). For Not Currently Combined scenarios where Market Rates apply, the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section. Additional NRCs may apply also and are categorized accordingly.
