TO: FL. P.S.C.
RE: Charlotte County # 020745

As a resident of San Pedro Is.
I object to the above ref. project.

why: In the early to mid 1990's,
Char. Co. "went into the utility business"
They created a master plan to
provide the residents with wastewater
treatment.

They have been constructing new
services and acquiring existing private
utility companies.

I urge you to let them continue
their plan by not approving the ref. project.
Let our local government provide
for the health, safety & welfare of its
residents - not a for profit, private
business.

Further - we are afraid of "paying
twice" for a private plant. This
happened in one of the first purchases
of a private utility by C.C.
1st - with the initial connection

fees → monthly billing - 2nd - when
CC. purchased the plant w/ taxpayer
money.

Private ~~or~~ businesses are profit
driven with development in mind -
owners loose interest when development
is over.

Let government ~~provide~~ provide
this service for us (as they will be in
business forever). Let CC continue w/
their plan.
