Re: Docket No. 991643-SU - Application for increase in wastewater rates in Seven Springs System in Pasco County by Aloha Utilities, Inc.

Docket No. 010168-WU - Application for limited proceeding emergency, temporary, and permanent increase in water rates to customers in Seven Springs service area in Pasco County, by Aloha Utilities, Inc.

Docket No. 010156-WU - Application for increase in service availability charges for water customers in the Seven Springs service area in Pasco County by Aloha Utilities, Inc.

Dear Mr. Wood:

This letter is in response to your letters dated January 25, and February 10, 2001, to Chairman Jacobs regarding the above-noted applications of Aloha Utilities, Inc. (Aloha or utility). Because these are pending cases, it would be improper for the Chairman to comment upon them. Therefore, the Chairman's Office forwarded your letters to the Division of Legal Services for response.

In your January 25, 2001 letter, you question a \$1.11 per thousand gallons water rate increase. The only increases authorized by Order No. PSC-01-0326-FOF-SU, issued February 6, 2001, in Docket No. 991643-SU, were for: (1) increased wastewater rates (increased gallonage charge for wastewater by \$1.09 per one thousand gallons with a ten-thousand gallon maximum per month, and increased the base facility charge for wastewater from \$8.99 to \$13.99); (2) increased reuse rates (increased from \$.25 per 1,000 gallons to \$.29 per 1,000 gallons); and (3) increased service availability charges (increased wastewater service availability charges from \$206.75 per equivalent residential connection (ERC) to \$1,650 per residential ERC). No increases for water rates were authorized in Order No. PSC-01-0326-FOF-SU.

However, the wastewater part of your utility bill will now consist of a \$13.99 base facility charge (a \$5 increase), and a gallonage charge of \$3.41 per 1,000 gallons (a \$1.09 increase per 1,000

Mr. Edward O. Wood

gallons), based on your water consumption up to a maximum of 10,000 gallons per month. Therefore, if you were to use 5,000 gallons of water, your wastewater bill would be the \$13.99 base facility charge plus five times the gallonage charge of \$3.41 (\$13.99 fixed charge plus \$17.05 usage charge). This latter amount of \$17.05 is not a water bill, but the variable portion of your wastewater bill based on the estimate that an average residential consumer will return 80 percent of its water consumption through the wastewater system. The currently approved water rate is a \$7.17 base facility charge (includes 3,000 gallons), with a charge of \$1.28 per one thousand gallons over the three thousand gallons included. This water rate was not changed in Docket No. 991643-SU.

As for the change in wastewater rates, the Commission found, after an evidentiary hearing, that the increase in wastewater rates was warranted due to improvements required by the Department of Environmental Protection (DEP). Section 367.081, Florida Statutes, requires this Commission to approve rates which will give the utility an opportunity to earn a fair rate of return on its investment required by DEP. In this wastewater rate case, the utility requested an increase of 57.29%, and the Commission determined that a 49.49% increase was warranted.

In your February 10, 2001 letter, you refer to two new dockets - Dockets Nos. 010168-WU and 010156-WU. These dockets were opened when Aloha filed, respectively, a limited proceeding for increased water rates and a proceeding for increased water service availability charges. The latter filing was required by the Commission in Order No. PSC-00-1285-FOF-WS, issued July 14, 2000, in Docket No. 960545-WS.

As you state, in Docket No. 010156-WU, Aloha is asking for increased "Impact Fees," i.e., what the Commission calls "service availability charges." In Docket No. 960545-WS, the Commission noted that Aloha had very low impact fees and directed Aloha to file a water service availability case by February 1, 2001. The objective of this water service availability case is to assure that future customers pay their fair share for the cost of growth. Therefore, Docket No. 010156-WU should benefit you and the other current customers.

As for Docket No. 010168-WU, Aloha is asking for increased water rates from its Seven Springs customers to recognize the increased costs that it will incur for having to purchase water from Pasco County. You argue that these increased costs are the result of poor management and Aloha's failure to plan ahead. That is exactly what the staff and the Commission will investigate in determining whether an increase in water rates is warranted. Only those expenses that are found to be prudent will be allowed by the Commission. If the Commission determines that the utility could have avoided some or all of these increased costs through proper management, then it will not allow those costs which it deems to be imprudent.

Pending the determination of the appropriate final water rates, the utility has requested an emergency, temporary increase in water rates. If the Commission does approve emergency, temporary rates, then they will be subject to refund and protected by an appropriate security. Also, prior to final water rates being set, the Commission will give the customers and/or the Office of

Mr. Edward O. Wood

February 20, 2001

Public Counsel an opportunity to request a hearing. As always, if a hearing is scheduled, the hearing will be in the New Port Richey area, and the customers will have the opportunity to testify.

Re: Docket No. 010168-WU - Application for limited proceeding emergency, temporary, and permanent increase in water rates to customers in Seven Springs service area in Pasco County, by Aloha Utilities, Inc.

Dear Mr. Wood:

I am writing in response to your letter dated February 24, 2001, whereby, on behalf of the Wyndtree Phase III, Villages 5 & 7 Homeowners Association (Wyndtree), you request that they be made "a Party of Record" in the above-noted docket, i.e., be given intervenor status. The Commission encourages participation by homeowners associations. However, for actions by the board of directors, Section 607.824, Florida Statutes, requires a majority vote of a quorum of the board. Also, the Commission has accepted a petition for intervention signed by an officer of the corporation.

Therefore, before I process your request, please provide me with either a resolution approved by a quorum of the board or a letter signed by an officer (either the President Robert Carlson, or the Secretary/Treasurer Anthony D. Carbone) requesting intervention in Docket No. 010168-WU. Pursuant to Rule 25-22.039, Florida Administrative Code (rule governing intervention), the letter or resolution should set forth the full name, address, and telephone number of the petitioner, the full name, address, and telephone number of the petitioner's representative, that the petitioner is a homeowners association consisting of ninety-six members who are customers of Aloha Utilities, Inc. in Pasco County, who will be substantially affected by Aloha's proposed water rate increase. If you are submitting a letter signed by an officer, the letter should state that the officer has the authority to act on behalf of the members.

Also, as I have previously advised you, you may request intervention individually in your own right as a customer. In the past, you have stated that you do not wish to be made a party.

Based on the above, I will await your response before processing your request. If you have any questions, or if I can be of any further assistance, please call me at (850) 413-6234. Also, although the

Mr. Edward Wood, Director
