Re: New classification of service for Miles Grant Water and Sewer  
Company

Dear Ms. Bayo,

Enclosed you will find the information requested in the August 9, 2002  
letter from the Public Service Commission.

Bulk irrigation class of service was first provided in December of 1988.  
The service is provided to one commercial customer, Miles Grant Country  
Club. Being that it has been nearly 14 years since the service was first  
provided, we are under the assumption that Utilities, Inc. intended to ask  
for approval for the new classification of service, but unfortunately never  
followed through with it. The enclosed letters dated back to 1988 will  
hopefully explain our understanding and our agreement with Miles Grant  
Country Club.

Also enclosed is a copy of the new tariff page and a revised index page.

If you have any questions, don't hesitate to call me at (847)-498-6440.

Respectfully submitted,

*Kirsten E. Weeks*

FPSC-COMMISSION CLERK

5101 S.E. MILES GRANT ROAD • STUART, FLORIDA 34997 • TELEPHONE 407/286-2220

August 14, 1989

Mr. David Demaree  
Director of Operations  
Utilities, Incorporated  
2335 Sanders Road  
Northbrook, Illinois 60062

Dear Mr. Demaree:

We would like to formalize our agreement with your company to provide supplemental water to Miles Grant Country Club. This water will enable us to maintain our ponds at the legally set limit of 6" above mean sea level (?) and still properly irrigate our golf course. This additional water will only be required during the summer season, since full occupancy during the winter months will provide sufficient effluent water to maintain proper pond levels.

At any time if Utilities Inc. is concerned as to their well volumes or possible salt water intrusion, we will immediately upon notification stop withdrawing this supplemental water.

We understand that the rate per thousand gallons will be a mutually agreed upon rate.

We wish to express our appreciation of your understanding and cooperation in this matter.

Very truly yours,

Carl Butcher  
President

Utilities Inc.  
Mr. Patrick J. O'Brien  
2335 Sanders Road  
Northbrook, IL 60062

Dear Mr. O'Brien:

Referencing your meeting of June 21, 1988 with Messrs. Wallower, Mazuk and Rasmusson, I would like to verify the rate agreed upon at that luncheon meeting to tie into your line as required by the D.E.R. to supply water to the 8th fairway. According to my understanding, the amount is 50¢/1,000 gallons.

Please advise to the correctness of this rate.

Sincerely,

*Carlton H. Burcher*  
Carlton H. Burcher

EFFECTIVE: For service rendered on or after November 1, 2002.

TYPE OF FILING: New classification of service.

Lawrence N. Schumacher  
President

Docket No.  
Order No.  
Issued

#### NOTICE TO CUSTOMERS

Notice is hereby given that pursuant to Order No. PSC-002-\_\_\_\_, issued \_\_\_\_\_, the Florida Public Service Commission approved an irrigation service classification addition to our current tariff. Your account qualifies as an irrigation service account; therefore, the new tariff rates will be applied to your water bill as of \_\_\_\_\_. Please know these new tariff rates are the same rates you are currently paying, therefore, no change in your rates will be made.

The approved irrigation service classification will become final unless a person whose interests are substantially affected files a petition in protest of Order No. \_\_\_\_\_, requesting a formal proceeding pursuant to Rule 28-106.201, Florida Administrative Code during the 21 day protest period following the issuance of that Order.

If you have any questions regarding this new service classification, please contact your utility office. Please have your account number handy for quick reference.

Miles Grant  
Rates*

August 30, 1988

Mr. Carlton H. Burcher  
Vice President  
Miles Grant Country Club  
5101 S.E. Miles Grant Road  
Stuart, Florida 34997

Dear Mr. Burcher:

Thank you for your letter of August 25, 1988 to Mr. O'Brien. We confirm your understanding that the rate for supplying water to the 8th fairway will be \$.50/1,000 gallons with the following conditions and understandings:

- 1) Water taken from our system at this location will be used only for watering the 8th fairway.
- 2) Recognizing that we could not commit to a price for an indefinite period of time, we will extend this commitment until the date of our next general rate increase. At that time we will review the rate in conjunction with our other rates.
- 3) If a meter larger than 2" is required, we will ask you to pay the incremental cost.
- 4) Recognizing that the county may, in the future, pursue purchasing the system, this commitment will be binding on us only as long as we own the system.
- 5) If, for any reason, we have a shortage of water to deliver to the residents of Miles Grant, we will ask that the sprinkling of the 8th fairway be curtailed until we can restore our pumping capacity to normal.

We are interested in working with you and the country club in this matter in the spirit of cooperation. If you have a question on any of these conditions, please feel free to call me collect.

Sincerely,

David H. Demaree  
Vice President, Operations
