Re: Docket 011410-Compliance investigation of American Fiber Network, Inc. of
Section 364.183(1)

Ms. Blanco,

Attached please find our original copy of the fax we sent to the Florida Public Service Commission on July 27, 2001. This is being sent to you as proof that we did comply with the original order dated July 6, 2001.

Since we did comply with the data request prior to the stated deadline of August 17, 2001 via one of your desired methods of response via a facsimile, the above referenced docket should be ended and the investigation concluded.

Please contact me at your earliest convenience should you require any additional information. Thank you for your cooperation in this matter.

Sincerely,

Robert E. Heath

7) Yes, we do differentiate between residential and business for billing and accounting purposes.

- a) The only "enhanced" service we are providing when requested is voice mail which is being supplied by a third party.
- b) We have not experienced any significant barriers to entering the Florida local market.
- c) We have not experienced any difficulties involving agreements with ILECs.
- d) We do not anticipate our residential means of providing traffic to change. Business could possibly, but not likely. We do not expect to be a full scale facilities-based provider.
- e) We have not been assigned NXX codes.

- 8) Interexchange service.
- 9) No.
- 10) No.
- 11) We do not currently offer packages combining local and long distance. The long distance is not currently a condition of providing local service.
- 12) In other states and in Verizon/GTE areas where merger conditions have been imposed, the competition, for residential service, is real. As it is for us now, the minimal discount makes it hard to compete in the Bell South regions.
- 13) To my knowledge, we have not filed a form 477 with the FCC.
- 14) We do not offer xDSL service.
- 15) NA
