Re: Docket No. 011652-TI

Dear Mr. Houston:

On December 17, 2001, this Commission received your company's application for certification as an interexchange telecommunications service provider. A review of the application revealed that the tariff was not in compliance with Rule 25-24.485, Florida Administrative Code. Per your instructions, your company liaison for the tariff was contacted but as of this date no corrections have been received.

On May 8, 2002, I tried to reach you at the telephone number listed in your application, but there was no answer and no way to leave a message. I tried to send you a fax but your machine did not pick-up. An e-mail was sent to you that day but no reply has been received. Today I called you at the number listed in the application and received a recording that the number was no longer in service.

When all the necessary information is received we will continue processing your application. However, staff cannot recommend certification at this time. If we do not hear from you by June 26, 2002, we will assume that you no longer want to pursue certification and we will recommend that the certificate be denied, the application fee be forfeited, and the docket be closed. You can contact me at 850-413-6127.
